BROOKLINE TOWN RECORDS

FOR THE MUNICIPAL YEAR ENDING DECEMBER 31, 1911.

ANNUAL MEETING, MARCH 2, 1911.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are here by required to notify and warn the inhabitants of the town of Brookline qualified to vote in elections to meet at the Town Hall, in said town, on Thursday, the second day of March, 1911, at six o'clock in the forenoon, for the following purposes, to wit:—

First, To choose a Moderator.

Second, To choose by ballot the following town officers: One Town Clerk, for one year; five Selectmen, for one year; one Collector of Taxes, for one year; one Treasurer, for one year; one Assessor, for three years; three members of the School Committee, for three years; four Trustees of the Public Library, for three years; two Trustes of Walnut Hills Cemetery, for three years; one Park Commissioner, for three years; one member of the Water Board, for three years; three Auditors, for one year; three members of the Committee on Planting Trees, for one year; two Fence Viewers, for one year; five Constables, for one year; also, upon the same ballot, to vote, "Yes" or "No" upon the following question: "Shall licenses be granted for the sale of intoxicating liquors in this town?" For these purposes the polls will be opened at a quarter after six o'clock in the forenoon and may be closed at a quarter after five in the afternoon. Also to choose or appoint all the other usual town officers in such manner as the town may determine.

Third, To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of taxes.

Fourth, To act upon the appropriations asked for or proposed in the annual town reports by the Selectmen or by any town officers or committees.

Fifth, To vote that on all taxes and sewer assessments remaining unpaid after a certain time, interest shall be paid at a specified rate not exceeding six per cent. per annum.

Sixth, To appropriate fifteen thousand dollars ($15,000.00) for the extension of the filtering galleries and driven-well system of the water works and to authorize the Treasurer to borrow the same.

Seventh, To appropriate six thousand two hundred and fifty dollars ($6,250.00) to be expended by the School Committee for furnishing the Michael Driscoll school building.

Eighth, To appropriate twenty-three thousand dollars ($23,000.00) for grading and preparing the grounds connected with the Michael Driscoll School on Westbourne terrace and to authorize the Treasurer to borrow the same.

Ninth, To appropriate six thousand dollars ($6,000.00) for the erection of a band-stand on Cypress Street Playground.

Tenth, To appropriate two thousand dollars ($2,000.00) for the erection of a portion of a stone wall surrounding Walnut Hills Cemetery.

Eleventh, To provide for the appointment of a committee to consider the question whether the town should erect a Soldiers' Monument, and if so, to further consider the question of design and site and all other matters in connection therewith, and to report their recommendations to the town.

Twelve, To authorize the Board of Health to make a contract for a term of years for the disposal of garbage.

Thirteenth, To hear and act upon the report of the committee appointed under the tenth article in the warrant for the town meeting of June 1, 1910, upon the question of establishing building limits in the town and changing the Building Law.

Fourteenth, To amend the Building Law in accordance with the recommendations in the report of the committee presented under the preceding article.

Fifteenth, To see if the town will amend the town By-Laws by making an addition thereto, in order to provide for the establishment of an Advisory Committee on Municipal Improvements and its duties.

Sixteenth, To amend Article XIV of the town By-Laws so as to provide for a reduction in the number of the committee on the Bathhouse and Gymnasium.

Seventeenth, To see if the town will amend Article VII of the town By-Laws by adding the following section: "No moneys of the town shall be deposited in any bank or institution of which the Town Treasurer is a director or officer."

Eighteenth, To make an additional appropriation of seven thousand dollars ($7,000.00) for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner and to extend the same in both directions on Harvard street.

Nineteenth. To accept and allow Dummer street from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at the special town meeting held on December 28, 1910, under the Fifteenth Article in the warrant, the subject-matter of which was referred to this annual meeting.

Twentieth, To accept and allow the alteration and extension of White place from that portion of the same accepted by the town January 2, 1885, to Davis avenue as laid out by the Selectmen and reported to the town at this meeting, together with the discontinuance of a portion of Kerrigan place, and to appropriate eight thousand six hundred and eighty-six dollars ($8,686.00) for land damages and the cost of construction.

Twenty-first, To accept and allow Walnut Path from Boylston street across the railroad location to the proposed extension of White place as laid out by the Selectmen and reported to the town at this meeting, and to appropriate four thousand two hundred and seventy-five dollars ($4,275.00) for land damages and the cost of construction.

Twenty-second. To accept and allow the alteration and widening of Cypress street from Washington street to Searle avenue as laid out by the Selectmen and reported to the town at this meeting and to appropriate four thousand one hundred and seventy-five dollars ($4,175.00) for land damages and the cost of construction.

Twenty-third, To accept and allow Hillside road as laid out by the Selectmen and reported to the town at this meeting.

Twenty-fourth, To accept and allow the building lines on both sides of Hillside road as laid out and established by the Selectmen and reported to the town at this meeting.

Twenty-fifth, To authorize the Selectmen to release, for a nominal consideration to the present owner of the land, a right of way belonging to the town for a surface-water drain running from Clark road at a point nearly opposite Cotswold road diagonally across the said land to a point at or near the location of the Boston and Albany Railroad.

Twenty-sixth, To hear and act upon reports of town officers and committees.

Twenty-seventh, To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this sixth day of February, in the year of our Lord one thousand nine hundred and eleven.

PHILIP S. PARKER,
JOHN A. CURTIN,
EVERETT M. BOWKER,
GEORGE S. BALDWIN,
HORACE JAMES,
Selectmen of Brookline.

Norfolk, ss. Brookline, Mass., February 21st, 1911.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done seven days at least before said day of meeting.

WILLARD Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Thursday, the second day of March, in the year of our Lord one thousand nine hundred and eleven, and were called to order at six o'clock in the morning by the Town Clerk, who read the warrant calling the meeting, and the return thereon of the constable who served the same upon the inhabitants.

First Article,—"To choose a Moderator."

On motion of Robert A. Smiley,—

Voted, That the meeting proceed to ballot for Moderator, and that the polls be kept open one minute.

Robert A. Smiley and Francis F. Muldowney, who had been appointed Ballot Clerks by the Selectmen, were sworn by the Town Clerk and put in charge of the check-list and ballot-box used in the election of Moderator.

The Town Clerk at seven minutes after six o'clock declared the polls open for the reception of votes for Moderator. At eight minutes after six o'clock the polls were declared closed. The votes cast were sorted and counted, and declaration made by the Town Clerk as follows:—

Whole number of votes, five (5). Fred H. Williams had five (5), and was declared elected Moderator.

The Assistant Ballot Clerks and Tellers who had been appointed by the Selectmen and Moderator were sworn and assigned to their duties as follows:—

Assistant Ballot Clerks.

Clarence E. Fuller, Murray T. Edgar, Edwin A. Robart, D. Edward Beede, George W. Preé, Oliver H. Delano, Robert B. Preé, Alex. S. Arthur, Leo R. Armstrong, Michael J. McGrath, Dennis T. Harrington, James J. Lynch, John J. Harrington, Edward A. Cahill, William F. Foley, Francis T. Donahue, Thomas B. McCaffery, Martin J. Cochrane.

Tellers.

Alfred E. Kenrick, Gabriel C. Morison, Alfred H. Clinkard, James J. Fegan, Grant Wm. Nowell, John W. Shields, Jesse S. Wiley, James M. Driscoll, William J. O'Hearn, John T. Joyce, James V. Duffy, Fred T. O'Day.

On motion of Edward W. Baker,—

Voted, That the third article in the warrant be taken up for consideration immediately after the conclusion of business under the second article.

On motion of Edward W. Baker,—

Voted, That all articles in the warrant after the third be referred to the committee appointed by the Moderator under authority of the vote passed at the town meeting of December 28th, 1910, under the twelfth article in the warrant for that meeting, this committee to report in print with appropriate

forms of votes, at the adjournment of this meeting; the report of the committee to be distributed as the warrants for town meetings are usually distributed.

The Committee referred to in the foregoing vote had been appointed by the Moderator of the town meeting of December 28th, 1910, to consist of the following:—

Moderator

FRED H. WILLIAMS

Selectmen

Philip S. Parker, John A. Curtin,
Horace James, George S. Baldwin,
Everett M. Bowker.

Appointed by Moderator

Nathan L. Amster,
Harvey H. Baker,
Albion F. Bemis,
Timothy J. Burke
James M. Codman, Jr.,
J. Randolph Coolidge, Jr.
William Craig,
Harry W. Cumner,
Daniel J. Daley,
Ernest B. Dane,
Charles L. Edgar
Frederick P. Fish,
Desmond FitzGerald,
Emery B. Gibbs,
Franklin W. Hobbs,
Alfred E. Kenrick
Edward C. Mills,
James S. Murphy,
Patrick O'Loughlin
Charles S. Sergeant,
Michael D. Mealey,
Frederick E. Palmer,
George S. Parker,
Charles F. Perkins,
Frederick H. Perkins,
Ralph A. Stewart,
Henry Ware,
Leslie C. Wead,
Moses Williams,
John G. Wright.

Second Article,—"To choose by ballot the following Town Officers: One Town Clerk, for one year; five Selectmen, for one year; one Collector of Taxes, for one year; one Treasurer, for one year; one Assessor, for three years; three members of the School Committee, for three years; four Trustees of the Public Library, for three years; two Trustees of Walnut Hills Cemetery, for three years; one Park Commissioner, for three years; one member of the Water Board, for three years; three Auditors, for one year; three members of the Committee on Planting Trees, for one year; two Fence Viewers, for one year; five Constables, for one year; also, upon the same ballot, to vote 'Yes' or 'No' upon the following question: 'Shall licenses be granted for the sale of intoxicating liquors in this town?' For these purposes the polls will be opened at a quarter

after six o'clock in the forenoon and may be closed at a quarter after five in the afternoon. Also to choose or appoint all the other usual town officers in such manner as the town may determine."

The Town Hall had been fitted up as a polling place, a space railed off, and eighty compartments or shelves provided for the convenience of voters in examining and marking their ballots, and each compartment was supplied with cards of instruction and other necessary facilities. Cards of instruction and specimen ballots were also posted in different parts of the building outside of the rail; all in accordance with the laws of the Commonwealth of Massachusetts governing elections.

The arrangement of the railing was such that four entrances were provided for voters to enter the space inside the rail for the purpose of marking their ballots, with four ballot-boxes to correspond, one for each entrance. The Ballot Clerks were provided with duplicate sets of the list of registered voters of the town, one for men voters and one for women voters, as prepared by the Registrars of Voters for use at this election. These alphabetical lists of voters were divided to correspond with the four entrances and four ballot-boxes as follows:

Entrance No. 1—A to D inclusive. Entrance No. 3—L to P inclusive.
Entrance No. 2—E to K inclusive. Entrance No. 4—Q to Z inclusive.

The Moderator appointed Police Sergeant James Gleason to have charge of the ballot-boxes and the space inside of the railing.

The Town Clerk delivered to the Moderator, Fred H. Williams, three sealed packages containing ballots, and took his receipt for the same;—such packages were marked "2500 Official Ballots, Town of Brookline, March 2, 1911," "2523 Official Ballots, Town of Brookline, March 2, 1911," and "620 Ballots for Women Only, Town of Brookline, March 2, 1911."

The election officers stationed at the four entrances were supplied with the lists of voters, and with the official ballots taken from the packages received from the Town Clerk, with instructions to deliver such ballots only to voters whose names were found and checked on the lists.

The four ballot-boxes—as inspected and approved by the Secretary of the Commonwealth to be used at elections—were then opened in public meeting, examined by the Moderator and other election officers, and found to be empty. The register of each box was set at zero (0), the boxes locked, and the keys delivered to Police Sergeant James Gleason, appointed in charge of the ballot-boxes.

At fifteen minutes after six o'clock the polls were declared open for the reception of votes for town officers, and were kept open until fifteen minutes after five o'clock in the afternoon, when, after due notice, they were declared closed.

By consent of the Moderator and Town Clerk, the ballot-boxes were opened several times during the day for the purpose of removing the ballots to be counted.

At the close of the polls the registers of the ballot-boxes read as follows: Ballot-box No. 1, the "Ideal," registered 786; ballot-box No. 2, the "Ideal," registered 707; ballot-box No. 3, the "Ideal," registered 760; ballot-box No. 4, the "United States," registered 670.

The total number of ballots deposited was thus indicated to be as follows:—

Ballot-box No. 1	786
Ballot-box No. 2	707
Ballot-box No. 3	760
Ballot-box No. 4	670
Total	2,923

The names checked on the voting lists by the Ballot Clerks at the entrances to the polling place, and by the checkers at the ballot-boxes, were counted up, compared, and found to agree, and the total number of names so checked was twenty-nine hundred and twenty-three (2923), of which two hundred and fourteen were the names of women, and two thousand seven hundred and nine (2709) were the names of men, as follows:—

Entrance No. 1.	A to D.	Men	726
		Women	60
			786

Entrance No. 2.	E to K.	Men	657	
		Women	50	
				707
Entrance No. 3.	L to P.	Men	716	
		Women	44	
				760
Entrance No. 4.	Q to Z.	Men	610	
		Women	60	
				670
Total names checked				2,923

The number of names checked agreed with the number previously stated as indicated by the ballot-boxes.

The Moderator, Town Clerk and Tellers then canvassed the ballots, and the whole number was twenty-nine hundred and twenty-three (2923), two hundred and fourteen (214) of which were votes of women for School Committee only, which were sorted, counted, and declaration thereof made in open town meeting, at ten minutes before six o'clock in the afternoon, as follows:—

Town Clerk:

Edward W. Baker had sixteen hundred and eleven (1611) and was declared elected. (Sworn by the Moderator.)
Blanks, ten hundred and ninety-six (1096).
Scattering, two (2).

Selectmen:

Everett M. Bowker had seventeen hundred and eight (1708).
John A. Curtin had sixteen hundred and fourteen (1614).
Walter J. Cusick had fifteen hundred and seventeen (1517).
Horace James had fifteen hundred and fifty-nine (1559).
Philip S. Parker had fourteen hundred and sixty-seven (1467).
And they were declared elected.
George S. Baldwin had fourteen hundred and five (1405).
Patrick J. Cantwell had three hundred and forty-eight (348).
Scattering, one (1).
Blanks, thirty-nine hundred and twenty-four (3924).

Treasurer:

George H. Worthley had eighteen hundred and four (1804), and was declared elected.
Scattering, one (3).
Blanks, nine hundred and four (904).

Collector:

George H. Worthley had seventeen hundred and three (1703) and was declared elected.

Scattering, one (1).
Blanks, ten hundred and five (1005).

Auditors:

Paul M. Hubbard had sixteen hundred and fifteen (1615).
Francis W. Muldowney had nineteen hundred and twenty-three (1923.)
Charles F. Read had sixteen hundred and nineteen (1619), and they were declared elected.

Scattering, one (1).
Blanks, twenty-nine hundred and sixty-nine (2969).

Assessor for Three Years:

Charles H. Stearns had eighteen hundred and twenty-three (1823), and was declared elected.
Scattering, three (3).
Blanks, eight hundred and ninety-three (893).

School Committee for Three Years:

Walter Channing had eighteen hundred and ninety (1890).
Arthur A. Cushing had nineteen hundred and ninety-three (1993).
William H. White had sixteen hundred and sixty-one (1661).
And they were declared elected.

Frederick L. Hayes had ten hundred and thirty (1030).
Scattering, one (1).
Blanks, twenty-one hundred and ninety-four (2194).

Member of Water Board for Three Years:

George H. Francis had seventeen hundred and seventeen (1717), and was declared elected.
Scattering, one (1).
Blanks, nine hundred and eleven (911).

Park Commissioner for Three Years:

Albert L. Lincoln had seventeen hundred and seventy-five (1775), and was declared elected.
Scattering, two (2).
Blanks, nine hundred and thirty-two (932).

Trustees of Public Library for Three Years:

Daniel Dulany Addison had fifteen hundred and eighty-six (1586).
James M. Codman had sixteen hundred and ninety-seven (1697).

Prentiss Cummings had sixteen hundred and twenty-two (1622).
Leslie C. Wead had fifteen hundred and ninety-two (1592).
And they were declared elected.

Scattering, one (1).
Blanks, forty-three hundred and thirty-eight (4338).

Trustees Walnut Hills Cemetery for Three Years:

Ernest B. Dane had sixteen hundred and fifty-two (1652).
Charles S. Sargent had sixteen hundred and thirty-three (1633).
And they were declared elected.

Blanks, twenty-one hundred and thirty-three (2133).

Committee on Planting Trees:

Emma G. Cummings had fifteen hundred and ninety-four (1594).
Ernest B. Dane had sixteen hundred and five (1605).
D. Blakely Hoar had sixteen hundred and twenty-eight (1628).
And they were declared elected.

Blanks, thirty-three hundred (3300).

Fence Viewers:

George W. Delano had eighteen hundred and fifty-two (1852).
Willard Y. Gross had sixteen hundred and twenty-three (1623).
And they were declared elected.

Scattering, one (1).
Blanks, nineteen hundred and forty-two (1942).

Constables:

Frank M. Fay had seventeen hundred and thirty (1730).
John E. Griffin had sixteen hundred and fifty-four (1654).
Willard Y. Gross had fifteen hundred and ninety-four (1594).
Richard L. Shedd had fifteen hundred and fifty-one (1551).
Edward D. Tucker had fourteen hundred and eighty-four (1484).
And they were declared elected.

Blanks, fifty-five hundred and twenty-nine (5529).

On the question, "Shall Licenses be granted for the sale of Intoxicating Liquors in this Town?"

"Yes," eight hundred and ten (810).
"No," fourteen hundred and fifty-one (1451).
Blanks, four hundred and forty-eight (448).

And declaration was made that the town had voted not to grant licenses for the sale of intoxicating liquors.

In counting the ballots the blank forms approved by the Secretary of the Commonwealth were used by the Tellers.

After the declaration of the result of the balloting the meeting came to order and the following business was transacted:—

Voted, That when this meeting adjourns it be to meet in this place on Wednesday, the fifteenth day of March, 1911, at half past seven o'clock in the evening.

Voted, That the Board of Selectmen elected, with Miss Martha W. Edgerly and Miss Sarah B. Train, be the Overseers of the Poor for the ensuing year.

The following town officers were nominated and elected by the meeting:—

Field Drivers:
Jerry Bond, Arthur G. Wood.

Pound Keeper:
Jerry Bond.

Voted, That the number of Measurers of Wood and Bark be one, to be appointed by the Selectmen.

Third Article,—"To see if the town will authorize the Treasurer with the approval of the Selectmen, to borrow money in anticipation of taxes."

On motion of Philip S. Parker,—

Voted, That the Town Treasurer is hereby authorized, when so directed by the Selectmen, to borrow from time to time a sum or sums in the aggregate amounting to six hundred thousand dollars in anticipation of the taxes of the present municipal year. Notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, payable within one year from the time the loan is made, with interest thereon at a rate not exceeding six per cent. per annum. Any debt incurred by the town under this vote shall be paid from the taxes of the present municipal year.

The check-lists used at the entrances to the polling place and at the ballot-boxes, together with the ballots cast and the tally-sheets used by the Tellers, were sealed up in open town meeting and the package endorsed by the Moderator and Town Clerk.

The ballots unused were also sealed up in a separate package and endorsed in the same way, and both packages were delivered into the custody of the Town Clerk.

The meeting was then declared adjourned at six minutes after six o'clock.

Attest: EDWARD W. BAKER, *Town Clerk.*

In conformity with the laws of this Commonwealth, the Town Clerk, under date of March 3, 1911, made out his warrant and delivered it to Constable Richard L. Shedd, requiring him, within three days from the date thereof, to summon all officers elected and not qualified, to appear before the Town Clerk within seven days after the service of such summons upon such officers to be qualified for their several offices; to be sworn where an oath is required, or to signify in writing their refusal of the same; also, to signify in writing their acceptance or refusal of the office to which they had been elected, where an oath is not required.

Attest: EDWARD W. BAKER, *Town Clerk.*

Commonwealth of Massachusetts.

Norfolk, ss.

Then personally appeared the persons below named, and were sworn to the faithful discharge of the duties of their office, at the dates set against their names, or signified in writing their acceptance of the office to which they had been chosen, viz:—

ADJOURNED ANNUAL MEETING, MARCH 15, 1911.

Pursuant to adjournment, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Wednesday, the fifteenth day of March, in the year of our Lord one thousand nine hundred and eleven, and were called to order at half past seven o'clock in the evening by the Moderator, Fred H. Williams.

Fourth Article,—"To act upon the appropriations asked for or proposed in the annual town reports by the Selectmen or by any town officers or committees."

The regular annual appropriations asked for or proposed in the annual report of the Selectmen, or by other town officers or committees, were taken up and considered separately, voted upon in detail item by item for the purposes specified, and then voted upon and passed as a whole, amounting to $1,671,676.24, according to the following annual appropriation vote.

Item 14, Planting and Preserving Trees, $7,500.00, was voted unanimously and the Moderator declared the appropriation made by a vote of more than two-thirds of those present and voting thereon.

ANNUAL APPROPRIATION VOTE.

Voted, That the sum of $1,671,676.24 is hereby appropriated for the current annual expenses, for the purposes and subject to the limitations specified in detail as follows:—

A. ($240,671.00.)

For maintaining the Public Schools, $240,671.00, specifically appropriated as follows:—

1.	High School	$49,142 00	
2.	Grammar and Primary Schools	120,927 00	
3.	Kindergartens	19,305 00	
4.	Manual Training	24,650 00	
5.	General School Expenses	21,322 00	
6.	Pensions	1,325 00	
7.	Evening Schools	2,000 00	
8.	Vacation Schools	2,000 00	
	To be paid from the Treasury upon the orders of the School Committee.		$240,671 00

B. ($25,800.00.)

For maintaining the Public Library, $25,800.00:—

9.	Public Library	$25,800 00	
	To be paid from the Treasury upon the orders of the Trustees of the Public Library.		$25,800 00

C. ($64,000.00.)

For the maintenance of the Water Works and for the ordinary extensions of the same, including the construction of street-mains, $64,000.00, specifically appropriated as follows:—

10.	Maintenance of Water Works	$39,000 00	
	The salaries of the Water Board shall be at the rate of $500.00 each, of the Registrar at the rate of $2,000.00, of the Superintendent at the rate of $3,000.00 per annum.		
11.	Extension of Water Works	25,000 00	
	To be paid from the Treasury upon the orders of the Water Board.		$64,000 00

D. ($60,600.00.)

For the care and maintenance and for the construction and extension of Parks and Public Grounds; for planting and preserving Trees, and for the improvement and care of Cemeteries, $60,600.00, specifically appropriated as follows:—

12.	Parks and Public Grounds Maintenance	$20,000 00	
13.	Parks and Public Grounds Construction and extension	10,100 00	
	To be paid from the Treasury upon the orders of the Park Commissioners.		
14.	Planting and preserving trees	7,500 00	
15.	Gipsy and Browntail Moth Extermination	22,800 00	
	To be paid from the Treasury upon the orders of the Selectmen upon the recommendation of the Committee on Planting and Preserving Tress.		
16.	Care of Brookline Cemetery, Walnut street	200 00	
	To be paid from the Treasury upon the orders of the Trustees of Walnut Hills Cemetery.		$60,600 00

E. ($229,000.00.)

For maintaining highways, laying dust, constructing and repairing sidewalks, and lighting streets and ways, $299,218.00, specifically appropriated as follows:—

17.	Highways	$115,000 00	
	The salary of the Superintendent of Streets shall be at the rate of $3,000 per annum.		
18.	Sidewalks	19,000 00	
19.	Laying Dust	40,000 00	
20.	Lighting streets	55,000 00	
	To be paid from the Treasury upon the orders of the Selectmen.	————	$229,000 00

F. ($308,806.00.

For maintaining the public safety and health, $308,806.00, specifically appropriated as follows:—

21.	Police Department	$89,500 00	
22.	Wires and Lights	8,250 00	
	The salary of the Superintendent shall be at the rate of $2,200 per annum in addition to the salary of $300 per annum paid him as Superintendent of Gas Inspection.		
23.	Fire Department	105,063 00	
24.	Health Department	71,000 00	
25.	Gymnasium and Bath House	25,193 00	
26.	Building Department	8,500 00	
	The salary of the Building Commissioner shall be at the rate of $2,500 per annum.		
27.	Department of Weights and Measures	1,300 00	
	To be paid from the Treasury upon the orders of the Selectmen.	————	$308,806 00

G. (35,000.00.)

For constructing, maintaining and repairing sewers and surface-water drains, $35,000.00, specifically appropriated as follows:—

28.	Construction of sewers	$15,000 00	
29.	Construction of surface-water drains	15,000 00	
30.	Maintaining and repairing sewers and surface-water drains	5,000 00	
	To be paid from the Treasury upon the orders of the Selectmen.	————	$35,000 00

H. ($11,000.00.)

For support of the Poor and relief of Soldiers, $11,000.00, specifically appropriated as follows:—

31.	Support of the Poor	$10,000 00	
	The salaries of the two Overseers of the Poor who are not also Selectmen shall be at the rate of $250 each per annum.		
32.	Relief of Soldiers	1,000 00	
	To be paid from the Treasury upon the orders of the Selectmen.		$11,000 00

I. ($361,407.49.)

For State, County and Metropolitan Taxes, $361,407.49, or such sums as may be assessed:—

33.	State tax	$152,650 00	
34.	County tax	70,557 49	
35.	Metropolitan Sewer tax	83,300 00	
36.	Metropolitan Park tax	54,900 00	
	To be paid from the Treasury upon the orders of the Selectmen.		$361,407 49

J. ($169,481.00.)

For so much of the Principal of the Town Debt as matures during the current fiscal year, including that which matures January 1, 1912:—

37.	Payment of maturing funded debt ...	$169,481 00	
	To be paid from the Treasury upon the orders of the Selectmen.		$169,481 00

K. ($62,585.75.)

For Interest on the Town Debt and temporary loans, $62,585.75, specifically appropriated as follows:

38.	Interest on funded debt	$55,085 75	
39.	Interest on temporary loans	7,500 00	
	To be paid from the Treasury upon the orders of the Selectmen.		$62,585 75

The repayment of any money borrowed in anticipation of taxes during the current financial year is hereby authorized, such repayments to be made upon the orders of the Selectmen, but a separate account of such borrowing and repayments shall be kept.

L. ($103,325.00.)

For general expenses of administration, and certain miscellaneous purposes, $103,325.00, specifically appropriated as follows:—

40	Selectmen's Department	$10,300 00
	The salaries of the Selectmen, as Selectmen, Overseers of the Poor and Board of Health, shall be at the rate of $1,500 per annum for the chairman and at the rate of $1,000 per annum for each of the other four.	
41.	Assessors' Department	10,200 00
	The salaries of the Assessors shall be at the rate of $1,500 each per annum.	
42.	Town Clerk's Department	7,125 00
	The salary of the Town Clerk as Town Clerk, Registrar of Voters and Clerk of Walnut Hills Cemetery Trustees, should he be chosen to that position, shall be at the rate of $3,000 per annum, provided that all fees received by him by virtue of his office, shall be paid into the Treasury for the use of the town.	
43.	Treasury Department	10,800 00
	The salary of the Treasurer and Collector shall be at the rate of $4,000 per annum.	
44.	Auditing and Accounting	4,200 00
	The salary of the Board of Auditors shall be $300 for auditing the accounts for the financial year ending December 31st, 1910.	
45.	Engineering Department	21,700 00
	The salary of the Town Engineer shall be at the rate of $3,000 per annum.	
46.	Maintenance of Town Hall	6,500 00
47.	Heating and Lighting Plant	14,000 00
	For the current year, the Heating and Lighting Plant shall be under the joint care and management of the School Committee and the Gymnasium and Baths Committee.	
48.	Exterior Repairs of Town Buildings ..	6,000 00
49.	Observance of Memorial Day	500 00
50.	Celebration of Fourth of July	1,500 00
51.	Band Concerts	500 00

52.	Legal Expenses	4,000 00	
53.	Printing Warrants and Reports	4,500 00	
54.	Miscellaneous Expenses and Contingencies	1,500 00	
	To be paid from the Treasury upon the orders of the Selectmen.		$103,325 00

The rates of salaries fixed in this vote are fixed for the twelve months from and after April 1st, 1911.

All money received by departments under any of the items in the above vote shall be paid into the Town Treasury and is not appropriated for the use of the departments receiving the same.

Whenever work is done or materials furnished by one department for another department, the cost of which is charged in the first instance to the appropriation of the former department, credit shall forthwith be given to the former department upon the books of the Accountant, upon the approval of the latter department and the officers authorized to draw orders against the appropriation therefor.

Fifth Article,—"To vote that on all taxes and sewer assessments remaining unpaid after a certain time, interest shall be paid at a specified rate not exceeding six per cent. per annum."

On motion of Philip S. Parker,—

Voted, That on all taxes of the current year remaining unpaid after November 1, interest shall be charged at the rate of six per cent. per annum.

On motion of Philip S. Parker,—

Voted, That sewer assessments shall bear interest at the rate of six per cent. per annum from the thirtieth day after such assessments become due until paid.

Sixth Article,—"To appropriate fifteen thousand dollars ($15,000.00) for the extension of the filtering galleries and driven-well system of the water works and to authorize the Treasurer to borrow the same."

On motion of Philip S. Parker,—

Voted, That fifteen thousand dollars ($15,000.00) be appropriated for the extension of the filtering galleries and driven-well system of the water works.

Philip S. Parker offered the following vote:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow fifteen thousand dollars

($15,000.00) appropriated at this town meeting, for the extension of the filtering galleries and driven-well system of the water works. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1911, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

The vote was taken by count. The Moderator had appointed the following to serve as Tellers and they were sworn by the Town Clerk: Albion F. Bemis, Emery B. Gibbs, Daniel J. Daley, Jesse S. Wiley, Henry T. Richardson, G. Loring Briggs.

The Tellers reported the whole number voting to be two hundred and seventy (270), as follows: "Yes," two hundred and seventy (270); "No," none (0), and the vote was declared passed by more than two-thirds of those present and voting thereon.

Seventh Article,—"To appropriate six thousand two hundred and fifty dollars ($6,250.00) to be expended by the School Committee for furnishing the Michael Driscoll School building."

On motion of Franklin W. Hobbs,—

Voted, That six thousand two hundred and fifty dollars ($6,250.00) be appropriated to be expended by the School Committee for furnishing the Michael Driscoll School building.

Eighth Article,—"To appropriate twenty-three thousand dollars ($23,000.00) for grading and preparing the grounds connected with the Michael Driscoll School on Westbourne terrace and to authorize the Treasurer to borrow the same."

On motion of Harry W. Cumner,—

Voted, That thirteen thousand dollars ($13,000.00) be ap-

propriated for grading and preparing the grounds connected with the Michael Driscoll School on Westbourne terrace.

Ninth Article,—"To appropriate six thousand dollars ($6,000.00) for the erection of a bandstand on Cypress Street Playground."

On motion of Philip H. Blumpy,—

Voted, That the subject-matter of the Ninth Article be indefinitely postponed.

Tenth Article,—"To appropriate two thousand dollars ($2,000.00) for the erection of a portion of a stone wall surrounding Walnut Hills Cemetery."

On motion of Charles H. Stearns,—

Voted, That two thousand dollars ($2,000.00) be appropriated for the erection of a portion of a stone wall surrounding the Walnut Hills Cemetery.

Eleventh Article.—"To provide for the appointment of a committee to consider the question whether the town should erect a Soldiers' Monument, and if so, to further consider the question of design and site and all other matters in connection therewith, and to report their recommendations to the town."

On motion of Albion F. Bemis,—

Voted, That the Moderator of this meeting be authorized to appoint, at any time after the adjournment thereof, a committee of five citizens to consider the subject-matter of the Eleventh Article and report at some future town meeting.

The Moderator appointed the following committee: James R. Dunbar, Robert D. Andrews, Charles S. Sargent, Frederick Law Olmsted, Harris S. Bean.

Twelfth Article,—"To authorize the Board of Health to make a contract for a term of years for the disposal of garbage."

On motion of Philip S. Parker,—

Voted, That the Board of Health be authorized to make a contract for a term of years for the disposal of garbage.

On motion of Philip S. Parker,—

Voted, That the Thirteenth and Fourteenth Articles be considered together.

Thirteenth Article,—"To hear and act upon the report of the committee appointed under the tenth article in the warrant for the town meeting of June 1, 1910, upon the question of establishing building limits in the town and changing the Building Law."

Fourteenth Article,—"To amend the Building Law in accordance with the recommendations in the report of the committee presented under the preceding article."

On motion of Charles H. Pearson,—

Voted, That Article XX of the present Building Law be amended by the substitution of a new article relating to Plumbing, as follows:—

ARTICLE XX.

PLUMBING.

Sec. 1. Registration.
Sec. 2. Notices.
Sec. 3. Connections with Sewer or Drain.
Sec. 4. Material of Drain or Sewer Pipes passing through or under Another Building.
Sec. 5. Inspection and Tests.
Sec. 6. Material, Construction, etc., of Drain Pipes
Sec. 7. Certain Traps, Fittings and Couplings Prohibited. Trap Screws to be placed on the Inlet Side or Below the Water Line of the Trap.
Sec. 8. Brass Ferrules.
Sec. 9. Clean-outs.
Sec. 10. Size, Weight, etc., of Lead Pipes.
Sec. 11. Rain Water Leaders.
Sec. 12. Joints.
Sec. 13. Fittings.
Sec. 14. Traps for Bath-Tubs, Water-Closets, etc.
Sec. 15. Back Air Pipes, Vents, etc.
Sec. 16. Batteries of Water-Closets.
Sec. 17. Refrigerator Wastes and Drip Pipes.
Sec. 18. Water-Closets.
Sec. 19. Number of Water-Closets Required.
Sec. 20. Size of Soil and Waste Pipes.
Sec. 21. Waste Pipes not to Connect with Bends or Traps of Water-Closets or Slop Sinks.
Sec. 22. Steam Exhausts, etc.
Sec. 23. Expansion Pipes and Safety Valves.
Sec. 24. Catch Basin Required for Stall Drainage, Wash Stands for Vehicles, etc.
Sec. 25. Permit Required for Vaults or Privies.
Sec. 26. Grease Traps.
Sec. 27. Gasolene Traps.
Sec. 28. Extraordinary Fixtures or Appliances.

BY-LAW IN RELATION TO PLUMBING.

Registration.

Section 1. All plumbers shall qualify as provided by Chapter 103 of the Revised Laws as amended by Chapter 536, Acts of 1909, and Chapter 597, Acts of 1910; and the said commissioner shall be immediately notified of any change of partnership or business address. All master plumbers shall have a *bona fide* place of business and their license shall be conspicucusly displayed therein. No person shall do or carry on the business of plumbing unless he shall first have been duly registered or licensed so to do, and shall also have registered his name and place of business in the office of the building commissioner. Notice of any change in the place of business of a registered or licensed master plumber shall be immediately given by him to the said commissioner.

Notices.

Sec. 2. Every plumber before commencing work in a building, shall, except in the case of the repair of leaks, file at the office of the building commissioner, upon blanks provided for that purpose, a notice of the work to be performed; and no such work shall be done in any building except in accordance with plans which shall be approved by the inspector of plumbing and a permit issued therefor. Permits to perform plumbing shall be issued only to master plumbers.

Connections with Sewer or Drain.

Sec. 3. Every building in the town of Brookline used as a dwelling, tenement or lodging house, or where persons are employed, shall be separately and independently connected with the public sewer, when such sewer is provided, or, subject to the approval of the town engineer, the drain from such building may be connected on the outside thereof, with a proper and sufficient drain which connects with a public sewer.

If no sewer is accessible, such cesspool shall be provided as may be directed by the Board of Health.

Material of Drain or Sewer Pipes passing through or under any other Building, etc.

Sec. 4. No drain or sewer pipe from any building shall pass through or under any other building without the approval of the plumbing inspector, nor shall any drain or sewer pipe from any building pass through or under another building or within eight feet of the foundation walls thereof, unless it be of extra heavy cast-iron pipe.

Inspection and Tests.

Sec. 5. Pipes or other fixtures shall not be covered or concealed from view until approved by the inspector of plumbing, who shall examine or test the same within two working days after notice that they are ready for inspection. Before notifying the inspector of plumbing that the piping is ready for test, all joints in drain, soil, waste and

connecting pipes shall be in position and plumbng work shall not be used unless the same shall have first been tested by the plumber in the presence of the inspector of plumbing with the water test, and if that is not practicable with some other reliable test.

Materials, Construction of Drain Pipes, etc.

Sec. 6. Drain pipes, rain water leaders, waste pipes, refrigerator wastes, vents and back air pipes, shall be of sufficient size and made of cast iron, or iron size brass within the building, and outside for a distance of at least ten feet from the inside face of the wall, beyond and away from the building; except that lead pipe may be used for short connections under floors and where exposed to view. Such pipes if of cast iron shall be uncoated, sound, cylindrical and smooth, free from cracks and other defects, of uniform thickness and of the grade known as "extra heavy." If buried underground they shall be coated with asphaltum or red lead. Pipe, including the hub, shall weigh not less than the following average weight per linear foot:—

2-inch	pipe,	5½	lbs.	per	foot.
3- "	"	9½	"	"	"
4- "	"	13	"	"	"
5- "	"	17	"	"	"
6- "	"	20	"	"	"
8- "	"	33⅓	"	"	"
10- "	"	45	"	"	"
12- "	"	54	"	"	"

Drain pipes shall be properly secured by irons to walls, laid to uniform grade on substantial brick piers, resting on solid foundations or suspended from floor beams by strong iron hangers. They shall be supplied with a suitable running trap, placed with an accessible heavy brass clean-out either outside or inside the foundation wall of the building. If on the inside the outer end of this trap shall be connected to the branch of a full "Y" fitting either direct or through a suitable bend. The straight run of the "Y" shall be fitted with a brass clean-out which as well as all other clean-outs and traps shall be left readily accessible through proper manholes provided with removable covers.

Fresh air inlet pipe if used, shall not be less than four inches in diameter entering the drain on the house side of the trap and as near the said trap as possible. Drain pipes shall be run as direct as practicable and shall have a fall of not less than one-fourth of an inch to the foot towards the drain or sewer and shall be carried out through the roof open and undiminished in size and to a height not less than two feet above the roof and not less than three feet above the top of any window within fifteen feet and not less than eight feet above the roof if the roof is used for drying clothes, or as a roof garden.

Changes in direction shall be made with curved pipes and all connections with horizontal and vertical pipes shall be made with full "Y" branches; except that "T's" may be used for vent pipes and Tee "Y's" on vertical lines for branch connections for water-closets that require a lead bend below the floor; and also for traps when the connec-

tion of same is the highest connection of any vertical pipe. Double Tee "Y" branches shall not be used. Lateral branches of soil or waste pipe if more than twenty feet in length shall be extended through the roof undiminished in size. Where iron pipes pass through the roof they shall be made water tight with roofing hubs satisfactory to the inspector of plumbing. Pipes of smaller diameter shall be increased to four inches before passing through the roof.

All drain pipes shall be exposed to sight where practicable within the building, and shall not be exposed to pressure where they pass through external walls.

Certain Traps, Fittings and Couplings Prohibited.

Sec. 7. No trap or short one-quarter bend shall be placed at the foot of any vertical soil or waste pipe.

No saddle hubs will be allowed on any plumbing.

No slip joints shall be used on the sewer side of traps, waste, vent or back air pipes.

Double hubs shall not be used on drain, soil or waste pipes.

No couplings shall be used in connection with traps, drain, soil, waste or air pipes on the sewer side of traps, unless such couplings are brass unions, having air-tight ground joints. All traps, excepting water-closet traps, shall have brass cleaning screws placed on the inlet side or with the engaging parts below the water line of the trap. Where traps are located over ceilings proper safes constructed of sheet lead or copper shall be placed under them. Round traps shall be not less than four inches in diameter and eight inches long and made of eight-pound lead.

Where "S" traps are used their internal diameter shall not be less than one and one-half inches, and such traps shall have not less than two inches water seal.

Brass Ferrules.

Sec. 8. Brass ferrules shall be of best quality, bell shaped, extra heavy cast brass, not less than four inches long, and two and one-quarter inches, three and one-half inches, and four and one-half inches in diameter, and not less than the following weights:—

Diameter, two and one-half inches; weight, one pound.

Diameter, three and one-half inches; weight, one pound, twelve ounces.

Diameter, four and one-half inches; weight, not less than two pounds.

One and one-half inch ferrules shall not be used.

Clean-outs.

Sec. 9. Every drain, soil and waste pipe shall have accessible extra heavy brass clean-outs placed at each right angle turn, at the end of each horizontal line, and at intermediate points where directed in long lines of horizontal pipes.

The screw cap of clean-outs shall be of brass, extra heavy and not less than one-eighth of an inch thick. The engaging parts shall have not less than six threads of iron

pipe size and shall be tapered, and the opening for screw cap shall be of sufficient size to permit insertion of proper testing plugs.

Clean-outs shall be the full size of the trap or pipe up to four inches in diameter and not less than four inches for larger traps or pipes.

The screw cap shall have a solid square or hexagonal nut, not less than one-half inch high, with a least diameter of one and one-half inches. The bodies of brass clean-out ferrules shall be at least equal in weight and thickness to the calking ferrule for the same size of pipe.

Size, weight, etc., of Lead Pipes.

Sec. 10. The use of lead pipes is restricted to short branches of the soil and waste pipes, to cast or drawn bends and traps, and roof connections of inside leaders. "Short branches" of lead pipe shall mean not more than:—

5 feet of 1½-inch pipe.	4 feet of 2-inch pipe.
2 feet of 3-inch pipe.	2 feet of 4-inch pipe.

The pipes shall be not less than the following average thickness and weight per linear foot:—

Diameters.	*Thickness.*	*Weight per linear foot.*
1½ inches.	⅛ inch.	3 pounds.
2 "	5/32 "	5 "
3 "	9/64 "	6 "
4 "	⅛ "	8 "
5 "	⅛ "	9 "
6 "	¼ "	26 "

All lead bends or water-closets and slop sinks shall be of the same weight and thickness as lead pipe of corresponding diameters.

Rain Water Leaders.

Sec. 11. No rain water leader shall be connected with the house drain or sewer, except by permission of the Board of Health or its agents.

No rain water leader shall be used as a soil, waste or vent pipe, nor shall any such pipe be connected therewith. No soil, waste or vent pipe shall be used as a rain water leader. When connected with the house drain, rain water leaders shall be properly trapped.

No rain water piping shall connect with the house drain or with the sewer in streets where storm water drains have been planned or provided. Such piping shall connect with said storm water drains, and within the building and for a distance of at least ten feet outside shall be of extra heavy cast-iron pipe and shall have a running trap with an accessible heavy brass clean-out at the wall.

Joints.

Sec. 12. Joints on cast-iron pipe shall be made with oakum and run full with soft molten lead, well calked and left smooth and clean without paint or cement of any kind until after they have been tested.

No cement joints nor connections between iron and cement or tile pipe or brick drains shall be made within any building. Joints on wrought iron or brass, or between cast-iron and wrought-iron pipes shall be screwed joints, made up with red lead. Connections of lead pipes with cast-iron pipes shall be made by heavy brass sleeves soldered to the lead with full-sized wiped points and properly calked to the iron; to wrought iron and brass, joined to the lead in same manner, and connected to brass or wrought iron with screw nipples.

Threaded connections on brass traps shall be of the same size as pipe threads for the same size of pipe, and shall be tapered.

Joints on lead waste pipes or on lead connecting with brass fittings shall on the sewer or outer side of traps be full sized wiped soldered branch, round or flanged joints.

Fittings.

Sec. 13. Fittings on wrought-iron vent or back-air pipes shall be galvanized, cast or malleable iron, threaded steam and water fittings. No gas fittings shall be used.

Fittings for soil or waste pipes of brass shall be extra heavy brass recessed and threaded drainage fittings with smooth interior water way and threads tapped so as to give uniform grade to branches of not less than one-quarter of an inch per foot.

Fittings for cast-iron soil, waste, vent or back air pipes shall be of the same kind and quality as the pipes used.

Traps for Bath-Tubs, Water-Closets, etc.

Sec. 14. Every sink, basin, bath-tub, slop hopper, water-closet, and each set of wash trays, or other fixture having a waste pipe, shall be furnished with a separate trap, which shall be placed as near as practicable to the fixture which it serves; except that where a sink and set of two wash trays or a basin and bath-tub, or two basins or two sinks are close together, and the waste pipe does not exceed three feet in length from its connection with the fixture to its connection with the trap, then one five-inch round trap placed between the fixtures, may be used for both. The outlet from each fixture shall enter the trap separately.

Back-Air Pipes, Vents, etc.

Sec. 15. Traps shall be protected from siphonage or air pressure by extra heavy cast iron, iron-size brass, or galvanized, wrought-iron, special air pipes of a size not less than the waste pipes they serve.

Air pipes shall be connected to the crown of the trap, or to the top of a suitable "Y" branch fitting approved by the inspector of plumbing and placed on the outlet not more than eighteen inches from the trap. In no case shall any back-air pipe be branched into or connected with any lead waste pipe. Air pipes less than two inches in diameter, when serving more than one trap, shall be increased one size. Air pipes from water-closet traps shall be of two-inch

bore, if thirty feet or less in length, and of three-inch bore if more than thirty feet in length.

Not more than three water-closet traps shall be back-aired into the same pipe if less than three inches in diameter. Back-air or vent pipes less than two inches in diameter shall not be more than twenty feet in length.

This section shall not apply to traps having waste pipes not more than three feet in length between them and a line of soil or waste pipe which extends full size through the roof to the open air, provided such traps have a separate and independent connection with such soil or waste line and that no running water enters the stack from the stories above; it is further provided that a round trap five inches or more in diameter or some other suitable non-siphon trap approved by the inspector of plumbing and having a four-inch water seal, shall be used in such work.

Double "Y" branches if used shall be considered a compliance with this section.

No ventilation shall be required from the trap of a water-closet when the connection of same is the highest connection of any vertical line of pipe four inches or more in diameter which extends through the roof full size, and the branch connection from the soil pipe to the closet floor flange does not exceed two and one-half feet.

The foregoing shall apply to two water-closets when the connection with the soil pipe is made with a double "Y" branch.

All air pipes shall be run as direct as practicable and shall be of not less than four inches bore where they pass through the roof, and shall not be covered by a vent cap, cowl or bend; if the open end requires protection, wire baskets shal be used. Two or more air pipes may be connected together or with a vent pipe; but in every such case the conection shall be above the top of the fixture.

Bow venting shall not be allowed except by special permission of the inspector of plumbing.

Vent lines shall be connected at the bottom with a soil or waste pipe or with a drain, in such a manner as to prevent accumulation of rust scale and properly drip the water of condensation. Offsets shall be made at an angle of not more than forty-five degrees. Soil pipes and iron waste pipes, vents and back-air pipes shall be supported by clamps to the woodwork, iron drive hooks to brick walls or bolted clamps to iron girders.

Batteries of Water-Closets.

Sec. 16. In buildings where several bathrooms are located directly over each other and have a soil pipe in common, the back-air pipe required shall be a vent line connecting with each outlet branch close to the water-closet connection, each branch vent to connect to vent line above the top of the highest fixture on each floor, the vent line to connect to main ventilation pipe above the top of the highest fixture in the building, or extend separately htrough the roof.

In the case of a battery of not more than four water-

closets, the special air pipe from each trap may be omitted, provided that the soil pipe branch for such battery, undiminished in size, is continued to a point above the roof. For each additional four water-closets in battery a re-vent shall be supplied.

In buildings where a series of water-closets arranged in battery are located directly over each other and have a soil pipe in common the horizontal lines into which such water-closets discharge shall be continued full size, and connect into a separate ventilation line running vertically up through the building and above the roof; the connection between the horizontal lines and the ventilation line shall be made above the height of the water-closets which said horizontal line serves; the main ventilation line shall be equal in diameter to the largest branch line for any of the such batteries.

The method of construction described in this section shall in all cases be subject to the approval of the plumbing inspector and shall be plainly shown on plans filed for his approval.

Refrigerator Waste and Drip Pipes.

Sec. 17. All drip or overflow pipes shall be run to some place in open sight, and in no case shall any such pipe be connected directly with a drain pipe. No waste pipe from a refrigerator or other receptacle in which provisions are stored shall be connected directly with a drain or waste pipe. The waste pipes from all other fixtures shall be connected directly with a drain pipe. Refrigerator waste lines connecting with two or more stories shall be of two-inch, extra heavy, cast-iron pipe and shall have a one and one-half inch lead branch for each floor; said branch to connect with the waste line through a full "Y" fitting. Each branch to have a pan and a one and one-half lead "S" trap or four-inch round trap on same. All said traps shall be provided with trap screws, which shall be water sealed and left readily acessible. Refrigerator waste lines shall discharge oven an open, trapped and ventilated, water supplied, ordinarily used sink, placed not more than three and one-half feet above the cellar floor. Refrigerator waste lines shall extend above the roof for ventilation and shall be increased to four inches before passing through it. All refrigerator piping shall be subjected to the same tests as the direct drainage system.

Water-Closets.

Sec. 18. Every water-closet shall be supplied with water from a special tank not used for any other purpose and which shall hold not less than six gallons. Siphon tanks shall hold not less than five gallons.

Flushing pipes shall be of not less than one and one-quarter inch bore. A line of adjoining water-closets may be flushed from one tank holding six gallons of water for each closet supplied, but water-closets on different floors shall not be flushed from the same tank, excepting that flush valves and similar devices may e supplied from one tank used for no other purpose, and having a capacity of

six gallons per closet. No water-closet shall be placed in any building, room or apartment that has not sufficient light and direct communication with the external air either by a window having an area to the open air of at least three square feel, or by avent shaft having a window not less than five square feet in area opening directly into same. Every vent shaft hereafter constructed in any tenement house shall have a horizontal intake or duct of at least the dimensions provided for vent shafts in section twenty-one, Article XVII and shall be of the same minimum dimensions.

Earthenware water-closets shall have heavy brass floor plates soldered to the lead bends and bolted to the trap flange, and the joint made gas tight with red or white lead or grafting wax. Rubber washers for floor connections shall not be used.

Number of Water-Closets Required.

Sec. 19. Every building in the town of Brookline used as a place of habitation, or where persons are employed, shall be supplied with such number of good and sufficient water-closets as the Board of Health of said town shall determine. There shall be provided at least one water-closet for every two families in every existing tenement house; and in no case shall more than two families be allowed to use one and the same water-closet.

Size of Soil and Waste Pipes.

Sec. 20. The diameters of soil and waste pipes shall be not less than those given in the following table:—

Soil pipes	4	inches.
Main waste pipes	2	inches.
Main waste pipes for kitchen sinks on five or more floors	3	inches.
Main waste pipes if placed under ground..	3	inches.
No branch waste shall be less than	1½	inches.

The lead waste pipes from fixture traps shall not be branched into each other; such pipes shall in all cases be separately connected with the main waste pipes.

No iron size brass pipe less than one and one-half inches in diameter shall be used for waste pipes.

Waste Pipes not to Conect with Bends or Traps of Water-Closets or Slop Sinks.

Sec. 21. No connections shall be made with the lead bents or traps for water-closets or slop sinks, except the required back-air pipe which shall be taken from the highest point of the bend or trap.

Steam Exhausts, etc.

Sec. 22. No steam exhaust, blow-off or drip pipe shall directly connect with a sewer, house drain, rain water conductor, soil, waste or vent pipe. Such pipes shall discharge into a suitable tank or condenser, from which a proper outlet to the house drain shall be provided.

Any such tank or condenser shall have a vapor pipe of

proper size extending above the roof, and the overflow from any such tank or condenser shall connect with drain outside the main wall of building.

Expansion Pipes and Safety Valves.

Sec. 23. Every range, bath or general hot water boiler shall be provided with a steam exhaust or expansion pipe which shall be carried from the top of the boiler, or from the highest point of the main hot water pipe, up to and aobve the tank which supplies water to said boiler, excepting when a direct pressure boiler is used. In this case the boiler shall be provided with an approved safety or water relief valve to prevent the liability of bursting.

Catch Basin Required for Stall Drainage, Wash Stands for Vehicles, etc.

Sec. 24. No person shall discharge any stall drainage, or any contents of any privy vault, manure pit or wash stand for vehicles, into a public drain or sewer, except through an intervening catch basin, the outlet pipe of which shall be high enough above the bottom to prevent any but liquid contents from passing over into the drain or sewer. A sufficient trap having an accessible heavy brass clean-out shall be placed in every drain connecting such catch basin with a sewer.

Permit required for Vaults or Privies.

Sec. 25. Vaults or privies shall be such as are approved by, and shall not be allowed in premises that are accessible to the sewer without a special permit from the Board of Heatth.

Grease Traps.

Sec. 26. A grease trap shall be constructed for and connected with the sink of every hotel, eating house, restaurant or other public cooking establishment, so as to be easily accessible for inspection and cleansing.

Gasolene Traps.

Sec. 27. In any building where naphtha or other inflammable or explosive flued is used an approved intercepting trap shall be placed to prevent such fluid entering the drain or sewer.

Extraordinary Fixtures or Appliances.

Sec. 28. The installation of fixtures or appliances not herein mentioned or described shall be performed in accordance with a decision in each case by the inspector of plumbing.

On motion of Charles H. Pearson as amended by Gorham Dana,—

Voted, That Article XXI of the present Building Law be re-numbered as Article XXII, and that a new article be

added to the Building Law, to be numbered XXI, relating to Garages, as follows:—

ARTICLE XXI.

Garages.

Section 1. By the term "garage" is meant a building, or that portion of a building, in which one or more automobiles, motor cars or other vehicles (all hereinafter referred to as automobiles), charged with, or containing, a volatile inflammable liquid for fuel or power are kept, whether said automobile is kept for use, for sale, for rental, for exhibition, for demonstrating or for other purposes.

Sec. 2. By the term "volatile inflammable liquid" is meant any liquid that will emit inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in the open air.

Sec. 3. Garages.—All buildings used as garages within the town of Brookline shall be of fireproof construction, shall be properly ventilated and shall have an open space of at least five feet on all sides from any other building, and no building used as a garage shall have a basement or cellar except one of such dimensions and size as shall be approved by the commissioner for use only for a boiler room for the purpose of heating the building. Such garages shall not be more than thirty feet in height and shall have roofs of slate, tile or other equally fire-resisting material approved by the commissioner. The floors must be of concrete or granolithic. Every garage within which is placed, located or maintained a pump attached to storage tank for keeping of volatile inflammable liquids shall enclose the pump with a pump compartment, whereof the enclosure shall be of wire-mesh screen of not smaller than No. 6 gauge wire of not more than two-inch mesh.

Provided, however, that garages used by not more than two automobiles and not for business purposes may be built of frame construction if plastered throughout on the interior with approved incombustible material, and located not less than ten feet from the lot line and not less than twenty feet from all other buildings except the dwelling of the owner.

Provided, further, that the provisions of this section shall not apply to buildings occupied for garage purposes at the time of the adoption of this By-Law if in the opinion of the Board of Selectmen all reasonable precautions have been taken to insure safety.

Sec. 4. All electric dynamos and motors not actually part of the automobile shall be located not less than four feet above the floor. All incandescent lights shall be properly encased in vapor-tight globes protected by approved wire guards, and all arc lamps shall be located at least ten feet above the floor and shall be of the enclosed type. No provision in this section shall apply to boilers or furnaces used for heating when the same are installed in accordance with the requirements of the commissioner.

Sec. 5. Movable incandescent lights in a garage shall be protected by vapor-tight globes enclosed in approved metal cages and shall be fitted with keyless sockets, and all electric switches and plugs shall be permanently located at least four feet above the floor.

Sec. 6. If electric charging apparatus is installed or placed in a garage all such apparatus, excepting the wires leading to the automobiles to be charged, shall be placed within a separate room, separated from the main garage by fireproof floors, ceilings and partitions which shall not be inferior in fire-resisting qualities to re-enforced concrete construction of four inches in thickness, and any openings from said room into the main garage shall be protected by approved fire doors. Provided, however, that the provisions of this section shall not apply to buildings occupied for garage purposes at the time of the passage of this By-Law if in the opinion of the Board of Selectmen all reasonable precautions have been taken to insure safety.

Sec. 7. The use and occupation of all public and private garages in the town shall be subject to the provisions of Chapter 370 of the Acts of the year 1904 as amended by Chapter 280 of the Acts of the year 1905, Chapter 502 of the Acts of the year 1908 and Chapter 223 of the Acts of the year 1910 and of any amendments thereof or additions thereto now or hereafter made; and to all rules and regulations from time to time established in accordance with said acts by the district and fire inspection department of the Massachusetts district police, and such further restrictions and regulations as the Board of Selectmen shall impose.

On motion of Philip S. Parker,—

Voted, That the Committee appointed under the tenth article in the warrant for the town meeting of June 1, 1910, be continued; that the report of that Committee except as relating to Garages and Plumbing be referred to a future town meeting, and that the committee be authorized to make a supplementary report.

Fifteenth Article,—"To see if the town will amend the Town By-Laws by making an addition thereto in order to provide for the establishment of an Advisory Committee on Municipal Improvements and its duties."

On motion of Walter H. Kilham,—

Voted, That the Town By-Laws be amended by adding the following article to be numbered XI-A:—

ARTICLE XI-A.

Board of Municipal Improvements.

Section 1. The Selectmen shall every three years appoint five citizens of the town to constitute and be known as the Board of Municipal Improvements. Such appointment shall be made in the month of April, and shall be for the term of three years from the first of May next following. Any vacancy shall be filled by appointment by the Selectmen for the unexpired term. The members of such board shall serve without pay. It shall be the duty of such board to study and advise upon municipal improvements, in regard to which the advice of the board may at any time be asked by any official or officials of the town; and such board may also, upon its own initiative, make to any official or officials of the town, such recommendations in regard to municipal improvements as such board may from time to time think proper or expedient.

Sixteenth Article,—"To amend Article XIV of the Town By-Laws so as to provide for a reduction in the number of the committee on the Bath house and Gymnasium."

On motion of Philip S. Parker,—

Voted, That Article XIV of the Town By-Laws be amended so as to read as follows:—

ARTICLE XIV.

Bath House and Gymnasium.

Section 1. The Selectmen shall appoint annually in April a committee of three citizens who shall have the care and management of the Public Baths and the Public Gymnasium. They shall hold office from the first of May following for the term of one year and until others are appointed in their places, and shall serve without pay. The said committee shall establish such rules and rates for the regulation and use of the Public Baths and Gymnasium as they deem best, and shall appoint such officers and assistants for the care and conduct of the same as are necessary, and shall fix the terms of their compensation. The Selectmen shall have power to fill any vacancy in the committee.

Seventeenth Article,—"To see if the town will amend Article VII of the Town By-Laws by adding the following section: 'No moneys of the town shall be deposited in any bank or institution of which the Town Treasurer is a director or officer.' "

On motion of Moses Williams,—

Voted, That the subject-matter of Article Seventeen be indefinitely postponed.

Eighteenth Article,—"To make an additional appropriation of seven thousand dollars ($7,000.00) for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner and to extend the same in both directions on Harvard street."

On motion of Desmond Fitz Gerald,—

Voted, To make an additional appropriation of seven thousand dollars ($7,000.00) for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner and to extend the same in both directions on Harvard street.

Nineteenth Article,—"To accept and allow Dummer street from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at the special town meeting held on December 28, 1910, under the fifteenth article in the warrant, the subject-matter of which was referred to this annual meeting."

On motion of Leslie C. Wead,—

Voted, To accept and allow Dummer street from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at the special town meeting held on December 28, 1910, under the fifteenth article in the warrant, the subject-matter of which was referred to this annual meeting.

The Selectmen presented in print the laying out of Dummer street, of which the following is a true copy:—

Dummer Street.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of a private way known as Dummer street, from Essex street to Cottage Farm road, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, December 12, 1910, at 4.15 o'clock P. M., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Frederick R. Sears et al., trustees (C. E. Cotting, agent), Beatrice Bill

Talbot, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway and it is hereby so laid out.

The land over which said street is laid out and which is hereby taken therefor, is described by its northerly line as follows:—

Beginning at the intersection of the westerly line of Cottage Farm road at a point 288 feet from the southerly line of Commonwealth avenue and measured at right angles thereto; thence running easterly by a line parallel with said Commonwealth avenue for a distance of 340 feet to the westerly line of Essex street, and includes a parallel width of forty (40) feet measured southerly from said northerly line and extending from said westerly line of Cottage Farm road to the said westerly line of Essex street.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated November 28, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, *Town Engineer.*

December 16, 1910.

The street having been constructed by the owners of the fee is open to the public for travel.

No awards are made. The owners of the land abutting upon said street and of the fee of the land over which said street is laid out, in consideration of the laying out and its acceptance by the town, waive all claims to land, grade or other damages.

We take land as follows:—

Name.	Sq. feet taken.
From the owners of the fee	13,600

We give the owners of land taken for the laying out of said street five days from the date of its acceptance by the town, in

which to take off their trees, fences and other property which may obstruct the building of the way.

Said street so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Dummer street.

The said plan, profile and this record are this day filed by us in the office of the town clerk.

PHILIP S. PARKER,
EVERETT M. BOWKER,
GEORGE S. BALDWIN,
Selectmen of Brookline.

Brookline, December 16, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., Dec. 16, 1910.

Twentieth Article,—"To accept and allow the alteration and extension of White place from that portion of the same accepted by the town January 2, 1885, to Davis avenue as laid out by the Selectmen and reported to the town at this meeting, together with the discontinuance of a portion of Kerrigan place, and to appropriate eight thousand six hundred and eighty-six dollars ($8,686.00) for land damages and the cost of construction."

On motion of Philip S. Parker,—

Voted, To accept and allow the alteration and extension of White place from that protion of the same accepted by the town January 2, 1885, to Davis avenue as laid out by the Selectmen and reported to the town at this meeting, together with the discontinuance of a portion of Kerrigan place, and to appropriate eight thousand six hundred and eighty-six dollars (8,686.00) for land damages and the cost of construction.

On motion of Philip S. Parker,—

Voted, That an entry for the purpose of constructing such laying out is hereby authorized to be made before all claims for damages by reason thereof shall be finally adjusted and determined.

The Selectmen reported in print the laying out of the alteration and extension of White place, of which the following is a true copy:—

White Place.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out and alter and extend White place from its present terminus as heretofore laid out to Davis avenue, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, January 23, 1911, at 4 o'clock P. M., and caused such notice to be actually served according to law by a constable of this town at least seven days before the

day so appointed for the hearing, upon Edward J. Mealey, Thomas F. McMahon, Tirzah H. Arnold and Sarah Ella Seamans, being all the parties known to us from whom land is taken, or who may be interested in the subject-matter, and gave notice to them and all other persons and corporations, if any, who may be interested in the subject-matter, whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out and altered and it is hereby so laid out and altered.

The land over which said way is laid out is bounded by a line beginning at a point where the southerly line of White place is intersected by the westerly end of said White place as accepted by the town, January 2, 1885; thence running northwesterly 141.92 feet; thence curving to the right with a radius of 90 feet for a distance of 83.46 feet; thence curving to the right with a radius of 115 feet for a distance of 54.71 feet; thence running northerly by a tangent 76.38 feet; thence curving to the left with a radius of 12.50 feet for a distance of 19.64 feet to the southerly line of Davis avenue; thence running easterly by said southerly line of Davis avenue for a distance of 60 feet; thence running southwesterly by a curve to the left having a radius of 12.50 feet for a distance of 19.64 feet; thence running southerly by a tangent 76.38 feet; thence running southeasterly by a curve to the left having a radius of 80 feet for a distance of 112.24 feet; thence running easterly by a tangent for a distance of 42.92 feet to land of Alfred E. and M. Frank Kenrick; thence running southerly by land of the said A. E. & M. F. Kenrick 0.24 feet; thence running easterly 75.98 feet to the intersection of the northerly line of White place and the westerly end of said White place accepted as aforesaid; thence running southerly by said westerly end of said White place 25 feet to the point of beginning.

Said location includes a part of the location of Kerrigan place as extended easterly to White place and as defined by the decree of the special commission dated February 25, 1905, for the abolition of Kerrigan place grade crossing.

Such portion of the present location of Kerrigan place on the northerly side of the Boston & Albany Railroad location, as is not included within the limits of said street as hereby laid out, altered and extended, is hereby abandoned for street purposes, reserving to the town all its present rights in said portion of land, for sewage, surface water drainage and water conduits.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated January 9, 1911, approved by us, verified by our signatures and adopted as a part of this record. Said street is to be constructed in accordance with said plan and profile.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, *Town Engineer.*

January 30, 1911.

We take land as follows, and we have estimated the damages sustained by the owners of land, rights and interests cauesd by the laying out and alteration of said street and the construction thereof, whether by taking land or by injuring property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties respectively, as follows:—

Name	Sq. ft. taken	Award
Tirzah S. Arnold	6,125.9	$3,700.00
Thomas F. McMahon	1,138.2	2,300.00
Edward J. Mealey	162.0	81.00
Owners of fee of Kerrigan place	3,104.0	5.00

We give the owners of land taken for the laying out and alterations of said street sixty days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is $2,600.00, and the awards for land and other damages amount to $6,086.00

Said street so laid out and altered is hereby reported to the town for acceptance.

The said plan, profile and this record are this day filed by us in the office of the Town Clerk.

HORACE JAMES,
EVERETT M. BOWKER,
PHILIP S. PARKER,
GEORGE S. BALDWIN,
Selectmen of Brookline.

Brookline, January 30, 1911.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., January 30, 1911.

Twenty-first Article,—"To accept and allow Walnut path from Boylston street across the railroad location to the proposed extension of White place as laid out by the Selectmen and reported to the town at this meeting, and to appropriate four thousand two hundred and seventy-five dollars ($4,275.00) for land damages and the cost of construction."

On motion of Philip S. Parker,—

Voted, To accept and allow Walnut path from Boylston street across the railroad location to the proposed extension of White place as laid out by the Selectmen and reported to the town at this meeting, and to appropriate four thousand two hundred and seventy-five dollars ($4,275.00) for land damages and the cost of construction.

On motion of Philip S. Parker,—

Voted, That an entry for the purpose of constructing such laying out is hereby authorized to be made before all claims for damages by reason thereof shall be finally adjusted and determined.

The Selectmen reported in print the laying out of Walnut path, of which the following is a true copy:—

Walnut Path.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a way from Boylston street, across the location of the Boston & Albany Railroad Company (the New Central, and Hudson River Railroad Company, lessee) to a proposed extension of White place, such notice requiring all persons interested to appear before us at our room in the Town Hall on Monday, the sixth day of February, 1911, at 4 o'clock P. M., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day appointed for the hearing upon,

Town of Brookline,
Boston & Albany Railroad Company (the New York Central and Hudson River Railroad Company, lessee),
Tirzah H. Arnold,

being all the parties known to us from whom land is taken or who may be interested in the subject-matter and give written notice to them and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the way as hereinafter described, we do

adjudge that common convenience and necessity require that said way should be laid out, and it is hereby so laid out.

The description by its easterly line of the land over which said path is laid out is as follows:—

Beginning at a point on the northerly line of Boylston street situated 39 feet westerly from the westerly line of Kerrigan place; thence running northerly by a line parallel with said westerly line of said Kerrigan place for a distance of 226.17 feet to the southerly line of the proposed extension of White place. The location includes a parallel width of thirty (30) feet on the westerly side of said easterly line and extends from said northerly line of Boylston street to the said southerly line of White place extension.

For a further identification of this description and location reference is hereby made to a plan made by Alexis H. French, Town Engineer, dated January 26, 1911, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, *Town Engineer.*

February 6, 1911.

The said way as so laid out crosses the railroad of the Boston & Albany Railroad Company (the New York Central and Hudson River Railroad Company, lessee) over the tracks thereof and this portion of the laying out is done under authority of the decree of the County Commissioners of the County of Norfolk dated the twenty-fourth day of January, 1911, authorizing the construction of a bridge at least eighteen (18) feet above the tracks of said railroad, and in such manner as not to obstruct said railroad and in accordance with plan in two sheets entitled "Details of Proposed Foot Bridge over Tracks of Boston & Albany Railroad near Walnut Path," Brookline, Mass., October, 1910. J. R. Worcester & Co., Consulting Engineers.

We take land as follows, and we have estimated the damages sustained by the owners of land, rights and interests caused by the laying out of said way and the construction thereof, whether by taking land or by injuring the property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties respectively, as follows:—

Name	Sq. ft. taken.	Award.
Town of Brookline	4,980	
Boston & Albany Railroad Co. (The New York Central & Hudson River Railroad Company, lessee)	780	
Tirzah H. Arnold	1,294	$775.00

We give the owners of land taken for the laying out of said way thirty days from the date of its acceptance by the town in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the way is $3,500.00 and the awards for land and other damages amount to $775.00.

Said way so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Walnut path.

The said plan, and this record are this day filed by us in the office of the Town Clerk.

PHILIP S. PARKER,
JOHN A. CURTIN,
GEORGE S. BALDWIN,
EVERETT M. BOWKER,
Selectmen of Brookline.

Brookline, February 6, 1911.

Received and filed with plan as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., February 6, 1911.

Twenty-second Article,—"To accept and allow the alteration and widening of Cypress street from Washington street to Searle avenue as laid out by the Selectmen and reported to the town at this meeting and to appropriate four thousand one hundred and seventy-five dollars ($4,175.00) for land damages and the cost of construction."

On motion of Philip S. Parker,—

Voted, To accept and allow the alteration and widening of Cypress street from Washington street to Searle avenue as laid out by the Selectmen and reported to the town at this meeting and to appropriate four thousand one hundred and seventy-five dollars ($4,175.00) for land damages and the cost of construction.

On motion of Philip S. Parker,—

Voted, That an entry for the purpose of constructing such laying out is hereby authorized to be made before all claims for damages by reason thereof shall be finally adjusted and determined.

The Selectmen reported in print the laying out of the alteration and widening of Cypress street, of which the following is a true copy:—

Cypress Street Widening.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out, alter and widen Cypress street from Washington street to Searle avenue, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, January 30, 1911, at 4.30 o'clock, P. M., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Mary H. Hargraves, Harriet M. Whitney and Mary A. Matthews, being all the parties known to us from whom land is taken, or who may be interested in the subject-matter, and gave notice to them and all other persons and corporations, if any, who may be interested in the subject-matter, whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out and altered and it is hereby so laid out and altered.

The land over which said alteration and widening is laid out is bounded by a line beginning at the northeasterly corner of Cypress street and Searle avenue; thence running northeasterly by the easterly line of said Cypress street by three lines measuring 92.14, 101.70 and 58.01 feet, respectively, to the stone monument marking the southerly corner of Washington street; thence running northeasterly by said southerly line of Washington street 50.15 feet; thence running westerly by a curve to the left having a radius of 55.31 feet for a distance of 42.79 feet; thence curving to the left with a radius of 215.67 feet for a distance of 126.65 feet; thence running southwesterly by a tangent for a distance of 76.79 feet; thence curving to the left with a radius of 600 feet running southwesterly for a distance of 38.06 to the northeasterly line of Searle avenue; thence running westerly by the said northeasterly line of Searle avenue 6.78 feet to the point of beginning.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated January 16, 1911, approved by us, verified by

our signatures and adopted as a part of this record. Said street is to be constructed in accordance with said plan.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, *Town Engineer.*

February 6, 1911.

We take land as follows, and we have estimated the damages sustained by the owners of land, rights and interests caused by the laying out and alteration of said street and the construction thereof, whether by taking land or by injuring property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties respectively, as follows:—

Name.	Sq. ft. taken.	Award.
Mary H. Hargraves	894	$1,800.00
Harriet M. Whitney	490	600.00
Mary A. Matthews	484	475.00

We give the owners of land taken for the laying out and alteration of said street sixty days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is $1,300.00, and the awards for the land and other damages amount to $2,875.00.

Said street so laid out and altered is hereby reported to the town for acceptance.

The said plan, profile and this record are this day filed by us in the office of the Town Clerk.

PHILIP S. PARKER,
JOHN A. CURTIN,
GEORGE S. BALDWIN,
EVERETT M. BOWKER,
Selectmen of Brookline.

Brookline, February 6, 1911.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., February 6, 1911.

Twenty-third Article,—"To accept and allow Hillside road as laid out by the Selectmen and reported to the town at this meeting."

Under this article a motion to accept Hillside road as laid out and reported by the Selectmen was not carried and Hillside road was not accepted.

Twenty-fourth Article,—"To accept and allow the building lines on both sides of Hillside road as laid out and established by the Selectmen and reported to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That the subject-matter of Article Twenty-four be indefinitely postponed.

Twenty-fifth Article,—"To authorize the Selectmen to release for a nominal consideration to the present owner of the land a right-of-way belonging to the town for a surface-water drain running from Clark road at a point nearly opposite Cotswold road diagonally across the said land to a point at or near the location of the Boston & Albany Railroad."

On motion of Philip S. Parker,—

Voted, To authorize the Selectmen to release, for a nominal consideration to the present owner of the land, a right-of-way belonging to the town for a surface-water drain running from Clark road at a point nearly opposite Cotswold road diagonally across the said land to a point at or near the location of the Boston & Albany Railroad.

Twenty-sixth Article,—To hear and act upon reports of the town officers and committees.

Under this article there had been presented in print the report of a committee appointed at the last annual town meeting, "To see what action the town will take with reference to improving the form and system of issuing and cancelling its bonds, notes and other negotiable instruments."

On motion of Philip S. Parker,—

Voted, That the report of the Committee under the fourteenth article of the warrant for the annual town meeting, March 2, 1910, which has been printed in the Report of the Selectmen on the Articles in the Warrant, be accepted and its recommendation adopted and that the Committee be discharged.

Twenty-seventh Article,—To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

No action was taken under the Twenty-seventh Article.

At twenty minutes before twelve o'clock, on motion of Philip S. Parker,—

Voted, That this meeting be dissolved.

In accordance with the provisions of Chapter 201 of the Acts of 1901, accepted by the town at the annual meeting held March 19th, 1902, and the vote passed by the town at the same meeting, registering turnstiles were used at the two entrances to the hall to determine the number of registered voters admitted to the meeting.

The Selectmen had appointed Police Officers Emery E. Allen and Charles C. Watterson in charge of the two turnstiles, who made a return in writing under oath at the adjournment of the meeting that turnstile No. 1643 had registered three hundred and twenty-eight (328), and turnstile No. 1670 had registered three hundred and seventy-three (373), showing that a total of seven hundred and one (701) registered voters had been admitted to the meeting.

Dissolved.

Attest: EDWARD W. BAKER, *Town Clerk.*

SPECIAL MEETING, APRIL 6, 1911.

In accordance with the provisions of Chapter 201, Acts of 1901, accepted by the Town of Brookline at the town meeting, March 19, 1902, a petition addressed to the Selectmen, signed by at least one hundred legal voters of the town, was filed with the Town Clerk on Monday, March 20, 1911,—being within five days of the final adjournment of the annual town meeting for 1911.

The following is a true copy of the aforesaid petition:—

BROOKLINE, MASS., March 20, 1911.

To the Honorable Board of Selectmen of the Town of Brookline:—

The undersigned, legal voters of the town of Brookline, respectfully represent that at the adjourned Town Meeting held March 15, A.D. 1911, more than 700 legal voters were admitted and present.

Wherefore, they petition that the vote whereby $105,063.00 was appropriated for the Fire Department be submitted to the voters of the town at large for ratification pursuant to the provisions of Chapter 201 of the Acts of 1901, accepted by the town, March 19, 1902.

The foregoing petition was signed by one hundred and eighty-four (184) petitioners. The Town Clerk examined the same in comparison with the current list of registered voters and ascertained therefrom that one hundred and forty-three (143) signatures were the names of registered voters, and certified that fact on the petition which was immediately delivered to the Selectmen.

The Selectmen forthwith issued their warrant for a town meeting for the sole purpose of submitting to the town for ratification the vote specified in the petition.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall in said town, on Thursday, the sixth day of April, 1911, at 1.45 o'clock in the afternoon, to vote by ballot on the question:

"Shall the following vote passed at the adjourned Town Meeting held on the fifteenth day of March, 1911, be ratified?

"Vote: That the sum of one hundred five thousand and sixty-three dollars ($105,063.00) is hereby appropriated for the current annual expenses of the Fire Department."

For this purpose the polls will be opened at two o'clock in the afternoon and may be closed at nine o'clock in the afternoon.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-first day of March, in the year of our Lord one thousand nine hundred and eleven.

PHILIP S. PARKER,
HORACE JAMES,
WALTER J. CUSICK,
EVERETT M. BOWKER,
Selectmen of Brookline.

BROOKLINE, MASS., March 25, 1911.

NORFOLK, SS.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purpose herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done seven days at least before said day of meeting.

WILLARD Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town on Thursday, the sixth day of April, in the year of our Lord, one thousand nine hundred and eleven, and were called to order at fifteen minutes before two o'clock in the afternoon by Philip S. Parker, Esq., Chairman of the Board of Selectmen. The Town Clerk read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants. Philip S. Parker, Esq., Chairman of the Board of Selectmen, took charge of the meeting after the reading of the warrant and acted as presiding election officer.

The Town Hall had been fitted up as a polling place in all respects as required by the laws relating to elections, with the same equipment of voting booths, ballot boxes

and check lists, all arranged for four entrances, as used at the election of state and town officers.

The Ballot Clerks and Tellers appointed by the Selectmen were sworn to faithfully perform their duties as election officers as follows:—

BALLOT CLERKS.

Robert A. Smiley, Francis F. Muldowney.

ASSISTANT BALLOT CLERKS.

Clarence E. Fuller, Edwin A. Robart, D. Edward Beede, Oliver H. Delano, Robert B. Prée, Leo. R. Armstrong, A. Noble Creelman, Michael J. McGrath, Denis T. Harrington, James J. Lynch, John J. Harrington, Edward A. Cahill, William F. Foley, Arthur J. Caulfield.

The ballots, as prepared by the Selectmen, were delivered to the Ballot Clerks, with the lists of registered voters, and the meeting was conducted in all respects according to the laws relating to elections.

The polls were declared open at two o'clock and were kept open until nine o'clock in the evening, at which hour they were declared closed.

The Selectmen, Town Clerk, and other election officers canvassed and counted the ballots deposited, and the result was declared by the Town Clerk as follows:—

Total number of ballots cast, Twenty-two hundred and fourteen (2,214).

On the question: Shall the following vote passed at the adjcurned Town Meeting held on the fifteenth day of March, 1911, be ratified?

Vote: That the sum of one hundred five thousand and sixty-three dollars ($105,063.00) is hereby appropriated for the current annual expenses of the Fire Department.

"Yes," eleven hundred and four (1104).
"No," eleven hundred and one (1101).
Blanks, nine (9).
Total, 2214.

The vote as submitted on the ballot for ratification by this meeting, having received a majority of the votes cast thereon, the appropriation of one hundred and five thousand and sixty-three dollars ($105,063.00) for the current

annual expenses of the Fire Department, should therefore be considered as ratified.

The ballots cast, the check lists and tally sheets used were sealed up in open meeting, properly endorsed and delivered into the custody of the Town Clerk.

The meeting was then declared dissolved by the Presiding Election Officer.

Dissolved:

Attest: EDWARD W. BAKER,
Town Clerk.

STATE PRIMARY, SEPTEMBER 26, 1911.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Tuesday, the twenty-sixth day of September, 1911, it being the sixth Tuesday preceding the State election, at two o'clock in the afternoon, to give in their votes to nominate the following State and County Officers and to elect the following committees and delegates, to wit:—

To nominate Governor of the Commonwealth; Lieutenant-Governor; Secretary of the Commonwealth; Treasurer and Receiver-General; Auditor of the Commonwealth; Attorney-General; Councillor for the Second Councillor District; Senator for the Second Norfolk Senatorial District; two representatives in the General Court for the Second Norfolk Representative District; one County Commissioner for the County of Norfolk for three years; two Associate Commissioners for the County of Norfolk for three years; one Register of Deeds for the County of Norfolk for three years; one Clerk of Courts for the County of Norfolk for five years.

To elect District members of State Committees; Members of Town Committees; Delegates to State Conventions.

For these purposes the polls will be opened at fifteen minutes after two o'clock in the afternoon, and will be closed at thirty minutes after eight o'clock in the evening.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-eighth day of August, in the year of our Lord one thousand nine hundred and eleven.

PHILIP S. PARKER,
HORACE JAMES,
EVERETT M. BOWKER,
WALTER J. CUSICK,
JOHN A. CURTIN,
Selectmen of Brookline.

BROOKLINE, MASS., September 13, 1911.

NORFOLK, ss.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to

meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done seven days at least before said day of meeting.

EDWARD D. TUCKER, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town on Tuesday, the twenty-sixth day of September, in the year of our Lord one thousand nine hundred and eleven, and were called to order at two o'clock in the afternoon by Philip S. Parker, Esq., Chairman of the Board of Selectmen. The Town Clerk read the warrant calling the meeting and the return thereon of the Constable who served the same upon the inhabitants. Philip S. Parker, Esq., Chairman of the Board of Selectmen, took charge of the meeting after the reading of the warrant and acted as presiding election officer.

The Town Hall had been fitted up as a polling place in all respects as required by the laws relating to the elections, with the same equipment of voting booths, ballot boxes and check lists,—all arranged for four entrances, as used at the election of state and town officers.

The Ballot Clerks and Tellers appointed by the Selectmen were sworn to faithfully perform their duties as election officers as follows:—

BALLOT CLERKS.

Robert A. Smiley, Francis F. Muldowney.

ASSISTANT BALLOT CLERKS.

Murray T. Edgar, Clarence E. Fuller, Edwin A. Robart, D. Edward Beede, Oliver H. Delano, Robert B. Pree, Leo R. Armstrong, Alex S. Arthur, Michael J. McGrath, Denis T. Harrington, James J. Lynch, John J. Harrington, Edward A. Cahill, William F. Foley, Arthur J. Caulfield, Thomas M. Daley, Francis T. Donahue, Thomas H. Finan.

TELLERS.

Alfred E. Kenrick, James J. Fegan, Caleb W. Long, Thomas B. McCaffery, William J. Love, John A. McMahon, Fred T. O'Day.

The above-named election officers with the Selectmen and Town Clerk represented equally the two leading political parties.

The ballots, as received by the Town Clerk from the Secretary of the Commonwealth, were delivered by him to the Presiding Officer in three sealed packages, marked as below, and a receipt taken for the same.

Primary election, September 26, 1911:
Republican Primary ballots, 4900, town of Brookline.
Democratic Primary ballots, 4900, town of Brookline.
Democratic Progressive Primary ballots, 2450, town of Brookline.

The ballots were delivered to the ballot clerks, with the lists of registered voters, and the meeting was conducted in all respects according to the laws relating to elections.

The polls were declared open at ten minutes after two o'clock and were kept open until thirty minutes after eight o'clock in the evening at which hour they were declared closed.

Total number of ballots cast was fourteen hundred and thirty-two (1,432) as follows:—

Box No. 1, A-D	410
Box No. 2, E-K	326
Box No. 3, L-P	317
Box No. 4, Q-Z	379
	1,432

The ballots were divided according to parties as follows:—

Republican	1,235
Democratic	190
Democratic Progressive	6
	1,432

The Selectmen, Town Clerk, and other election officers canvassed and counted the ballots deposited and the result was declared by the Town Clerk at half past two o'clock in the morning of Wednesday, September 27, 1911.

After the result of the balloting was announced the ballots cast, with the check lists and tally sheets used, were all enclosed in one package which was sealed and properly endorsed in public meeting and delivered into the custody of the Town Clerk.

The meeting was then declared dissolved at twenty minutes before three o'clock A. M., Wednesday, September 27, 1911, by Philip S. Parker, the Presiding Election Officer.

Dissolved:

Attest: EDWARD W. BAKER,
Town Clerk.

BROOKLINE, MASS., September 27, 1911.

The Town Clerk this day filled out and certified to the votes cast at the State Primary held in Brookline on September 26, 1911, using therefor the blanks supplied by the Secretary of the Commonwealth, and filed such returns at the office of the Secretary of the Commonwealth at the State House, Boston.

Attest: EDWARD W. BAKER,
Town Clerk.

GENERAL ELECTION, NOVEMBER 7, 1911.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Tuesday, the seventh day of November, 1911, it being the Tuesday next after the first Monday in said month, at six o'clock in the forenoon, to give in their votes for the following State and County officers, to wit:—

Governor of the Commonwealth; Lieutenant-Governor; Secretary of the Commonwealth; Treasurer and Receiver-General; Auditor of the Commonwealth; Attorney-General; Councillor for the Second Councillor District; Senator for the Second Norfolk Senatorial District; two Representatives in the General Court for the Second Norfolk Representative District; one County Commissioner for the County of Norfolk for three years; one Register of Deeds for the County of Norfolk for five years; one Clerk of Courts for the County of Norfolk for five years; also for the purpose of giving in their votes "Yes" or "No" on the Amendment to the Constitution authorizing the use of Voting Machines at all elections (Chapter 75, Resolves of 1911), and the Amendment to the Constitution increasing the power of the Legislature to authorize the taking of Land and Property for Highways or Streets (Chapter 91, Resolves of 1911), and also on the acceptance of Chapter 634, Acts of 1911, entitled "An Act to authorize the counties of the Commonwealth to establish retirement systems for their employees."

All to be voted for on one ticket.

For these purposes the polls will be opened at fifteen minutes after six o'clock in the forenoon, and may be closed at thirty minutes after four o'clock in the afternoon.

Hereof fail not, and make due return of this warrant to the Selectmen, with your doings thereon, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this sixteenth day of October, in the year of our Lord one thousand nine hundred and eleven.

PHILIP S. PARKER,
HORACE JAMES,
JOHN A. CURTIN,
EVERETT M. BOWKER,
WALTER J. CUSICK,
Selectmen of Brookline.

BROOKLINE, MASS., October 27, 1911.

NORFOLK, ss. Brookline, Mass., October 27th, 1911.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections to meet at the time and place, and for the purpose herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done seven days at least before said day of meeting.

WILLARD Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Tuesday, the seventh day of November, in the year of our Lord one thousand nine hundred and eleven, and were called to order at six o'clock in the morning by Philip S. Parker, Esq., the Chairman of the Board of Selectmen. The Town Clerk read the warrant calling the meeting, and the return thereon of the constable who served the same upon the inhabitants.

Philip S. Parker, Esq., Chairman of the Board of Selectmen, took charge of the meeting after the reading of the warrant, and acted as presiding election officer.

The Town Hall had been fitted up as a polling place, a space railed off, in which were compartments or shelves for the convenience of voters in examining and marking their ballots, and each compartment was supplied with cards of instruction and other necessary facilities. Cards of instruction and specimen ballots were also posted in different parts of the building outside of the rail; all in accordance with the laws of the Commonwealth of Massachusetts governing elections.

The arrangement of the railing was such that four entrances were provided for voters to enter the space inside the rail for the purpose of marking their ballots, with four ballot-boxes to correspond, one for each entrance. The Ballott Clerks were provided with duplicate sets of the list of registered male voters of the town, as prepared by the Registrars of Voters for use at this election. These alphabetical lists of voters were divided to correspond with the four entrances and four ballot-boxes as follows:

Entrance No. 1—A to D inclusive.
Entrance No. 2—E to K inclusive.
Entrance No. 3—L to P inclusive.
Entrance No. 4—Q to Z inclusive.

The Ballot Clerks and Tellers appointed by the Selectmen, and with the Selectmen and Town Clerk, representing equally the two leading political parties, were sworn to the faithful discharge of their duties as election officers:—

BALLOT CLERKS.

Robert A. Smiley, Francis F. Muldowney.

ASSISTANT BALLOT CLERKS.

Murray T. Edgar, Edwin A. Robart, Clarence E. Fuller, D. Edward Beede, Oliver H. Delano, Robert P. Pree, Alex. S. Arthur, Geo. W. Pree, William F. Foley, Denis T. Harrington, Michael J. McGrath, John J. Harrington, Edward A. Cahill, Thomas M. Daley, Thomas B. McCaffery, Martin J. Cochrane, Francis T. Donahue.

CHECKERS AND COUNTERS.

Alfred E. Kenrick, Gabriel C. Morison, John W. Shields, Alfred H. Clinkard, James J. Fegan, Joseph A. Gohl, Grant William Nowell, William J. Love, James M. Driscoll, Fred T. O'Day, John E. Griffin, Thomas H. Finan, Arthur L. Caulfield, James M. Duffy.

The Town Clerk delivered to the presiding election officer a sealed package as received by him from the Secretary of the Commonwealth marked "First Set of Ballots (5,700), Town of Brookline," together with specimen ballots and cards of instruction, and took his receipt therefor in conformity with law. The presiding election officer publicly broke the seal on the package and delivered the ballots to Fred M. Bond and Francis F. Muldowney, the ballot clerks who had been duly appointed by the Selectmen.

The election officers stationed at the four entrances and four ballot-boxes were supplied with the list of voters, and with the official ballots, with instructions to deliver such ballots only to voters whose names were found and checked on the lists at the entrances, and to allow no voter to deposit his ballot until his name was found and checked on the lists at the ballot-boxes.

The four ballot-boxes, as inspected and approved by the Secretary of the Commonwealth to be used at elections, were then opened in public meeting, examined by the election officers, and found to be empty. The register of each box was set at zero (0), the boxes locked, and the keys were retained by James Gleason, the Sergeant of Police at the polling place.

At ten minutes past six o'clock in the forenoon the polls

were declared open for the reception of ballots, and were kept open until thirty minutes past four o'clock in the afternoon, when, after due notice, they were declared closed.

By unanimous consent of the election officers, the ballot-boxes were opened several times during the day for the purpose of removing the ballots to be counted.

At the close of the polls the registers of the ballot-boxes read as follows:

Box No. 1, "Ideal"	1,081
Box No. 2, "Ideal"	994
Box No. 3, "Ideal"	981
Box No. 4, "U. S."	1,012
	4,068

The ballots taken from the different boxes were counted separately and found to be as follows:

From Ballot Box No. 1, A-D	1,081
Ballot Box No. 2, E-K	994
Ballot Box No. 3, L-P	981
Ballot Box No. 4, Q-Z	1,012
	4,068

The Ballot Clerks reported the names checked at the entrances to be forty hundred and sixty-eight (4,068).

The election officers canvassed the ballots deposited in the ballot-boxes, and the whole number was forty hundred and sixty-eight (4,068), which were sorted, counted, and recorded, and declaration thereof made in open town meeting, as required by law.

In counting the ballots the blank forms approved by the Secretary of the Commonwealth were used by the election officers.

Governor.

James F. Carey, of Haverhill, Socialist, had twenty-six (26).

Eugene N. Foss, of Boston, Democratic, had ten hundred and ninety-nine (1099).

Eugene N. Foss, of Boston, Democratic Progressive, had two hundred and fifty-six (256).

The returns of the election, for recording which blank forms had been received by the Town Clerk from the Secretary of the Commonwealth, and the Clerk of Courts of Norfolk County, were filled up, signed by the Selectmen and Town Clerk, sealed up in open meeting and delivered to the Town Clerk to be forwarded to their respective places of destination.

The meeting was then dissolved at forty-five minutes after five o'clock in the evening by Philip S. Parker, the presiding election officer.

Dissolved.

Attest: EDWARD W. BAKER,
Town Clerk.

Brookline, Mass., November 15, 1911.

This is to certify that certificates of the election of John A. Curtin of Brookline and John H. Sherburne of Brookline, as Representatives in the General Court, Second Norfolk District, were delivered in hand to the parties named.

Attest: Edward W. Baker,
Town Clerk.

SPECIAL MEETING, DECEMBER 29, 1911.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, ss.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the Town Hall, in said town, on Friday, the twenty-ninth day of December, 1911, at half past seven o'clock in the evening, for the following purposes, to wit:—

First, To choose a Moderator.

Second, To make an additional appropriation of three thousand one hundred and fifty dollars ($3,150.00) for maintaining the public schools, specifically divided as follows:—

Grammar and Primary Schools	$2,000.00
General School Expenses	850.00
Manual Training	300.00

Third, To authorize the Water Board to contract for water pipe for the season of 1912 to an amount not exceeding seven thousand dollars ($7,000.00).

Fourth, To make an additional appropriation of fifteen hundred dollars ($1,500.00) for suppressing gypsy and brown-tail moths.

Fifth, To authorize the Superintendent of the work of suppressing gypsy and brown-tail moths to contract to the amount of four thousand dollars ($4,000.00) for the purchase of five spraying machines to be used in this work.

Sixth, To make an additional appropriation of four hundred and fifty dollars ($450.00) for the Town Clerk's department.

Seventh, To make an additional appropriation of eleven hundred and fifty dollars ($1,150.00) for legal expenses.

Eighth, To make an additional appropriation of forty dollars ($40.00) for the department of weights and measures.

Ninth, To make an additional appropriation of eight hundred dollars ($800.00) for the maintenance of parks and public grounds.

Tenth, To make an additional appropriation of four thousand dollars ($4,000.00) for the construction of surface-water drains.

Eleventh, To make an additional appropriation of three thousand dollars ($3,000.00) for the maintenance of highways.

Twelfth, To provide for the appointment of a committee which shall report at the next annual meeting upon the annual appropria-

tions to be recommended by the Selectmen and other town officers and committees.

Thirteenth, To see if the town will vote to select its Selectmen at the next annual meeting, one for the term of one year, two for terms of two years, and two for terms of three years, and thereafter one or two for the term of three years as the term of office of one or two expires, all in accordance with Section 367 of Chapter 560 of the Acts of 1907.

Fourteenth, To see if the town will vote that the power which it has to conduct and promote play, sport and physical education on its public playgrounds be exercised by a Playground Commission, to be appointed by the Selectmen; and if so, to see if the town will recommend to the Selectmen that such Playground Commission consist of five members, including the three members of the Committee on Public Baths and Gymnasium, one member of the School Committee, and one member of the Board of Park Commissioners.

Fifteenth, To act upon the report of the committee appointed under the tenth article in the Warrant for the town meeting of June 1, 1910, upon the question of establishing building limits in the town and changing the Building Law, and to hear and act upon any supplemental report of such committee.

Sixteenth, To amend the Building Law in accordance with the recommendations contained in the reports of the committee referred to in the preceding article.

Seventeenth, To authorize and direct the Board of Selectmen to take the necessary steps for securing a legislative act enabling the town to annually appropriate, if it so votes, a sum of money not exceeding two thousand dollars ($2,000.00), the said sum to be held and administered by the Board of Health as a Hospital Relief Fund for needy residents of Brookline who are not aided by the Poor Department and who require medical or surgical treatment in a general or special hospital.

Eighteenth, To see if the town will authorize the Selectmen to place the Edward Devotion House on Harvard street in charge of the Brookline Historical Society, to be used by that society and other local societies as a meeting place and as a museum for articles of historical value and interest.

Nineteenth, To authorize and instruct the Selectmen to petition the next General Court for such legislation as may be necessary to authorize the town of Brookline to pay an annuity to the widow of Joseph W. Donovan.

Twentieth, To see if the town will vote to change the name of the southeasterly end of Clinton road, from its intersection with Buckminster road to Boylston street, to Buckminster road.

Twenty-first, To see if the town will vote to change the name of the northwesterly end of Fisher avenue, from its intersection with Clinton road to Chestnut Hill avenue, to Clinton road.

Twenty-second, To see if the town will vote to purchase the lot of land with the buildings thereon situated in the rear of the Town Hall, bounded by Pierce street, Prospect street, Harvard street, and land now or formerly of Wason, containing approximately 34,968 square feet, in accordance with the agreement made therefor by the Selectmen, and to appropriate the sum of forty-one thousand five hundred dollars ($41,500.00) for that purpose, and to authorize the Treasurer to borrow the same.

Twenty-third, To hear and act upon reports of town officers and committees.

Twenty-fourth, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this eighteenth day of December, in the year of our Lord one thousand nine hundred and eleven.

PHILIP S. PARKER,
HORACE JAMES,
JOHN A. CURTIN,
EVERETT M. BOWKER,
WALTER J. CUSICK,
Seectmen of Brookline.

Norfolk, ss. Brookline, Mass., December 23, 1911.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done four days at least before said day of meeting.

WILLARD Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Friday, the twenty-ninth day of December, in the year of our Lord one thousand nine hundred and eleven, and were called to order at half past seven o'clock in the evening by the Town Clerk, who read the warrant call-

ing the meeting, and the return thereon of the constable who served the same upon the inhabitants.

First Article,—"To choose a Moderator."

The meeting nominated and elected Hon. Fred H. Williams as Moderator.

Second Article,—"To make an additional appropriation of three thousand one hundred and fifty dollars ($3,150.00) for maintaining the public schools, specifically divided as follows:—

On motion of Franklin W. Hobbs,—

Voted, That an additional appropriation of three thousand one hundred and fifty dollars ($3,150.00) be made for maintaining the public schools, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated, to be specifically divided as follows:—

Grammar and Primary Schools	$2,000.00
General School Expenses	850.00
Manual Training	300.00

Third Article,—"To authorize the Water Board to contract for water pipe for the season of 1912 to an amount not exceeding seven thousand dollars ($7,000.00)."

On motion of Timothy J. Burke,—

Voted, That the Water Board be authorized to contract for water pipe for the season of 1912 to the extent of seven thousand dollars ($7,000.00).

Fourth Article,—"To make an additional appropriation of fifteen hundred dollars ($1,500.00) for suppressing gypsy and brown-tail moths."

On motion of Ernest B. Dane,—

Voted, That an additional appropriation of fifteen hundred dollars ($1500.00) be made for suppressing gypsy and brown-tail moths, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Fifth Article,—"To authorize the Superintendent of the work of suppressing gypsy and brown-tail moths to contract to the amount

of four thousand dollars ($4,000.00) for the purchase of five spraying machines to be used in this work."

On motion of Ernest B. Dane,—

Voted, That the Superintendent of the work of suppressing gypsy and brown-tail moths be authorized to contract to the amount of four thousand dollars ($4,000.00) for the purchase of five spraying machines to be used in this work.

Sixth Article,—"To make an additional appropriation of four hundred and fifty dollars ($450.00) for the Town Clerk's department."

On motion of Philip S. Parker,—

Voted, That an additional appropriation of four hundred and fifty dollars ($450.00) be made for the Town Clerk's department, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Seventh Article,—"To make an additional appropriation of eleven hundred and fifty dollars ($1,150.00) for legal expenses."

On motion of Philip S. Parker,—

Voted, That an additional appropriation of eleven hundred and fifty dollars ($1,150.00) be made for legal expenses, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Eighth Article,—"To make an additional appropriation of forty dollars ($40.00) for the department of weights and measures."

On motion of Philip S. Parker,—

Voted, That an additional appropriation of forty dollars ($40.00) be made for the department of Weights and Measures, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Ninth Article,—"To make an additional appropriation of eight hundred dollars ($800.00) for the maintenance of parks and public grounds."

On motion of Desmond FitzGerald,—

Voted, That an additional appropriation of eight hundred

dollars ($800.00) be made for the maintenance of parks and public grounds, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Tenth Article,—"To make an additional appropriation of four thousand dollars ($4,000.00) for the construction of surface-water drains."

On motion of Philip S. Parker,—

Voted, To make an additional appropriation of four thousand dollars ($4,000.00) for the construction of surface-water drains, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Eleventh Article,—"To make an additional appropriation of three thousand dollars ($3,000.00) for the maintenance of highways."

No action was taken under the Eleventh Article.

Twelfth Article,—"To provide for the appointment of a committee which shall report at the next annual meeting upon the annual appropriations to be recommended by the Selectmen and other town officers and committees."

On motion of Philip S. Parker,—

Voted, That a Committee be appointed consisting of the Moderator of this meeting as chairman, the Town Clerk as secretary, the Selectmen, and thirty citizens to be appointed by the Moderator of this meeting at any time after the adjournment thereof, to consider the annual appropriations recommended by the Selectmen and other officers and committees for the next financial year, and to report thereon in print at the next annual town meeting.

Thirteenth Article,—"To see if the town will vote to elect its Selectmen at the next annual meeting, one for the term of one year, two for terms of two years, and two for terms of three years, and thereafter one or two for the term of three years as the term of office of one or two expires, all in accordance with Section 367 of Chapter 560 of the Acts of 1907."

On motion of Eugene P. Carver,—

Voted, That the subject matter of the thirteenth article be indefinitely postponed.

The vote on this motion was taken by count. The Moderator appointed Arthur A. Cushing, Daniel A. Rollins, Frederick H. Perkins, J. Randolph Coolidge, Jr., John H. Sherburne and D. Blakely Hoar to serve as Tellers and they were sworn by the Town Clerk.

The Tellers reported the vote as follows—

"Yes," One hundred and ninety three (193);

"No," Seventy-four (74).

Later in the meeting a motion to reconsider the action taken under the Thirteenth Article was offered by Daniel J. Daley, and the vote, by count, was reported by the same Tellers as follows:—

"Yes," one hundred and eighteen (118);

"No," one hundred and sixty-nine (169).

Fourteenth Article,—"To see if the town will vote that the power which it has to conduct and promote play, sport and physical education on its public playgrounds be exercised by a Playground Commission, to be appointed by the Selectmen; and if so, to see if the town will recommend to the Selectmen that such Playground Commission consist of five members, including the three members of the Committee on Public Baths and Gymnasium, one member of the School Committee and one member of the Board of Park Commissioners."

Voted, That the power the town has to conduct and promote play, sport, and physical education on its public playgrounds be exercised by a Playground Commission to be appointed by the Selectmen.

Voted, It is hereby recommended to the Selectmen that the Playground Commission referred to in the preceding vote consists of five members, inculding three members of the Committee on Public Baths and Gymnasium, one member of the School Committee, and one member of the Board of Park Commissioners.

Fifteenth Article,—"To act upon the report of the committee appointed under the tenth article in the Warrant for the town meeting of June 1, 1910, upon the question of establishing building limits in the town and changing the Building Law, and to hear and act upon any supplemental report of such committee."

Sixteenth Article,—"To amend the Building Law in accordance with the recommendations contained in the reports of the committee referred to in the preceding article."

On motion of Charles H. Pearson,—

Voted, That Article XXI of the Building Law relating to Garages, adopted by the town March 15, 1911, be ammended by substituting Article XXI, Sections 1 to 7 inclusive, reported in print to this meeting and amended so as to read as follows:—

ARTICLE XXI.

Garages.

Section 1. By the term "garage" is meant a building, or that portion of a building, in which one or more automobiles, motor cars or other vehicles (all hereinafter referred to as automobiles), charged with, or containing a volatile inflammable liquid for fuel or power, are kept, whether said automobile is kept for use, for sale, for rental, for exhibition, for demonstrating or for other purposes.

Section 2. By the term "volatile inflammable liquid" is meant any liquid that will emit inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in the open air.

Section 3. Garages.—All buildings used as garages within the town of Brookline shall be of fireproof construction, shall be properly ventilated and, on all sides having windows or other openings, shall have an open space of at least five feet from any other building, and no building used as a garage shall have a basement or cellar except one of such dimensions and size as shall be approved by the commissioner for use only for a boiler room for the purpose of heating the building. Such garages shall not be more than forty feet in height and shall have roofs of slate, tile, or other equally fire-resisting material, approved by the commissioner. The floors must be of concrete or granolithic. Every garage within which is placed, located or maintained a pump attached to storage tank for keeping of volatile inflammable liquids shall enclose the pump with a pump compartment, whereof the enclosure shall be of wire-mesh screen of not smaller than No. 6 gauge wire of not more than two-inch mesh.

Provided, however, that garages used by not more than two automobiles and not for business purposes may be built of frame construction if plastered throughout on the interior with approved incombustible material, and located not less than ten feet from the lot line and not less than twenty feet from all other buildings except the dwelling of the owner.

Section 4. All electric dynamos and motors not actually part of the automobile shall be located not less than four feet above the floor. All incandescent lights less than ten feet from the floor shall be properly encased in vapor-tight globes protected by approved wire guards, and all arc lamps shall be located at least ten

feet above the floor and shall be of the enclosed type. No provision in this section shall apply to boilers or furnaces used for heating when the same are installed in accordance with the requirements of the commissioner.

Section 5. Movable incandescent lights in a garage shall be protected by vapor-tight globes enclosed in approved metal cages and shall be fitted with keyless sockets, and all electric switches and plugs shall be permanently located at least four feet above the floor.

Section 6. If electric charging apparatus is installed or placed in a garage all such apparatus, excepting the wires leading to the automobiles to be charged, shall be placed within a separate room, separated from the main garage by fireproof floors, ceilings and partitions which shall not be inferior in fire-resisting qualities to re-enforced concrete construction of four inches in thickness, and any openings from said room into the main garage shall be protected by approved fire doors. Provided, however, that the provisions of this Article shall not apply to buildings occupied for garage purposes prior to March 15, 1911, or for which permits to build had already been issued, if in the opinion of the Selectmen all reasonable precautions have been taken to insure safety.

Section 7. The use and occupation of all public and private garages in the town shall be subject to the provisions of Chapter 370 of the Acts of the year 1904, as amended by Chapter 280 of the Acts of the year 1905, Chapter 502 of the Acts of the year 1908 and Chapter 223 of the Acts of the year 1910, and of any amendments thereof or additions thereto now or hereafter made; and to all rules and regulations from time to time established in accordance with said acts by the district and fire inspection department of the Massachusetts district police, and such further restrictions and regulations as the Board of Selectmen shall impose.

The vote on the adoption of the foregoing amendent was taken by count as follows:—

"Yes," One hundred eighty-one (181);

"No," Eleven (11).

A motion to authorize the Board of Selectmen to petition the General Court for legislation relative to the height of buildings in Brookline was offered, on which the vote, by count, was as follows:—

"Yes," One hundred thirteen (113);

"No," One hundred and sixty-one (161).

On motion of Timothy Driscoll,—

Voted, That the report be recommitted to the Committee

and further consideration of the matter be referred to the next Annual Town Meeting.

Seventeenth Article,—"To authorize and direct the Board of Selectmen to take the necessary steps for securing a legislative act enabling the town to annually appropriate, if it so votes, a sum of money not exceeding two thousand dollars ($2,000.00), the said sum to be held and administered by the Board of Health as a Hospital Relief Fund for needy residents of Brookline who are not aided by the Poor Department and who require medical or surgical treatment in a general or special hospital."

On motion of H. Lincoln Chase,—

Voted, That the Moderator of this meeting be authorized to appoint a Committee of Five, before or after adjournment, to consider the subject matter of the Seventeenth Article of the Warrant, and to report thereon at the next annual town meeting.

The Moderator appointed the committee to consist of James F. Jackson, Albert L. Lincoln, Frank E. James, H. Lincoln Chase, M. D., Arthur A. Cushing, M. D.

Eighteenth Article,—"To see if the town will authorize the Selectmen to place the Edward Devotion House on Harvard street in charge of the Brookline Historical Society, to be used by that Society and other local societies as a meeting place and as a Museum for articles of historical value and interest."

On motion of Charles H. Stearns,—

Voted, That the Selectmen be authorized to place the Edward Devotion House on Harvard Street in charge of the the Brookline Historical Society to be used by that Society and other local societies as a meeting place and as a Museum for articles of historical value and interest.

Nineteenth Article,—"To authorize and instruct the Selectmen to petition the next General Court for such legislation as may be necessary to authorize the town of Brookline to pay an annuity to the widow of Joseph W. Donovan."

On motion of Walter J. Cusick,—

Voted, That the Selectmen be authorized and instructed to petition the next General Court for such legislation as may be necessary to authorize the town of Brookline to pay an annuity to the widow of Joseph W. Donovan.

Twentieth Article,—"To see if the town will vote to change the name of the southeasterly end of Clinton road, from its intersection with Buckminster road to Boylston street, to Buckminster road."

On motion of Philip S. Parker,—

Voted, That the name of the southeasterly end of Clinton road, from its intersection with Buckminster road to Boylston street, be changed to Buckminster road.

Twenty-first Article,—"To see if the town will vote to change the name of the northwesterly end of Fisher avenue, from its intersection with Clinton road to Chestnut Hill avenue, to Clinton road."

On motion of Philip S. Parker,—

Voted, That the northwesterly end of Fisher avenue, from its intersection with Clinton road to Chestnut Hill avenue, be changed to Clinton road.

Twenty-second Article,—"To see if the town will vote to purchase the lot of land with the buildings thereon situated in the rear of the Town Hall, bounded by Pierce street, Prospect street, Harvard street, and land now or formerly of Wason, containing approximately 34,968 square feet, in accordance with the agreement made therefor by the Selectmen, and to appropriate the sum of forty-one thousand five hundred dollars ($41,500.00) for that purpose, and to authorize the Treasurer to borrow the same."

On motion of Philip S. Parker,—

Voted, That the lot of land with the buildings thereon situated in the rear of the Town Hall, bounded by Pierce street, Prospect street, Harvard street, and land now or formerly of Wason, containing approximately 34,968 square feet, be purchased in accordance with the agreement made therefor by the Selectmen; and that the sum of forty-one thousand five hundred dollars ($41,500.00) be appropriated for that purpose; and that fifteen hundred dollars ($1,500.00) of the said sum be included in the tax levy of 1912.

Philip S. Parker offered the following vote:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow forty thousand dollars ($40,000.00), appropriated at this meeting for the purchase of the lot of land with the buildings thereon situated in the rear of the Town Hall, bounded by Pierce street, Prospect

street, Harvard street, and land now or formerly of Wason, containing approximately 34,968 square feet. Bonds or notes shall be issued therefor, to be signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four percentum per annum. Such bonds or notes shall be dated January 1, 1912, and shall be made payable in such annual proportionate payments as shall extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank, to be designated by the Selectmen.

The vote was taken by count:—
Arthur A. Cushing, Daniel A. Rollins, Frederick H. Perkins, J. Randolph Coolidge, Jr., John H. Sherburne and D. Blakely Hoar, who had been previously appointed by the Moderator and sworn by the Town Clerk, acted as Tellers.

The Tellers reported the whole number voting as one hundred and thirty (130) as follows:—

"Yes," one hundred and thirty (130);

"No," none (0), and the vote was declared passed by more than two-thirds of the voters present and voting thereon.

Twenty-third Article,—"To hear and act upon reports of town officers and committees."

Twenty-fourth Article,—"To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles."

No action was taken under the Twenty-third and Twenty-fourth Articles.

At thirty minutes past ten o'clock, on motion of Philip S. Parker,—

Voted, That this meeting be dissolved.

In accordance with the provisions of Chapter 201 of the Acts of 1901, accepted by the town at the annual meeting held March 19th, 1902, and the vote passed by the town at the same meeting, registering turnstiles were used at the two entrances to the hall to determine the number of registered voters admitted to the meeting.

The Selectmen had appointed Police Officers Emery E. Allen and Charles C. Watterson in charge of the two turnstiles, who made a return in writing under oath at the adjournment of the meeting that turnstile No. 1643 had registered one hundred and seventy-two (172), and turnstile No. 1670 had registered one hundred and ninety-two (192), showing that a total of three hundred and sixty-four (364) registered voters had been admitted to the meeting.

Dissolved.

Attest: EDWARD W. BAKER, *Town Clerk.*

DISTRICT No. 5, SOUTH—Mr. Curtin.

ANNUAL REPORT

The Selectmen submit the following report for the year ending December 31, 1911:—

No improvements of unusual magnitude have been undertaken by the town during the past year. The attention of the Selectmen has been paid largely to the routine matters in the administration of the town's affairs, to executing the few improvements entrusted to their care at the last annual town meeting and to completing those which had been begun previously.

The new foot-bridge over the railroad, connecting Boylston street with Davis avenue, is substantially completed. Temporary wooden steps have been placed on the southerly end as we desired to have the bridge used in its present condition for a while before determining the method of construction of the permanent approach to it from Boylston street.

We call attention to the excellent condition of the town's finances, hereinafter set forth in detail. While this felicitous condition should not be taken advantage of for reckless expenditures, it seems a propitious time for the town to enter upon one or two expensive improvements which the Selectmen think are urgent.

The important matters which are to be brought before the town for action at the coming annual meeting have been considered by the members of the Committee on Municipal Improvements, and the Selectmen have acted in conjunction with them and with due consideration to their advice.

The extension of the Lee street sewer and surface water drain is extremely urgent at the present time in order to provide sewage facilities for the region about Clyde street and drainage for marsh land in its vicinity. In addition to this the widening of Boylston street, between Village Square and Cypress street, and the establishment of building lines on Pleasant street are matters which should admit of no delay if possible. The questions involved will be explained and discussed more fully in our report on the Articles in the Warrant.

The new streets laid out by the town in 1910 have all been constructed and are open for travel. The new school building on Westbourne terrace, appropriately named the Michael Driscoll School, was completed during the summer and opened for the fall term.

Valuation and Tax Rate.

The valuation of land increased $134,500.00, and the valuation of buildings increased $1,948,300.00, making the total increase in real estate values $2,082,800.00, while the valuation of personal property decreased $256,100.00, making the net increase in the whole valuation $1,826,700.00. The increase in land valuation was due chiefly to the opening of new streets, which more than offset the lowering of land values in other parts of the town. The decrease in the valuation of personal property was due in part to the distribution of estates and to persons with taxable property moving to other localities.

There was a decrease in the tax rate from $12.50 in 1910 to $12.20 in 1911, and even with this reduction a good balance of free cash remains unexpended at the end of the year.

Finances.

The balance of free cash just referred to amounts to $98,863.89, and this will be available for the current expenses of the coming year. At the end of 1910 the balance amounted to $38,132.56. The current balance of $98,863.89 is made up of taxes amounting to $43,385.89, which were collected above the sum that it was fairly estimated would be collected; excess of receipts amounting to $25,585.32 above the sum that could be legally estimated; a balance of the annual appropriations unexpended amounting to $33,905.62; and a balance unexpended of special appropriations which had been closed amounting to $18,976.53. All of these items amount to $121,853.36, from which there has been taken for additional appropriations, under authority of town votes or otherwise, the sum of $22,989.47, leaving a balance of $98,863.89, above mentioned. It is gratifying in this connection to note that practically ninety-six per cent. of the whole tax levy was collected, leaving only four per cent. uncollected.

New permanent loans have been made during the year, amounting to $134,000.00, being $35,000.00 for the purchase of land on Westbourne terrace; $44,000.00 for the construction of highways, and $55,000.00 for the erection of the Michael Driscoll School. Payments of existing debt during the year, including instalment coming due January first on the first mentioned loan, amounted to $172,481.00. The total direct debt of the town at the end of the year was $1,500,287.00, being $38,481.00 less than the debt at the end of the year 1910. Of this amount, $288,357.00 was for water supply, $35,000.00 for the separation of sewers and surface water drains, and $277,140.00 for public playgrounds, the sum of these three being $600,497.00 and being debt exist-

ing, by authority of law, outside of the limit of indebtedness under the Municipal Indebtedness Act. The total debt which the town can incur under present conditions under the Act is $3,313,821.00, or three per cent. of its valuation.

The present indebtedness, therefore, which is governed by this Act is $899,790.00 (i. e., $1,500,287.00 less $600,497.00, the amount mentioned above), or $757,120.50 less than one-half the amount which the town is authorized to borrow under the Act for general purposes.

The sum of $575,000.00 has been borrowed during the year in anticipation of taxes, and has been paid off. There is outstanding authority, which has not been availed of, to borrow $24,000.00 for paving Coolidge's Corner, and $13,500.00 for the extension of the driven well system. The debt, which will mature during the coming year, amounts to $162,481.00. Payments of these amounts are provided for in detail as follows:—

Date Borrowed		1911	1912
1891-1895	Riverdale Park construction...	$14,830 00	$11,330 00
1898-1906	Land for playgrounds.....	9,500 00	6,000 00
1910	Land for playgrounds.....	3,420 00	3,420 00
1903	Old Boston Reservoir.....	5,000 00	5,000 00
1894	Harvard street widening.....	3,750 00	3,750 00
1894	Washington street widening...	3,050 00	3,050 00
1904-1907	Harvard and Washington streets widening	10,000 00	4,000 00
1900-1901	Boylston street widening.....	3,500 00	
1907	Hammond street widening.....	4,000 00	4,000 00
1907	Washington and Walnut streets widening	6,500 00	6,500 00
1903	Land and stone crushing plant.	1,200 00	1,200 00
1897-1898	Longwood avenue bridge.....	3,750 00	3,750 00
1907	Washington, Walnut and High streets	5,000 00	5,000 00
1910	Construction of highways.....		5,500 00
1894-1895	High School building.....	10,000 00	10,000 00
1902-1903	Manual Training High School..	8,000 00	4,000 00
1895	Druce street lot.....	1,500 00	1,500 00
1903	Heath School lot.....	1,800 00	1,800 00
1904	Pierce Primary School.....	8,000 00	8,000 00
1910	Driscoll School lot.....		3,000 00
1910	Driscoll School Building.....		5,000 00
1903	Land adjoining Bath House....	1,000 00	1,000 00
1904	Property, Washington, School and Prospect streets.....	5,500 00	5,500 00

1906	Municipal Gymnasium	6,000 00	6,000 00
1906	Heating, Lighting and Power plant	3,500 00	3,500 00
1907	New Engine House A.....	6,000 00	6,000 00
1909-1910	New Public Library.....	12,200 00	12,200 00
1891-1904	Extension water works.....	19,481 00	19,481 00
1909	Covered Reservoir, Singletree Hill	5,000 00	5,000 00
1909	Drain, Saw Mill Brook Valley..	3,000 00	3,000 00
1909	Separation Sewers and Surface Water Drains	5,000 00	5,000 00
		$169,481 00	$162,481 00

The debt and interest charges may be briefly classified as follows:—

	Principal Jan. 16, 1912	Interest 1911	Interest 1912
Parks and Playgrounds.....	$345,630 00	$12,572 62	$11,460 01
Streets and Bridges.....	218,100 00	8,116 30	7,924 82
Water Supply	288,357 00	11,091 35	10,211 85
Schools and Sites.....	149,800 00	5,182 75	5,142 60
Public Buildings and Sites..	412,400 00	16,662 90	15,371 35
Sewers and Drains.....	86,000 00	3,290 00	3,010 00
	$1,500,287 00	$56,915 92	$53,120 63

The appropriation needed for the current year for interest on the debt now outstanding is approximately $54,061, including $940 for overdue coupons not yet presented.

Metropolitan Taxes.

The following table shows the contingent liability of the town for the Metropolitan debt for Parks, Boulevards, Sewers, the Charles River Dam and Basin. These debts have been fully explained in previous reports. The instalment paid to the Commonwealth in 1911 for the Charles River Dam and Basin was about $28,000, but this included the town's share of interest on the debt for this purpose from 1903. Although it was provided by the Legislature of 1911 that cities and towns could vote to borrow the money to pay this accumulation of interest, the Selectmen and Assessors decided to include the whole of it in the tax levy. Hereafter the interest on the debt will be included in the annual assessment. The amount which Brookline will have to pay this year towards the Charles River Dam and Basin for sinking fund, interest

and maintenance requirements, will amount to about $14,600, and this amount is included in the amount recommended to be appropriated for the Metropolitan Park tax.

	Parks.	Boulevards.	Nantasket.	Charles River Basin.	Sewer So. System.	Totals
Gross debt, Dec. 1, 1911...	$8,835,000.00	$2,567,500.00	$700,000.00	$1,425,000.00	$8,877,912.00	$25,405,412.00
Less special app'tionm'ts.	125,000.00*			2,047,636.43†		2,172,636.43
	$8,710,000.00			$2,377,363.57		$23,232,775.57
Sinking Funds, Dec. 1, 1911	$2,282,427.14	$554,408.76		167,351.71‡	779,227.32	$3,783,414.93
Net Debt, Dec. 1, 1911	$6,427,572 86	$2,013,091.24	$700,000.00	$2,210,011.86	$8,098,684.68	$19,449,360.64
Brookline's Proportion...	.04653	.03815	.05068	.04545	.2090	
Brookline's Net Debt	$299,074.97	$76,799.43	$35,476.00	$100,445.04	$1,692,625.10	$2,204,420.54

*Alewife Brook. †Boston and Cambridge. ‡Proportioned on basis of division of April 1, 1911.

State Tax.

The State tax in 1911 was $5,500,000, the same as in 1910. We have provided the same amount in the annual estimate for our proportion of the State tax this year, namely, $152,130, plus $323 for our assessment under the Smoke Nuisance Act.

County Tax.

The County tax for the coming year is $200,000, as against $193,000 last year. As Hyde Park is no longer in Norfolk County the proportionate part of the tax to be paid by the remaining cities and towns is increased. Brookline will have to pay its share of the tax, $77,015.17. The following table gives the County receipts and expenditures in detail:—

County Receipts and Expenditures.

RECEIPTS:—

	Actual 1910	Actual 1911	Estimated 1912
Balance on hand Jan. 1.....	$37,336 46	$57,343 29	$47,910 87

CONDITION OF CURRENT SPECIAL APPROPRIATIONS.

APPROPRIATIONS CARRIED FORWARD JANUARY 1, 1911.

There is nothing further to be done and the appropriations will be closed in the following matters, namely:—

Michael Driscoll School Building, Plans for Michael Driscoll School Building, Extension of Driven Wall System, New Public Library, Paving Washington Street, Hammond Street Widening, New Wall Heat and Lighting Plant, Committee on Municipal Improvement.

The sum of $3,711.78 has been used for the New Covered Reservoir on Singletree Hill and the balance unexpended of $11,538.76 will be carried forward at the request of the Water Board.

A balance of $10,942.10 for the New Pumping Engine in the Water Department will be carried forward at the request of the same Board, $9,538.60 having been spent this year for this purpose.

Nothing has been expended of the appropriation of $61,270.51 for the Purchase of Land for Public Playgrounds, and the amount will be carried forward to be used for the same purpose. Nothing has been expended from the balance of $22,968.57, carried forward last year for Widening of Washington, Walnut and High Streets and Improvements in Village Square, and the amount will be carried forward on the books.

The sum of $25,854.14 was spent on the appropriation made June 1, 1910, for the Construction of Highways, and $1,146.65 will be carried forward, as all claims for land damages in connection with the laying out of the highways involved have not been settled.

There is a balance of $1,738.40 remaining of the appropriation for Filling the Old Aqueduct Location after spending this year $6,358.46, and the balance will be carried forward.

Nothing has been expended of the appropriation of $150 for Establishing a Building Line on St. Paul Street, and the amount is carried forward for the purpose of settling land damages.

The Committee on New Building Laws have used $603.80 of its appropriation during the year and the balance available, amounting to $380.05, will be carried forward.

The sum of $200, appropriated for the Publication of Vital Records, has not been spent and will be carried forward.

An overdraft of $4,486.45 for Drain, Saw Mill Brook Valley, is carried forward. An additional appropriation will be asked to meet this and the damage recovered by the Holyhood Cemetery Association in its suit against the town for land damages incurred by reason of laying out this drain.

Special Appropriations of 1911.

The appropriation of $2,000, made at the last annual meeting, for the wall at the Walnut Hill Cemetery, has all been used. The work of additional paving at Coolidge's Corner has been completed, and the appropriation will be closed. Of the

special appropriations made at the last annual town meeting there are balances of $1,168.05 for the Extension of the Driven Well System (appropriation $15,000), $1,163.11 for Furnishing the Michael Driscoll School (appropriation $6,250), $1,161.01 for Grading the Grounds at the Michael Driscoll School (appropriation $13,000), $4,871.31 for the Extension of White Place (appropriation $8,686), $1,099.77 for the Extension of Walnut Path (appropriation $4,275), and $2,582.84 for Cypress Street Widening (appropriation $4,175); and these balances will all be carried forward.

The appropriation of $41,500 made at the special town meeting on December 29, 1911, for the Purchase of the Pierce Street Lot of Land remains unexpended.

* Overdrawn.

Total amount of special appropriations expended, $150,489.27.

Appropriations.

The total amount appropriated during the past year for general expenses, including State, County and Metropolitan taxes and payments of funded debt and interest, was $1,704,243.53, of which $1,674,722.02 was spent. Of the total amount of $340,260.07 carried on the books for special appropriations, the sum of $150,489.27 has been spent. Judgments in the suits of the Cochrane Manufacturing Company and other mill owners, amounting to $7,428.50, were also paid, making a total of $1,832,639.79 spent by the town for all purposes during the fiscal year. The corresponding sum spent in 1910 was $2,015,543.98.

The sum recommended for general expenses and those proposed for new special appropriations are given in the following tables. The amounts asked for the general expenses for Public Schools, Public Library, Water Supply, Public Parks and Grounds, comprising headings A, B and C and the first two items of D, in Table II below, have been recommended by the different Boards having those matters in charge. Refer-

ence is made to the reports of those Boards for information in regard to those appropriations. All other amounts included in the tables are recommended by the Selectmen. The total amount proposed for general expenses for the current year, 1912, including State, County and Metropolitan taxes and payment of funded debt and interest, is $1,773,301.00, as appears in the following tables. The total of the proposed new special appropriations is $315,250.00, of which it is recommended that $275,000.00 be borrowed. The balance of special appropriations not to be borrowed, namely $40,250.00, added to the amount for general expenses above referred to, makes a total of $1,813,551.00 to be included in the tax levy.

Annual Appropriations.

Sewer and surface water drain, extension of Lee street	44,000 00
Water mains in Boylston street and Eliot street.....	13,700 00
	$315,250 00

Highway Department.

The sum of $114,996.99 was spent in 1911 for the maintenance of highways. Reference may be made to the report of the Superintendent of Streets for a detailed statement as to how this money was spent. The problem in connection with highways is the automobile traffic. A road surface that is treated so as to withstand the wear and tear caused by automobiles soon becomes unfit for horses. The surface becomes hard and slippery. Will it be necessary to provide separate roadways for automobiles and horses in the same street? The problem is a difficult one and it will have to be worked out, as all other problems are, by experience.

Free use has been made of dry calcium chloride for laying

dust. This method has worked well. Different qualities of oil have also been tried with success.

Reference is made to the report of the Superintendent of Streets and to that of the Town Engineer for information as to the laying out and construction of streets during the year, together with statements of damages assessed.

	Recommended 1912	Expended 1911	Expended 1910	Expended 1909 (11 mos.)
Street cleaning and sectional care	$30,000 00	$31,666 96	$26,469 78	$22,972 54

	$122,125 00	$114,996 99	$111,997 64	$84,985 45

Street Lighting.

The appropriation for street lighting in 1911 was $55,000, of which $53,582.38 was spent. The increase in the appropriation recommended for 1912 is due to the new lights—Arc, Tungsten, and Welsbach—which have been put in during the year. The Tungsten lights have worked satisfactorily where they have been put in on new streets and elsewhere. The following estimate shows the items of cost for the coming year:—

Estimate for Street Lighting for 1912.

265	Arc lamps (17 park, 248 street) at $98.10.....	$25,996 50
64	Tungsten at $21.14.....	507 36
1014	Welsbach (912 gas, 102 naphtha) at $27.00.....	27,378 00
5	High pressure gas at $95.00.....	475 00
1	Low pressure gas at $35.00.....	35 00
2	Illuminated clocks	131 27
	Estimate for new lights and miscellaneous expenses	2,476 87
		$57,000 00

Police Department.

The appropriation recommended for the coming year provides for two additional patrolmen for a new night route at Coolidge's Corner. The increased importance of that locality

as a business centre makes it desirable that the present routes in its vicinity should be shortened.

The automobile used by the Police Department has run about thirty-five thousand miles. It is practically worn out, and the Chief of Police recommends that a larger car be purchased, for which an item of $3,000 has been included in the appropriation.

One of the most difficult matters with which the Department has to deal is the protection of fruit orchards and flower gardens during the summer. The automobile has aided materially in this work for it enables the officers who use it to cover the different districts more thoroughly where trespassing is likely to occur. The co-operation of the owners of orchards and gardens is requested. It is impossible for the police to guard every orchard all the time. To do this it would be necessary to have an officer stationed all the time in front of every place. Owners should protect this class of property in the same way that they protect their personal property. The town gives what police protection it can, but this must be supplemented by the owners of orchards and gardens themselves.

An item has been included in the appropriation to provide two new cells to be placed in the Police Station proper, apart from the men's quarters, for the detention of women. The advisability of this expenditure is apparent without explanation.

	Recommended 1912	Expended 1911	Expended 1910
Chief	**$2,500 00**		
Three lieutenants	4,826 46		
Four sergeants	5,630 08

	$97,100 00	$89,270 55	$87,568 74

Department of Wires and Lights.

Three new fire alarm boxes are recommended, one on Pleasant street near Dwight street, one on Pleasant street near Dummer street, and one on Beacon street near Winchester street. The new buildings in these localities make such fire protection advisable. A new police box is recommended at the corner of Newton and Hammond streets. A detailed statement of the appropriation, including items for the above purposes, follows:—

	Recommended 1912	Expended 1911	Expended 1910
Salary of Superintendent.....	$2,200 00	$2,150 00	$2,000 00

Two automobiles			3,475 00
	$8,900 00	$8,092 41	$10,418 38

Fire Department.

The appropriation recommended includes an item providing for telephone operators at headquarters. There is a short period after every alarm when no one is at headquarters. All the men go out, and until the station is covered by the men from Station G on Washington street, there is no one at headquarters to answer the telephone. If a fire occurred in this period, headquarters could not be reached. In order to provide for this emergency the Fire Commissioner last year recommended an appropriation, but the matter was postponed to see if a different arrangement could be made. Nothing has been worked out, however, and the item to provide for three men to take charge of this service is included in the following appropriation for the Fire Department for the current year. The time is coming soon when more automobile apparatus will have to be provided, but nothing is asked for at the present moment for this purpose.

	Recommended 1912	Expended 1911	Expended 1910
Commissioner	$500 00		
Chief	2,300 00		
Assistant Chief	1,810 12

	$110,000 00	$104,475 85	$104,770 97

Building Department.

The building law relative to plumbing and garages was amended at the last annual meeting. Further consideration of the report of the Committee on Building laws has been postponed until the annual meeting. The Selectmen think that the report of the Committee should be given great weight on account of the time and consideration which has been given to it by a body of men well qualified to deal with the situation. We hope that the work which the Committee has done will be availed of by the town and we recommend that serious consideration be given to its report. The following is the estimate of expenses for the coming year:—

	Recommended 1912	Expended 1911	Expended 1910
Building Commissioner	$2,500 00	$2,450 00	$2,299 92
Inspector of Plumbing	2,000 00	1,941 66	1,800 00
Inspector of Gas Fitting	300 00	300 00	300 00

Car fares			45 55
	$9,800 00	$8,330 93	$7,695 37

Sewers and Drains.

The report of the Town Engineer contains full information as to the sewers and surface water drains constructed during

the year. The sum of $15,000 was appropriated for the construction of sewers, and of this $9,053.72 was spent. As we have often said the appropriation for sewers cannot be accurately estimated as the work is largely unforeseen. Owing, however, to the fact that sewers will be needed in the new streets proposed to be laid out we recommend that the sum of $25,000 be appropriated this year. The sum of $15,000 was appropriated at the annual meeting for the construction of surface water drains and $4,000 was added to it at the special town meeting of December 29th. Of these amounts $17,682.39 was spent. Owing to the taking of surface water drainage out of the sewers, there is more call for new surface water drains each year. In 1911 there were about sixteen new drains put in, and it is likely that a similar number will be required during the coming year. Drains will also be required in the new streets. We therefore recommend an appropriation of $25,000 for this work.

Municipal Gymnasium.

Under a new by-law reducing the Committee on Public Baths and Gymnasium to three members, which was passed by the town at the last annual town meeting and later approved by the Attorney General, the Selectmen appointed as the Committee Messrs. Harry W. Cumner, William H. McManus and Payson Dana. Reference is made to the report of this Committee for information as to the affairs of the Gymnasium. An appropriation of $26,450 is recommended.

Playground Supervision.

At the special town meeting of December 29, 1911, it was voted to put the supervision of play on the public playgrounds in the hands of a Playground Commission. Under the law such a commission is appointed by the Selectmen. They appointed as the Commission the three members of the Committee on Public Baths and Gymnasium, together with Mr. Albert L. Lincoln of the Park Commissioners and Dr. Arthur A. Cushing of the School Committee, making five in all. It was stated in our report on the articles in the warrant for that meeting that it would cost about $6,000 to provide this supervision. Of

this amount $2,000 was for equipment and has been included in the appropriation for Parks and Public Grounds. The remaining $4,000, to be used largely in paying salaries of instructors and supervisors, is asked for under a special item in the annual appropriation vote, and it is recommended that the appropriation be made.

Gypsy and Brown-Tail Moths.

The sum of $22,800 was appropriated at the last annual meeting and $1,500 was added to it at the special meeting of December 29th. Of these amounts $24,293.13 was spent. The sum of $11,131.91 was received by the town in reimbursements. An appropriation of $27,600 is asked for 1912.

Heating and Lighting Plant.

We recommend that this plant be continued under the control of the School Committee and the Committee on Public Baths and Gymnasium, who generally appoint a sub-committee for its management. A statement of the appropriation for this purpose follows:—

	Recommended 1912	Expended 1911	Expended 1910
Wages	$6,800 00	$6,323 27	$6,365 01
Fuel	6,000 00	5,639 56	5,906 30
Repairs and supplies	1,700 00	1,395 90	1,283 11
	$14,500 00	$13,358 73	$13,554 42

Exterior Repairs and Alteration of Town Buildings.

Reference is made to the Accountant's report for a detailed statement of repairs made during the past year. An appropriation of $6,000 is recommended.

Suits Against the Town.

The Institution for Savings in Newburyport vs. Brookline; Edward J. Clark vs. Brookline. The auditor appointed in these cases has filed a report in court and the cases are ready for trial before a jury.

Frances A. Kerr vs. Brookline; Vernon C. Kerr vs. Brookline. The Supreme Judicial Court sustained the demurrers in these cases, holding that there was no liability on the part of

the town. It will be remembered that the plaintiff, Frances A. Kerr, sustained injuries by being struck by a rocket discharged during the exhibition of fireworks on the Fourth of July, 1908. Her husband also sued the town. Since the former cases were disposed of, new suits have been brought by both plaintiffs against Philip S. Parker, John A. Curtin and Edward A. McEttrick, the committee appointed by the Selectmen to arrange the program for the Fourth of July of that year. The cases are pending in the Superior Court for Norfolk County for trial.

Holyhood Cemetery Association vs. Brookline. This is a petition for land damages, due to the taking of the location for the Saw Mill Brook Valley sewer, and it is pending for trial.

John G. Wright vs. Brookline; John G. Wright et al. vs. Brookline. These are cases in which a revision of certain sewer assessments, varying in amounts from about $200 to $1,100, is sought upon the ground that the assessments are excessive, disproportionate, and unconstitutional. They are pending for trial in the Superior Court:

Sarah M. Cantwell vs. Brookline. This petition for damages for the establishment of a building line on St. Paul street is still pending in the Superior Court for trial.

Frances C. Welch et al., Executors and Trustees, vs. Brookline et al. The Supreme Court refused to take jurisdiction of the petition first filed in this case and referred to in our last report for technical reasons. New proceedings have been begun by the same plaintiffs and the case has been argued again, the town claiming that the petitioners were taxable on the ground that one of the beneficiaries resided here. The Supreme Court has the question under advisement.

Kenneth M. Blake vs. Brookline. This case was explained in our last report. Nothing further has been done in connection with it.

Joseph A. Gahm vs. Brookline; Joseph A. Gahm vs. George H. Worthley et al. The first of these cases is an action of contract to recover back taxes paid the town under protest on the ground that the plaintiff was not a resident of Brookline. It

is pending for trial in the Suffolk Superior Court before a jury. The second suit is an action of tort for false arrest based on the same claim and is also pending.

James Comerford vs. Brookline. This is a petition for land damages incurred on account of the laying out of Reservoir road and is pending for trial.

Mary H. Hargraves vs. Brookline. This is a petition for land damages incurred on account of the widening of the corner of Cypress street at Washington street and is pending for trial.

Tirzah H. Arnold vs. Brookline; Same vs. Same. These are two suits brought for land damages on account of the laying out of the extension of White Place. Both cases are pending for trial.

Carrie Whitney vs. Brookline. This is an action of tort, the plaintiff claiming that she was injured because of an alleged defect in a sidewalk on Harvard street. It is pending for trial before a jury in the Norfolk Superior Court.

Moses Williams et al., Trustees of Boston Personal Property Trust vs. Brookline. This is an appeal from a refusal of the Assessors to abate a tax, the petitioners claiming that the trust property is not taxable in Brookline, it having been fully taxed in Boston. The petition has not yet been heard by the Court.

Charles H. W. Foster et al., Trustees of the General Investment Trust vs. Brookline. This case is similar to the last and is pending for a hearing.

Cases Settled and Disposed of During the Year.

Cochrane Mfg. Company vs. Brookline, and other Mill Cases. The auditor who has been considering these cases made findings which gave the petitioners some damages in each case. The amounts were sufficiently favorable to the town to make a basis of settlement, and all the cases were disposed of. The total paid by the town in the settlement was $7,428.50.

John Lowell et al. vs. Brookline; Same vs. Same. The first suit was for damages on account of the widening of Hammond

street and the second to annul betterment assessments. The petitioners claimed much more than the award of $3,900 made to them. They finally agreed to accept the award provided the town reduced the betterment assessment from $3,499 to $1,400. Settlement was made on this basis.

Thomas C. Cuneen et al. vs. Brookline; Same vs. Same. The first case was a petition for land damages incurred on account of the widening of Hammond street and the second suit was for the annulment of betterments. The town had awarded $216 as land damages and had assessed $268 as betterments. The cases were settled by offsetting one amount against the other.

Catherine F. Cummings vs. Brookline; Catherine F. Cummings et al. vs. Brookline. These were suits for the annulment of betterments on Hammond street and were settled by reducing the amounts assessed from $96 to $72, and $184 to $138.

James F. Gleason vs. Brookline; Annie Connolly vs. Brookline; Mary A. Good vs. Brookline; Mary A. Carroll vs. Brookline; James J. Lynch et al. vs. Brookline; Mary E. C. Coleman vs. Brookline; John J. Howard vs. Brookline; Arthur Finnigan, Jr. vs. Brookline. These were petitions for the annulment of betterments levied on account of the widening of Hammond street and were referred to in our last report. The cases were tried a second time before a jury, who substantially reduced the amounts of the betterments assessed by the town in each case. The cases have been disposed of upon the findings of the jury.

Augustino De Stephano vs. Brookline. An agreement of "neither party" has been filed in this case.

Ario P. Platt vs. Brookline. Settlement was made of this case by the payment to the plaintiff of $250. The contractor, John Healy, and the Boston Elevated Railway Company each paid him a similar amount.

Elizabeth F. Richards vs. Brookline. No suit was brought in this case as the claim was settled by the payment of $400. The claimant was injured by falling on Clinton Path under circumstances which indicated liability on the part of the town.

Contracts.

For Concrete—

Lowe-Armington Co.

Sidewalks, new work	$ .63 per square yard
Sidewalks, repairs, skim work	.45 per square yard
Sidewalks, repairs, three layer work	.80 per square yard
Driveways, new work	.60 per square yard
Driveways, repairs, skim work	.40 per square yard
Driveways, repairs, three layer work	.15 per square yard
Street crossings, new work	1.10 per square yard
Street crossings, repairs, skim work	.05 per square yard
Street crossings, repairs, three layer work	.10 per square yard

Detective Bureau.

The Detective Bureau, under charge of Lieutenant George E. Stitt, who has a most able assistant in Detective Sergeant H. Allen Rutherford, has performed the duties assigned in a perfectly satisfactory manner. The following is a report of the work performed:—

Miscellaneous.

Stolen property recovered	$7,137.25
Property stolen out of town and recovered in Brookline.	490.75
Number of criminal cases investigated	249
Number of suspicious-acting persons examined and released	9
Number of insane persons committed	2
Total number of arrests	123

Police Signal System (Gamewell).

The system has forty-six boxes or stations.

Number of duty and telephone calls	241,141
Number of wagon calls for arrests	243
Number of miles run by patrol wagon	580
Number of ambulance calls	167
Number of miles run by ambulance	1,676

Automobile Service.

The automobile ambulance has become indispensable in removing sick or injured persons to hospitals. It has responded to all calls, and on nineteen days made two trips each day, on eight days three trips each day, and on one day four trips. The average time consumed on a round trip has been fifty minutes, whereas with the horse-drawn ambulance the same service would take about one and three-quarters hours.

The runabout automobile has been in use almost constantly since it was purchased in 1910. The car has been run about thirty-five thousand miles, and the splendid results we have obtained by its use has completely demonstrated its utility as an important auxiliary to this department.

I beg to recommend that the automobile in use at present be exchanged for one of larger capacity, as frequently in responding to calls we have been at a disadvantage in not having been able to carry a sufficient number of men for the service required.

Recommendations.

At present all cells are in a building in the rear of and separated from the police station and persons in custody, both men and women, are confined there.

It seems to me that a separate place of detention should be provided for women, and I recommend that two cells be constructed in the police station for that purpose.

I have consulted with Mr. Julius A. Schweinfurth, the architect who designed the police station, and he has made plans for the proposed cells and furnished an estimate of $1,009 as a cost of construction, all complete.

In view of the rapid growth of business at Coolidge Corner, I beg to recommend the appointment of two additional patrolmen for the purpose of establishing a new night route in that vicinity.

Crime.

The work performed by the department during the year has been most satisfactory. During the summer four houses, temporarily unoccupied, were entered by thieves, who in each instance were captured before having opportunity to escape; earlier in the year a number of store-rooms in apartment houses were robbed, and in these cases the thieves were apprehended and most of the property stolen was recovered; there has also been several cases of store-breaking by boys who have been arrested and arraigned in court. Aside from these cases, good order has been maintained.

Respectfully,

ALONZO W. COREY,
Chief of Police.

ANNUAL REPORT

OF THE

FIRE COMMISSIONER

OF

BROOKLINE

MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1911

BOSTON
E. L. GRIMES COMPANY, PRINTERS, 122 PEARL STREET
1912

REPORT

January 13, 1912.

To the Honorable Board of Selectmen:—

Gentlemen,—I herewith respectfully submit the annual report for the Fire Department.

The number of alarms this year has exceeded last year by forty-five, which is the largest number of any previous record of the Department. The loss the greatest ever known. The three-alarm fire of Holtzer Cabot Company was one of the most spectacular and caused the largest loss ever recorded in the history of the Fire Department.

This was occasioned by the construction of the building which allowed the fire to spread with tremendous rapidity, also the contents of the building being of such a valuable nature. Outside of the Holtzer Cabot fire the loss has been very small in proportion to the large number of fires.

The stations are in fair repair with the exception of Station D, and the same conditions exist as mentioned in last year's report.

The horses are in good condition, but the replacement of some will be necessary during the coming year.

The apparatus is in good condition, but I would suggest that the Town at no very distant date consider the installing of more motor-driven apparatus, as its use in a small way has demonstrated its utility and effectiveness.

The following members of the Department have died during the year:

Captain J. F. Hutchins was appointed call man July, 1877, became member of permanent force May 26, 1886. Promoted Captain September 12, 1899, and died June 27, 1911.

Engineer J. C. Lyons was appointed October 30, 1899, died May 21, 1911.

Hoseman J. J. Mahon was appointed April 26, 1906, died November 6, 1911.

Call Ladderman W. T. Litchfield was appointed May 1, 1905, died May 8, 1911.

Roster of Fire Department.

Fire Commissioner—W. W. Estabrook, Station B, Headquarters.

Chief of Department—George H. Johnson, Station B. Headquarters.

Assistant Chief of Department—John H. Allen, Station A.

Fire Station A, Village Square.

Auto Combination A.

Permanent Men—Lieutenant F. J. Hayes, M. J. Nolan, H. C. Hamilton, Joseph Stranahan, G. H. Murray.

Hose Company No. 1.

Permanent Men—Lieutenant F. T. Pons, T. J. Burke, E. McGrath, J. T. O'Neal, T. J. Mahon.

Call Men—Michael O'Brien, T. J. Costello, J. J. Howley.

Chemical Company No. 1.

Permanent Men—E. Sullivan, P. J. McCarthy, Wm. Gould.

Call Man—Harry B. Allen.

Fire Station B, Washington Street.

Ladder Company No. 2.

Permanent Men—Captain W. J. Stitt, Lieutenant J. B. McDonald, J. G. MacDonald, W. H. Burke, J. M. Mealey, T. W. Taylor, W. R. Longmore, T. J. Daxon.

Sub. Call Man—O. H. Delano.

Hose Company No. 2.

Permanent Men—Lieutenant W. E. Fleming, J. W. Kelley, P. A. Mealey, E. J. Forbes, W. J. Stanford, P. J. McCarthy.

Call Men—J. B. Kernan, J. E. Wallace.

Fire Station C, Monmouth Street.

Combination Company No. 3.

Permanent Men—Lieutenant J. W. Manley, M. J. Fahey, J. McCarthy, P. J. Ryan, S. J. Tuttle.

Call Man—W. H. Keegan.

Fire Station D, Pound Lane.

Engine Company No. 1.

Permanent Men—Engineer T. F. Kelley, M. J. Dasey.

Call Man—P. Kirane.

Hose Company No. 3.

Permanent Men—Captain F. W. Brackett, Lieutenant D. O. McNamara, J. G. Brutcher, John Donovan, T. J. Dasey, J. M. Fay.

Call Man—D. Meehan.

Fire Station E, Devotion Street.

Combination Company No. 1.

Permanent Men—Captain B. F. Baxter, Lieutenant S. R. Allen, M. Kelley, P. A. Mahoney, J. Kentley, G. H. McIntosh, J. H. Hogan.

Fire Station F, Heath Street.

Combination Company No. 2.

Permanent Men—Captain B. Dwyer, J. H. Hickey, J. J. O'Sullivan, G. H. Dunn, G. P. Love.

Fire Station G, Washington Street.

Ladder Company No. 1.

Permanent Men—Captain Wm. Unkles, Lieutenant C. E. Mallar, G. L. Newcomb, F. J. Mealey, D. J. McCarthy, T. J. McElroy, C. P. Love.

Call Man—Max Elliott.

Combination Company No. 4.

Permanent Men—Lieutenant M. F. Keegan, W. G. Fitzgerald, T. J. Grennan, R. J. Stanfield, J. Lunney, W. F. Norris.

Engine Company No. 2.

Permanent Men—Engineer A. H. Stitt, M. A. Rourke.

Chief's Chauffeur—John E. McElroy, Station B.

Fire Record.

During the past year the department has responded to 303 calls, viz.: 97 bell alarms and 206 still or telephone alarms.

The causes of these alarms were as follows:—

Automobile fires	11	Electric car	1
Answered Boston Alarms	6	Fires in Boston District	5
Boys and matches	26	Fires in Newton District	3
Burning soot in chimney	14	Fireworks	3
Burning rubbish	22	False alarms	5
Burning straw	1	Gasoline explosions	2
Burning fat on gas range	6	Hot ashes in wooden barrel	1
Burning rags in chimney	2	Hot furnace pipe	2
Burning wires	1	Iron heater setting fire to woodwork	1
Back draft	3	Incendiary	1
Beans in oven	1	Kerosene lamp explosion	1
Careless use of matches	29	Lighted cigar	4
Children and matches	4	Lighted lantern overturning	1
Curtain in contact with lighted gas jet	4	Lighted candle	1
Defective flue	2	Men working on place	6
Defective wires	6	Meat in oven of range	2

Overheated stove	1	Spontaneous combustion	8
Overheated Thermostat	1	Supposed fires	5
Plumbers thawing frozen water pipes	1	Sparks from locomotive	47
Plumber's torch upsetting	1	Sparks from boiler	1
Painter's torch setting fire to woodwork	1	Sparks from chimney	6
Rats and matches	1	Sparks from fireplace	1
Smoky stove	3	Sparks from bonfire	6
Smoky furnace	1	Sparks from stove	1
Smoky chimney	2	Sparks from pipe	3
		Unknown	36
		Total	303

The loss, valuation and insurance as nearly as could be ascertained, were:—

Value of buildings and contents	$1,130,100.00
Insurance of buildings and contents	1,102,400.00
Damage of buildings and contents	154,310.68
Insurance paid on buildings and contents	153,310.68

Property in Charge of Commissioner.

Stations	Location	Apparatus.
A	Village Square	Combination A, Hose 1, Chemical 1.
B	Washington street	Ladder 2, Hose 2, Chief's Automobile.
C	Monmouth street	Combination 3.
D	Pound lane	Engine 1, Hose 3.
E	Devotion street	Combination 1, and Spare Wagons.
F	Heath street	Combination 2.
G	Washington street	Engine 2, Ladder 1, Combination 4.

Hose.

Amount of hose purchased and condemned during the year:—

Purchased:	leading hose 2 1-2 inch	1,350 ft.
Purchased:	Chemical hose	100 ft.
Purchased:	small hose 3-4 inch	400 ft.
Condemned:	leading hose 2 1-2 inch	600 ft.

Amount of hose in use and in storehouse January 1, 1912:—

In Use.		In Storehouse.	
Leading hose 2 1-2 inch	12,900 ft.	Leading hose 2 1-2 inch	1,350 ft.
Chemical hose	1,450 ft.	Chemical hose	100 ft.
Small hose 3-4 inch	350 ft.	Small hose 3-4 inch	150 ft.
Leading hose 3-inch with 2 1-2 inch couplings	350 ft.		
Suction	85 ft.		

Horses.

Purchased during the year	3
Sold or exchanged during the year	3
Number in use	36
Died during the year	1
Winter horses	4

Appropriations.

I would respectfully recommend the following appropriation:—

Current Expenses of the Fire Department	$108,121.38

In conclusion, I would thank the officers and members of this department and the town officials and members of the several departments for assistance rendered to this department.

Respectfully submitted,

WILLARD W. ESTABROOK,
Fire Commissioner.

ANNUAL REPORT

OF THE

SUPERINTENDENT OF WIRES AND LIGHTS

OF

BROOKLINE

MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1911

BOSTON
E. L. GRIMES COMPANY, PRINTERS, 122 PEARL STREET
1912

REPORT

Brookline, Mass., December 31, 1911.

To the Honorable Board of Selectmen:—

Gentlemen,—I respectfully submit the twenty-third annual report on wires and lights, fire alarm and police signal, the inspection of wires run in buildings, and gas inspection, covering the period of twelve months ending December 31, 1911.

Street Lighting.

Total number of arc lights for streets	248
Total number of arc lights for parkway	17
Total number of Tungsten lights	24
Total number of Welsbach gas lights	912
Total number of Welsbach naphtha lights	102
Total number of high pressure gas lights	5
Total number of low pressure gas lights	1

Cost of Street Lighting for 1911.

Arc	$25,972 85
Welsbach Gas	23,566 09
Welsbach Naphtha	3,215 40
High and Low Pressure Gas	509 51
Village Clock Sta. "A"	29 86
Town Clock, Harvard Street	76 74
High and Low Pressure (November and December, 1910)	107.26
All other expenses	104 67
Total	$53,582 38

Number of Arc Lights Added During the Year.

Jan. 4	Boylston street	1	Nov. 17	Davis avenue	1
May 23	Coolidge street	1	Dec. 13	Harvard street	1

							40

Arc Lights.

No change was made in this system of lighting during the year.

Several complaints have been made that there are not lights enough on some of our streets.

It has been recommended by this department that more arc lights be added on Washington street, one between White place and Davis avenue, one between Davis avenue and Holden street and between Cypress street and Beacon street.

Beacon street between Harvard street and St. Mary's street could be improved with a few more.

Boylston street between Cypress street and Hammond street, as some of these lights are over seven hundred feet apart.

Four new lights were added during the year and were placed in the following locations:—

Boylston street near Boylston place.

Coolidge street, corner of Harvard street.

Davis avenue between Keiffer street and Gorham avenue.

Harvard street opposite Verndale street.

Tungsten Lights.

Twelve of these lights were added during the year, four of which were to take the places of naphtha lights, which were in remote sections of the town.

The locations were: Four on Cottage Farm road, two on Chestnut street between High street and the parkway, four in the alleyway back of 1170 Beacon street, one on Rockwood street and one on Goddard avenue.

Welsbach Gas Lights.

While the report of Welsbach gas lights shows sixty-three lights connected, there were only twenty-three additional lights, the others were changed from naphtha, as the Gas Company had placed pipes in the street.

While there are improvements in gas street lights, they have not been placed in practical use up to the present time, except a new double mantle burner, three of which were installed here for exhibition. One on Harvard street near Pierce street and one on Pierce street at Harvard and one on Holden street.

These lights give a very clear white light but need attention nearly every day, as the lighters are careless when lighting them and break the mantles.

Welsbach Naphtha.

The number of naphtha lights have been reduced this year, as many have been connected with gas and three were replaced by Tungsten.

High and Low Pressure Gas Lights.

These lights have given good satisfaction during the year and have had very little deducted for outage, the total being twenty-one hours.

The low pressure on Walnut street has not been reported out during the year.

Fire Alarm.

Less trouble has occurred to the fire alarm this year in regard to broken wires than any previous year. In January a tree blew down on Goddard avenue, breaking the cable, and wires were broken by ice in pipe at Walnut and Cypress streets.

In March wires broke at the Cypress street bridge, caused by the ducts getting out of place, and cable damaged where Boston and Albany trains pass beneath.

Fire alarm box 151 was broken by a coal wagon and expense of repairs sent to the Coal Company and were paid.

On December 16th box 34 was burned out by the Edison Electrical Illuminating Company, some of their men fastening one of their arc light wires to the fire alarm arm. This also caused trouble to other sections of the circuit and was not wholly cleared for three days, although the circuit was not wholly out of commission more than three hours. The trouble of wires becoming grounded has to be watched continually and requires many tests in order to run them down and clear the matter up. Nearly two miles of wire have been used for this purpose this year.

No new boxes were added this year.

As there have been many new buildings erected on and about Pleasant street and Crowninshield road, with the line of garages on Commonwealth avenue, I would recommend that three boxes be added this year, one on Pleasant street near Dwight street, one on Pleasant street near Dummer, and one on Beacon street near Winchester street.

Police Signal.

Interruptions on the police signal have been very few this year. Only two circuits were disturbed by the breaking of wires. All of the boxes were timed during the year and adjusted to run slower in order to use a new punching register which was purchased.

During the month of June lightning came into the station

and blew out a fuse, something which has not happened since the overhead wires were removed.

During the month of August one overhead cable was damaged and a new section was installed. No new cable was purchased for this work, there being enough in stock that had been removed from a section where wires had been placed underground.

It has been suggested that a police box be installed at Newton street and Hammond street.

If this is put in after the underground is installed on Warren street and Heath street there will be enough cable for the entire length of Hammond street.

Fire Alarm and Police Telegraph. (Underground.)

No provision was made in the estimate last year for new underground work. After the appropriation had been made, by request of the town, the N. E. Telegraph & Telephone Company sent in petitions and plans for construction of conduits in several streets.

Having purchased iron box posts for other locations it was decided to use these in places where this work was being done.

These posts have been installed on the streets as follows:— Park street and Vernon street with the intention of running wires through Vernon street and discontinuing them by the way of Beacon street and Park street to Marion street, where they are now overhead.

A new pipe was run from the manhole to box 332, as more wires were to be connected at this point.

Posts for police and fire alarm boxes were set on Aspinwall avenue near Kent street, and near Netherlands road. As this was not a very long distance the wire was installed in December and both boxes connected by underground wires, enabling us to remove the overhead cable on Kent street from Aspinwall avenue to near Harvard street.

Box 38, Linden place, was connected with the underground wires and changed to the corner of Perry street and the new overhead cable removed.

The two boxes on Essex street were changed from the corner of Mountford street. The fire alarm box to the corner of

Worthington road and the police box about opposite Dummer street.

Two posts were set on Winthrop road and will be ready to connect this year.

Two posts were set on Cypress street and a connection made to the Town stable and will be connected as soon as we can purchase the wire.

The fire alarm box at the corner of Cypress street and Walnut street was removed from the wooden pole and placed on one of the iron box posts.

The total amount of wire used for repairs of defective wire on fire alarm was 5,885 feet, and for repairs on police wires was 5,600 feet. That used for connecting the boxes where new installations were made, fire alarm, 2,121 feet, and police wire, 1,930 feet.

Underground Work by the Edison Electric Illuminating Company.

Little progress has been made towards the removal of the electric light wires on Harvard street. Although the conduits were installed in 1910 and some of the cables were placed in the ducts in the spring of 1911, there has been nothing finished in regard to connecting up these cables and removing the wires from the poles.

Letters have been sent to the Edison Electrical Illuminating Company and communications by telephones, requesting that the cables be connected and the dead wires removed, but they still remain as they have in past years.

This is the third year, and as was estimated in 1910, all of the wires and poles were to be removed in three years, so that 1912 should see all of these wires taken down.

The new work for underground conduit where there were no poles, was about twenty-five hundred feet, most of the streets were for distances of less than two hundred feet, except Essex street and Lee street, which was nearly five hundred feet. In Goddard avenue conduits were laid from Avon street to near Newton street. This is not completed as there is a short distance where it was necessary to do blasting.

Boston Elevated Railway Company.

This company began in early spring to prepare to place new conduits in the streets. Petitions and plans were submitted

for locations in Longwood avenue from the town line to Harvard street, and St. Paul street from Longwood avenue to Commonwealth avenue, Webster street from Harvard street to Beacon street, and Harvard street to Washington street, Washington street from Harvard street to Boylston street.

The Longwood avenue and St. Paul street line was to be used for high-pressure transmission, connecting through a series of transformer stations.

The new station, which is located on Webster street, was completed in the fall and is now in operation.

The conduit in Harvard street was for feed wires to connect with the Boylston street cables.

New England Telephone & Telegraph Company. (Underground.)

Although this company promised and planned to do a large amount of work this year, they completed about one-half.

There were twenty-six streets shown on the plans presented and eight only have had conduits and manholes installed. Essex street is the only one that was finished and overhead wires removed.

The streets in which conduits were placed are as follows:— Pleasant street, Essex street, Harvard street, Vernon street, Park street, Cypress street, Linden place and Aspinwall avenue.

Six new conduits were placed on Boylston street between Warren street and Heath street. The old ones were all in use and were also very deep, as they were put in before this street was changed.

The work of placing cables in conduits constructed in previous years goes in slowly. Boylston street between High street and Cypress street has had the wires removed from the poles on the street and are now on poles in the rear of the buildings between Boylston street and Walnut street.

Poles.

One application was received for a new location for pole on Chestnut street, opposite Franklin street.

Permits were granted for the changing of locations of four poles, one for the opening of White place and three new driveways, and are for the improvement and safety of the wires.

Many poles throughout the town are very much decayed and the companies have been notified and have changed quite a few and are now waiting for poles.

Poles Removed.

Poles abandoned by the telephone company and removed are as follows:—

Harvard street between Beacon street and town line...	31
Lee street between Dudley street and Warren street....	5
Claflin road	2

The poles on Boylston street between High and Cypress streets numbering thirteen were abandoned by the New England Telegraph and Telephone Company and were turned over to the Edison Electrical Illuminating Company.

Attachment to Poles.

The New England Telephone & Telegraph Company petitioned for permission to attach to twenty-seven poles of the Edison Electric Illuminating Company.

The Edison Electric Illuminating Company had permission to attach to three poles of the New England Telephone & Telegraph Company.

Aerial Cables.

The New England Telephone & Telegraph Company petitioned for permission to attach aerial cables to fifty poles in 1910. At that time your board refused to grant this request in order to investigate with the prospect of placing these wires underground.

Many of these were arranged to be taken care of in this way, and those that could not be, permission was granted for the overhead cable and the company have placed cables on poles in Brookline avenue, Juniper street, Flora street, Fisher avenue, Druce street, Clark road, Buckminster road, Hammond street, Heath street and Monmouth street, and this has removed many open wires from the poles.

Interior Wiring of Buildings.

This year has seen quite an increase in notices recorded; the total number was 1,004.

The number of lights connected and in use was less than last year, and the number added was more.

The same care has been used in regard to the inspection and we have tried to keep the work to a high standard, although some complaints and criticisms have been made.

Inspection of Gas Piping and Gas Fixtures.

The number of new buildings was not as many as last year, and the number of old buildings was a few more. As a whole there was not so much as last year. This work has to be watched closely and even there are times when someone installs pipe and does not file application until there is a demand for meter.

Respectfully submitted,

EUGENE N. DAVIS,

Superintendent of Wires and Lights.

1912

REPORT OF THE TOWN ENGINEER

Office of the Town Engineer,
Town Hall, Brookline, January 1, 1912.

To the Honorable Board of Selectmen:—

Gentlemen,—The following is my eighteenth annual report of the operations and expenses of the Engineering Department for the fiscal year of 1911:

Amount of appropriation	$21,700 00
Amount unexpended	472 25
Amount expended	$21,227 75

Classification of Expenditures.

Salary of Town Engineer	3,000 00
Salaries of assistants and clerk	12,784 17
Salaries of inspectors	1,736 66
Supplies and incidentals	917 80
Telephone	128 55
Instruments and repairs	416 25
Board of horses, blacksmithing, motor hire, etc.	1,006 95
Traveling expenses	211 76
Publishing of Town Map	247 28
Walnut Path Footbridge Plans	352 00
Data relating to the proposed widening Boylston street	426 35
Total	$21,227 75

Sewers and Drains.

The following table shows the sewers and drains laid.

An urgent need for drainage of property situated near the corner of Commonwealth avenue and St. Paul street not only called for considerable work in Brookline, but also some in Commonwealth avenue (which is in Boston), which will drain abutting property in Brookline and also the building by the city of Boston of a section of sewer and drain beneath the tracks of the B. & A. R. R., in order to reach the Metropolitan Sewer. Although not needed at this time, this outlet will ultimately be used by property in Boston. This work is referred to in my last report.

The rapid development of some parts of the town has made imperative the construction of many surface water drains where sewers only had been previously laid. I anticipate that much of that work should be done next year.

Estimates are now being made for the improvement of the part of Village Brook from Sumner road to the Beaconsfield stables.

The number of sewer connections with houses inspected is	172
The number of drain connections with houses inspected is	70
The number of sewer or drain connections for manholes made by Boston Elevated Railway Co. is	4
The number of sewer or drain connections for manholes made by Edison Electric Illuminating Co. is	9
Total	255

The amount of time required for these inspections was so large that I am of the opinion that a man should be assigned to it who would make it his principal duty. Hitherto it has been done at times either by men who were almost too young for the responsibility or by men whose time was too valuable for such work. Heretofore the custom has been only to inspect the laying of a single pipe next to the public drain or sewer. Where the combined sewers are in use the property holders have been required to lay both sewer and drain out to a point beneath the sidewalk and then combine them, with the intention of completing the separation when both channels have been laid in the street. It will facilitate the completion of the separation if the inspection were to cover all the work within the street and will tend to prevent careless work being done which may make it necessary to again break up the street surface, besides being annoying and costly to the householder. Another argument for extending the inspection to the street line is to secure more nearly water-tight work than some drain layers, doing work under contract, are inclined to do without supervision.

Streets and Ways.

The White place extension work has been done and the surface treated with 1½ gallons of Tarite asphalt per square yard.

The Walnut path footbridge of re-inforced concrete was

completed in the early winter, but owing to a different design having been used in the construction from the one on which the estimate was based, the building of the viaduct from the bridge to Boylston street was omitted. In order to avoid disturbing any part of the masonry, when the viaduct should be built, temporary wooden steps about 10 feet high were placed at the southerly end of the bridge and a plank walk laid from the foot of the steps to Boylston street.

The construction work, mentioned in my last report as having been in progress on Reservoir road, Crafts road, Dean road and Lee street, has all been satisfactorily completed and the surface treated with 1½ gallons per square yard of Tarite asphalt.

For several years the department, as opportunity offered, has been compiling exact data relating to the lines and grades of public streets and the boundaries of public property and monumenting them. There has been no difficulty in doing this for streets laid out and for land acquired since 1894, when the department was established. It so happens, however, that some of the streets laid out before 1894 were not monumented, and, moreover, the surveys in some cases were so carelessly made that there is no way of absolutely re-establishing the intended location. In some cases more width of land is occupied by the street than was laid out and in places one cannot easily tell within a foot or two of where the side line of the street should be. Where lands are as valuable as they are here, such a condition furnishes a fruitful field for argument. In such cases we have made a careful survey, and, after much study, in each instance have arrived at what we believe to have been the intention of the laying out and have taken upon ourselves the responsibility of monumenting the location thus arrived at. It is evident that such a condition should not continue and that the re-location should be legalized as provided by Section 101 of Chapter 48 of the Revised Laws. The streets which should receive early attention are Chestnut Hill avenue, Clyde street, Newton street from Jamaica Plain end to South street, and Goddard avenue. Some of the older streets like Heath, Warren and Cottage streets, which are obviously too narrow and too crooked to long serve safely the needs of the increasing traffic, evidently should have their future widths determined

and the lines monumented and legislation secured so that their widening could be done from time to time as required. During the year 131 granite monuments were set and 25 re-set because of changes in the grade.

Bridges.

All the bridges for which the Town is responsible, excepting the one at Washington street, are in good condition save for the deterioration which is everywhere taking place in bridge building materials which are subjected to the corrosive effects of gases from the locomotives and the sand blast effect of cinders contained in the exhaust steam. The steel in the bridges at Cypress street and Dean road was thoroughly cleaned and painted two coats. As to the condition of the Washington street bridge, reference is made to the report of last year.

Parks.

The grading of the Beacon Street Playground, which was reported last year as being in progress, has been completed.

The grading of the grounds of the Driscoll School has also been completed to the extent that the funds provided contemplated. An estimate has been made for building a low retaining wall along the southerly side of the grounds and for building an iron fence around them. It is feared that some of the grass will be winter-killed, as much of it had to be sown very late in the season on account of the grading being delayed by rain.

A strip of land south of the Pierce Grammar School has been cut down to the level of the yard, thus considerably increasing the play space. The cutting down was extended to the walk leading from School street to Prospect street. A wall from zero to four and one-half feet high was built to support the walk and an iron fence placed on the wall to protect the people using the walk.

In connection with the grading of Reservoir road and the filling of the cut on the Cochituate Aqueduct location, the Heath School grounds have been much improved in appearance and the play space for children in the neighborhood considerably enlarged.

The filling of this "open cut," as it is called, was done in

part with material obtained from the adjoining land, in part from the surplus obtained from street grading operations in the vicinity and with waste material. The land graded has been surfaced with loam. It is expected that the filling will be finished this year, after which this land should also be surfaced with loam and seeded.

Miscellaneous.

The boundary line between Brookline and Boston was perambulated and the usual record made.

At Walnut Hills Cemetery the wall along Allandale road, which has been under construction for several years, was extended 481 feet so that now the end of the wall is about 1132 feet from the entrance gates. Estimates have been made for extending the wall 432 feet to the corner of the cemetery.

The Town Map was brought up to date to July first and published.

Assistants.

The following is a list of assistants connected with the department: H. A. Varney, F. A. Leavitt, C. J. Wallace, G. S. Whitehead, E. L. Barrows, R. A. Doane, W. A. Devine, H. B. Collins, A. E. Spooner, T. J. Moran, A. A. Osborn, L. E. Weeks and C. Lapham.

Respectfully submitted,

ALEXIS H. FRENCH,
Town Engineer.

STREETS.

Table Showing Streets and Paths Laid Out and Accepted by the Town.

REPORT OF THE SUPERINTENDENT OF STREETS AND SEWERS

January 15, 1912.

To the Honorable Board of Selectmen:—

Gentlemen,—I respectfully submit my thirty-sixth annual report of the work done and the expense incurred in the Highway Department for the year ending December 31, 1911.

The amount appropriated at the annual town meeting for the support of highways was	$115,000 00
The amount expended was	114,996 99
Balance unexpended	3 01

The expenditure was for the following:—

Street Cleaning.

Cleaning streets, gutters, etc.	$9,857 65	
Sectional care, labor and teaming	20,384 52	
Cutting grass, etc.	946 64	
Tools, brooms, etc.	508 15	
		$31,696 96

Removal of Snow and Ice.

Plowing sidewalks	846 53	
Shoveling snow	8,485 87	
Sanding walks and streets	524 32	
Picking ice in streets, gutters, etc.	457 17	
Breaking out roads and leveling.	107 88	
Carting off snow	253 08	
Repairing equipment, sharpening, etc.	156 73	
New tools, etc.	120 32	
		$10,951 90

Repairs and New Work.

General maintenance	$30,621 65
Bridges	2,252 04
New crossings and repairs	1,406 04
Guide boards and signs	382 95

Crushing stone, including all incidental expenses at ledge	$10,968 65	
Repairs, fuel and supplies for two steam rollers	1,351 23	
Broken stone and sand purchased	3,027 95	
Holidays: Legal holidays $1,493 81		
Half holidays on Saturdays for three m'ths 1,565 79	3,059 60	
Tools and supplies	1,122 38	
Wages paid injured men	454 60	
Furnishing and setting stone bounds	484 17	
Miscellaneous	725 39	
		$55,856 65

Maintenance of Stable and Equipment.

Pay-rolls, hostlers and other labor in yard, etc	$3,527 04	
Hay, grain, straw, etc	7,799 47	
New horses	810 00	
Shoeing	1,485 32	
Veterinary attendance, medicine, etc.	171 45	
Heating, lighting and plumbing	281 20	
Repairs on carts, wagons and harnesses, cleaning and oiling	1,641 02	
Repairs on buildings	173 23	
Sundries	85 21	
		$15,973 94
Less transfer to other appropriations for use of horses, etc.:		
Health Department	$4,835 04	
Care of sewers	408 25	
Sidewalks	552 13	
Mosquito work	137 00	
Laying dust	454 99	
Cypress street widening	65 38	
Surface drainage	28 13	
Paving Harvard and Beacon street	20 75	
Paving Washington street	47 00	
		$6,548 67
		$9,425 27

Superintendence and Office Expenses.

Superintendent	$3,000 00	
Assistant Superintendent	2,211 10	
Clerk	767 00	
Telephones, stationery, postage, etc.	259 98	
		$6,238 08

Automobile.

Proportionate share of garage rent	$144 61	
Overhauling and repairs	192 10	
Tires, tubes, etc	294 60	
Registration, gasoline, oil, etc...	196 82	
		$828 13

Total amount expended.

For further details of this expenditure reference is made to the reports of the Accountant and the Treasurer.

The removal of snow and ice cost nothing in December, but $232.18 was spent in the purchase and storage of sand and in the preparation of the snow equipment. The rest of the money set apart for snow removal was used in much needed repairs on Aspinwall hill and Essex street.

About 605 square yards of the brick pavement in Washington street and Harvard square, which was originally laid in 1901, was taken up and repaved with new paving blocks. The concrete base was in perfect condition, and the poor condition of the pavement was wholly due to the wear of the bricks.

The bitulithic pavement, laid in Harvard street in 1902, from the square to Aspinwall avenue, was thoroughly patched and skimmed on the easterly side of the railroad tracks with Tarvia X. The work was considered an experiment, and so far the results are very good. A large part of the area on the westerly side of the tracks is in a wretched condition, due partly to the wear of the pavement, and partly to the digging of a trench for the railroad company's conduit, and must be put in good condition as soon as weather conditions will permit.

Considerable work was done on most of the streets in the way of patching with fine stone mixed with some bituminous material for a binder. In many cases this continuous patching obviated the necessity of picking over and resurfacing the entire roadway.

Aspinwall avenue from Perry street to Harvard street, School street, Cypress street from Boylston street to Walnut street, the easterly side of Brookline avenue and short pieces of Harvard street and Boylston street were resurfaced, using Tarvia X for a binder.

Davis avenue, from Harvard square to Cypress street, and the easterly side of Cypress street, from Walnut street to Franklin street at the car house, were resurfaced with Tarite asphalt for a binder. This material was also used in the construction of Lee street, Reservoir road and Crafts road.

Texas asphalt was used in resurfacing one side of Washington street from Harvard square to Prospect street.

Bermudez asphalt was used in resurfacing Washington street at the town line near Pond avenue.

The experience of the last three years has shown the necessity of some form of bituminous binder, and it is hoped that this form of construction will be adopted in all new work and in the reconstruction of all the more important streets.

Many other streets have been resurfaced, and this with the continuous patching before referred to has resulted in placing most of our streets in very fair condition. Many are still in a condition requiring immediate attention; St. Paul street may be mentioned as a typical instance. A large gas pipe was laid its entire length; a conduit for the wires of the Boston Elevated Railway Company was laid from Longwood avenue to Commonwealth avenue, and a surface water drain with a number of catch basins and a sewer were laid from Freeman street to Commonwealth avenue; the cross trenches for the connections to new buildings alone are lacking.

Bridges.

Considerable annoyance, with an element of danger, was caused by the under part of the skew backs in the arches of the Washington street railroad bridge being broken off by the heavy blasts from the locomotives, and dropping on the trains passing beneath. Under an agreement with the Town Engineer, the rest of these skew backs with lumps of mortar, etc., were removed by the Railroad Company and the cost, $45.15, was paid by the town.

In the Cypress street railroad bridge, all the iron work, in-

cluding the fences, were thoroughly scraped and painted two coats; five new stringers were put in, and a new deck of three-inch hard pine was laid, which was planed on one side to an even thickness. The wearing surface was of two-inch spruce also planed on one side.

The cost was as follows:—

Labor and teaming	$35 01	
Scraping iron work and painting	535 10	
Carpenter work and spikes	86 40	
Lumber	320 54	
Flagman for warning trains	60 42	
		$1,037 47

Practically the same work was done on the Dean road railroad bridge, the cost being as follows:—

Labor and teaming	$63 95	
Scraping iron work and painting	331 25	
Carpenter work and spikes	178 85	
Lumber	523 37	
Flagman for warning trains	50 00	
		$1,153 92

Change of Name.

At the Town Meeting, held December 29, 1911, the name of that part of Clinton road, between Boylston street and Buckminster road, was changed to Buckminster road.

At the same meeting the name of that part of Fisher avenue from Clinton road to Chestnut Hill avenue was changed to Clinton road.

Street Crossings.

More than usual attention was paid to the street crossings this year, and with few exceptions they are in good condition. Eighteen new crossings of coal tar concrete and one of granite flagging were laid.

Permits.

During the year 1911 the following permits were issued:

Occupying streets for building purposes, erecting canopies, setting up cleaning machines, etc.	341
Crossing sidewalks	272

Excavations:		
Boston Consolidated Gas Company	318	
Edison Electric Illuminating Co.	163	
Brookline Water Department	231	
Brookline Forestry Department	17	
Brookline Wire Department	11	
Sewers: constructing new sewers, surface drains, sewer connections, etc.	184	
New England Telephone & Telegraph Co.	87	
Laying granolithic, repairing sidewalks, etc.	49	
Boston Elevated Railway Co.	67	
City of Boston & Metropolitan Water Works	13	
Miscellaneous	29	
		1,169
Total number of permits		1,782

Paving Washington Street.

That part of Washington street, between the westerly line of Pond avenue and the Parkway, where the brick paving ended in 1909, and the town line was reshaped and resurfaced with broken stone. Bermudez asphalt was used for a binder on the northerly side of the railroad tracks, and Texas asphalt on the southerly side. The cost, amounting to $945.86, was charged to the appropriation for "Paving Washington Street."

Paving Harvard and Beacon Streets.

An additional appropriation of $7,000 was made to pay for the extension of the granite block pavement in Harvard street near Beacon street. The work was done by the Simpson Brothers Corporation under their contract of 1910, and was similar to that previously laid. It was extended in a southerly direction to the southerly line of Longwood avenue, and northerly to the northerly line of the Universalist Church property, some ninety feet beyond Green street.

This pavement is very well adapted for business centres, and I would strongly recommend its use in such localities and in streets of heavy traffic, especially where there are double lines of street railway tracks.

New Streets.

Dummer street, from Essex street to Cottage Farm road, which was originally laid out by the Selectmen and reported to

the town at the special town meeting held December 28, 1910, was accepted as a public way at the annual town meeting. This street, with four others in the immediate neighborhood, was constructed by the owners and was offered to the town free of cost.

Extension of White Place.

An extension of White place, from the portion accepted January 2, 1885, to Davis avenue, was accepted and allowed as a public way at the annual town meeting. This street, which varies in width from twenty-five feet to thirty-five feet, was constructed with edgestones and a bituminous macadam roadway, under the supervision of the Town Engineer.

Walnut Path.

A foot path, thirty feet wide, running from Boylston street across the easterly end of the Lincoln School Playground, and over the railroad by means of a bridge, connecting with the extension of White place, was laid out as a public way at the annual meeting. The bridge, which is of concrete, was built by contract under the direction of the Town Engineer. The approach from Boylston street is not yet constructed; a temporary plank walk was laid for use during the present winter.

Widening of Cypress Street.

A widening of Cypress street, on the easterly side from Washington street to Searle avenue, was allowed at the annual meeting.

The construction included furnishing and setting new circular edgestones, resetting other edgestones, and repaving the gutters, laying new concrete sidewalks and extending the street crossings, and macadamizing the roadway, and cost $992.16. The surface water drain was extended a short distance into Cypress street, and two catch-basins were built, the cost of which was charged to Surface Drainage.

Laying Dust.

The amount appropriated at the annual meeting for watering streets and laying dust was $40,000, of which $33,866.84 was expended for the following:

Street watering, paid contractors	$16,247 49
Dustoline	5,681 76
Calcium Chloride	4,363 03
Texas Road Oil	1,459 90
Standard Oil Emulsion	1,272 25
Standard Asphalt Road Oil	224 40
Liquid Asphalt, including sand	886 35
Tasscoil	529 54
Headley Dust Preventive	481 25
Tarvia "B"	444 94
Superintendence	1,281 25
Automobile	789 52
Holidays	110 57
Miscellaneous	94 59
Total	$33,866 84

Seventeen double teams were hired from contractors for sprinkling streets on which nothing but water was used, or where it was necessary to supplement the use of other materials with water. The rate paid was the same as heretofore, viz.: $125 per team per month, and $6 for each day before and after the regular season, which began May 1st and ended October 31st.

Dustoline was used with very satisfactory results on many residential streets and on the principal thoroughfares in the north and east sections of the town. Eighty-five thousand forty-seven gallons were used in from one to four applications. Tasscoil was substituted for Dustoline in a few places, and where conditions were the same very little, if any, difference was noted. About 7,491 gallons were used.

Calcium Chloride was used in a dry, granulated form this season instead of in solution as heretofore. The amount used was somewhat less than last year, owing to our desire to use the different materials on adjacent streets, rather than to any dissatisfaction with the calcide. During the dry, freezing spell in December, when the dust was so prevalent, calcide was very successfully used in a weak solution on the brick and granite pavements and also on the bituminous macadam. Four hundred eighty-one thousand five hundred and forty-six pounds were used, and from two to four applications were made.

Standard Oil emulsion was used on practically the same streets as last year with the same results, some persons object-

ing strongly to its use, while others think they are treated unfairly if it is not used in their locality. If the weather could be foretold with any accuracy, much of the objection to the use of oil emulsion could be eliminated.

Standard No. 3 Asphalt Road Oil was used in parts of Woodland road, Heath street and Chestnut Hill avenue. It was applied from the company's automobile oil distributor and cost .012 per square yard for a single application. It was estimated that two applications would suffice for the season, and arrangements were made three times for the second application on Chestnut Hill avenue, but rain prevented in each instance.

Texas Road Oil was used on Boylston street from Cypress street to the Newton line, and during the latter part of the season on a part of Clyde street, and was effectual in keeping the dust laid. Twenty-nine thousand two hundred and twenty-four gallons were used.

Liquid asphalt was used on parts of Goddard avenue and Newton street, where the same or a similar material had been applied in one part in 1908 and in another part in 1909-10. The surface treated was in poor condition, and very good results could hardly have been expected, but after the first wet spell the roads were very much improved. It was very clearly demonstrated, however, that to secure the best results, the surface must first be put in good condition.

The balance of the appropriation unexpended is large, and this is due to the fact that considerable work which had been carefully planned with a view to keeping the dust laid in the cold weather, could not be done on account of the exceptionally damp and wet weather which prevailed during most of the autumn.

Sidewalks.

In addition to the usual considerable amount of resetting edgestones and repairing gutters in small detached pieces, the following work in connection with sidewalks was done, viz.:

Edgestones furnished and set (straight).....2,270 lin. feet
Edgestones furnished and set (circular)..... 659 " "

Coal tar concrete (new)	5,163	sq. yds.
Coal tar concrete (renewals and repairs)	3,940	" "
Granolithic sidewalks	2,406	" "
Gutters, cobble stone and granite blocks	896	" "

The appropriation for sidewalks was $19,000 and the expenditure, given in detail in the accountant's and the treasurer's reports, was for the following:

Edgestones	$3,519 73
New coal tar concrete walks	2,998 69
Repairing and renewing coal tar concrete walks	2,147 77
Plank walks: new walks and extensions	2,235 97
Plank walks: repairs and renewals	3,536 58
Rebuilding and repairing steps in public paths	180 29
Gravel walks, grading, etc	1,474 48
Allowance towards cost of granolithic walks	2,329 95
Brick walks, repairs	97 75
Holidays	283 42
Sundries	153 74
Total	$18,957 37

The repaving of the brick sidewalks in Harvard and Village squares, which it was thought would be attended to during the past season, has not been done, and I would suggest this as one of the most important items now claiming attention.

Maintenance of Sewers and Drains.

The appropriation for the care and maintenance of sewers and drains was $5,000, and $4,987.71 was expended for the following purposes, viz.:

Cleaning catch-basins		$3,494 07
Cleaning and repairing sewers and surface water drains		728 84
Inspection of sewers		220 12
Rebuilding and repairing catch-basins and manholes		104 90
New tools and repairs of equipment		241 91
Holidays:		
Legal	$93 24	
Half holidays. Saturdays, 3 months	104 63	
		197 87
		$4,987 71

The work in this department has increased so much of late that the appropriation of $5,000, which has heretofore been sufficient, will probably be inadequate for the future. A more frequent and rigid inspection is necessary, and the separation of the storm water from the sewage has made the care of the sewers more costly. I would recommend that the appropriation be $6,000 for next year.

Surface Drainage.

Practically all the work of constructing new drains and catch-basins, as well as sewers, is done by contract under the direction of the Town Engineer. Five street catch-basins and one railroad catch-basin were built by this department.

Collecting Ashes and Waste Material.

The cost of collecting ashes and rubbish was $28,074.74, which sum included $4,835.04 credited to the Highway Department for use of horses.

The expenditure was for the following:

Collecting ashes		$15,729 75	
Collecting paper		8,648 47	
Care of dumps, leveling, etc.		1,923 11	
Equipment: 2 new horses		650 00	
Holidays:			
Legal	$633 77		
Half holidays	328 81		
		962 58	
Miscellaneous: repairing equipment, etc.		160 83	
			$28,074 74

Twenty-two thousand six hundred and three loads of ashes and 12,012 loads of combustible refuse were collected; the numbers last year were 22,287 and 10,761 respectively. The small increase in the number of loads of ashes collected was probably due to the exceptionally mild weather of December, when very much less coal was burned.

The central dump between Harrison street and Kent street is filled, but we have been fortunate in getting a dump between Kent street and the railroad, which will last a few weeks longer. By the payment of a small sum per load we have secured the privilege of a dump for clean ashes only in the Aberdeen section, which saves the long haul to the Aqueduct dump

or to Kent street. If these places were not available, instead of showing a balance unexpended of $1,925.26, exclusive of the $4,000 added for taking the barrels from the back yards, the appropriation would probably have been overdrawn.

It was not until December that it was finally decided to try the experiment of removing barrels from back yards in a limited area near the village. Opinions differ as to the advisability of doing this work generally throughout the town.

A contract was made with De Stefano & Folsom for disposing of the combustible waste at the Hammond street ledge lot for five years from July 1, 1911, which may be annulled after two years, provided six months' notice is given, if a different method of disposing of the waste should be adopted, or after three years, if either party in interest so wishes, provided the same notice be given. They are to pay $200 per annum for the privilege of sorting over the waste.

Sundries.

The work of suppression of the fly and mosquito nuisance was done, as hitherto, under the direction of Mr. J. Albert C. Nyhen, the assistant bacteriologist, at a cost for labor and team of $1,798.96, which was charged to the Health Department.

Sundry other work, amounting to $327.72, was done, and the cost was charged to the various appropriations to which it belonged.

The inventory of property belonging to the department is filed with the Town Accountant.

Respectfully submitted,

MICHAEL DRISCOLL,
Superintendent of Streets.

TOWN OF BROOKLINE BUILDING DEPARTMENT

REPORT

OF THE

BUILDING COMMISSIONER

OF

BROOKLINE

MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1911

BOSTON
E. L. GRIMES COMPANY, PRINTERS, 122 PEARL STREET
1912

REPORT OF BUILDING COMMISSIONER

Brookline, Mass., December 31, 1911.

To the Board of Selectmen, Brookline, Mass.:—

Gentlemen,—I herewith submit the twenty-third annual report of the Building Department, for the year ending December 31, 1911.

The number of permits and value of buildings erected during the past year was practically the same as the year previous, which was an exceptionally busy year.

The number of brick apartments fell off somewhat, while there was a slight increase in wood and frame. The garages, especially private ones, continue to be built in ever-increasing numbers and doubtless will continue to be so for a number of years.

The time has come, I believe, when this office should have another building inspector, as our building laws are very stringent and it is impossible for one man to inspect often enough, especially on brick apartments, to see that all the laws are complied with. I am rather inclined to believe that it would be difficult to get competent and reliable men for temporary inspectors as it would be hard for a man to work impartially, first for the town and then perhaps for the same builder whose work he had previously been inspecting. Few people realize, I believe, that in the city of Boston the value of new work each year is only from eight to twelve times that in Brookline, while the proportion of inspectors is vastly larger and yet there is undoubtedly need of more inspectors in the city.

This department has followed the usual system of elevator inspection and many repairs ordered which have been complied with.

The work of inspection has proceeded in the usual manner except that in the last month we have had a special temporary inspector appointed, Mr. Arthur Finnegan, who has done very efficient work, especially on the brick apartments.

Several old buildings have been condemned and torn down, and in others work has been ordered to be done to make them safe, or, if not done, to tear them down.

Plumbing.

The report of the Inspector of Plumbing is as follows:—

Mr. Ernest Lyon, Building Commissioner:—

Dear Sir,—I herewith submit my nineteenth annual report for the year ending December 31, 1911:

The whole number of permits issued to do plumbing was 318, or 30 less than last year. Of this number eighty were for new brick and stone buildings, 68 were for new wood and frame buildings, 150 were for additions and repairs to existing plumbing, and 20 were for improving the drainage.

The total cost of the above plumbing was $168,299, as against $206,305 in 1910, a falling off of $38,006. This shortage is not so pronounced as would at first appear, as in actual amount and cost the year's work was above the average.

Comparison has also been made with a year notable for the unusually large number of its installations as well as for its total cost, in which respect it was exceeded only by the record year (1903) of this branch of the Building Department.

During the year water fixtures have been installed in the various buildings as follows:—

Water closets	733
Baths	584
Bowls	630
Sinks	467
Trays	312
Other fixtures	55
Total	2,781

Tests and inspections have been made as follows:—

Water tests	411
Peppermint tests	48
Others	6
Total	465
Inspections	1,597

The past year, while not quite so active as that preceding it, was, nevertheless, quite a busy one.

Although there was a falling off in the number of new buildings as compared with the previous year, there was no corresponding decrease in the work of inspection and testing.

The demand for special tests for house connections and cellar work was relatively much greater than ever before. This was due chiefly to the great haste of certain house-owners to get their buildings up and rented; getting the property on a paying basis appearing to be the chief concern.

The principal event of the year has been the introduction of the new plumbing ordinance. The new regulations were presented to the town for acceptance March 15, 1911, and were passed with but little opposition. They were approved without changes by the Attorney General June 21, 1911, and went into effect on July 8, 1911.

The working of these new by-laws can be said to be satisfactory and no opposition has been met with in enforcing them.

It may be stated it was the intention of those having charge of the revision of the old law to make many radical changes therein, in fact, to practically formulate a new code, having all the latest and best sanitary ideas, and at the same time have all its provisions definite, clear and simple.

It is generally conceded that the revisors of our rules have done their work well, and much credit is due them for having raised them to an equality with those of the most progressive cities of the State.

A brief notice of a few of the more important changes in the rules may be of interest.

Ever since the inception of plumbing laws in Brookline, back in 1889, traps have been back-vented from the crown. Within a few years, however, continuous venting has come much into vogue some cities having adopted it altogether.

Although this form of venting has its drawbacks as well as the other, the time had come when it must be recognized. Traps may now be vented either by this method or from the crown.

Water-closets in battery to the number of four are now exempted from back-venting under proper restrictions. For

each additional water-closet in battery a revent must be supplied.

In buildings where a series of water-closets arranged in battery and located directly over each other and having a soil pipe in common, the special air pipe may now be omitted, also under proper restrictions.

Another departure from old customs is that the trap of an upper fixture coming within a prescribed distance of a main waste pipe of a diameter smaller than four inches is now exempted from back venting.

This provision is further safeguarded by ample and proper restrictions.

Scarcely any provision was made in the old law requiring a drainage system to be made accessible.

This omission has been corrected in the new law by the requirement that proper and sufficient heavy brass clean-outs shall be inserted at such points in every drain, soil and waste pipe as to make the whole system accessible in case of partial or complete clogging.

The law now in force contains many other new and excellent provisions deserving of mention, but which lack of space forbids. It may be said of them, however, that they are equally as important in their way in promoting the character and quality of the work as those referred to above.

As in previous years all house drainage and plumbing ventilation undergoing construction or repair, has been frequently and systematically inspected, and water and other tests made whenever required. Such leaks or defects as were disclosed by these tests were corrected or removed and the whole left in agreement with the regulations.

The laws have been generally well observed. Some opposition has been met with at times, but this has been overcome and compliance exacted in all instances.

Respectfully submitted,

MICHAEL DUFFLEY,
Inspector of Plumbing.

Gasfitting.

Eight hundred and forty-nine applications were made for permits to do gasfitting during the year—a slight decrease over the preceding year.

They were divided as follows:—

Changes and alterations	221
Buildings in which fixtures were hung	159
New buildings piped	139
Old buildings piped	54
Instantaneous heaters installed	40
Miscellaneous work	236
Total	849

The above applications included the connecting up of 592 gas stoves and ranges and 476 gas meters.

The Examining Board of Gasfitters certified to me one person for a journeyman's license, and the license fee was turned over to the Town Treasurer. The expenses of the Board were $5, paid over to the third member, as required by law.

Report of the Examiners of Gasfitters.

The following report of the Examiners of Gasfitters for the year ending December 31, 1911, is respectfully submitted:—

The Board organized with the choice of Horace James as chairman and Alfred G. Sanborn as clerk.

One meeting was held for the examination of applicants for licenses on May 11, 1911. James R. Bennett was certified to the Building Commissioner to be licensed as a journeyman gasfitter.

Horace James,
Ernest Lyon,
Alfred G. Sanborn.
Board of Examiners of Gasfitters.

The following is a list of the appropriations and expenditures for the year ending December 31, 1911:—

	Appropriated	Expended
Building Commissioner	$2,450 00	$2,450 00
Inspector of Plumbing	1,950 00	1,941 66
Inspector of Gasfitting	300 00	300 00
Assistant Inspector of Gasfitting	1,350 00	1,350 00
Clerk of Department	750 00	750 00
Additional Inspection	300 00	117 50
Horse, wagon, harness, etc.	400 00	425 43
Additional horse hire and car fares	185 00	134 25
Automobile	540 00	540 00
Printing, postage, stationery, etc.	195 00	212 94
Telephone	80 00	79 34
Totals	$8,500 00	$8,301 12
	$8,301 12	
Balance unexpended	$198 88	

Respectfully submitted,

ERNEST LYON,
Building Commissioner.

REPORT

OF THE

SEALER OF WEIGHTS AND MEASURES

OF

BROOKLINE

MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1911

BOSTON
E. L. GRIMES COMPANY, PRINTERS, 122 FEARL STREET
1912

REPORT

Brookline, Mass., January 12, 1912.

To the Honorable Board of Selectmen:—

Gentlemen,—I respectfully submit herewith the thirteenth annual report of the services of the Weights and Measures Department for the year ending December 31st, 1911:—

Summary.

Weights and Measures.

Sealed:

	Adjusted	Sealed	Condemned
Platform scales (over 5,000 lbs.)	1	2	
Platform scales (under 5,000 lbs.)	28	71	
Computing scales	4	17	2
Slot machines	5	11	2
All other scales	82	232	6
Weights	111	702	7
Dry measures		233	11
Liquid measures		316	4
Milk jars		1068	28
Linear measures	1	26	1
Cloth measuring machines		1	
Totals	232	2679	61
Ice cream moulds		212	
Berry baskets		98	

Inspections:

Stores	370
Pedlar's wagons	101
Milk wagons	51
Weighed-out packages tested	213
Complaints inventigated	45
Ice weighings	9
Computing scale charts verified	1
Totals	790

During the past year new legislation and instructions from the State Commissioner have added many articles to be tested and sealed, while the commercial growth of the town has also

been a factor in increasing the work. Notwithstanding this considerable increase the work of the department has been done with a great deal more satisfaction to the writer, and, I trust, has been of correspondingly increased benefit to the public, than in former years. The Sealer's Department is so combined with certain divisions of the health service that it is practicable to use more modern facilities than otherwise would be justified. It has been possible to do more work and in other ways increase the efficiency at a minimum cost.

The sealing of molds used in the manufacture of ice cream has been a new feature of the work, while in the future the measuring devices of civil engineers must also be tested. More store inspections have been made and more attention has been given to pedlars on the streets. Berry baskets and ice cream boxes have been given proper supervision and several crates of illegal baskets seized and destroyed. The filling of these baskets and boxes has been insisted upon, and such other duties performed as were incumbent upon your Sealer.

Results.

I doubt if it is realized by the average individual how much real benefit the people of Massachusetts have received since the inauguration of the State Department of Weights and Measures, and the revisions, additions, and enforcement of the laws relating thereto. The excellent work of the State Commissioner in strengthening the local inspection service, prohibiting the manufacture of short weight and measure commodities within the State and excluding those from without, and in other ways accomplishing results, has aided very materially in helping to offset the higher cost of living.

Statistical reports show that previous to the creation of the State Department the actual loss to the consumer from short weight, shrinkage, customs of trade, etc., was 20 per cent. average. This has been reduced to a minimum, and in the case of many commodities entirely eliminated, without increasing the cost to the consumer. As a concrete illustration,—a certain kind of candy selling for sixty cents in one-pound packages formerly contained but 12 to 13 ounces of candy, 3 or 4 ounces being made up of cardboard, tinfoil and serving tongs. This candy is still sold for sixty cents, the boxes

weighing from 17½ to 18 ounces. They contain 16 ounces of candy and it is necessary to use but from 1½ to 2 ounces in the box and packings, which the manufacturer is obliged to furnish. This represents a saving of from 18 to 26 per cent.

In addition, the moral effect of the work of local departments is unquestionably of great benefit to a community in ways which cannot be expressed in figures.

Coal Inspection.

Loads in transit examined for certificates of weight	370
Loads not properly certified to by sworn weigher	5
Loads re-weighed	16
Bags of coal re-weighed	14
Weighings made at wharf (town's coal)	61

Of the loads re-weighed all but three were overweight; the largest shortage in these was but 20 lbs. The bag coal was all correct.

The State Commissioner has exercised a very close supervision over this commodity. More rigid inspections have been made at the distributing wharves, as that is where the largest opportunity for error or dishonesty exists. Considering that all coal for delivery in Brookline is weighed at these wharves in adjoining cities and is subjected to additional inspections when in transit within the town, I feel that our citizens get rather more protection regarding weight than the records indicate.

Analysis of Coal Furnished the Town.

Anthracite.

			1910 Contract	1911 Contract
Samples analyzed			5	13
Mechanical analyses made				2
Tons of coal sampled			287	2014
Premiums	$0 75	$15 70		
Penalties	3 15			

Bituminous.

Samples analyzed			10	5
Mechanical analyses made				1
Tons of coal sampled			1006	774
Premiums	$133 84	$161 14		
Penalties	65 05			

Note.—The 1910 contracts represent coal delivered from January 1st to May 1st, 1911. Contracts for 1911 were with other dealers.

This is the second year that the town has purchased its coal under contracts, which provide for a correction in the price according to the heat efficiency, as shown by analysis. The records show that the longer the system has been in use the better coal has the town received. That the commercial value of the additional heat efficiency has been far in excess of the amount represented by the premiums paid on both the bituminous and anthracite coals is evidenced in many ways. The absence of complaints from engineers and janitors seems worthy of mention.

The bituminous coal furnished under the 1911 contract has been of excellent quality, the British thermal units averaging 15,080 and the ash 7 per cent. The volatile matter averaged 1½ per cent. in excess of the contract specifications, but as experts agreed that on account of its being mixed with buckwheat coal before burning, this higher volatile matter was desirable; and, in addition, as the mechanical analysis showed that the heat efficiency was maintained owing to its otherwise superior quality, I considered it for the town's interest to allow the premium, except upon such coal as was to be used unmixed by the Street Department.

The anthracite coal furnished under the 1911 contract has all been well within the specifications, the average ash value being 10.32 per cent. and the fixed carbons 85.67 per cent. The mechanical analysis was extremely satisfactory. The coal showed a somewhat higher heat efficiency than the ash implied, owing to the absence of undesirable proportions of silica and lime, and maintained a very even combustion under all degrees of heat.

The arrangement made last May, whereby the delivery of coal to the various buildings was placed under the supervision of the Sealer, has proved beneficial in several ways. With the exception of 20 tons in small lots, I have been able to sample and submit for analysis all the coal delivered under the present contracts at a material reduction in cost over last year when less coal was delivered and some 200 tons were not sampled.

Measurer of Wood and Bark.

I have made such measurings as citizens have requested, embracing some ten or more determinations and covering nearly

as many different articles. As the demands for a Measurer's services are so limited in Brookline I have maintained no official record books, but have taken a copy of each certificate issued and placed the same on file.

Inspection of Petroleum.

Two samples of gasolene, one of kerosene, and one of crude oil have been tested for citizens at their own expense during the year.

Although the duties of an Inspector of Petroleum, as defined in the Public Statutes, do not include the supervision of its storage, I have, nevertheless, continued the work of eliminating, as far as possible, the improper storing and handling of petroleum products within the town. In many instances, citizens have willingly complied with suggestions given when unsafe conditions have been found. In other cases, however, it was impossible to obtain satisfactory results, owing to the fact that there are no laws or regulations covering the point.

In view of the attention and study now being given by public-spirited citizens to a revision of our building laws, it seems an opportune time to again suggest that some action be taken towards placing petroleum and its products under a closer supervision in the town. We have reason to take pride in maintaining a finely equipped fire department, and yet a much higher per cent. of protection could be had at little or no expense by providing some regulation or by-law covering the matter referred to above.

Conclusion.

To my associates in the department and to other town officers and citizens I am indebted for willing assistance and valuable suggestions.

Respectfully submitted,

WILLARD E. WARD,
Sealer of Weights and Measures.

REPORT

Brookline, Mass., December 31, 1911.

To the Honorable Board of Selectmen:—

Gentlemen,—The Gymnasium and Baths Committee respectfully present their fifteenth report for the year ending December 31, 1911. The total number of baths was 71,387; for the previous year the number was 68,890, showing an increase of 2,497. The attendance at the gymnasium was 25,242, a gain over the previous year of 832. The grand total of attendance was 96,629. This does not include attendance of high school pupils at the gymnasium, which numbered 21,204 boys and 20,293 girls.

Miscellaneous supplies	433 48
Incidentals	201 56
Suits, shoes, etc.	1,680 28
100 lockers (H. S.)	370 00
Vacuum cleaner	41 70
Exhibition expenses	28 00
Gymnasium apparatus	602 77
Diplomas	8 22
Stenography and typewriting	74 50
Athletic meets	220 65
Furniture and furnishings	99 70
Extra help	132 20
Total	$23,256 36

Expenditures and Receipts.

The total appropriation for the year beginning January 1, 1911, and ending December 31, 1911, was $25,193. Of this amount, $23,256.36 was expended, leaving an unexpended balance of $1,936.64. The total receipts were $8,503.46 and crediting $792.76, which represents the laundry work done for the town, we get a total of $9,296.22. Deducting this amount from $23,256.36 we find the net cost to the town, exclusive of heating and lighting, was $13,960.14.

Sunday Attendance at Bath House.

The bath house was opened as usual Sunday mornings in July and August, with a total attendance of 384, or an average of 42 2-3.

Estimate of Appropriation for 1912.

Salaries	$17,848 00
Medical examiners	125 00
Alterations and repairs	2,000 00
Stationery and printing	250 00
Towels	300 00
Bathing suits	150 00
Telephones	140 00
Expressing	275 00
Soap (bath house)	125 00
Laundry supplies	125 00
Gas lighting	125 00
Miscellaneous supplies	450 00
Incidentals	150 00
Suits, shoes, etc.	2,000 00
Total	$24,063 00

Estimate of Appropriation for Improvements and Furnishings.

Gymnasium apparatus	$500 00
Conducting competitive sports	300 00

Total	$2,390 00

Total Estimate of Appropriations.

Maintenance	$24,063 00
Extra appropriations, improvements and furnishings	2,390 00
Total	$26,453 00

General Remarks.

Throughout the year it has been the constant aim of your committee to so arrange the Baths and Gymnasium Department that the residents of the town may derive the utmost benefits, and with this end in view all instruction has been put on a salary basis.

A comparison of the accompanying tables with those of last year show a very gratifying increase in the attendance.

The Committee and Director are always glad to have the citizens of the town visit the Gymnasium and Baths Department, and are always ready to show and explain the facilities offered and so liberally used.

Respectfully submitted,

(Signed)

HARRY W. CUMNER, *Chairman.*
PAYSON DANA, *Secretary.*
WILLIAM H. MCMANUS,

Standing Committees.

Almshouse, Miss Train, Miss Edgerly, Mr. James, Dr. Bowker.
Sick Poor, Miss Edgerly, Dr. Bowker.

REPORT

The expenditures in this department have been within the appropriation, which was $10,000.00.

The Almshouse.

There are at present nineteen inmates at the Almshouse, a larger number than ever before. Of these fifteen are men. No deaths have occurred in the Almshouse, but one man who was very ill when admitted, and was as soon as possible removed to the McDonald Hospital, died there the following day.

There have been no changes among the women inmates, all having been in the Almshouse for at least one year.

The expense of maintaining the Almshouse has been comparatively large, but the increase is due almost entirely to the necessary but extensive repairs made upon the building. New floors have been laid in some of the rooms, two bath rooms, one in each wing occupied by the inmates, have been added and some improvements in the arrangement and lighting of staircases have been made. The condition of the Almshouse is now excellent. Some furnishings have been replaced or renovated and all is kept in good order by the Warden and Matron, Mr. and Mrs. Pulley.

These officials are filling their respective positions in a most satisfactory manner. Their standard in housekeeping matters is high and their management of the inmates is wise and considerate.

Outdoor Relief.

The amount expended for outdoor relief is rather greater than last year, the increase being among a few families who, owing to the desertion or death of the man have become dependent upon the public for regular aid for a few years.

Sick.

Thirty-four persons have been aided on account of sickness during the year, a smaller number than last year, and the amount expended for this class is also much less.

Children.

One child has been supported by the town during the year and another child for a part of that time.

District Nurse.

A part of the salary of the District Nurse has been paid by the Overseers of the Poor.

McDonald Hospital.

The Overseers of the Poor have entered into an agreement with the managers of the McDonald Hospital by which the use of a bed is furnished for persons who are unable to pay for hospital care.

Burials.

Two persons have been buried at the expense of the town.

Summary of Expenditures and Receipts, 1911.

Almshouse		$5,322 02	
Maintenance	3,842 28		
Alterations and repairs	1,479 74		
*Reimbursements		130 57

REPORT

January 1, 1912.

Work Accomplished During 1911.

Maintenance.

The ravages of the insect pests, which for several years have infested the town, still continue; the gypsy moth, the elm tree beetle and the brown tail moth are the most persistent and dangerous. It is a matter for congratulation, however, that the town, owing to its intelligent efforts, has all of these pests under control and has kept them from doing serious injury.

It must not be forgotten, however, that the gypsy moth is rapidly spreading over the country and that no effective enemy of this insect in Massachusetts has yet been found and that unless sustained and energetic measures are taken for its destruction it will continue to multiply.

The trees in the parks and on the public grounds are now fairly free of the gypsy and brown tail moths and well illustrate the fact that by effective spraying it is possible to preserve the trees.

Elm tree beetles have, during the past year, proved particularly troublesome, and unless some now unexpected enemy to this insect, able to keep it in check, appears, it will be necessary to continue the annual spraying. Neglected elm trees along walls and in swamps supply food and are breeding places for this beetle and the removal of all such trees is in the interest of good economy.

The trees in the park plantations, in spite of the hot and dry summer, have made a satisfactory growth during the year and are in excellent condition.

The total cost of spraying was $2,725.65, including a considerable amount of work on private property at the request

of the owners. The town received in return for this portion of the work the sum of $1,060.62, leaving the net cost as $1,665.03.

A marked improvement in the use of the playgrounds is noticeable. The attendance of children has never been so large as during the past year. A principal cause for this change is undoubtedly due to the efforts of the Board in the direction of organized play, instituted during the summer months as an experiment to test the possibilities of the system. As early as March, 1911, the Committee of thirty citizens were informed of the intention of the Board to undertake some preparatory work in the nature of organized play, and arrangements were planned in co-operation with the Director of the Public Gymnasium and Bath to undertake the work. This arrangement, however, failed to materialize and it was not until late in May that a Committee of the Educational Society, of which Miss Caroline E. Pierce was the active representative, came to the assistance of the Board with some effective plans for the carrying out of the work on a sufficiently broad basis to determine the efficiency of the idea. On June 27 the Chairman was authorized to make a six weeks' trial of organized play. Miss Pierce, with her enterprise and enthusiasm, entered into the undertaking without delay. Mr. Ernest Herman of Cambridge, the well-known playground expert, and Miss Maxwell and others assisted with advice and encouragement. Mr. William N. Howard, Miss Gladys White, Miss Irene U. Telford and Miss Gwendoline White were employed as assistants.

The children responded at once to the efforts made in their behalf and it was not long before the resources of the Board were taxed to provide sufficient facilities for their increasing numbers. On the Parsons School yard the smaller children were entertained with sand gardens and games adapted to their ages. On Brookline avenue a temporary fence was erected to separate the girls from the boys when the latter were employed in strenuous games. The average daily attendance was about five hundred.

On August 11th, a public exhibition was held on Brookline Avenue Playground, in which nearly 500 children par-

ticipated; it was a most enjoyable demonstration and was witnessed by a large number of citizens.

During the summer Mr. J. Leonard Mason, Director of the Public Gymnasium and Baths Department, took charge of a class of children on the Emerson Garden and instructed them successfully in sand garden play.

As the town has very wisely made provision for the carrying out of this work in the future, the experiment undertaken by the Park Commission may be considered to have demonstrated the possibilities of organized play.

Putterham Woods. A decided improvement has been made on Newton street by the removal of the centre for the distribution of the garbage collected in the town which had been carried out on these grounds for many years. The old buildings were sold and removed or torn down and the large accumulations of tin cans have been buried and the grounds made more presentable.

In accordance with the practice of previous years, a large number of trees have been pruned and a small addition was made to the saddle path.

St. Mary's School. The iron fence already existing on two sides of the school yard has been extended around the other two sides.

Band Stand. In accordance with the expressed wish of the Committee of thirty citizens, a temporary band stand, of wood and without roof, was built on Cypress Street Playground.

Hall's Pond, Longwood. After several hearings and much consideration of the question of the advisability of preserving this pond or of filling it, the Board on January 6,

"Voted, in view of the location of the streets in and around the pond, it is undesirable to undertake the work of saving Hall's Pond."

Construction.

Driscoll School. The sum of $13,000.00 was appropriated last year for the grading and improvement of the grounds surrounding this new school. The plans for carrying out the work were made by the town engineer in consultation

with the Board. On May 19 it was voted to invite proposals for the carrying out of the rougher portions of the grading. The following bids were received:—

1.	Carroll Construction Co.	$2,600 00
2.	Dennis Driscoll	2,200 00
3.	James Driscoll & Son	1,935 00
4.	M. J. O'Hearn	1,826 00
5.	Henessey Bros.	1,503 00

On June 5 the contract was awarded to the lowest bidder and the bonds fixed at $500.00.

The work was undertaken at too low a price but it was finally completed by the contractors. The Driscoll School was located in a difficult spot to develop, but the land was bought at a low price and it was a good investment for the town to expend a liberal sum in the improvement of the grounds.

Driveways, curbs, concrete flights of steps, a drainage system and the general grading of playgrounds were carried out. The Board believes that the plans finally adopted have proved to be a satisfactory solution of the somewhat difficult problem. It is hard for any one familiar with the original deep gully which underlies the site at the foot of Corey Hill to realize that so great a transformation has been accomplished with the expenditure of so small a sum. The total cost of the work under charge of the Park Commissioners was $11,816.94, leaving a balance of $1,183.06.

Beacon Street Playground. Last year $3,500.00 was appropriated for the purpose of finishing this large playground and providing for the construction of lawn tennis courts and a few simple pieces of gymnastic apparatus. This work has been completed and has been the source of much enjoyment to the neighborhood. It is the first experiment in the direction of providing public tennis courts in Brookline. The grading was carried out in an excellent manner and the courts surrounded by a substantial steel wire fence. The fence is 12 feet in height and is supported by extra heavy iron pipes, embedded in concrete foundations and filled with cement mortar. Players are required to furnish their own nets and racquets, and to apply in advance for use of the courts.

The experiment has proved a great success, and at times there has been a larger call for the use of the courts than could be supplied.

A protection fence has been built around the old willows and gymnastic apparatus and sand garden provided.

This playground may now be considered finished and in active use; owing to the low level of the original land and the large amount of work involved in the preparation of its surface, it was considered better to distribute the cost over a long period. The brook was enclosed in a masonry conduit, the land filled wth ashes from time to time at small expense and finally levelled, graded and covered with loam; its area is 5.7 acres. It is probable that a suitable house containing lockers, etc., will be required next year.

Library Lot. Last year $4,400.00 was provided for finishing the Public Library lot, building a wall and iron fence adjoining the Pierce School Playground and planting the grounds with trees and shrubbery. This work has been completed.

Heath School Lot. The sum of $1,200.00 was appropriated for grading on this lot in connection with the rebuilding of Reservoir Lane. This work has been completed and the old gully along the aqueduct location has been filled by the Street Department. The time is not far distant when the grounds surrounding Heath School will prove to be the most attractive of any of the School grounds in the town.

Appropriations.

The appropriations required for the coming year are as follows:—

	1911.	1912.	Increase.
Maintenance.	$20,800 00	$25,700 00	$4,900 00
			Decrease.
Construction	23,100 00	23,075 00	25 00

The appropriation for Construction is comprised of the following items:—

1. Driscoll School, wall and fence..... $7,000 00
2. Library Grounds, wall, etc.,..... 4,475 00
3. Longwood Ave. tennis courts..... 4,000 00

4.	Beacon Street playground fence.....	$3,100 00
5.	New gymnastic apparatus.....	2,000 00
6.	Mason square.....	1,500 00
7.	School grounds and miscellaneous.....	1,000 00
		$23,075 00

Maintenance. The increase asked for in the items under the head of maintenance is caused by the large growth of the town, the constantly increasing areas in the form of playgrounds and school grounds and the recent large increase in the use of the playgrounds by the children of the town.

The experiment instituted by the Park Commissioners last year of sprinkling the Cypress Street playground in the winter for the use of skaters proved so popular that a further application of the system to Brookline avenue and Devotion playgrounds was found advisable and already these additional skating areas have been crowded with every prospect of a successful result of the work of the Board in this direction during the remainder of the winter. Already requests have been received to extend the system to other centres of population and in preparing their estimate for the coming year the Board have included Beacon Street playground as an additional skating centre.

As a number of citizens have manifested interest in the methods adopted for the development of this favorite sport and have shown surprise at its cost the Board have thought it advisable to give a brief outline of this interesting plan for producing a good and safe skating surface upon any piece of land.

Many persons think that these artificial skating surfaces are produced by flooding and that the results are attained without much expense. This is by no means the case. Good skating areas on our playgrounds cannot be maintained by flooding as has been abundantly proved by our efforts in the past in this direction.

Before the cold weather begins it is in the first place necessary to lay a 2½-inch pipe from the public water supply main in the street to the center of the selected area. This pipe is of course laid below the effects of frost; at its

terminus it is provided with a shut-off and waste valve and an extension piece of the pipe rising to the surface, where it is fitted with a hose connection. At the same time a tall pole is erected at the same center to receive the electric light wires, which are extended in different directions to smaller poles at the angles of the field. On these wires are strung electric incandescent lamps which illuminate the grounds and lend an attractive air of gayety to the sport.

It has also been found desirable to confine hockey playing to some particular portion of the surface and this is boarded off by a substantial barrier and separately lighted.

On Cypress Street Playground a smaller additional area adjoining the larger is surrounded with a low plank fence twelve inches high for the use of the smaller children who wish to play hockey. This leaves the rest of the space for the plain skating without menace from the more strenuous games.

On the arrival of cold weather a skating surface is provided in the following manner. During the night a hose is attached to the water supply and water sprinkled into the air in every direction; it falls upon the ground and no matter whether it is covered with grass or is bare, the ice forms, perhaps an inch in thickness,and after two or three nights' spraying is ready for the skaters. To maintain the surface requires the services of four or five men. When the men begin work at night the first thing to be done is to scrape the whole surface, which requires the services of at least three men. The ice is then reinforced by the addition of fresh water from the hose, which has to be played upon every part of the surface. The men work all night on this task and that it is arduous needs hardly to be stated. A rest and a meal are required during the night, exactly as during the day. An experienced and skilful foreman passes around from one playground to another and takes general oversight of the work; he must be provided with proper conveyance. In case of heavy snow storms an additional force of men is put at work to clean the ice. As all of these efforts are not seen by the residents of the town, and night work is very much more expensive than day work, it is natural that they cannot realize the expense of the under-

taking, which averages approximately $700.00 to $800.00 per playground.

When all things are considered, however, it is a profitable expenditure of money. It encourages a favorite sport; it adds to the health of the town; it is a normal and enjoyable recreation and carried out in this way is made absolutely safe against danger from drowning, which is a constant menace to the use of a deep pond, as, for instance, in the case of Brookline Reservoir.

The Park Commissioners, after careful thought, have concluded it to be for the best interests of the town to include the sum of $3,500.00 in their maintenance estimate for the encouragement of skating and other winter sports.

The Board has deferred for some time the purchase of an automobile for the use of the department, but have now arrived at the conclusion that it cannot be longer postponed if the work which has been arranged is to be carried out, particularly the night work in connection with skating. The superintendent has now no way of getting around during the night except by walking, which, as one playground after another is added, renders this method impracticable, if efficient work is to be secured. An auto-car will be useful at all other times of the year in connection with the work of maintaining the public grounds, which are scattered in different portions of the town. An additional sum of $500.00 has been added for the maintenance of the car, making $1,500.00 in all.

The further sum of $500.00 has been added for the payment of holidays to the employees in accordance with the vote of the town.

The above are among the principal items to account for the increase of $4,900.00 asked for under the head of maintenance, but in a general way many other items under the head of maintenance are increased from year to year to meet the growing wants of the town. During recent years many important increases have been made in the number of schools and it has been found wise to provide for larger school playgrounds in connection with the buildings to secure light and air and to isolate school buildings from

surrounding buildings. The number of playgrounds has also been increased. One of the largest and most important of them, the Beacon Street Playground, has recently been finished and its care will add to the labor of the Park force. Mason Square, which was practically unknown to the mass of the people ten years ago and was lost in the open space surrounding it, has now been brought into notice by the building of expensive houses upon two of its sides and will require improvement by the Park Commissioners during the coming year.

Construction.

Driscoll School Grounds. The Board believes that it is necessary in order to complete the work already undertaken at this point to enclose the area with an iron fence and that on the lower side a low wall about 2½ feet high should be built.

The town engineer has estimated the cost of the wall at $2,750.00; grading, sloping, etc., $1,200.00; seeding, $100.00, and the cost of the fence at $3,700.00; total, $7,750.00. In connection with the balance remaining from last year's appropriation, and which is available, the Board asks for the further sum of $7,000.00 for the carrying out of this work.

Library Grounds, Wall, Etc. For a further improvement to the grounds of the public library, the Board asks for an appropriation of $4,475.00.

Between the present library wall and the wall in front of the police station is a gap which, in the opinion of the Board, should be filled by a wall extending to the driveway approach to the library building, which will cost $600.00; to loam the old driveway to the back of the school house and to finish a more direct route between the Police Station and the Primary School will cost $500.00; to continue a wall around the School street and Washington street fronts of the library lot will cost, with the grading, $3,375.00, or a total of $4,475.00.

Longwood Avenue Tennis Courts. The sum of $4,000.00 is asked to provide three tennis courts in the Longwood Avenue district, where there has been a demand for tennis

courts for several years. Owing to the success of the experiment of providing public tennis courts in the Beacon Street Playground, the Board have concluded, with the consent of the town, to undertake the building of another group of courts on town property in the rear of Longwood Avenue School. The land was purchased some years ago and is now vacant. The work of preparation will require a considerable amount of grading. The Board heartily recommends this appropriation.

Beacon Street Playground Fence. This Playground will be much improved by the construction of an iron fence between the driveway in the rear of the houses of Beacon street and the playground; materials and other goods of various kinds are now delivered along this driveway and there is a temptation to take short cuts across the grounds by teams and pedestrians. The Board believe that this fence should be of iron and the engineer of the town has estimated its cost at $3,100.00.

New Gymnastic Apparatus. The sum of $2,000.00 has been included to provide new apparatus under the head of Supervision of Play on the Playgrounds. This matter really belongs to the work of the new Commission recently appointed by the town. It is understood that this amount has not been included in their estimates.

Mason Square. A petition has been received asking for the improvement of this square. Until quite recently it would have been difficult to find this piece of ground, but now a number of valuable houses have been built on the streets surrounding it. To cover the land with loam and plant trees will cost $1,500.00.

School Grounds and Miscellaneous. The usual provision of $1,000.00 for this item has been added, bringing the total of the construction appropriation to $23,075.00.

Land for New Playgrounds. No land has been purchased during the year, the efforts of the Board in this direction not having received the approval of the Board of Selectmen. There is a demand for small local playgrounds in many parts of the town which should be satisfied. Not long ago the Board made an arrangement for the purchase of the

Vass land on Cypress street for the use of the small children in the neighborhood and this year a portion of the Joyce land in the Parsons School district was secured, but both of these purchases failed to meet the approval of the Selectmen.

Respectfully submitted,

DESMOND FITZGERALD,
CHARLES S. SARGENT,
ALBERT L. LINCOLN,
Park Commissioners.

ANNUAL REPORT

OF THE

Tree Planting Committee

COMMITTEE ON PLANTING TREES.

Organization 1911.

(Elected Annually.)

ERNEST B. DANE, *Chairman.*
EMMA G. CUMMINGS.
D. BLAKELY HOAR.

DANIEL G. LACY, *Superintendent.*
HELEN M. RICK, *Stenographer.*

REPORT OF THE COMMITTEE ON PLANTING TREES

We have carried on the work of caring for the trees along the lines laid out last year, and feel that we have accomplished something towards clearing out the dead wood on the roadside trees.

The work of suppressing the gypsy and brown-tail moths was pushed more vigorously than ever, with the result that the trees throughout the residential district are practically clean, and during the next season we anticipate giving most of our attention to the more wooded area in the southern part of the town.

In connection with various insect pests we wish to emphasize the importance of protecting our birds, many of which have learned to eat the eggs or caterpillars of the gypsy moth, brown-tail and leopard moth.

Some progress has been made with the natural enemies of these insect pests, such as the wilt disease and various forms of parasites, and we look for an increasing help from them each year.

During the past season your committee has been repeatedly asked by residents of the town to move or cut down roadside trees in order to get an entrance to a garage, which they have built on their property. In some cases the places were small and there was but one possible entrance. Where this was so we have removed the tree, but in many places these buildings were placed with absolute disregard to the roadside trees and we were asked to remove old trees which were a beauty and an ornament to the street.

We believe that where trees have been planted on a street in pursuance of a carefully thought-out plan none of these should be removed without a very good reason, and that a

driveway so planned as to necessitate the removal of a tree already growing is not in itself a sufficient reason for its removal.

We enclose a copy of our Superintendent's report, which describes in detail the work done during the past year.

Ernest B. Dane,
Emma G. Cummings,
D. Blakely Hoar.

REPORT OF SUPERINTENDENT

Town Hall, Brookline, January 1, 1912.

To the Committee on Planting Trees:—

The following is the annual report of the work done and the expenditures for the fiscal year ending December 29, 1911:

Following out the usual custom of pruning roadside trees in certain sections of the town each year, the department this past season pruned the trees on Beacon street and on all streets north of Beacon street, from St. Mary's street to the town line.

Tree holes have been prepared on Spooner road and Williston road from Downing road to the town line. Provision has been made in my estimate for the ensuing year for the purchase of trees to be planted on these streets.

In the report made to the committee a year ago mention was made of the appearance of the leopard moth. During the pruning operations of the past season this very injurious borer was found in many of our trees, and much time was spent cutting back the infested branches and probing until the slug was found, pulled out and destroyed.

The elm trees continue each summer to have the elm leaf beetle, and the work of saving the foliage of these trees was done as usual in conjunction with spraying for the gypsy moth. The results of spraying the elm trees was very encouraging; in fact, there was no damage done by the beetle this past season in sprayed areas.

I would again call your attention to the necessity of placing underground the cables of the Telephone and Electric Companies. Each year the damage done by wires to our roadside trees is very serious, and if we are to keep the proper symmetry of our trees it is essential to insist that more underground conduits be constructed each year.

As recommended last spring very careful attention was given to watering young trees. During the extreme drought

of the past season all trees planted within two or three years were attended to twice a week. In addition the trees on Boylston street, Beacon street and other main thoroughfares were watered regularly and the results were good.

A horse transferred to this department a year ago from the Wire Department was exchanged in June for a larger and younger horse.

Comparison of estimates for 1912 with expense of 1911 :—

	Recommended 1912.	Expended 1911.
Superintendence and office supplies..	$1,100 00	$853 79
Pruning	4,500 00	4,267 92
Preparing holes and planting trees...	450 00	627 39
Wire guards	400 00	337 37
Watering trees	300 00	198 90
Automobile	250 00	432 90
Tools, poles and emergency work....	500 00	354 15
Miscellaneous		162 10
Removing trees		234 92
Injured men		21 00
	$7,500 00	$7,490 44

Warren Tree Fund.

Amount of income on hand..... $33 20

None of the income from this fund was used during the past year.

Suppression of Gypsy and Brown-tail Moths.

The work of suppressing the gypsy and brown-tail moths throughout the town was carried on during the past year with very satisfactory results. A careful examination has been made of the residential part of the town, and I would report that in this district the moths are well under control. The southerly part of the town, comprising the large estates and wooded areas, still continues to be seriously infested, and plans for the coming year have been made to carry on the campaign in this part of the town in a most vigorous manner, and excellent results are looked for.

The department last season was equipped with six spraying machines, four of which were owned by the town, the other

two were loaned by Mr. E. B. Dane, chairman of this committee.

The work of spraying began on May 15 and continued until June 7. In this period all roadside trees were properly sprayed and all private property in charge of the department was given careful attention.

One of the machines used last season was made by this department at a cost of $829.44. It has a 12-H. P. engine, a 600-gallon tank, and is one of the largest in the field. It proved satisfactory in every respect and enabled the department to reduce considerably the cost of spraying.

The machines in the service of the department for the past three years have passed their usefulness from the points of efficiency and economy. I would recommend that they be sold and five additional machines built similar to the one we built last year.

During the past few years "plantings" of the various kinds of parasites have been made throughout the town, but up to this time they have not reached the stage where they can be relied upon for permanent relief. The most encouraging work along this line last year was with the wilt disease. To produce this disease artificially young gypsy moth caterpillars are fed on various kinds of foliage which has been soaked in water for three or four days. As soon as the "wilt" is noticed in these caterpillars, they are planted in localities where the infestation is serious, and there the disease is spread. Our experiment showed that the disease killed off about 70 per cent. of the caterpillars.

The State Forestry Department has assigned one of its force to examine the various infested localities with reference to making a larger number of "plantings" of this wilt disease next year, and careful inspection has been made of our territory and requisition sent in for a large amount of the wilt disease for next season.

The amount appropriated for the suppression of gypsy and brown-tail moths was $22,800. At the town meeting held December 29, 1911, a special appropriation of $1,500 was made to carry on the work of creosoting during the month of December.

A comparison of the expenditures of the past year follows, with an estimate for the ensuing year.

	Recommended 1912.	Expended 1911.
Superintendence, clerk and office supplies	$2,100 00	$2,121 92
Spraying, labor and material	14,880 00	6,402 36
Arsenate of lead		4,429 92
New sprayer		829 44
Hose	870 00	
Creosoting	5,000 00	8,793 16
Automobile	250 00	466 97
Inspection		43 75
Sprayers (authorized at town meeting held December 29, 1911)	4,000 00	
Tools, burlapping, etc.	500 00	369 35
Injured men		13 50
Miscellaneous		822 76
	$27,600 00	$24,293 13

The amount of the bills rendered for work done on private property during the past year was $12,114.96, and the amount paid up to January 1st, 1912, was $11,131.91.

There is a balance due the town from property owners amounting to $983.05, and work has been done during the past two months on private property, bills for which will be rendered July 1, 1912.

The inventory of the property belonging to the department will be filed with the Town Accountant.

Respectfully submitted,

DANIEL G. LACY,

Superintendent.

MR. OSCAR B. MOWRY.

Died Aug. 19, 1911.

Mr. Mowry was appointed a member of the Water Board on Dec. 27, 1892, and performed continuous service until his death, having become Chairman of the Board in 1901.

REPORT

The Brookline Water Board herewith submits its thirty-sixth annual report, it being for the fiscal year ending December 31, 1911.

As in former years, the reports of the Superintendent of the works and the engineers at the pumping stations, with pumping statistics, are appended.

At the annual town meeting held March 2, 1911, Dr. George H. Francis was re-elected a member of the Board for three years.

The Board organized with the choice of Oscar B. Mowry as Chairman. Z. R. Forbes was appointed Registrar and Clerk, and F. F. Forbes Superintendent of the works.

With deep sorrow the Board records the death of Mr. Oscar B. Mowry, which occurred on August 19, 1911. Mr. Mowry was appointed a member of the Water Board on December 27, 1892, and served continuously until his death. He was chosen to the highest office in the department, that of Chairman of the Board, on March 19, 1901. Recognizing the peculiar responsibility of an office which has in its keeping the water supply of the community, he gave to it his best endeavor with intelligent zeal, tactful management and unfailing courtesy.

By his death the town of Brookline has suffered a great loss, which will be especially manifested to his former associates in this department, where his sterling qualities were so well known.

Mr. Timothy J. Burke was chosen as Chairman of the Board to succeed Mr. Mowry.

At a joint meeting of the Selectmen and Water Board, held September 17, 1911, Mr. Nathaniel U. Walker was unanimously elected a member of this Board to fill the unexpired term caused by the death of Mr. Mowry.

While the routine work of the department for the past year has been much the same as usual it has been necessary to devote more than the ordinary time and attention to the special extensions of our water works system. These special extensions, which comprised the completion of the covered reservoir for the High Service district, extending the filtering galleries at West Roxbury and building the engine foundation for the new pump at the High Service pumping station, have been practically completed.

All petitions for street mains have been granted and certain mains have been extended and connected for the purpose of eliminating dead ends and the general improvement of the system. A detail report of these extensions will be found in the report of the Superintendent.

An addition of a front porch was built at the engineer's house, West Roxbury, and other necessary repairs made. All buildings under the charge of this Board are in general good condition. The suction valve chambers of the original Allis engine, which were slightly cracked, have been successfully repaired. The machinery in both the High and Low Service stations is now in excellent condition.

New Covered Reservoir.

This reservoir, which has been in course of construction for the past two years, was filled for the first time on January 10, 1911. It was allowed to remain filled for nearly two months and then drawn off. A thorough inspection of the entire structure failed to show any defects even of a minor nature, and it was, therefore, placed in immediate service.

A small building, constructed wholly of concrete, has been erected near the reservoir for the use of the instruments which record the rise and fall of the water in the reservoir and the daily consumption. A concrete stairway has been built from

the ground level to the top of the reservoir and the adjacent grounds have been generally graded and seeded. Owing to the particular and exacting nature of the work of extending the filtering gallery at West Roxbury, the time of the department was so fully occupied that a portion of the grading and repairing the roadway to Boylston street has been postponed until next spring.

All claims for damages arising from the construction of this reservoir have been advantageously settled.

The completion of this reservoir provides the storage facilities for the High Service district which have been greatly needed. Instead of having less than one day's supply in storage, as was often the case when the original iron tank was alone in use, we now have, when the reservoir is filled, nearly a week's supply, which seems amply sufficient to meet the requirements of this district for years to come.

Additional Water Supply.

In our last annual report the immediate necessity of obtaining an additional water supply was fully discussed, and it was recommended, for reasons therein given, that an extension of the filtering gallery system be made in preference to increasing the number of driven wells. Acting upon this recommendation, the town, at the annual meeting, appropriated $15,000 for this extension, which, with $3,000 appropriated in 1909 for a similar purpose, made the sum of $18,000 available for the work.

The original galleries, two in number, extended in a westerly direction from the pumping station, the easterly gallery being four hundred and thirty-one feet long and the westerly four hundred and ninety-one feet in length. These galleries were built in water-bearing gravel with walls of stone laid without mortar, two feet high, covered with a brick arch. The new gallery was commenced at the westerly end of the easterly gallery and was extended about four hundred and fifty feet in the general direction of the connecting conduit between the two old galleries, its dimensions being four feet in width and six feet in height. It was constructed of solid concrete, reinforced with steel, the side walls being pierced

with tile drain pipe to allow the free access of water. The gallery was made of ample size to permit such clearing of sand deposits as may occur.

On account of the large amount of water encountered during the progress of construction the work was necessarily done during the driest portion of the year, and, while this interfered somewhat in maintaining the regular supply of the town, no serious inconvenience was experienced.

The new gallery was practically completed by the middle of October and was immediately put in service. The amount of water obtained was fully as large as was expected and of the same excellent quality which characterized the original supply.

In connection with this new supply a small addition has been made to the Low Service pumping station for the purpose of covering an auxiliary pump which is to be used during extreme dry weather.

New Engine for the High Service System.

After a careful study of plans and specifications submitted by various manufacturers of pumping machinery, of which mention was made in our last report, the contract for building and erecting a high-duty pumping engine for the High Service system was, on January 26, 1911, awarded to the William Tod Company of Youngstown, Ohio, for the sum of $17,900.

Building the engine foundation and installing the piping for both steam and water to the engine was not made a part of this contract, as it was essential that this work should be done at such times and in such a manner as not to interfere with the daily pumping. For this reason the department has built the foundation and will make the necessary changes and additions in the steam and water piping as required.

Reasonable progress has been made with the construction of the engine; the heavy castings were ready for inspection during the month of August, at which time they were carefully examined by a representative of this department. Shipment of the engine has already commenced and it is expected that it will be erected and ready for daily service the coming spring.

Appropriations Required.

For general extensions	$25,000 00
For general maintenance	39,500 00

Financial Statement.

TIMOTHY J. BURKE,
GEORGE H. FRANCIS, M.D.,
NATHANIEL U. WALKER,
Water Board.

SUPERINTENDENT'S REPORT.

Brookline, Mass., December 31, 1911.

To the Brookline Water Board:—

Gentlemen,—I have the honor to present herewith the annual report of the Superintendent for the year ending December 31, 1911.

Extension of Street Mains.

(1) Extension to Low Service.

Harvard street	937.9 feet	8-inch pipe
Milton road	351.5 feet	6-inch pipe
Parkman street	576.2 feet	6-inch pipe
Dwight street	295.0 feet	6-inch pipe
Russell street	866.0 feet	6-inch pipe
Off Dummer street	152.6 feet	6-inch pipe
Total laid during the year	3179.2 feet	

(2) Extension to High Service.

Boylston st. to H. S. Reservoir	1584.0 feet	16-inch pipe
Lee street	2098.5 feet	12-inch pipe
Reservoir road	2,135.3 feet	8-inch pipe
Sheafe street	488.0 feet	6-inch pipe
Total laid during the year	6305.8 feet	

1,724 feet of 6-inch pipe removed the past year.

Service Pipes.

Number laid as per last report	4,774
Laid the past season	169
Total laid	4,943

List of Stop-Gates Set in 1911.

Sixteen-inch gates:—

One near High Service Reservoir.

One on Boylston street, corner Drive Way to H. S. Reservoir.

Twelve-inch gates:—

One on Lee street, corner Warren street.
One on Lee street, corner Boylston street.

Eight-inch gates:—

One on Reservoir road, corner Crafts road.
One on Reservoir road, corner Boylston street.
One on Harvard street, corner Thorndike street.

Six-inch gates:—

One on Sheafe street, corner Boylston street.
One on Dummer street, corner Drive Way.
One on Milton road, corner Boylston street.
One on Parkman street, corner Powell street.
One on Parkman street, corner St. Paul street.
One on Dwight street, corner St. Paul street.
One on Russell street, corner Harvard street.
One on Harvard street, corner Russell street.
One on Harvard street, opposite Verndale street.

Water-Cart Feeders.

Total number now set	106

Drinking Fountains.

Total number new set	16

List of Hydrants.

Number set as per last report connected with Low Service	496
Number set as per last report connected with High Service	191
Total to date	687

The following hydrants have been set in 1911:—

(1) Hydrants set connected with Low Service:—

One on Milton road, 200 feet from Boylston street.
One on Parkman street, 200 feet from St. Paul street.
One on Russell street, 300 feet from Harvard street.
One on Russell street, 200 feet from Columbia street.
One on Harvard street, near Verndale street.
One on Harvard street, near Thorndike street.
Three on University road.

Total now supplied by Low Service	504

(2) Hydrants set connected with High Service:—

One on Reservoir road, near Crafts road.
One on Reservoir road, 450 feet from Crafts road.
One on Reservoir road, 650 feet from Boylston street.
One on Lee street, 450 feet from Warren street.
One on Lee street, 1100 feet from Warren street.
One on Lee street, 450 feet from Boylston street.
One on Lee street, corner Boylston street.
One on Claflin road.
One on Drive Way, near H. B. Cabot's.
One on Drive Way, near R. T. Paine's.

Total supplied by High Service..... 198

Total to date..... 702

Hydrants removed the past season:—

Three on Reservoir road.
One on Villa lane.

A brief summary of the work done the past season is as follows:

The number of feet of street mains laid was greater than that of the year preceding, and the average size of the pipes was larger.

Perhaps the most important of these extensions was that of laying a 16-inch main from the new High Service reservoir on Singletree Hill to Boylston street.

This new pipe line, with the original force main, gives two independent connections from the reservoir to the distributing system, and reduces to a minimum any interruption of the supply.

Four hydrants have been cut in old mains where a more adequate fire protection was needed.

All the work left over from the previous season in connection with building the High Service reservoir has been done with the exception of grading the grounds and repairing the road to Boylston street. This remaining work will be finished early in the spring.

The new reservoir was filled January 10, last, and left undisturbed until March 8, when the water was drawn off. No leakage could be detected during this time. An examination of the inside of the reservoir after it was emptied showed no defects. On March 9 water was again turned into the

reservoir, and since this time the reservoir has been in daily use. No leak has appeared to date and it is now quite probable that the reservoir will remain tight.

An electrical indicator was installed in a small concrete building located at the foot of the embankment where the main pipes enter the reservoir. This indicator shows the height of water in the tank and reservoir at the High Service pumping station. The description of the reservoir is as follows:

The reservoir is circular in form, 180 feet in diameter and 23.5 feet deep at the wall. The side walls are of reinforced concrete, 2 feet thick at the top and 3.5 feet thick at the bottom, with a batter of one-half inch per foot on the inside. The bottom slopes toward the center at the rate of 0.5 per cent., with a channel sloping in the opposite direction to drain off the water when emptied. The roof is of mushroom construction, upheld by square reinforced concrete piers placed 16 feet apart on centers, and is covered with 14 inches of cinders and 10 inches of loam; this and the adjoining embankment slopes have been grassed over.

The reservoir was located so as to make the cut and fill about equal. With the exceptions of the surface loam, the material encountered in the excavation consisted entirely of hardpan and was used to form the slopes. The fill thus made was thoroughly rolled with a two-horse grooved roller.

A concrete retaining wall, 18 inches wide on top, with a batter of one-half inch to the foot on the inside and one inch to the foot on the outside, nearly encircles the reservoir. It is of 1:2:4 Portland cement concrete, varying from 2 to 6 feet in height, and takes the earth embankment graded to a one and one-half to one slope from the roof of the reservoir. It was built primarily to shorten that portion of the embankment that faces private residences. The foundation is of stone and cinders extending 4.5 feet below the natural surface of the ground, at the bottom of which is a 6-inch tile pipe, laid to drain the wall and take any possible leakage from the reservoir. No reinforcement was used in the wall.

The concrete in the main reservoir wall is composed of one part Atlas Portland cement, 2 parts sand and 4 parts screened

gravel containing stones not larger than 2½ inches. The reinforcement consists of one and one-eighth round steel bars. The bars were held in place by the use of perpendicular steel lattice work supports set 15 feet apart; the ends of the rods were lapped 40 diameters and wired.

The concrete was mixed wet enough to flow freely. After being deposited it was thoroughly spaded to release air bubbles and to insure contact with all parts of the steel.

The bottom consists of a concrete slab 12 inches deep. In addition to this there is a footing of concrete 5 feet square and 4 inches deep under each pier, and a heavy reinforced concrete toe encircles the reservoir where the floor and wall join. The footing under the middle group of piers extends just beyond the outer line of piers, covering an area of about 30 feet square. The slab is made in two layers, the lower being 5 inches deep, on which the reinforcement is laid, and the upper 7 inches deep. The reinforcement consists of one-half-inch round bars wired to the horizontal bars in the side wall, and extending downward at an angle of 45 degrees to the bottom, where they are wired to rods 20 feet in length, placed radially in the floor slab. On these radial rods concentric reinforcement is laid varying from 2.5 to 3.5 feet apart. Under each pier is a grillage of three-fourths-inch rods covering an area of 8 feet square and spaced 8 inches apart. Under the middle group of piers the grillage extends about 4 feet beyond the outer piers.

The lower layer of the floor slab was laid in radial sections, and the upper layer was made in longitudinal sections extending from one side of the reservoir to the other. This method was followed so that all joints of the upper layer would come between the lines of piers where they could be easily observed. In the bottom, as in all other parts, the joints were made clean and then washed with cement grout before new concrete was added. Hydrated lime to the extent of 5 per cent. was used in the bottom to insure watertight work.

As the bottom of the reservoir slopes downward and the roof upward toward the center, the columns are of varying height and were made in two parts, the base separate from the shaft. The base is 3 feet square and approximately 3 feet

high, with a one-inch rod through the middle extending about 6 inches above the top. The shaft is 18 inches square, with a one-inch rod through the middle from the base and extending nearly to its top. It was not intended to tie the piers to the roof in any way. The bases vary in height as the difference in the vertical distance between the bottom of the reservoir and the roof. This was done in order that all forms for the shafts could be made the same length. A group of piers in the middle are provided to support a standpipe, should it be required in the future.

The roof consists of a 9½-inch concrete slab, increased to 10½ inches in the middle, and is strongly reinforced. It was constructed with a slope of 0.5 per cent. from the side walls and was made in sections 16 feet wide, extending from one side to the other, similar to method used in the bottom. When the concrete became well set it was washed with cement grout, followed by two alternate layers of hot tar and tar paper as a means of waterproofing.

Access to the inside of the reservoir was provided for by four openings through the roof. The inside walls and floor were plastered, using one part of cement to one part sand and one pound Medusa waterproofing compound for each bag of cement to increase the watertightness. Tile drains were laid over the roof to carry off the surplus rain water.

The old 12-inch pipe line which ran through the middle of the reservoir location, supplying the tank, was discontinued just outside the retaining wall, and relaid around the toe of the slope to the tank. Here a system of piping is provided whereby the reservoir or tank can be used independently. This consists of a direct connection with the reservoir and an indirect connection through the tank and overflow into the reservoir. In the case of the direct connection the pipe between the 12-inch main and the reservoir is increased to 24 inches. In it a check valve is placed and by passed so that when pumping ceases the water flows back in the main to meet the needs of the consumers.

A similar arrangement is made in the indirect connection through the tank by placing a check valve and by-pass in the main just outside the tank. The overflow pipe reaches to

within one foot of the top of the tank, and when water reaches that elevation it overflows into the reservoir, first entering the 24-inch pipe above referred to just outside the reservoir wall.

Both connections are controlled by gates so that either tank or reservoir may be used together or separately; but under ordinary conditions the indirect connection through the tank will be used, as it provided greater head for the consumers on the hill.

The most important work of the past season was that of constructing the new filtering gallery.

This gallery extends along a gravel ridge which intervenes between the two galleries built in 1874, and was constructed as follows: A trench 16 feet wide was excavated to grade 72.50 or about 8 feet below low water in Charles River. Screened gravel was spread over the entire bottom to the depth of one foot. The side walls of the gallery, which were four feet apart, were started on this gravel.

After the walls were finished, an additional foot of screened gravel was placed over the bottom. The space between the walls and outside of the excavation was filled with the same material to the springing line of the arches. Selected material was used for filling over the arches.

Three rows of holes, one above the other, two inches in diameter, were left in the bottom part of the side walls.

The bottom of the gallery is open, which allows the water to come in freely through the screened gravel except for a portion of the distance where the material was too fine.

The ground water was kept down during the progress of the work by a system of driven wells carried along outside of the excavation, supplemented when necessary by two gasoline-driven diaphragm pumps.

The cost of the work was increased somewhat by the necessity of keeping up the supply of water to the town, which required that all the water pumped from the gravel beds, to lower the ground water so that the work could be carried on, must be so pumped that it could be safely turned into the main town supply. As the work progressed and access to the old galleries was made possible, it was found that they were

partially filled with fine sand which had been carried in by the water during their long time of use. This filling up had lessened their capacity considerably.

Two new manholes were built on the easterly gallery, and the sand was shoveled into small boats and floated down to the manholes and hoisted out. A special manhole was built near the junction of the new and old galleries so that any fine material which may collect in the galleries in the future can be quickly and cheaply removed without roiling up the water which flows to the pumps.

The results obtained were better than expected both as to quantity and quality. This work was finished so that the new gallery could be used on September 21. An extension was made to the boiler house for housing the centrifugal pump, and also to make room for an additional boiler which will be required in the near future.

The engineer's house was connected with the Boston sewers, thus removing all drainage of an undesirable nature from the water works land.

As noted in the report of the engineer at the Low Service, the cracks in the pump barrels of engine No. 3 have been permanently repaired. The cost of these repairs was paid from the regular maintenance account.

The Y branch in the discharge main in the basement of the High Service station cracked in July and was replaced by a new one. The pumping engines at both stations have required only the ordinary repairs due to general wear.

The High Service tank was painted on the outside. The inside should receive a coat of paint the coming season. No leaks of any kind have occurred in the force or street mains. About the usual number of service pipe connections have broken, caused mostly by settlement due to recent sewer excavations.

The hydrants have been carefully inspected several times during the year and repairs made wherever necessary.

The usual care has been taken of the grounds.

All the buildings of the department are in good repair. Some painting will be required the coming season. The new

engine at the High Service station is now being erected and will probably be in use in early summer.

The consumption of water for the year shows an increase of about five per cent. The rainfall for the summer months was unusually small and thus contributed quite largely to the increased use of water. During the year 630 meters have been repaired and 1417 tested. All of the testing and a larger part of the repairs was done by the regular men of the department. The cost of the repairs and the reading of the meters form quite an item in the maintenance account. Two new gates were cut in the force mains in the cedar swamp in September last for the purpose of flushing the mains. As soon as these gates were in place the mains were flushed and considerable accumulation of iron removed, which resulted in reducing the friction ten per cent. This work should be repeated early in the season.

Experiments are now being made at the Low Service station to determine whether or not the iron can be economically removed from the water. It is intended the coming season to carry the 12-inch High Service main which now ends on Gardner road by Winthrop road, to the corner of Beacon street and Lancaster terrace, for the purpose of giving a better fire protection to the Corey Hill District.

I subjoin the following tables, etc., all of which is respectfully submitted.

FAYETTE F. FORBES,

Superintendent of Water Works.

LOW SERVICE ENGINEER'S REPORT.

Low Service Pumping Station,
Brookline Water Works.

West Roxbury, Mass., January 1, 1912.

To the Brookline Water Board:—

Gentlemen,—I have the honor to present the annual report of the Engineer for the year ending December 31, 1911.

The amount of water pumped during the year was 951,040,622 gallons, over forty-seven million gallons more than in 1910. A small percentage of this amount was run to waste in order to avoid overflowing the reservoir, as it was necessary to keep pumping night and day during the construction of the new filter gallery. The pumping engines were in operation 756 hours longer than last year. The duty of the engines is better, and the coal consumption less, than last year.

Boilers.

The boilers are in good condition. The boiler feed pipes have been renewed and a separate feed pipe connected from each boiler to the Hancock injector. A Blake feed water heater has been installed in the boiler room and connected to the exhaust pipes of engines No. 5 and No. 6. The increased temperature of the feed water effected by this heater has already repaid its cost. The boilers, as heretofore, have been regularly inspected by the station engineers and by the Hartford Steam Boiler Inspection and Insurance Company.

Engines.

The pumping engines are in good working order. A 24-hours test of engine No. 4 was made last March by the mechanical engineering class of the Massachusetts Institute of Technology under my personal supervision, and the duty obtained at this test showed that the engine was doing as well as at any time since it was installed.

Repairs.

The crack in the low pressure suction valve chamber of engine No. 4, which was repaired last year, remains tight and shows no signs of extending. The suction valve chambers of engine No. 3 have been strengthened by bolting heavy cast-iron plates to the bodies of the chambers on each side of the manholes and tying them together with 1½-inch bolts. This work was done in a thorough manner and was tested by running the engine for a month after the repairs were completed. The valve chambers are now tight and stronger than when new.

The 16-inch and 24-inch force mains were flushed last September, thereby effecting a decrease of over ten per cent. in the pressure against which the pumps work, and, consequently, effecting a saving in coal. A still further saving can be made by flushing the mains again.

The electric lighting apparatus is in good order. A new tin roof is needed on the machine shop. The pumps need a coat of paint and the engine room basements a coat of whitewash.

I subjoin tables showing the record of the pumping engines, all of which is respectfully submitted.

Richard J. Flinn,

Engineer.

HIGH SERVICE ENGINEER'S REPORT.

High Service Pumping Station,
Brookline, January 1, 1912.

To the Brookline Water Board:—

Gentlemen,—I have the honor to present the report of the Engineer of the High Service Pumping Station for the year ending December 31, 1911.

The boilers are in good condition. New arches and cheeks were put in the fire box of boiler No. 1 in November last, as the old one was burnt out.

New plungers and plunger rings were placed in engine No. 1 early in the season, as the old ones had become worn and cut by sand so as to leak badly.

The new High Service reservoir has been in use since last April and has afforded quite a relief to this station on account of its much larger storage, which makes it possible to distribute the amount of water pumped more evenly over the week.

Quite a serious leak occurred in one of the Y branches on the discharge main in the cellar of the engine room in July. An attempt was made to make repairs by bolting on a cast-iron patch, but the crack continued to extend and it became necessary to substitute a new Y branch for the broken one.

Engine No. 2 was removed in December to make room for the new engine which is now being erected. This engine is furnished by the William Tod Company of Youngstown, Ohio, and will probably be ready for use by May 1, 1912.

The following table shows the record of this station for the year just passed.

Respectfully submitted,

WILLIAM B. WEBBER,

Engineer.

* Includes fly nuisance. ** Includes assistance.

Reports from those in charge of the work in the different divisions of the Health Department follow this general statement by your Board of Health, and reference may be had to these reports for full information and details concerning the work of maintaining the public health. To determine whether the efforts of the health officials have been successful and whether the expenditure of a large amount of money has been justified, one should examine with care the statistics showing the cases of disease and the number of deaths occurring in the town during the year. It is the aim of the Board of Health to produce conditions which will make it impossible for disease to exist. The realization of this ideal state is impossible, but that being the aim, we can go a long way towards the goal. There were only nineteen deaths in 1911 from the so-called preventable diseases, of which thirteen were from tuberculosis. This showing indicates that the work of the Health Department in connection with the infectious diseases has been worth while and efficiently done. An earnest appeal by physicians and also by the Anti-Tuberculosis Society has been made to the board that a nurse be employed who would devote her time to tuberculosis work, visiting cases among the poor, looking after suspicious cases, especially among children, and searching out new cases. It is pretty certain that cases of tuberculosis exist in the town where precautionary methods are not taken to prevent extension of the disease. This is a work in which the Board of Health should co-operate, and an item of $500.00 has been included in the appropriation for the purpose of employing such a nurse. Last year the town contributed $500.00 as usual towards the support of the day camp for tubercular children. This camp has been maintained on the contagious hospital grounds during the last few summers, when the hospital has been closed, part of the expense being met by the town and part by public subscriptions received through the Anti-Tuberculosis Society and other sources.

It was suggested in our last report that the heating arrangements in the public sanitary in Village Square were not satisfactory. During the year a new hot water heater has been installed in a room in the basement of the engine house next to the sanitary and a passageway opened therefrom into the

sanitary. This heater is taken care of by the attendants of the sanitary and conditions have been greatly improved and the cost of heating reduced.

We call special attention to the report of the Inspector of Milk for a full statement regarding the epidemic of so-called tonsilitis which occurred during the months of May and June, 1911. With an expenditure of about $171.00, a house-to-house canvass was made showing the location of the cases occurring in Brookline, and the result was tabulated and shown on a map which is now on file in the Board of Health office. The information thus gathered has been of the greatest assistance in determining the source and cause of this epidemic. It was used by Professor Winslow in preparing his report concerning the epidemic and it has been used by other boards and individuals in their investigations.

We have created the position of sanitary inspector during the year, which has been filled by appointment. His work consists in endeavoring to keep the town clean and in investigating complaints and matters referred to him by the board. The inspector does not wait until complaints come to him, however, for it is part of his duty to visit all parts of the town and take cognizance himself of improper conditions. A great deal has been accomplished in the way of cleaning up back-yards and vacant lots. It is hard work to maintain the cleanliness of some premises, for as soon as they are cleaned up and the back of the inspector is turned, rubbish is thrown out the windows and doors, and unsightly and unhealthful conditions return almost immediately. We earnestly ask owners of property to co-operate with the board in its endeavors to keep their premises clean.

The work of exterminating flies and mosquitoes has been carried on with great and systematic vigilance. While the effort has been directed to prevent flies and mosquitoes from coming into existence, the fact that 81,978 buckets, pails, cans and bottles on public and private dumps were disposed of and the fact that there were about 2,153 nuisances abated as a result of the work in this department would seem to justify the expenditure of the money. The sum of $2,326.82 was spent on the mosquito and fly nuisance in 1911 and an appro-

priation of $2,500 is recommended for 1912 for the same purpose.

The collection of ashes and rubbish is still a problem confronting the town, for the dumps are fast being filled up and the hauls are becoming longer. The contract for the collection of garbage for five years was awarded to John M. Miskell for $4,950.00 a year.

Attention is called to the following regulations of the Board of Health and the list of notifiable diseases:

HEALTH REGULATIONS.

The Board of Health of the Town of Brookline, in the County of Norfolk, by virtue of the provisions of Chapter 75 of the Revised Laws and amendments thereto, and any other power it thereto enabling, doth hereby ordain and enact the following regulations:—

Article I. Communicable Diseases.

Sect. 1. a. No child shall be allowed to attend school from any household in which there is or has been a case of SCARLET FEVER, for a period of six weeks from the commencement of the last case in the household and until a certificate has been presented from the attending physician, the Board of Health or its Agent, that all danger of conveying the disease by such child is passed.—(See Section D.)

b. No child who has visited a house in which there was at the time a case of SCARLET FEVER shall attend school until the expiration of two weeks following exposure, unless he has already had that disease, except by special permit from the Agent of the Board of Health.—(See Section D.)

c. No child who has DIPHTHERIA shall be allowed to attend school for a period of one week from the date of the second successive negative bacteriological culture from both nose and throat and until a certificate has been presented from the attending physician that all danger of conveying the disease by such child is passed; and that no well child be allowed to attend school from any household in which there is or has been a case of DIPHTHERIA until the same precautions have been taken, with the exception that but one negative bacteriological culture, from both nose and throat, is required.—(See Section D.)

d. The Agent of the Board of Health may, if circumstances warrant (for example, removal of the patient to hospital), give to children not infected in a household in which there is or has been SCARLET FEVER or DIPHTHERIA, a special permit to return to school as soon as he considers it safe for them to do so.

e. No child from any house where there is a case of SCARLET FEVER or DIPHTHERIA shall be allowed to mingle with persons from any other house until after the removal, recovery, or death of the patient and the disinfection of the premises.

f. Every house infected with DIPHTHERIA, SCARLET FEVER, or SMALLPOX shall have affixed on or near the front and rear doors a card, furnished by the Board of Health, stating the disease to be avoided; and any unauthorized person removing such a card shall be liable to a fine not exceeding one hundred dollars.

Sect. 2. No child who has CHICKEN-POX shall be allowed to attend school until a period of two weeks has elapsed from the first appearance of the eruption and all scabs have disappeared.

Sect. 3. No child who has GERMAN MEASLES shall be allowed to attend school until a period of one week has elapsed from the first appearance of the eruption.

Sect. 4. a. No child ill with TUBERCULOSIS, who is a menace to the health of others, shall be allowed to continue in school.

b. Whenever a person with TUBERCULOSIS moves out of a house or an apartment, the attending physician, if there be one, or the active head of the family shall so notify the Board of Health within twenty-four hours, and both of the above-mentioned persons shall be held legally responsible for violation of this order.

Sect. 5. No child who has MUMPS shall be allowed to attend school until a period of three weeks has elapsed from the first signs or symptoms of the disease.

Sect. 6. No child who has MEASLES and no child, who has not had the disease, in a household in which there is a case of MEASLES shall be allowed to attend school within two weeks from the appearance of the rash in the last case in such household.

Sect. 7. No child with WHOOPING-COUGH and no child, who has not had the disease, in a household in which there is a case of WHOOPING-COUGH shall be allowed to attend school within eight weeks from the beginning of the cough and until the cough characteristic of the disease has ceased in the last case in such household.

Sect. 8. No child shall be allowed to attend school from any household in which there is or has been a case of CEREBRO-SPINAL MENINGITIS or of INFANTILE PARALYSIS until a certificate has been presented from the Board of Health or its Agent.

Article II. Disinfection.

Sect. 1. Such rooms and such articles in any house, as in the opinion of the Board of Health have been subjected to infection or contagion from SMALLPOX, SCARLET FEVER, DIPHTHERIA, CEREBRO-SPINAL MENINGITIS, INFANTILE PARALYSIS, or TUBERCULOSIS, shall be disinfected by the Board. The attending physician or the Agent of the Board of Health shall decide in each case as to the proper time for disinfecting, and shall then notify the Board; but in no case of SCARLET FEVER shall disinfection be done in less than four weeks from the commencement of the last case in the household (except by special permit of the Agent of the Board); and in DIPHTHERIA disinfection shall not be done until after at least two successive negative bacteriological cultures from both nose and throat have been obtained.

Sect. 2. Articles which have been exposed to infection, or those which have been in contact with a patient within 10 days prior

to the diagnosis of any of the above-named diseases, shall not be sent to any laundry or other workshop unless they have been first disinfected by the Board of Health.

Sect. 3. Refuse from the sick-room of a person having any of the above-named diseases, shall not be put into any waste receptacle without being first disinfected.

Sect. 4. All books which have been used by a patient having any of the above-named diseases, or otherwise exposed to infection, shall not be returned to any library, school, or circulating agency, without first being disinfected by the Board of Health.

Article III. Waste Material—Garbage.

Sect. 1. All waste material set out for removal by the town, shall be kept in separate receptacles.

Sect. 2. One or more of such receptacles shall be used exclusively for garbage or swill and shall be water tight, have tight fitting covers, and be kept clean and free from deposits of garbage. (An under-ground garbage receptacle is urgently recommended.)

Sect. 3. A second receptacle or receptacles, preferably made of iron, shall be used exclusively for ashes, tin cans, bottles, and other incombustible waste.

Sect. 4. A third separate set of receptacles shall be used exclusively for dry combustible waste, such as paper, old shoes, house-sweepings, and such other waste material as it is customary for the town to remove.

Sect. 5. No person shall overhaul the contents of receptacles for waste material set upon the sidewalks to be removed by the town.

Sect. 6. No person shall throw upon the sidewalk, or into any public street or catch-basin, any paper, tin can, house sweepings, lawn rakings, old shoes, orange peel, banana skin, dead animal or other waste material.

Article IV. Food Stuffs.

Sect. 1. Every person, firm or corporation engaged in the sale or transportation of food stuffs shall cause his wares or those under his charge to be properly protected by screens or otherwise against contamination by flies, street dust, or other contaminating agency.

Sect. 2. No food stuffs intended for sale shall be kept in any room used for living or sleeping purposes.

Sect. 3. No person, or corporation, individually or by his or its agents, servants, or employees, shall sell or offer for sale in the Town of Brookline any re-frozen ice cream, or ice cream which contains any artificial coloring matter.

Sect. 4. All glasses or other drinking utensils, used at soda fountains, restaurants, or other refreshment stands, shall be ster-

ilized at least once each day, and shall be washed and rinsed in running water before each separate use thereof.

Sect. 5. Premises, compartments, rooms, receptacles, or ice-chests, used for the storage, manufacture, or sale of foodstuffs, shall be kept cleansed in a manner satisfactorily to the Board of Health.

Article V. Milk.

Sect. 1. All animals kept in the Town of Brookline for the production of milk shall, at all times, be kept in a clean condition; the udders shall be washed or wiped with a clean, damp cloth, before milking; the milker's hands shall be clean, and the animals shall not be fed upon swill or fermented brewery grains.

Sect. 2. Any person having any infectious disease (the Board considers tuberculosis to come within the meaning of the statutes in regard to infectious diseases) or having recently been in contact with any such person, shall not be allowed to milk cows or handle cans, measures or other vessels used for milk intended for sale, or in any way take part or assist in the sale of the same, until the Board of Health is satisfied that all danger of communicating such disease is passed.

Sect. 3. Milk cans or jars of milk dealers shall not be left at any house in which there is a case of DIPHTHERIA, SCARLET FEVER, TYPHOID FEVER, or SMALLPOX, but the milk shall be poured into receptacles furnished by the customer.

Sect. 4. No person, by himself or by his servant or agent, or as the servant or agent of any other person, firm or corporation, shall in the Town of Brookline sell, exchange, or deliver, or have in his custody or possession with intent to sell, exchange, or deliver, any milk, skimmed milk, or cream which contains more than 300,000 bacteria per cubic centimeter, or which has a temperature higher than 50 degrees Fahrenheit.

Sect. 5. All milk sold in the Town of Brookline other than from wagons shall be delivered to the purchaser in original sealed jars, or from a milk cooler which has been approved by the Board of Health.

Sect. 6. All premises, vehicles, compartments or rooms used for the storage and sale of milk in the Town of Brookline shall be kept cleansed in a manner satisfactory to the Board of Health.

Sect. 7. No person by himself or by his servant or agent, or as the servant or agent of any other person, firm or corporation, shall in the Town of Brookline sell, exchange, or deliver, milk, skimmed milk, or cream produced upon premises where there is a case of contagious disease, without the written consent of the Board of Health.

Sect. 8. All utensils used in the handling and selling of milk

shall be washed and sterilized with steam or boiling water each day before being used, and all milk vessels (bottles and cans) which are to be returned, shall be cleansed as soon as emptied by the person who pours out the milk.

Sect. 9. Premises, compartments, rooms, receptacles, or ice-chests, used for the storage or sale of milk, shall be kept cleansed in a manner satisfactory to the Board of Health.

Article VI. Horses, Cows, Swine, Fowl, Stables, Etc.

Sect. 1. No person or corporation shall keep or allow to be kept upon any premises in his or its possession, within the limits of this town, swine, fowl or more than one cow, without securing a permit from the Board of Health to do so. Such permit shall expire on the first day of May, annually, unless sooner revoked.

Sect. 2. No person or corporation shall use any building as a stable for horses or cattle, unless such building is properly ventilated; has at least one square foot of unobstructed window glass for each 500 cubic feet of air space; and not less than 1,000 cubic feet of air space for each animal; has a tight floor and roof; good drainage, connecting wherever practicable with the public sewer, and a supply of pure water.

Sect. 3. Manure shall not be allowed to accumulate in the neighborhood of barns, and no manure heaps shall be allowed within 100 feet of any dwelling unless so covered or screened as not to prove offensive. Yards surrounding buildings where cows are kept must be well drained and free from standing water and filth. The barns shall be kept as clean as possible and the floor shall be sprinkled before being swept.

Sect. 4. No swine shall be kept in cellars of cow stables, except by special permit of the Board of Health.

Sect. 5. No manure shall be kept in cellars of cow stables, except by special permit of the Board of Health.

Sect. 6. All premises where animals or fowl are kept shall be open at all times to inspection by the Board of Health or its appointed officers.

Sect. 7. Any person having reason to suspect the presence of glanders or farcy among horses or any contagious disease among any domestic animals, shall immediately report that suspicion, together with the street and number of the premises at which the animal is kept, to the Board of Health. (The more ordinary symptoms of glanders and farcy are: A discharge from the nostrils, enlargement and hardness of the glands under the lower jaw; or nodular enlargement of the skin with or without ulceration.)

Sect. 8. Barns, stables or any of the contents thereof, which in the opinion of the Board of Health have been subjected to infection or contagion from glanders, farcy, tuberculosis or other

animal disease, shall be disinfected to the satisfaction of the Board of Health.

Sect. 9. The manure from stables on or within fifty feet of public ways shall not be removed between the hours of sunrise and sunset, except by permission of the Board of Health.

Sect. 10. Manure shall not be transported through streets unless properly covered.

Article VII. Vaults and Cesspools.

Sect. 1. No privy vault, or cesspool shall hereafter be constructed in the Town of Brookline without a permit therefor from the Board of Health. This shall not prohibit the construction of temporary privy vaults serving new buildings; but upon the installation of the necessary piping connecting such buildings with the sewer, any such privy vault shall be abolished and a tank-fed water-closet substituted therefor. The owner, contractor or agent shall cause the contents of every such privy vault to be covered with lime, fresh earth or ashes twice each day. All privy vaults, cesspools and manure pits shall be fly-proof.

Sect. 2. No privy vault or cesspool shall hereafter be constructed or maintained on any lot or premises where a sewer is accessible. All privy vaults and cesspools shall be located as directed by the Sanitary Agent, and no cesspool shall hereafter be constructed within five feet of any party line or fence, within fifteen feet of the line of any street or within twenty feet of the door or window of any building used for habitation, except by special permission of the Board of Health. No cover shall be placed upon or over any cesspool or privy vault until the same shall have been inspected by the Board of Health or its Agents. The minimum interior dimensions permitted for cesspools hereafter constructed in this town shall be six feet deep and six feet in diameter.

Sect. 3. No rain water leader, soil, waste or drain pipe shall discharge into or be connected with any privy vault, nor shall a privy vault, cesspool or manure pit be directly or indirectly connected with any sewer. No drainage from any stable or other buildings shall discharge into a manure pit. Every manure pit shall be kept dry, and shall be made water-tight.

Sect. 4. No vault or cesspool shall be emptied by any other than the odorless process, nor by carts not of the Odorless Excavating Company, except permission be first obtained from the Board of Health. It is further ordered that neither night soil nor the contents of cesspools shall be dumped within the limits of the town.

Article VIII. Burials.

Sect. 1. No public funeral shall be held over the remains of any

person who has died of SMALLPOX, SCARLET FEVER, DIPHTHERIA, CEREBRO-SPINAL MENINGITIS, or INFANTILE PARALYSIS without the written permit of the Board of Health, and under such regulations as may prevent the spread of any of said diseases. The remains of any person who has died from any of said diseases shall at once be placed in a tight or sealed coffin, and shall not thereafter be exposed to view or disturbed except for burial.

Sect. 2. That in the case of death where the deceased had not been attended by a practising physician, the certificate of death shall be issued by the Medical Examiner.

Sect. 3. That no dead body of any person shall be carried to any cemetery, or from one place to another within the town, in any public vehicle other than a hearse or undertaker's vehicle provided for that purpose.

Article IX. Miscellaneous.

Sect. 1. All BARBER SHOPS, together with all furniture, shall be kept in a cleanly and sanitary condition. Mugs, shaving brushes, razors, scissors, clipping machines, pincers, needles and other steel instruments shall be sterilized either by immersion in steam, boiling water or in alcohol of at least sixty per cent. strength, after each separate use. Combs shall be thoroughly cleaned with soapsuds and brush after each separate use. A separate clean towel shall be used for each person. Alum or other material used to stop the flow of blood shall be applied only on a towel or other clean cloth. The use of powder puffs and of sponges is prohibited, except that a sponge owned by a customer may be used on him. Every barber shop shall be kept well ventilated and provided with running hot and cold water. No person shall be allowed to use any barber shop as a sleeping room. Every barber shall thoroughly cleanse his hands immediately before serving each customer. Every barber shop shall be inspected at least twice annually by the Sanitary Agent of the Board. A copy of this order shall be kept posted in plain view in every barber shop.

Sect. 2. Bodies of deceased animals which cannot be conveniently incinerated or buried shall be reported to the Board of Health within twenty-four hours after death, or upon discovery of such dead bodies.

Note.—See Article 20, Sections 1, 2, and 3, of the Town By-Laws.

A true copy—Attest,

EDWARD A. McETTRICK, Secretary.

November 6, 1911.

NOTIFIABLE DISEASES.

The following diseases have been declared to be "dangerous to the public health," and are, therefore, notifiable under the provisions of sections 49 and 50 of chapter 75 of the Revised Laws as amended by chapter 251 of the Acts of 1905 and section 52 of chapter 75 of the Revised Laws as amended by chapter 480 of the Acts of 1907.

Actinomycosis,
Anterior poliomyelitis,
Asiatic cholera,
Cerebro-spinal meningitis,
Diphtheria,
Dog-bite requiring anti-rabic treatment,
Glanders,
Leprosy,
Malignant pustule,
Measles,
Ophthalmia Neonatorum (Inflammation of eyes of newborn),
Scarlet fever,
Smallpox,
Tetanus,
Trachoma,
Trichinosis,
Tuberculosis (all forms),
Typhoid fever,
Typhus fever,
Varicella (chicken pox),
Whooping cough,
Yellow fever.

In addition to the above notifiable diseases the Board of Health of Brookline requires that malaria be reported.

NOTIFIABLE DISEASES IN ANIMALS.

The following diseases are notifiable under Section 28 of Chapter 90 of the Revised Laws as amended by Chapter 6 of the Acts of 1911:

Actinomycosis,
Anthrax or anthracoid diseases,
Contagious pleuro-pneumonia,
Farcy,
Foot-and-mouth disease,
Glanders,
Hog cholera,
Mange,
Rinderpest,
Rabies,
Sheep scab,
Tuberculosis,
Texas fever.

REPORT OF AGENT OF THE BOARD OF HEALTH.

Office of the Board of Health,
Brookline, Mass., December 31, 1911.

To the Honorable Board of Health:—

Gentlemen,—I have the honor to submit the following report for the year ending December 31, 1911.

Mortality.

During the year there were two deaths from typhoid fever, two from diphtheria, one from scarlet fever, one from whooping cough and 13 from tuberculosis. The total number of deaths the past year from the so-called preventable diseases like the above was 19; of this number, 13 or over two-thirds of all were from tuberculosis.

Among deaths from other diseases 30 were reported from pneumonia and 42 from cancer.

The number of deaths in Brookline from all causes the past year was 355, which includes 81 deaths of persons temporarily sojourning here, e. g., patients in various hospitals. The number of Brookline residents who died away from Brookline the past year was 85, some of whom died in the hospitals of Boston and other cities. Adding the latter number, 85, to the whole number of deaths, 355, within the town, and deducting the number of stillbirths, 10, we have a total of 430. This number of deaths, with a population of 27,792 as found by the latest United States census, gives a mortality rate of 15.47 per 1,000 inhabitants as against 14.16 in 1910. Confining our computation to the number of deaths that actually occurred here, including the 81 non-residents who died here, and deducting the stillbirths, 10, the mortality rate was 12.41 per 1,000 inhabitants as against 11.55 in 1910 computed in the same way.

Infectious Diseases.

During the year there were reported to the Board 39 cases of diphtheria, 38 cases of scarlet fever, 12 cases of typhoid

fever, three cases of malarial fever, 241 cases of measles, 25 cases of chickenpox, 59 cases of whooping cough, one case of infantile paralysis, 37 cases of tuberculosis and no cases of smallpox or of cerebro-spinal meningitis.

The cases of reportable infectious diseases occurred as follows:—

	Diphtheria	Scarlet Fever	Typhoid Fever	Malarial Fever	Measles	Tuberculosis	Chicken Pox	Whooping Cough	Infantile Paralysis
January	0	2	2	0	6	4	9	7	
February	3	6	1	0	8	5	3	20	
March	2	1	0	0	51	2	2	21	1
April	3	5	1	0	52	1	2	4	
May	6	3	0	0	43	3	0	1	
June	1	2	0	0	64	2	0	5	
July	3	2	0	0	12	4	0	0	
August	2	0	2	2	0	3	0	0	
September	1	3	2	0	1	3	0	1	
October	1	5	2	0	0	3	1	0	
November	8	6	2	1	0	5	0	0	
December	9	3	0	0	4	2	8	0	
	39	38	12	3	241	37	25	59	1

The following table shows the number of cases of diphtheria, scarlet fever and of typhoid fever reported during the last twelve years and the number of cases of tuberculosis since reporting of that disease was first required in March, 1902. From 1902 to 1906, inclusive, only pulmonary and laryngeal forms of tuberculosis were required to be reported; since 1907 the other forms, e. g., tuberculosis of the bones, glands and other organs, are also required by the public statutes to be reported.

	Diphtheria	Scarlet Fever	Typhoid Fever	Tuberculosis
1900	247	29	16	
1901	158	27	26	
1902	64	61	20	20
1903	55	54	17	27
1904	33	29	21	32
1905	40	66	14	21

1906	50	80	30	39
1907	35	47	16	46
1908	60	50	23	40
1909	65	47	25	21
1910	33	71	19	27
1911	39	38	12	37

Diphtheria.

The number of cases of diphtheria, 39, was six more than during the previous year. The disease was most prevalent in November and December, in which months eight and nine cases respectively were reported. With the more general use of bacteriological cultures and of antitoxin this disease should in a few years become as rare in all enlightened communities as smallpox. The great need and difficulty is to get people to call a physician very early when a patient has a sore throat. If the physician knows his duty and does it he will at once take a bacteriological culture of the throat and so be able as soon as possible to know whether or not he is dealing with diphtheria. If it proves to be that disease he is provided free by the State with a remedy which if used reasonably early practically robs the disease of its dangers. Physicians do well to carry constantly a diphtheria culture outfit and to use it whenever called to a patient that has an exudate or a false membrane in the throat.

Scarlet Fever.

The number of cases of this disease, 38, was 33 less than in the previous year. The disease was most prevalent in October and November, in which months the number of cases was five and six respectively.

Typhoid Fever.

The number of cases of typhoid fever, 12, was seven less than in the previous year, and the smallest number reported in the last dozen years.

The attention of physicians and nurses who may be called to care for typhoid fever patients is again called to the successful anti-typhoid inoculation now being practised in the United States army and also in a number of city hospitals,

and reported in the Boston Medical and Surgical Journal of January 12, 1911, page 63.

Tuberculosis.

The number of cases of this disease reported during the year was 37, an increase of 10 over that of the previous year. Physicians and the public also are more willing to report cases now than when the reporting of cases of this disease was first required, and this fact accounts in part for the seemingly greater prevalence of this disease.

The number of deaths, however, from this disease the past year, 13, shows the great need of continued efforts to prevent it, and especially in children and young adults. This important subject is spoken of more in detail in the report of the Chief Medical Inspector of Schools in the report of the School Department, to which the reader is referred.

Smallpox.

The same methods of prevention of this disease have been relied on as in the past, namely, careful vaccination and revaccination of practically all our residents, and during the past year not a single victim of this disease has been reported.

Measles and Chickenpox.

Measles was more prevalent than usual the past year, 241 cases being reported as against 167 in the previous year. Chickenpox, however, was less prevalent, only 25 cases being reported as against 53 in the previous year. The largest number of cases in one month, eight, occurred in December.

Malarial Fever, Mosquitoes and Flies.

The number of cases of malarial fever reported the past year was three, as against six the previous year. The same methods, in the main, as those employed in former years were used to prevent mosquito breeding in the more populous districts of the town, special attention as usual being given to places found to be breeding the species of mosquito (the anopheles) that transmits malarial fever. Considering the terrible heat of the past summer, so favorable for rapid mosquito breeding, the remarkably small number of cases of

malarial fever, three, speaks well for the efficiency and success of the preventive work.

The systematic and extensive work directed against the breeding of the common house fly, a transmitter of typhoid fever and other diseases, was prosecuted as in the previous year, and with most satisfactory results. Mr. Nyhen, the Assistant Bacteriologist, directed the field work against the mosquito and fly nuisances. The methods in use are described in earlier reports.

Infantile Paralysis.

The past year one case only, as in the previous year, was reported here. Measures for the prevention of this disease are described in the writer's report of the previous year.

Epidemic of Septic Sore Throat.

An important event in the public health history of the past year in Brookline was the extensive and serious milk-borne epidemic of septic sore throat. Early in May two or three physicians telephoned the writer on the same day that they were having an unusual number of tonsillitis patients and also that nearly all of them had been using milk from the same supply. They further stated that a number of the cases were of a very severe type. Practically the whole family, in some instances, became ill at about the same time. The epidemic was investigated by our Health Department. The Inspector of Milk, Dr. F. H. Osgood, was authorized to direct a house-to-house canvass of the town to ascertain the extent and cause of the epidemic, and from the results of this canvass a map was made. Our Board of Health bacteriological laboratory, in charge of Dr. F. P. Denny, was kept busy. The Secretary of the Board, Mr. E. A. McEttrick, sent out, May 15, to all our physicians, the following circular:

"The Board of Health is investigating the present outbreak of tonsillitis, and requests that you kindly fill out on the enclosed card all cases of tonsillitis you have had within the past three weeks, giving the milk supply in each case and any other information you think may be of interest."

There was a good response to this request and eleven days

later a second letter was sent to the physicians asking them to report any additional cases seen since the previous report and also any seen within the following week.

The total number of cases reported to the Board between April 24 and May 25 was 265. From Boston physicians about 40 additional Brookline cases were reported to the writer. The Secretary's records show no cases reported during the week following May 25, though such cases were requested to be reported. Of the 265 cases reported between April 24 and May 25, 214 occurred in one milk route and 51 in 18 other routes. The milk dealer having the next highest number of cases in his route during this period had eight, the two next had six, the next had five, and 14 other dealers had from one to four each. The five physicians who attended the largest number of cases in the epidemic all said that their most serious cases were in the milk route that had the most cases. Many of these cases were apparently septic, with much inflammation of the glands and abscesses of the tonsils. A number had erysipelas of the face and scalp. The cases not in the above-mentioned milk route were mostly of the ordinary type.

Six deaths in Brookline were attributed in whole or in part to this epidemic. Two of these fatal cases were in patients over 80 years of age, and neither of them had taken milk from the supply that most of the patients used, but patronized two different dealers.

In the treatment of these patients, one of the Brookline physicians who had 33 cases in the same milk route used streptococcus vaccine in 12 of them and reported that, just as in the use of diphtheria antitoxin, all the cases treated in the first two or three days of the disease did perfectly well and escaped all unpleasant complications and after effects.

A singular thing about this epidemic, which was extensive also in parts of Boston and Cambridge as well as in Brookline, was that the milk supply (the Deerfoot Farm) which so many of the patients were using is one that all of us, so far as I know, have considered one of the best, and in spite of what happened we still believe its management and supervision are scientific, conscientious and painstaking, and, there-

fore, worthy of our confidence. Any raw milk supply may at any time become infected, and at present we know of only one certain safeguard against such outbreaks, proper pasteurization. For much fuller descriptions of this epidemic the reader is referred to the annual report of the Inspector of Milk and to the Boston Medical and Surgical Journal of December 14, 1911.

Health of School Children.

This subject is of the very greatest importance in the promotion of health and prevention of disease. The reader is respectfully referred to the remarks on this subject in the writer's last year's report, also to this year's report of the Chief Inspector of Schools.

Fumigation.

Investigations during the past few years of the various ways in which infectious diseases are spread have shown that the room that was occupied by a patient with scarlet fever or diphtheria is very much less of a factor in giving one those diseases than has been supposed; also that fumigation, even when faithfully done, cannot always be relied on to kill disease germs lodged in the secretions from the throats and noses of the patients. These investigations further show that it is far more frequently by means of light, undetected cases of these diseases, by drinking infected milk, and by living with unsuspected carriers of diphtheria that persons take these diseases. No bacteriological tests can as yet be applied to the results of attempted disinfection after scarlet fever, but we have no right to assume, in view of the frequently unsuccessful attempts to kill diphtheria germs (which we have reliable tests for) by means of fumigation, that we are any more successful in destroying scarlet fever germs by that process. More attention, therefore, is now given to the early detection of light cases of these diseases and their isolation, to inquiry as to a possibly infected milk supply, and to the more general use of diphtheria cultures on children who have been exposed to diphtheria. It is also found to be better to depend more on burning or boiling certain infected articles and on washing

or soaking in a reliable disinfectant certain other articles than to simply fumigate the room in which they are, the only benefit of the latter process, in most cases, being the thorough airing out for two or three days that is then necessary before the room again becomes fit for occupancy. This airing out is valuable, but can be done without the fumigation. When fumigation is done and the other measures mentioned are omitted there arises a false feeling of security likely to be rudely broken by the appearance of new cases in the family. In Providence, R. I., fumigation after scarlet fever and diphtheria has not been done for some time unless specially requested by the householder, and the results appear to justify the change in procedure of the Health Department.

Collection of Garbage and Other Waste Material.

Garbage continues to be collected and disposed of by a contractor and the other waste material by the Highway Department. There is evidence tending to show that it may be best in a few years for the town to also take over the collection of and disposal of its garbage.

The unsightly condition of our sidewalks and streets frequently seen on the days on which ashes and paper are collected it is hoped will soon be improved by better observance of the Board's regulations on this subject. These were recently printed in a circular and sent to all householders, requesting their co-operation.

The Dust Nuisance.

The Superintendent of Streets has continued to give special attention to this subject and with most satisfactory results.

Hospitals in Brookline and Boston.

A comfortable and well-conducted isolation hospital for patients ill with dangerous infectious diseases may well be regarded as a form of insurance of a town against those diseases, since the prompt removal there of the first patients ill with such diseases often cuts short or wholly prevents a threatened epidemic. The past year 49 patients were cared for in the Board of Health Hospital, a somewhat smaller number than usual. The diseases for which isolation was needed were

diphtheria, scarlet fever, measles, erysipelas and tuberculosis. For an account of the year's work the reader is referred to the report of the Medical Superintendent of the Board of Health Hospital, which immediately follows this report.

The important question of more adequate accommodations for Brookline patients in needy or moderate circumstances who require medical, surgical or dental relief in a general or special hospital or clinic has received a good deal of attention from members of the medical profession the past few years. The matter was brought before the citizens in the special town meeting held December 29, 1911, and it was unanimously voted that the subject matter of Article 17 in the warrant of the meeting (which see) be referred to a committee of five citizens appointed by the moderator to investigate and report on at the next annual town meeting.

Improved Housing Conditions.

This very important question was considered in last year's report, to which the reader is referred.

The General Health.

In connection with the general health of the town a very important service and one deserving encouragement is that of the District Visiting Nurse. Visiting nurses of the right sort in the most densely populated parts of the town are able to learn of serious cases of ill health, especially of consumption, long before the patients would think of applying to a physician, and by inducing them to go to their family physician, if they have one, or to a hospital or dispensary, will bring them under observation and treatment while they are still curable. In this connection it may well be stated that the State Health laws now require that towns with as large a population as ours shall provide both hospital accommodations and a dispensary for patients suffering from tuberculosis. The former was provided by Brookline some years ago; the latter is now receiving the attention of the Board and of its agents.

As related to the public health, the writer wishes to mention the increasing usefulness of such agencies as our public water supply; sanitary drinking fountains in various parts of the

town; the new public comfort station (a model of its kind) at the Brookline Transfer Station; the new automobile ambulance specially built for the Health Department and in the immediate charge of the Police Department, and used for quickly taking injured and sick persons to their homes or to Boston and Brookline hospitals; the health work in our public schools; our Municipal Baths and Gymnasium; our Board of Health Laboratory; the Milk and Veterinary Inspection; the Disinfection Service; the Sanitary Inspection Department; the Highway Department; the Park Department; the Public Library; the recently formed Playground Commission; and in addition to these a number of well-known private and semi-public agencies which co-operate more or less with our Municipal Departments in promoting the public health.

Acknowledgments.

In closing, the writer wishes to thank the members of the Board of Health and the various town officials, also the physicians and the many other citizens who the past year have assisted him in his work.

Respectfully submitted,

H. Lincoln Chase, M.D.,

Agent, Board of Health.

REPORT OF MEDICAL SUPERINTENDENT OF BOARD OF HEALTH HOSPITAL.

Brookline, Mass., December 31, 1911.

To the Honorable Board of Health:—

Gentlemen,—I have the honor to submit the following report for the year ending December 31, 1911.

The number of patients admitted during the year was 43, as against 77 the previous year. This number, with the patients remaining in the hospital at the beginning of the year, made the total number cared for 49.

As there were 33 less patients ill with scarlet fever in the town the past year than in the previous year it was not necessary to keep the hospital open so much of the year as usual; it was closed from July 1 to November 1, while the previous year it was closed only from September 10 to October 19.

The following table shows the number of patients admitted to the hospital each month:—

1911.	
January	2
February	3
March	4
April	7
May	7
June	2
November	10
December	8
	43

The number of resident patients admitted was 38, and of non-resident patients, five. Of the 43 patients admitted eight were private-room patients. There are now remaining in the hospital, December 31, 1911, seven patients.

The following table gives the statistics as to the patients:—

Patients in hospital January 1, 1911	6
Diphtheria patients admitted	17
Scarlet fever patients admitted	14
Measles patients admitted	8
Tuberculosis patients admitted	3
Erysipelas patients admitted	1
Total patients admitted in year	43
Total patients treated in year	49
Number of private patients	8
Number of resident patients admitted	38
Number of non-resident patients admitted	5
Number of boy patients admitted	11
Number of girl patients admitted	15
Number of men patients admitted	6
Number of women patients admitted	11
Number of patients remaining in hospital Dec. 31, 1911	7

As in the three previous years a part of the hospital grounds and one of the wooden buildings were used during the summer by the Day Camp for Tuberculous Children. This camp for children, to which a few suitable adult patients also were admitted, was financed and administered jointly by the Health Department, the Friendly Society and the Anti-Tuberculosis Society. About 20 patients attended and the results were the same as in former years. Dr. A. A. Cushing was physician to the camp, Miss R. M. Gould was nurse, Mr. A. A. Wordell was treasurer and the writer was medical supervisor by direction of the Board of Health. The usual work of the Day Camp is more fully described in earlier reports.

The children in the Board of Health Hospital have received gifts of flowers, books, games and toys throughout the year. At Christmas, in response to a letter in the Brookline papers by the hospital head nurse and the visiting physician, calling attention to the need of two phonographs for the sick and convalescent children in the widely separated diphtheria and scarlet fever wards of the hospital, two fine instruments and a supply of records were received from two of our generous and public-spirited residents, so that the patients now enjoy music at suitable times.

The writer in closing this report wishes to express his

appreciation of the interest and support of the members of the Board of Health, of the Head Nurse, the Bacteriologists and of the many physicians, parents and others who have assisted him in promoting the welfare of the patients in the hospital.

Respectfully submitted,

H. Lincoln Chase, M.D.,

Medical Superintendent and Visiting Physician.

REPORT OF THE BACTERIOLOGIST.

To the Board of Health:—

Gentlemen,—I have the honor to submit the following report for the year ending December 31st, 1911:—

The routine of work of the laboratory has consisted of:

(1) The examination of cultures and swabs from suspected cases of diphtheria.

(2) The examination of sputum for the detection of cases of pulmonary tuberculosis.

(3) The diagnosis of typhoid fever by means of blood cultures or by Widal's reaction.

(4) The examination of blood for the presence of the plasmodium malariae.

(5) The examination of smears for the diagnosis of ophthalmia neonatorum, and other diseases caused by the gonococcus.

(6) The bacteriological examination of samples of milk submitted by the Milk Inspector.

The necessary outfits for the use of physicians are kept at the laboratory and at the following drug stores: At *Young & Brown's, Harvard Square; at *Hayman's, corner Beacon and Harvard streets; at the Beaconsfield Pharmacy, corner Beacon and Washington streets; at *Graves', corner Boylston and Hammond streets, Chestnut Hill.

For a small fee, analyses of urine and other microscopical and chemical examinations which aid in the diagnosis of non-contagious diseases are made for the physicians of the town.

Diphtheria.

There were 49 swabs and 359 cultures examined from persons suspected of having diphtheria; 39 were positive.

*Anti-Toxin Stations.

There were 144 cultures for release from quarantine. The total number of swabs and cultures was 552.

Tuberculosis.

There were 131 specimens of sputum examined for the presence of the bacilli of tuberculosis, 15 with positive result.

Typhoid Fever.

Eighty-three tests were made for the presence of the typhoid fever or Widal reaction, with specimens of dried blood from 66 persons who had symptoms suggestive of typhoid fever. The reaction was present in 11 of these. The laboratory also makes the diagnosis of typhoid fever by the Conradi blood culture method. Cultures are made from the patient's blood in tubes of sterile ox-bile, which physicians can obtain at the laboratory. The typhoid bacilli are very abundant in the blood during the early stages of the disease, so that it is often possible to make a diagnosis by the blood cultures a week before the Widal reaction appears. One such culture was examined. The laboratory is also ready to examine specimens of urine for typhoid bacilli during convalescence.

Malaria.

Thirty specimens of blood were sent to the laboratory for examination for the presence of the plasmodium malariae. In five of these the malarial organisms were found.

Ophthalmia Neonatorum.

The laboratory examines smears from the eyes of infants suspected of having this disease. The malarial outfits may be used for this purpose. One such examination was made during the past year with negative result. The diagnosis of other gonococcal infections is also made.

Milk Examinations.

There have been examined during the past year 286 samples of milk, which have been collected by the Milk Inspector from different dealers. The number of bacteria in each sample is first estimated by the microscopal examination of

the centrifugalized sediment, and in many cases when the number of bacteria present are obviously below the legal limit of 300,000 per cubic centimeter, no further tests are made and the report is sent to the Milk Inspector that the sample is "passed on inspection." Where the number of bacteria appears to be near or above the 300,000 limit, plates are made from the samples and the number of bacteria are counted by that method. Of 286 samples, 62, or 22 per cent. were above 300,000; 24 contained 300,000 to 1,000,000; 38 were over 1,000,000. The highest count was 18,200,000. In 30 samples, where microscopical examination showed very large numbers of bacteria to be present, the plates showed very few, which suggested that an inferior milk had been pasteurized.

In 1908, 26 per cent. of the samples were above 300,000; in 1909, 14 per cent. were above; in 1910, 21 per cent; in 1911, 22 per cent.

The results of these examinations are reported to the Milk Inspector, who files them (with the dealers' names) at the Office of the Board of Health, where they are open to inspection, and they are also printed in the Annual Reports of the Milk Inspector. It is thus possible for the citizens of Brookline to determine at any time the purity of the milk (as regards bacteria) which they are consuming. It is to be hoped that more citizens will make use of these reports when selecting their milk dealer, for an intelligent interest on the part of the citizens in securing pure milk for themselves is the most effective means of improving the supply.

Twenty samples of ice cream were taken from stores in the town by the Milk Inspector and examined at the Laboratory. Only two of these samples contained less than 300,000; the lowest count was 210,000; the highest 26,700,000. Fifteen samples contained over 1,000,000. These results, which are similar to those obtained in other places where examinations of ice cream have been made, show that in general the purity of the ice cream as regards bacteria is much inferior to the milk and it is obvious that en-

ergetic measures should be taken to protect the public against ice cream containing such enormous numbers of bacteria.

Summary.

The following table shows the routine bacteriological examinations that have been made in the laboratory during the past six years:—

	1906	1907	1908	1909*	1910	1911
Cultures and swabs	760	775	1,347	744	640	552
Sputum	154	169	144	130	106	131
Typhoid tests	79	76	96	98	102	84
Malaria	28	32	28	32	16	30
Ophthalmia neonatorum			1	2	5	1
Milk examinations			380	547	416	306
	1,021	1,053	1,996	1,553	1,285	1,104

In addition to the above mentioned routine work, 149 bacteriological and chemical examinations of various kinds were made for physicians, who frequently visit the laboratory to see for themselves the results of the examinations.

The work of exterminating flies and mosquitoes is directed by Mr. Nyhen, the Assistant Bacteriologist, from the laboratory. From the bacteriological standpoint this work of destroying the insect carriers of infection is a very important part of preventive medicine, and the writer would urge an extension of this work during the coming summer.

Respectfully submitted,

FRANCIS P. DENNY,

Bacteriologist.

*Eleven months.

REPORT OF THE SANITARY AGENT.

Brookline, Mass., December 31, 1911.

To the Board of Health:—

Gentlemen,—I have the honor to submit my nineteenth annual report, for the year ending December 31, 1911.

All complaints of nuisances or other unhealthful conditions called to my attention during the past year through your Honorable Board or otherwise have been promptly and carefully investigated, and where complaints were found to be justified, corrections have been required and satisfactorily made.

Complaints and nuisances to the number of *222*, as compared with 186 in 1910, have been investigated during the year.

The following summary shows the number and character of the nuisances and complaints investigated and corrected under direction of the Board during the year, as well as a large number of minor nuisances requiring no action by the Board which were corrected by the Agent and Inspector:—

	No. of Complaints.	No. of Inspections.
Premises unusually untidy	65	233
Offensive odors in and about buildings	15	23
Untidy dumps and vacant lots	20	40
Garbage receptacles offensive	18	30
Water closets offensive	8	16
Stables offensive	16	71
House drainage defective	6	10
Cellars very untidy	22	85
Overflowing cesspools	2	5
Contractors' privies offensive	20	35
Henneries offensive	3	10
Miscellaneous	27	50
Total	222	608

Early in the spring the usual general inspection was made of the cellars and yards of the tenement districts of the town. This inspection resulted in the cleaning up of the miscellaneous rubbish which usually collects in these districts during the winter months.

In pursuance of the policy of the Board to spare no effort to keep the congested districts of the town constantly free from ashes, waste paper, house dirt and similar rubbish, a beginning was made in 1910 by the appointment of an additional inspector for the summer months, whose chief duty was to frequently and regularly patrol these districts and see that they were at all times kept up to a proper standard of cleanliness.

The good resulting from these inspections, as well as other reasons, convinced the Board of the necessity for additional and permanent assistance of the same kind.

Consequently on April 17 the Board appointed Mr. Thomas J. Riley as Sanitary Inspector. Mr. Riley has faithfully performed his duties and since his appointment has investigated most of the complaints of nuisances and other unhealthful conditions received by the Board.

The Sanitary Agent has aided the inspector with counsel and advice in regard to a number of sanitary problems; he has also co-operated with the inspector in making the necessary investigation of nuisances and other unhygienic conditions whenever his duties in other departments of the town service would permit.

The Sanitary Inspector has investigated a large number of complaints due to the alleged neglect or omission of the garbage collector's men to remove the garbage on the appointed days. In all instances where the men were at fault the accumulated garbage was removed and the collector admonished to give prompter and better service.

The number of stables complained of was sixteen, five less than last year.

One old stable that had long been an eyesore, if not a positive danger to the neighborhood, and against which the Board

was about to take definite action, was torn down by the owner and replaced with a modern brick stable.

At the instigation of the Board and with the co-operation of the Building Department one other old stable which had been frequently complained of was razed to the ground by the owner.

In the case of another old stable located in a tenement district and which had also been frequently complained of, action by the Board was deferred on the promise of the owner to replace the present wornout structure with a new brick stable in the spring.

At the request of the Board an old wood and frame stable lacking in certain sanitary requirements was cleaned up by the owner and abandoned for the stabling of horses.

Believing a certain old and unoccupied stable much impaired by neglect and decay to be a danger to the neighborhood, the Board has recently requested the owners to take it down.

The complaints against the remaining eleven stables were of different kinds, but were mostly for general neglect of cleanliness and for the accumulation of too much manure and other refuse in and about the premises.

One old tenement house that had received much attention from Health Boards in the past few years was torn down by the owner during the summer and a fine new apartment house having all the latest and best modern improvements was erected on its site.

One other old tenement house that underwent renovation by order of a former Health Board was taken down during the winter to make room for a business building.

Several other old buildings in a state of dilapidation are now receiving attention from the Board and its agents and before another of these reports appears will doubtless have disappeared.

In connection with the foregoing it may be mentioned that from one cause or another, but chiefly through the efforts of the present and past Boards of Health, many old and wornout buildings, mostly stables and tenements, have been demolished during the past few years.

Much credit is due all those who have aided in ridding the town of these old ramshackles, dangerous to life and health, a menace to the neighborhood from liability to be set afire, a blot on the landscape and a general injury to land values in the neighborhood.

The number of henneries receiving the attention of the Board during the year was somewhat less than the preceding year. As has been before pointed out in these reports, many of these henneries are located in the congested districts. In point of offensiveness when neglected they rank next to an ill-kept piggery. In the opinion of the writer they have no place in tenement life and should be relegated to the large estates, or to the less thickly populated districts where they might be helpful in the destruction of insects injurious to plant and vegetable life.

A provision of the new regulations of the Board of Health forbids the keeping of fowls on any premises within the limits of the town without first securing a permit from the Board of Health.

It is believed this new requirement will be effective in properly regulating all henyards in the town and especially those in the districts mentioned.

So-called workmen's or contractors' privies continue to be a source of nuisance and frequent complaint; they are everywhere recognized and denounced as unmitigated evils. During the warm months they have been well looked after by another division of the Board of Health, but have also received much attention from the writer. Almost constant looking after is needed to keep these places within bounds. It is believed the new regulations of the Board of Health will operate to materially lessen this nuisance. An excerpt from these regulations reads as follows: "But upon the installation of the necessary piping connecting such building with the sewer, any such privy vault shall be abolished and a tank-fed water closet substituted therefor."

The various barber shops of the town have been periodically inspected during the year. No untidiness or uncleanliness was detected in any of the shops. In both these respects it is

believed the local shops will compare favorably with the larger ones of the metropolis. The feature, however, of the regulations requiring the sterilizing of barber's instruments and utensils after each separate use is, we fear, not always observed. In view of all the circumstances, however, we think that the barbers of the town show as much respect for the regulations as do those of any other city or town where such regulations are in force.

The several bakeries of the town have been inspected twice during the year. No changes of consequence were noticed in any of them. Their general condition in regard to cleanliness was fairly satisfactory.

During the year the Board has granted permits to build and maintain three cesspools where sewer connections were not available.

The number of permits issued for improving the drainage was twenty.

A number of routine matters of importance were attended to beside those mentioned above with the details of which I do not deem it necessary to encumber this report.

Respectfully submitted,

MICHAEL DUFFLEY,

Sanitary Agent.

REPORT OF AGENT FOR THE INSPECTION OF ANIMALS, PROVISIONS AND MILK.

Brookline, Mass., January 15, 1912.

To the Board of Health:—

Gentlemen,—I have the honor to submit my nineteenth annual report for the year ending December 31, 1911.

Summary of Work Done.

Milk.

Samples submitted for chemical analysis	526
Number below legal standard	26
Additional sent on complaint	4
Samples submitted for bacterial examination	290
Number containing not more than 300,000 per C. C.	221
Number containing between 300,000 and 1,000,000 per C. C.	25
Number containing more than 1,000,000 per C. C.	38
Number containing excessive inactive bacteria	6
Temperatures of milk taken (additional)	350
Milk licenses issued for wagons	31
Milk licenses issued for stores	72
Licenses refused	2

Dairies.

Dairies and milk rooms inspected (over 500 visits)	254
Dairies accepted (scoring 60 or over)	184
Dairies accepted subject to further corrections (under 60)	8
Dairies rejected for cause	45
Dairies discontinued	25
Permanent corrections effected	27

Food, Drugs, Etc.

Samples analyzed:—

Ice cream (for bacterial count)	35
Butter	19
Lard	10
Vinegar	35
Canned goods	18

Bottled goods	20
Spices, etc.	28
Extracts	16
Miscellaneous foods	22
Drugs	19
Water analyzed	9
Total	231

Animals.

Cattle inspected	206
Swine inspected	146
Sheep inspected	30
Goats inspected	16
Horses inspected for glanders	15
Dogs for rabies	1
Total	414
Tuberculosus cattle condemned and destroyed	6

Permanent corrections effected at stores	60
Other corrections (noisy milk wagons, dead animals, etc.)	9

(See report of the Quarantine Inspector for other inspections.)

Milk.

Rather more work has been done the past year towards keeping up the standard and improving the milk supply than in former years. Your Agent greatly appreciates the facilities afforded the Department the past year and the hearty co-operation of the town officials and others who have so materially assisted in making the work effective.

Chemical and Bacteriological Work.

The chemical analysis of milk, foods, water and drugs was done in the milk and food laboratory at the Town Hall. Of the 26 samples below the legal standard, only 14 were low enough to warrant the sending of a warning notice.

The samples submitted to the Board of Health Laboratory for bacteriological examination showed a marked improvement over those of last year. Dr. F. P. Denny, under whose direction this work was done, will no doubt give interesting detail in his report.

The detailed reports of the chemical analysis of milk, food and drugs, the bacteriological counts, and the dairy inspection scores, are on file and open to inspection at the office, Room 14, Town Hall.

Dairy Inspection.

This work has been pressed with unusual vigor and I have no hesitancy in saying that the Brookline supply, as regards cleanliness, is now considerably above the average. The good results obtained have been due in a large measure to the action of your Board in furnishing the Department an automobile for the prosecution of its work. The cooperation of the State Board of Health, the Cattle Bureau, the milk distributors themselves, and the competency of my associates in the Department, have also been contributing factors.

Being one of the first to advocate the inspection of milk at its points of production, I have made a somewhat close observation of the results of such inspection. Excluding those dairymen who by their very natures are unfitted to handle a product which is so potent a factor to the public health, I cannot find that the system has worked any undue hardships upon the producers or has increased to any noticeable extent the cost of production.

While we sometimes find it necessary to oblige a producer to fence off a polluted pond, drain a bad cellar, provide a suitable room for cooling his milk, or use ice in hot weather for cooling, yet in fully 80 per cent. of the cases all that we ask for is cleanliness and care.

The condition of the milk upon leaving the producer's hands is the essential factor, and whether the dairyman has a new barn or an old one, cement floors or wooden, are matters of little consequence. When an inspector bases his scoring upon tiled floors, patent ventilators, expensive drainage, etc., rather than upon the actual results obtained

by the producer in eliminating bacteria, he is discouraging the careful and painstaking farmer of limited means, causing this most practical system of milk inspection to be unjustly criticised, stimulating the high cost of production, and emphasizing his own inefficiency for the work.

The supplies of large dealers are so separated that the town's entire supply of raw milk now comes from dairies which have been personally passed upon by either Mr. Ward or myself. This matter was somewhat perplexing at first and I commend those dealers who gave their hearty support to the scheme, some of whom allowed us to select the dairies which were to supply Brookline exclusively. A distinctive tag system has been adopted whereby we can assure ourselves that the several supplies are coming from the dairies which have been selected or approved.

Other important features of the work are as follows:—A more frequent inspection of all contributing sources; inspection at points of collection in dairy districts; inspection on Sundays and holidays and at hours when we are least expected; car inspections at points where the Brookline supply is taken on; veterinary examination of herds suspected of having tuberculosis; a closer following up of cases of contagious disease among the handlers and a more stringent insistence upon milk being kept at a low temperature, both in storage and in transit.

Foods and Drugs.

The State Board of Health has done practically no food inspection in Brookline the past two years, in consequence of which 15 per cent. of the food and drug samples analyzed were below the legal requirements the past year as compared with 3 and 4 per cent. in former years. I have, therefore, made provision in the estimate of expenditures for the coming year to offset this by increasing somewhat the local inspection. In keeping the food supply of the town up to a high standard of purity, I am convinced that we conserve the public health.

In the cases of violations, the merchants have made a prompt compliance with the Federal law upon being notified of its violation, as subsequent purchases made by unknown

agents showed. Violations of our local health regulations concerning the protection of food from contaminating influences have not been so quickly corrected.

The problem of covering foods in stores has been a very hard one to solve and I have found it necessary to make some concessions in certain specific cases, for example—the bakers cannot place hot pastry in their glass cases until it has cooled sufficiently to prevent spoiling, and it is a question if it is not better to allow it to cool in a clean, airy store, rather than the rooms (usually dark basements) where it is baked.

The screening of stores and cleanliness of ice-chests have been given proper supervision. I have been obliged, however, to condemn and destroy small miscellaneous lots of package foods, which I felt were unfit for consumption owing to preservatives and exposure to heat.

Animals.

A new policy, recently adopted by the State Cattle Bureau, places more largely upon local inspectors the responsibility of tracing up cases of contagious diseases among animals. This applies to both those which have been reported as recently removed from the town after contracting disease and the testing at outlying points of those intended for delivery within the inspector's district. As the work is supervised by the State Cattle Bureau, it is evident that this closer co-operation will prove a long step towards eliminating communicable diseases among animals, and it is especially aimed at reducing the alarming spread of glanders to a minimum.

Investigations—Tonsilitis.

On Sunday, May 14, 1911, I received a telephone message from Dr. H. Lincoln Chase, Agent of the Board of Health, calling my attention to the discussion which took place at the meeting of the New England Pedeatric Association on the evening of May 13th, where the extreme prevalence of tonsilitis in Boston, Cambridge and Brookline was discussed and the following conclusions arrived at:—That while tonsilitis was not considered to be a milk conveyed disease,

that the evidence presented in this outbreak pointed strongly to such infection and that the Deerfoot Farm milk supply was the one responsible.

I immediately began an investigation of the suspected supply and on the morning of May 15th I requested Mr. E. A. McEttrick, Secretary of the Board of Health, to send out a postal card to all physicians in the Town of Brookline asking them to report all cases of tonsilitis or sore throat which were brought to their attention, giving the milk supply in each case, which he did under the date of May 15th, and to which he received a good response, the result of which has already been brought to your attention.

As the epidemic was equally prevalent in Boston and Cambridge, I conferred with the State, Boston and Cambridge officials, and with the addition of their data, completed what I believed to be a most careful and thorough investigation covering medical, veterinary, bacteriological and sanitary inspections, also every known source of contact, which resulted in failure to definitely connect the epidemic with any milk supply.

At the meeting of your Board held on May 18th, at which there were present Professor Prescott of the Institute of Technology, Bacteriologist to the Deerfoot Farm Company, and Professor Arms, Bacteriologist to the Boston Board of Health, I reported that no evidence could be found at this time which pointed to Deerfoot's responsibility, other than that there were more cases on their routes than on other dealers'.

I append a copy of the conclusions arrived at by the State and Boston Boards of Health, who also conducted independent investigations simultaneously with ours.

"The matter was referred immediately for investigation to Dr. W. W. Walcott, State Inspector of Health for District No. 10, in which district Southboro, the home of Deerfoot milk, is situated, who reported that in his district no relation to the Deerfoot Farm milk could be made out. While Dr. Frank L. Morse of Somerville, State Inspector of Health for District No. 5, in which district lies the City of Cambridge, reported that in his district the relation was very marked." *(From paper read by Dr. Richardson, Sec-*

retary of the State Board of Health, published in Boston Medical and Surgical Journal, Page 907, December 14, 1911.)

Boston Board of Health.

"The first thing that was done by the Boston Board of Health was to report to Deerfoot Farm and examine the conditions existing in connection with the milk supply, and at that time nothing could be found on the part of the milk plant or with anyone connected with the handling of the milk." *(Dr. Durgin, Boston Medical and Surgical Journal, Page 909, December 14, 1911.)*

On May 26th, I received a letter from the Chairman of your Board, stating that he thought a more thorough investigation should be made. I immediately began a house-to-house canvass of the town, and all detail connected with each case was recorded, and at the same time I sent experts over the entire Deerfoot Farm supply, which was in accordance with the suggestion of the Chairman, and made a report of progress and asked for authority to complete the work, which was granted and made a matter of record.

The work was then tabulated and a map made showing by various colored dots the location of infected houses, number of cases, severe or mild, number supplied by Deerfoot and those supplied by other dealers.

From this map one could see at a glance that the Deerfoot infection was confined almost wholly to the section of the town northeast of Winchester, Beacon, Harvard and Washington streets; fully 85 per cent. of their cases were confined to this section, about one-half of them being severe, while in the Fisher Hill, Aberdeen and Aspinwall sections where Deerfoot Farm supplied an equally large quantity of milk there were practically no Deerfoot cases (eight in number and those mild ones). The cases on other dealers' routes were evenly distributed throughout the town.

With this distinct line of demarcation which divided the town into two sections, namely, an infected section and one free from infection, in either of which Deerfoot Farm supplied an equally large proportion of the milk, the question at once arose as to whether Deerfoot Farm was supplying

milk from a different source to the infected section from that supplied to the non-infected section.

Steps were immediately taken to determine this fact and your Agent was unable to find that such was the case; on the contrary he learned from those, who, at the time, he believed to be informed, that the entire milk supply furnished in the Town of Brookline by the Deerfoot Farm Company was a mixed supply identical in composition, one bottle with another, all having been mixed and agitated in the same tank and passed through the same clarifier, cooler, and bottling machine, a process which requires about three hours, whereupon he immediately came to the conclusion that if an equal quantity of such milk could be and had been used with impunity in the section of the town practically free from infection that such product could not have been the cause of the disease existing in the infected district, and so reported to your Board through your Chairman.

On October 25th I received an invitation from the Secretary of the Norfolk District Medical Society to attend their meeting to be held at the rooms of the Massachusetts Medical Society on October 28th, at 8 P. M., at which time Prof. C. E. A. Winslow, who was employed by the Deerfoot Farm Company, would read a report of his investigation of the Deerfoot milk supply in connection with the outbreak of tonsilitis, which occurred in Boston, Brookline and Cambridge in May, 1911, from which I quote one passage, namely:—

"In the first place it appeared that the general geographical distribution of the disease coincided closely with a single supply of milk. The Deerfoot Farms have two main supplies, one from Southboro and one from Northboro, and a supply of cream which is common to the two. It was the Southboro supply of milk alone which corresponded with the spread of tonsilitis. Wherever the Northboro supply went no trouble occurred, and thus customers in certain large areas suffered no infection." (*Boston Medical and Surgical Journal, Page* 901, *December* 14, 1911, *also Page* 16 *of Prof. Winslow's report, a copy of each of which I herewith submit.*)

Had I at the time of my investigation secured the above facts, the responsibility for the outbreak would necessarily have rested upon the Southboro supply of the Deerfoot milk.

That this was the one point upon which the solution of the whole matter hinged, was evidently the position taken by the Secretary of the State Board of Health, as indicated by his remarks at the above-mentioned meeting, from which I quote as follows:—

"Fortunately, the town of Brookline planned almost immediately a house-to-house investigation of the disease, but the preliminary reports from this investigation also discredited quite emphatically the idea that the disease was due to any special milk supply. It was with great interest, however, that the final figures secured by this board were awaited. Through the kindness of Dr. Frederick H. Osgood, milk inspector of the Brookline Board of Health, I was enabled some weeks later to examine the figures obtained by this board and also a map on which had been plotted the milk supply of the town, together with the cases of tonsilitis which had occurred in the town during the epidemic period. I regret very much that this map could not be reproduced and presented at this meeting, for I believe that, even though such a map must be only approximately accurate, the information to be derived from it has been of great value.

"The figures obtained in Brookline have been reproduced in chart form by Dr. Harry Linenthal, State Inspector of Health for District No. 4, and this chart shows, to my mind, that the occurrence of tonsilitis in Brookline must have been due to contamination of the Deerfoot Farm milk supply.

"The chart shows the relation of the number of cases of tonsilitis which occurred in 3445 houses in Brookline as compared with the number of houses supplied by each of the various milk contractors, and you see that, whereas Deerfoot Farm supplied only 13.8 per cent. of the total number of houses, 61 per cent. of the total number of cases

investigated occurred in houses supplied with Deerfoot milk.

"Another interesting feature brought out by the map of Dr. Osgood was that a certain portion of the town, although quite fully supplied with Deerfoot milk, showed practically no cases of tonsilitis. This fact, difficult to explain at first, has been made perfectly clear by the statement that the unaffected portion of Brookline received its milk from the so-called Northboro supply, whereas the infected areas received their milk from the so-called Southboro portion of the Deerfoot supply." (*Boston Medical and Surgical Journal, Pages* 907 *and* 908, *December* 14, 1911.)

Minor investigations include the looking up of milk supplies after two or more cases of contagious disease have been reported on a dealer's route; the examination of ponds and streams on dairies supplying Brookline, for evidence of typhoid infection, and other matters which I felt would be of possible benefit to the town.

The Automobile.

The automobile which was purchased in June for the various uses of the Health Department has given most excellent service. Mr. Ward reports that it has been in use every week-day with but two exceptions when slight repairs were made, and has done night and Sunday service when occasion required. The mileage to January 1st was 7,025, divided approximately as follows: Dairy inspection, 3,600; milk, food and animal inspection, 1,200 miles; quarantine inspection, 1,000 miles; weights and measures department, 300 miles; and the balance, 925 miles, for the uses of other town officers.

It was possible to amicably arrange the various duties so as not to conflict and I feel certain that the amount of extra work it has been possible to do and the promptness with which we are able to take care of matters requiring immediate attention, has more than justified the expenditures.

In conclusion, I wish to remind the public that the records of this office are open to inspection and I extend a

cordial invitation to citizens to make use of them in selecting their milk supply or upon any other subject to which they pertain.

Respectfully submitted,

FREDERICK H. OSGOOD,

Agent for the Inspection of Animals, Provisions and Milk.

REPORT OF THE VITAL STATISTICS.

To the Board of Health of Brookline:

Gentlemen,—The undersigned herewith presents the report of the Vital Statistics of the town of Brookline for the year ending December 31st, 1911. The usual details are given in the tabulation appended, but the following is the comparative summary for the year:—

	1910	1911
Births	447	470
Marriages	349	404
Deaths recorded	421	440
Still-births	14	10
Deaths occurring in Brookline	335	345
Deaths of residents of Brookline occurring out of town	86	85

In the tabulated details of causes of death, the deaths occurring in Brookline and the deaths of residents of Brookline occurring out of town are given separately.

Births by Months.

Months	Whole No.	Males	Females
January	36	18	18
February	32	16	16
March	45	25	20
April	35	18	17
May	42	28	14
June	40	17	23
July	44	20	24
August	45	27	18
September	37	21	16
October	38	22	16
November	42	21	21
December	34	16	18
	470	249	221

Of the above births there were twins as follows:

Months.	Whole No.	Males.	Females.
January	2	2	0
March	2	1	1
November	2	0	2
December	2	0	2

Marriages by Months.

Months.	Whole Number.	First of Groom.	First of Bride.	Second of Groom.	Second of Bride.	Third of Groom.	Third of Bride.
January	30	26	27	3	2	1	1
February	29	25	27	3	2	1	
March	18	18	18				
April	47	42	45	5	2		
May	14	14	12	0	2		
June	65	61	64	4	1		
July	18	17	17	1	1		
August	24	20	21	4	3		
September	40	36	39	4	1		
October	57	51	51	6	6		
November	38	34	37	4	1		
December	24	22	20	2	4		
	404	366	378	36	25	2	1

REPORT

The Trustees of Walnut Hills Cemetery herewith submit their report for the year ending December 31, 1911.

The Board organized by the choice of Charles H. Stearns as chairman, Edward W. Baker as clerk, and Myron D. Fisher as Superintendent.

The following are the details of the usual work of the Cemetery during the year:—

Number of lots sold	9
Number of single graves sold	19
Interments	63
Removals from cemetery	0
Monuments and boulders set	7
Headstones set	12
Markers set	9
Total interments in cemetery to date	1,559
Total number of lots sold to date	350
Total number of graves sold to date	415

The financial condition is shown by the following summary:—

Investments for Perpetual Care.

For Walnut Hills Cemetery.

Massachusetts Hospital Life Insurance Co.:	
Trust Policy No. 117	$18,950 00
Trust Policy No. 039	7,700 00
Trust Policy No. 053	2,400 00
Trust Policy No. 079	2,500 00
Total	$31,550 00

For Brookline Cemetery (Walnut Street)

Brookline Savings Bank, Book 9865	$298 88
Brookline Savings Bank, Book 20769	1,182 84
Total	$1,481 72

General Fund.

Balance from last year	$1,621 61
Receipts during the year	4,611 61
Total	$4,837 32
Expenditures during the year	4,455 78
Balance	$381 54

Perpetual Care Fund.

Balance from last year	$548 54
Receipts during the year	1,620 50
Balance	$2,169 04

Income Perpetual Care.

Balance from last year	$1,521 61
Receipts during the year	1,319 87
Total	$2,941 48
Expenditures during the year	1,048 20
Balance	$1,893 28

For further details reference is made to the Treasurer's report.

Total cash on hand from last year	$2,395 86
Total receipts	7,551 98
Total	$9,947 84
Total payments	5,503 98
Total cash balance on hand	$4,443 86

For the care of the Old Brookline Cemetery on Walnut street for the coming year, the Trustees recommend an appropriation of $250.00.

This is an increase of fifty dollars over the usual appropriation, but does not contemplate any increase in expenditures. In the past, the income from the Cemetery has averaged between fifty and one hundred dollars, which income has been classified as reimbursements for work actually performed for owners of lots. It is recommended that in the future any such income be credited to Treasury receipts and that all expenditures be charged directly against the appropriation.

The Trustees recommend also the appropriation of $1,500.00 for continuing the building of the stone wall on the street boundary of the Walnut Hills Cemetery grounds. This is in accordance with the recommendation of the Trustees originally made in their report for 1907.

Appropriations have been made annually under which have been constructed the gate and entrance wall, followed by the wall along Allandale road to where the higher ground of the Cemetery abuts on the road. It does not seem advisable to carry this wall further until the roadway is widened, but the appropriation recommended provides for the construction of the wall from the entrance along the Grove street frontage.

The Trustees, therefore, recommend that at the next annual town meeting, under an article in the warrant, the town appropriate $1,500.00 for the continuation of the stone wall around Walnut Hills Cemetery.

Respectfully submitted,

CHARLES H. STEARNS,
CHARLES S. SARGENT,
DESMOND FITZGERALD,
LEONARD K. STORRS,
ERNEST B. DANE,
HENRY H. RICHARDSON,

Trustees of Walnut Hills Cemetery.

*Resigned November, 1911.
†Elected to fill vacancy, December 11, 1911.

FIFTY-FIFTH ANNUAL REPORT
OF THE
TRUSTEES OF THE PUBLIC LIBRARY

This report covers the first full year of the use of the new library building. As was to be expected, new problems have presented themselves to the Trustees, and the citizens of the town have had an opportunity to estimate the value of the increased accommodations provided by their far-sighted enterprise.

In November, Moses Williams, Esq., resigned his membership as a Trustee, much to the regret of his colleagues, and at a joint convention with the Selectmen, held on December 11, Ralph A. Stewart, Esq., was chosen to fill the vacancy until the annual town meeting.

Interesting detailed statistics regarding the increased use of library facilities are given in the report of the Librarian, and we call attention to only one or two of the more important totals. The most surprising, and perhaps the most satisfactory statement concerns the use of the children's department. The number of readers in the Children's Room during the eleven months of 1909 was 21,538. In 1910, which included several months of the use of the present building, the number was 34,350. During the past year the attendance rose to 46,266, an average of 141 for every library day in the year. The enormous increase in attendance has caused not a little difficulty in administration. Even the children who are in pursuit of knowledge do not always keep order, and all those who frequent the library do not have the pursuit of knowledge as their only aim. Miss Gertrude Lockwood, who is in charge of the department, has a remarkable power over young people, but the task of maintaining discipline in a room where every seat is occupied by a lively boy or girl, and there are others still—not still in the ordinary sense—who cannot find a seat, is beyond the power of any one person. The trustees were

obliged to ask for outside police assistance, which has been rendered, and the condition of things during the past month or two has materially improved. The work of this department has been broadened in more ways than one, as is shown by the Librarian in her report, and we regard the opportunity afforded in this direction, and the promise that it is to be increasingly successful under Miss Lockwood's supervision, of itself alone, a sufficient justification of the erection of the present building.

The general use of the library by adults exhibits a healthy increase, although less striking than that of the children's department. The total issue of books for home reading during the year was 189,929, as compared with 171,628 in 1910. No statistics are available as to the use of the book room and Gardner Hall, the general reading room, but it may be asserted that the attendance has increased greatly.

Upon the suggestion of several members of the Committee of Thirty last year, the Trustees determined to make the experiment of keeping the book room and Gardner Hall open until ten o'clock in the evening. The experiment was first undertaken for the last quarter of the year, with an implied understanding that if it were not successful—that is, if the attendance should not be sufficient to indicate a general wish that it should be continued, and should thus not justify the added expense—it would be discontinued. We are unable as yet to think that it has been a successful experiment. The attendance has not been large after nine o'clock, and has been very small after half past nine. But we are unwilling to cut down a privilege once given unless it shall appear that it is not desired. It has been thought that the fact that the reading facilities of the library are available until ten o'clock has not been sufficiently advertised, and we hope that there may be an increased attendance, gradual but steady, as the fact becomes better known. We are therefore continuing the experiment, but it is yet only an experiment, and if the expected increase does not occur we shall restore the old schedule of hours.

The passage by the General Court at its last session of a more stringent eight-hour law than that previously in force compelled the Trustees to employ an additional janitor. From

the time when it is necessary to begin to make the building ready for the day's work, five o'clock in the morning, until the closing hour of ten o'clock in the evening, is seventeen hours. During a part of the day it is necessary to have two janitors in attendance, so that it is not easy, even with three men on the roll, to arrange an hour schedule for them that will not violate the law. A satisfactory candidate was presented by the Civil Service Board and has been appointed.

The Trustees anticipated from the beginning, and doubtless the citizens of the town were not unaware, that the use of a much larger building than the old one would entail a larger expense and would render necessary a larger appropriation. The estimates of last year were experimental, but they turn out to have been not far out of the way. The expenditures have not exceeded the appropriation, but there are outstanding obligations of about $500 not yet paid. A considerable part of this sum is due to the longer hours, already referred to, for which the Trustees did not wish to ask the town to make a supplementary appropriation, and a small sum is attributable to the employment of the additional janitor required by law. The estimated expenses of the current year call for an appropriation of $29,500 and the deficiency of the past year for $500 more—in all, $30,000. It will be seen that almost the whole increase falls under the heads of assistants, janitor, and heating and lighting, all of which are explained by what goes before, and by the increased size of the building in which the library is housed.

It may be interesting, nevertheless, to make a few comparisons, which will show that the expense of the library is not proportionately much greater than in former times. If we take three years at intervals of a decade each, we have the following facts:—

Year	Population of Brookline	Town Appropriaton	Number of Books in th Library	Total Circulation of Books	Cost of Library per Inhabitant	Cost in Cents per Volume Circulated	Number of Books Circulated per Inhabitant
1891..	12103*	8000	36298	66274	.66	12.07	5.48
1901 .	19035*	17000	55441	118092	.89	14.4	6.2
1911..	27792*	26000‡	76731	189929	.94	13.7	6.83
1912..	29500†	29500	78000	210000	1.00	14.	7.12

*Census of the year preceding.
†Estimated.
‡$500 deficiency.

The foregoing comparison shows that the cost of the library per book issued has increased scarcely at all in the last twenty years, and is actually less now than it was ten years ago. It is, of course, not the fact that it costs from twelve to fourteen cents to issue a book. The mere process of issue costs but an insignificant fraction of that amount. All the expenses of the institution are divided—administration, cataloguing, care, heating and lighting of the building, and salaries of the staff, as well as the amount paid for new books. But the comparison of one year's experience with that of another does indicate whether the library as a whole costs more or less in relation to its size and its use.

The table further shows, in another column, the comparative use of the library by the people of the town, and indicates that such use is increasing largely, and that during the past year the issue of books reached almost seven volumes for every inhabitant of the town. The Librarian adopts a different method of comparison, and shows that the issue amounted to twenty-three volumes for each card-holder, on the average.

The cost of the library has increased—measured by the population of the town—almost exactly one-half, if the estimate for the current year is correct. But it is certainly to be considered that for the augmented amount the people have the benefit of a library containing more than twice as many books as in 1891, and that in the children's rooms, the reading

room, the book room and study room, ample provision has been made for the large and happily increasing number of those who appreciate that a public library is much more than a piece of machinery created to issue works of fiction to home readers.

HENRY W. LAMB,
Treasurer.

REPORT OF THE LIBRARIAN.

Brookline, Mass., January 1, 1912.

To the Trustees of the Public Library:—

Gentlemen,—The first whole year in the new library building has shown many possibilities of extension for our work, and it has been a practical demonstration of the value of a larger and more convenient building than the old one.

The demands of the public on every department of library service have been so increased that it has required our best efforts to keep up with them.

The issue of books for home use was 189,929 volumes, a gain of 18,301 over 1910, a growth of practically one-tenth in a single year, an increase only surpassed by 1910 itself, which recorded an issue of about 20,000 more books than in the previous year. This record raises the proportion of circulation to population to six and two-thirds volumes per capita, an unusually high figure. A fairer summary of the reading capacity of Brookline is to state that between 8,000 and 9,000 registered borrowers in a population of about 28,000 read 189,929 books, or 23 apiece, during the year.

The experiment begun October 1, 1911, of keeping the reading rooms open until ten o'clock, has not yet satisfied either Librarian or Trustees as to the expediency of permanently extending the library hours. The present hours have been advertised on town bulletin boards, in the library, in the bulletin, and in Boston and Brookline papers, but the public is as slow to grasp this new privilege as it was to learn to use the library on Sundays. The library was first opened on Sunday in November, 1904, and its use on this day has steadily increased in popularity until now, when seven assistants beside the janitor are on duty, whereas in 1904 one assistant was sufficient for the task.

Registration.

Since the adoption of a new system of registration in May, 1909, that of issuing a borrower's card for a period of two

years only, our yearly statistics must necessarily give a conservative statement of live cards. While our register shows a total of some 10,000 borrowers, it seems fair to count as active readers only such as have registered within two years—during 1910-1911, 6,734 persons. To this number should be added 1,354 children registered in the children's department, making a total of 8,088. Of borrowers registered between May and December, 1909, 2,791 have been neither re-registered nor withdrawn December 31, 1911. Many of these cards represent readers who have drawn books within a few months, and will do so again. Our total figure, 8,088, represents therefore rather the cards in active use on December 31, 1911, than the cards which have been used during the whole year.

Children's Department.

The Children's Department is perhaps the knottiest problem the Librarian has to face, and as our methods in dealing with it have undergone some radical changes under Miss Lockwood's administration, it may be worth while to say a few words on the subject.

The children's rooms were opened on week-day evenings for the first time in November, 1910, and during 1911 there has been an increasing attendance, especially of the older boys. The average number of children in the evening has increased from 46 in November and December, 1910, to 71 in the same months of 1911.

The boys' reading club started last year has been carried on with great satisfaction to its members, and another club has been formed this autumn by Miss Lockwood. This personal work with a few children takes a proportionately large amount of time, but it seems surely the best way to make readers of boys of a certain type. Boys who formerly stayed away from the library, or who came only to make trouble, now come with regularity to read, and their friendly relations with Miss Lockwood, and greatly improved behavior in the library are a tribute to her good management.

The conditions on Sunday afternoons and evenings have been far from satisfactory during the year. The crowds of children, freed from the restraint of school for so long, are by

that time so restless that they are more than we can deal with satisfactorily. We have again and again had as many as 250 young people between the hours of two and nine on Sunday—the average for the year on this day being 192.

It has seemed to us who have been concerned with this Sunday problem that there are too few outlets for the exuberant spirits of Brookline children on this day. The Sunday schools do their work, but, released from their restraining influence, the children are none the easier to manage. The Friendly Society's doors are closed, the Bath House and Gymnasium as well, and the library becomes the resort not only for the child who wants to read quietly, but for the child who wants to hinder the process—and even the trained children's Librarian finds it sometimes difficult to distinguish quickly between these two species. The library does not want to shirk any responsibility however difficult, but we feel that the problem is almost too big for us alone.

Conditions around the building on Sundays have been greatly improved during the last two months by the constant presence of a police officer.

During the past year the attendance in the children's rooms has risen from 34,350 in 1910 to 46,266, a gain of 11,916, or about one-third. The issue of books was 23,991, against 20,907 last year, a gain of over 14 per cent. This added work cannot be done without more money, and we must ask for a substantial increase for this department.

The issue of books to the teachers has been much larger than last year—18,779 volumes against 10,147. This rise is in part due to the issue of books for the first time to the parochial school of St. Mary's Church of the Assumption.

Miss Lockwood has resumed with the present school year the lessons in the use of the library to the upper grades in the grammar schools, adding the seventh grade to those formerly taught by Miss Stanley. She has had so far 25 classes of the seventh, eighth and ninth grades.

The growth of work in this department has called for much extra assistance. Miss Morrill and Miss Wood have continued to help us on Sundays until quite lately, when other duties obliged them to give up our work, much to our regret. Mr.

Holway's place has been taken this autumn by Mr. Noon and Mr. Bookhout for evening and Sunday work. Miss Rosa Heinzen has also been engaged to help during the busy months.

It has been very hard to find the right people for this most difficult work, and we are obliged to pay a higher price for this incidental labor than to an assistant regularly employed. I therefore recommend the appointment of another assistant for this department.

Deposit Stations.

The Boylston Station deserves first place in 1911, as it alone shows a gain over 1910—3,685 against 3,607 volumes.

At Coolidge Corner 19,724 books were issued during 1911 against 20,165 for 1910.

Eight hundred and thirty-two volumes were issued at Chestnut Hill from January to May 15, when the station was discontinued. The Librarian regrets exceedingly that this was necessary, as it leaves the Chestnut Hill district with no library facilities. It seems to her that, owing to certain difficult local conditions, a reading room with a custodian employed by the Library will be the only type of agency likely to give satisfactory results.

Gifts to the Library.

Many gifts of considerable value—books, periodicals and photographs—have been received during 1911. Mr. Charles P. Ware has kept us supplied with recent telephone directories of the whole of New England and of many of the larger cities of the country, and he has also sent us the current numbers of the Electrical Review and Western Electrician, Public Service and The Voter. From Mr. George L. Roberts have come the International Journal of Ethics, and Cosmos; from Mr. A. C. Thomson, The Yale Review; from Mr. George P. Morris, eight volumes of the Hibbert Journal and 23 numbers of the Publications of the New Shakspere Society. Mr. James M. Driscoll has sent us The Pilot. From Mrs. D. W. Russell have been received some valuable public documents and bound Harper's and Century Magazines; from Mr. Washington Allen, 22 bound volumes of Atlantic Monthly; from Mrs. Henry S. Macomber, two volumes of the Trans-

cript for 1849. Miss Adelaide Pearson has given us a number of Italian books which are a welcome addition to our small collection. From the Brookline Education Society have been received 32 photographs of examples of American architecture, which had formed part of a collection of photographs exhibited by them in the library during 1911. Mrs. Samuel J. Bullock has given us a collection of views in England, France and Switzerland. In noting this list of gifts I have not included the givers of magazines which have come to us regularly for many years.

Exhibitions.

An exhibit of photographs of fine examples of American architecture was held in the Brookline Room by the Brookline Education Society in February and March. Two other exhibits of our own photographs were held later, one of Greek architecture and scenery and one of Raphael. In the early spring an interesting exhibit of the blossoms and early leaves of local trees was prepared by Mr. G. W. Lee and placed in the Delivery Hall, where it was closely examined by many visitors. Some of our finely illustrated books on trees were placed in the showcases close to the exhibit. We hope that Mr. Lee may be persuaded to repeat this interesting experiment in 1912.

On January 26, at the invitation of the Trustees, the Massachusetts Library Club held its seventy-fourth meeting in the library. About 300 people gathered in the Lecture Hall at 10 o'clock A. M., and were welcomed by Dr. Storrs. After addresses by Mr. J. Randolph Coolidge, Jr., on the architectural character of small libraries, and by Miss Zaidee Brown, the agent of the Massachusetts Free Public Library Commission (formerly of this library), on village libraries in Massachusetts, the club adjourned to the large room in the west basement, where lunch was served to them. The afternoon program included addresses by Mr. Charles Lamprey of the Boston Normal School on the boy and the book, and by Mr. Lawrence B. Evans of Tufts College on what the library can do for the boy. Time was also allowed for the inspection of our new building.

Yearly Inventory.

The record of volumes lost during 1911 according to the yearly inventory is 183, which is much larger than the number missing in 1910. It is tempting to attribute this increased loss to the natural confusion of moving 73,000 books, but I am not sure that it is justifiable. The loss is distributed through all the various departments of the library, but it is greatest in the delivery room and in the children's rooms. The table at the end of this report gives the inventory in detail. It is hopeful to find that many books recorded as missing in the yearly inventories are finally returned to the library. The 1909 count, originally 113, has been reduced to 83; the 1910 list from 95 to 70.

Staff.

There have been no resignations from the staff during the year. The appointment was made in July of a second junior assistant, Adeline Cropper, who had previously had some little training in our work while she was still in the normal school.

To comply with the Massachusetts statute (Acts of 1911, Chap. 494, Sec. 1), the Trustees have reduced the working day of the janitors to eight hours. Because of the time so lost to the library, and in part to take the place of extra helpers, the Trustees decided that it was advisable to employ another assistant janitor. On application to the Civil Service Commission three names were submitted, and from this list George Johnson was chosen to fill the position in question, beginning Dec. 3, 1911. The force now consists of a head janitor, two assistant janitors, and one woman.

The Librarian feels that during the sixteen years that she has been connected with the library, the staff of assistants as a whole has never been quite so efficient or so ready to rise to the difficulties and responsibilities of the fast growing work, and that there has never before been such a spirit of friendly co-operation among them. The Librarian has tried to make the conditions of working so good and so reasonable that high standards can be exacted, and that the health of the force, that most essential condition for good

work, may be maintained. The Trustees have always been most generous to the staff in cases of illness.

The Librarian has recently sent letters to the Librarians of 13 of the large public libraries of this country to inquire as to their rules in regard to hours of labor, length of vacation, leave of absence in case of sickness, and salaries. The answers to these letters show that in most respects our rules are, to quote one of the librarians in question, "in line with the best modern practice."

The Librarian has turned into the town treasury $1,156.05, this being the amount received during 1911 in fines for overdue books, payment for lost and damaged books, and in the sale of reserved postals.

Through the courtesy and with the help of the Municipal Court and of the Police Department many books have been recovered from delinquent borrowers, but, to the satisfaction of the Librarian, only one case has been actually carried into court.

Respectfully submitted,

Louisa M. Hooper,

Librarian.

The School Calendar, 1912.

Winter term begins January 2, ends March 29.
Spring term begins April 8, ends June 28.
Fall term begins September 9, ends December 20.

*Resigned November 13, 1911. Miss Alice G. Cobb elected to fill vacancy in convention of Selectmen and School Committee on January 2, 1912.

REPORT

The School Committee respectfully submit to the town the following report for the year ending December 31, 1911. On March 13, 1911, the Board effected the following organization:—

Franklin W. Hobbs, chairman; George I. Aldrich, secretary.

Sub-Committee.

Committee on Buildings—Michael Driscoll, Walter Channing, Fred H. Robinson.

Committee on Finance—Franklin W. Hobbs, Michael Driscoll, Thomas B. Fitzpatrick.

Committee on Hygiene—Walter Channing, Edith C. Baker, Arthur A. Cushing.

Committee on Teachers—Edith C. Baker, Ruth C. Paine, William H. White.

Committee on Text-Books of Courses of Study—Ruth C. Paine, William H. White, Arthur A. Cushing.

The Michael Driscoll School.

In its report to the town for the year ending January 31, 1908, the School Committee sketched the rapid growth of the John D. Runkle School since the erection of the first building in 1897 and called attention to the necessity of taking steps to provide additional accommodations to take care of the increasing numbers of school children in that part of the town. With this end in view the town voted to buy a piece of land adjoining that on which the Runkle buildings stand, but, while the counsel for the town was engaged in the examination of the title, it was first learned that there were restrictions on the land which precluded building any structure for school purposes for a period of ten years. This discovery made it necessary to reconsider carefully the whole question; but having in mind the protection in the future of the present school building, as well as the possible future requirement of the land for an addi-

tional building, the Committee felt justified in recommending the purchase of the land and the money was duly appropriated and the land is now owned by the town.

While this did not solve the problem that was pressing for solution, the committee in its report submitted in January, 1909, after reviewing the situation, stated that it was reluctant to establish then an additional school centre but circumstances might necessitate such action in the near future, and that the whole question was receiving most careful consideration.

The subject was again submitted to the town in January, 1910, with the definite recommendation that the town buy a tract of land bounded by Westbourne terrace, Bartlett crescent and a private way, and proceed at once to erect thereon a primary school building of eight rooms. The School Committee had originally advised the purchase of only two lots of land, but the town finally acquired four lots, taking all the land bounded as indicated, and comprising about 2.6 acres at a cost of $47,500. This splendid lot not only provides an adequate school lot, but a playground and a healthy space in the neighborhood for all time.

Fifteen hundred dollars was appropriated for the purpose of procuring plans and estimates, and then an appropriation of $75,000 was asked by the School Committee and appropriated by the town, making a total of $76,500 available for the building.

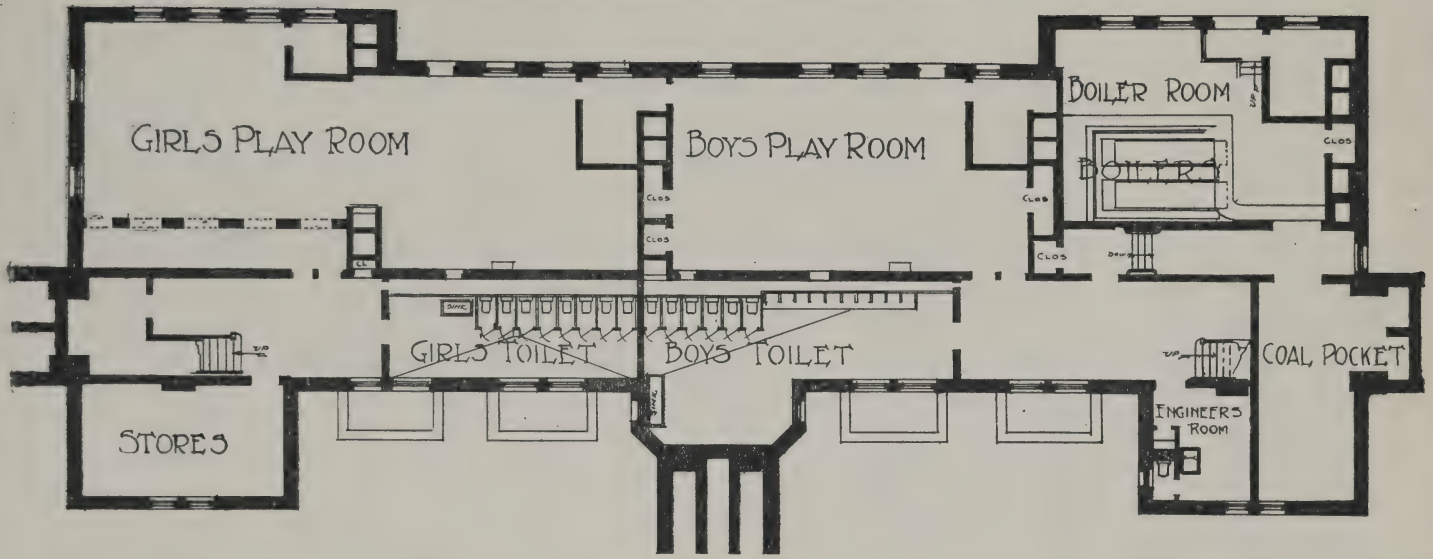

Messrs. Kilham & Hopkins were appointed architects and the building was erected under their supervision. The total cost of the building was $68,940.88 or $7,559.12 less than the amount appropriated by the town. As it is somewhat unusual for municipal boards to spend less than the appropriations for public buildings, special attention is called to this fact.

In addition to the amounts named the sum of $6,250.00 was also appropriated for furnishing the building and of that amount $5,086.89 have already been expended. There will be some further expenditures but the amount available will be sufficient.

The new building was dedicated on Tuesday evening, December 5th, 1911, the program of exercises being as follows:—

Exercises of Dedication

Mr. Franklin W. Hobbs, Chairman of the School Committee, Presiding

---

Tuesday, December 5, 1911
8 o'clock p. m.

Invocation		Rev. Thomas F. McManus
Music	The Heavens Are Declaring	*Beethoven*
Address		Hon. George H. Martin
Music	(*a*) Bells of Shandon	*Nevin*
	(*b*) Hunting Chorus	*Benedict*
Address		Mr. Michael Driscoll
Music	America	
	The audience is requested to join	
Benediction		Rev. Harris G. Hale, D.D.

The Committee are confident that the school is well adapted to the purpose for which it was built, that the site is convenient and accessible for the children it is intended to serve, and that the people of the town at large are to be congratulated on this addition to their educational equipment.

Special Expenditures for High School and Pierce Grammar Building.

For detailed reasons stated in the Superintendent's Report, we think it wise to recommend that the town appropriate a sum of money necessary to provide means for conveying an electric current from the central heating plant on Tappan street to the High School Building and to provide needed appliances for use in instruction in science in the High School courses. In our judgment the wiring should provide electricity both for purposes of instruction and for lighting. As a result of careful inquiries, made of business houses of high standing and of electricians who have no interest in the matter, we find that the sum of $4000 will be required.

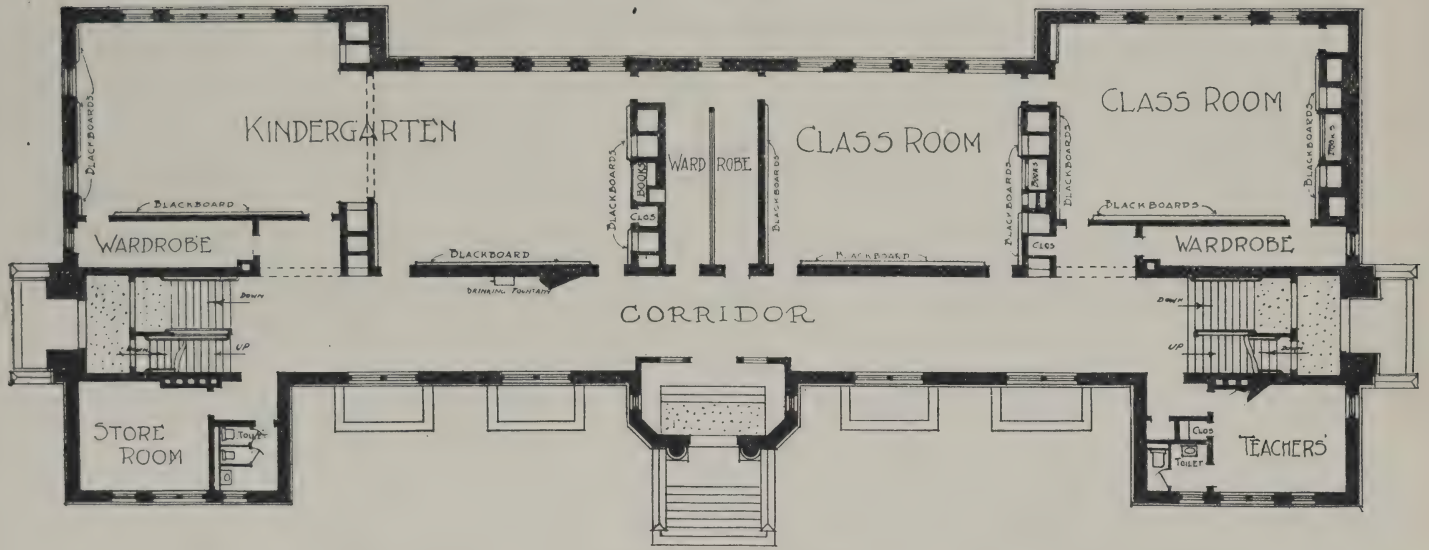

The engine which drives the ventilating fan at the Pierce Grammar School Building is now run with steam at 40 pounds pressure, which necessitates keeping up that pressure in the boilers, although the necessary heating alone could be obtained with much lower pressure, and consequently, at less cost. The Board therefore believes it advisable to run this fan by electric motor and estimates show that the expenses will be $950.

It is the intention of the Board to secure the insertion of articles in the warrant for the annual town meeting, asking for appropriations of such sums for the purposes indicated.

Medical Inspection.

The work of medical inspection has been reorganized during the past year in order to get uniform work in all the schools, properly rendered, with the least possible amount of clerical work. A pamphlet has been prepared to guide the medical inspectors in their work and a record is now kept of all their visits to the schools. A card has also been prepared for each pupil in the primary and grammar grades

MICHAEL DRISCOLL SCHOOL
WESTBOURNE TERRACE, BROOKLINE, MASS.

FIRST FLOOR PLAN

(Kilham & Hopkins, Architects, 9 Park St., Boston.)

on which the essential facts in relation to each child will be entered from year to year, and thus a permanent record will be kept through all the grades. As a result of the changes indicated it is believed that the service rendered by the inspectors will be more efficient and the records more complete than has been possible heretofore.

Penny Savings.

The usual work of collecting the savings of the children has been carried on during the year and the habits of thrift thus encouraged are of undoubted value, especially in view of the almost nominal expense involved, as follows:—

Interest		$80 41
American Bank Note Co. for stamps	$60 00	
Printing	14 75	
		74 75
Net proceeds		$5 66

Financial.

The appropriations made at the annual town meeting were, as usual, for definite departments of school work divided in accordance with the estimates of the probable expenditures under each head.

The following table shows the condition of the several appropriations on December 31, 1911:—

Fiscal Year 1911

	Appropriated	Expended	Balance
High	$49,142 00	$47,687 97	$1,454 03
Grammar and Primary	*122,927 00	123,712 60	†785 60
Kindergartens	19,305 00	18,339 07	965 93
Manual Training and Domestic Arts	**24,950 00	25,141 24	†191 24
General School Expenses	***22,172 00	22,431 98	†259 98
Evening Schools	2,000 00	1,969 63	30 37
Vacation Schools and School Gardens	2,000 00	1,998 02	1 98
Pensions	1,325 00	1,312 32	12 68

* Of this amount $2,000 was appropriated at the Special Town Meeting of December 29, 1911.

** Of this amount $300 was appropriated at the Special Town Meeting of December 29, 1911.

*** Of this amount $850 was appropriated at the Special Town Meeting of December 29, 1911.

† Overdraft.

Although there were overdrafts in some items, a balance of $1,228.17 was returned to the treasury from the total appropriations made during the year.

In figuring the estimates for 1912 it has been necessary to provide for an entire year at the Michael Driscoll School, which was opened in September last, but of the total increase of $10,016, as compared with last year, practically all of the amount is due to increased payments for services of teachers. The Board is glad to state that it has not found it necessary to make any increases in the ordinary running expenses incident to purchases of supplies and maintenance of the buildings themselves, except in the case of the special appropriation for the High School, to which reference has already been made.

Estimate of Ordinary Expenses for 1912.

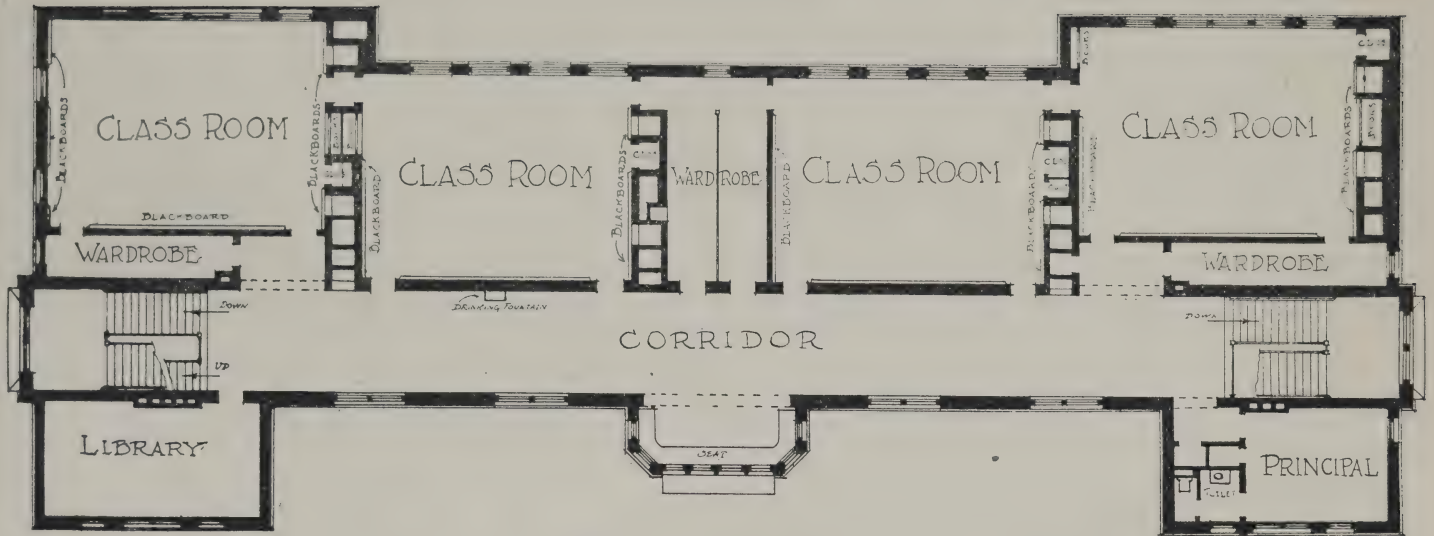

High School	$51,055 00
Grammar and Primary Schools	127,855 00
Kindergartens	19,330 00
Manual Training and Domestic Arts	25,462 00
General School Expenses	22,060 00
Evening Schools	2,000 00
	$247,762 00
For maintenance of Vacation Schools, including cost of School Gardens	$1,600 00
For Pensions	1,400 00

While the Board is not yet ready to make any immediate change, it has been carefully considering a new method of tabulating and subdividing its expenses in order to simplify its accounting and, if possible, to improve its records.

Attention is called to the fact that in making the annual appropriation vote "for maintaining the public schools," the following clause is always added: "All money received for tuition fees or otherwise shall be paid into the Treasury and is not appropriated for school purposes." Under that clause the following amounts have been paid into the Treasury during the past five years:—

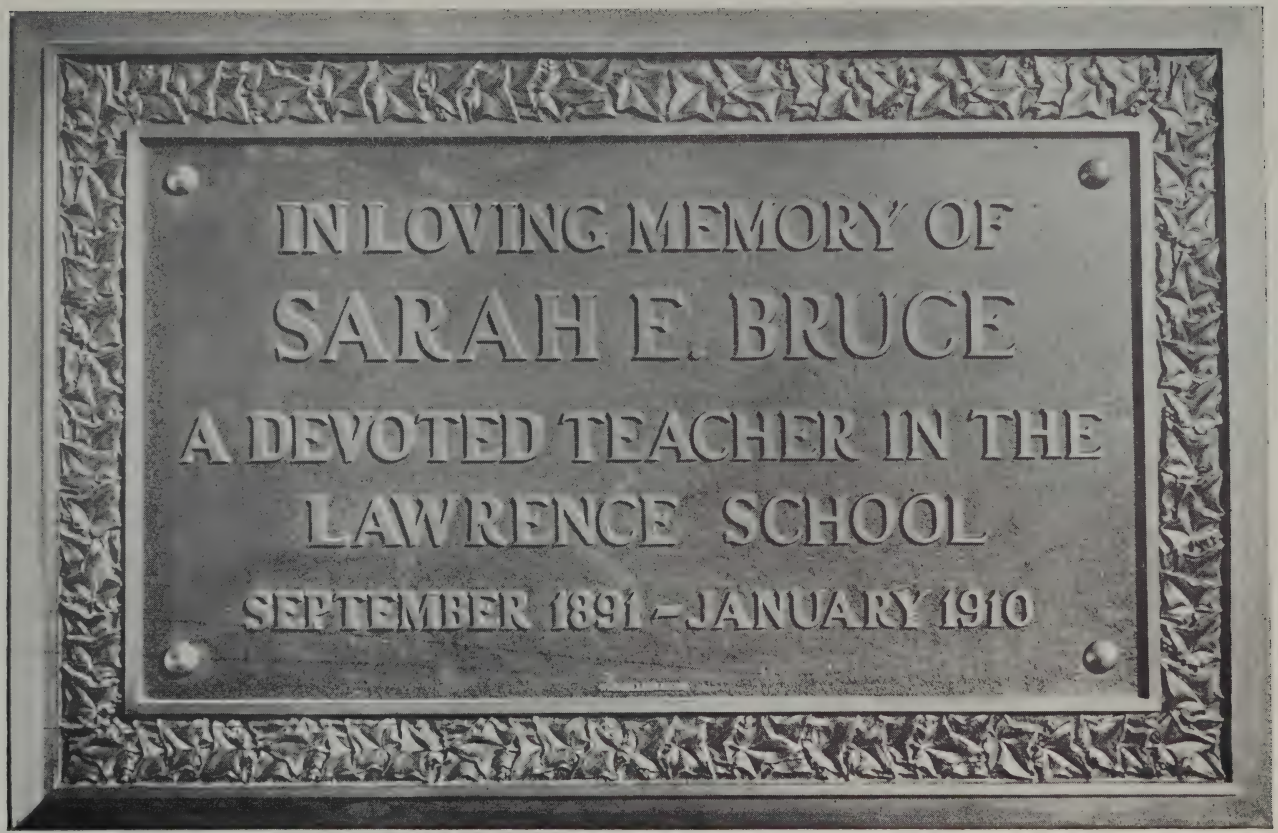

MICHAEL DRISCOLL SCHOOL

WESTBOURNE TERRACE, BROOKLINE, MASS.

SECOND FLOOR PLAN.

(Kilham & Hopkins, Architects, 9 Park St., Boston.)

IN LOVING MEMORY OF
SARAH E. BRUCE
A DEVOTED TEACHER IN THE
LAWRENCE SCHOOL
SEPTEMBER 1891 – JANUARY 1910

Fiscal year ending Dec. 31, 1911	$6,098 55
Dec. 31, 1910	5,678 13
Dec. 31, 1909	5,791 25
Jan. 31, 1909	7,023 88
Jan. 31, 1908	4,283 50

In other words the cost of maintaining the public schools would have been reduced each year by the amount named, if the amount had been so applied instead of being paid into the Treasury.

Superintendent's Report.

For detailed information as to the work and condition of the schools, reference is hereby made to the accompanying report of the Superintendent of Schools.

REPORT OF THE SUPERINTENDENT.

To the School Committee of Brookline:—

The public schools of the town, taken together, may be said to constitute a system of schools—a small one to be sure, but yet a school system. This system possesses many characteristics in common with other systems, but it is a matter of frequent remark and agreement that it also possesses certain strongly marked characteristics which are, in varying degrees, peculiar to itself. Some of these are the result of the fortuitous combination of circumstances while certain others may admit of a different explanation. The earlier pages of the present report are devoted to a brief consideration of several of these special characteristics in the belief that it is well for us to call them to mind with reasonable frequency, to the end that we may appreciate constantly both the characteristics which betoken efficiency and not less those which constitute possible elements of weakness.

Pecuniary Support.

Most of us are unpleasantly familiar with references to Brookline as the richest town in the world. Whether or not this expression is accurate, it is indisputable that the town belongs to that small group of municipalities which are able, without imposing an appreciable burden on property, to provide adequate pecuniary support for the education of their children and youth. The conjunction of a vast amount of taxable property—say one hundred ten millions of dollars—with a small population, say fewer than thirty thousand people—constitutes one of the fortuitous combinations of circumstances just alluded to. This is, of course, a comfortable condition of affairs, wherein the advantages of the situation greatly preponderate, although they may bring with them certain dangerous elements. I suppose there are towns in Massachusetts which

are taxing themselves more heavily for the support of their schools alone than is Brookline for all municipal purposes. So long as this remains true, we need to be on our guard lest we think of ourselves more highly than we ought to think.

As results of this adequate pecuniary support we secure, on the material and less important side, a sufficient number of school buildings, well built, attractive, and kept in thorough repair. We secure a janitor service of unusual efficiency, and maintain notably high standards of sanitation. Aids and appliances for instruction, such as books, supplies, apparatus, illustrative material, are abundantly provided. But adequate appropriations for education carry with them advantages far greater than these. By means of them we are able to make generous provision for the varied subjects of instruction which together make up the curriculum of the modern school. If we liken this curriculum to a family and the subjects of instruction to the children thereof, we may remark that while some of the children are much older than others, all are legitimate. Among the oldest are reading, writing and arithmetic; among those of middle age, geography, history, drawing and music, while among the youngest are the various manual pursuits. The outfits called for by these younger children are more varied and expensive, and their instructors must be persons who have themselves received a special training. A third advantage which results from adequacy of pecuniary support is to be seen in the careful attention paid to the health and physical well being of all pupils. A mere mention of the instructors in physical training, the school physicians, the school nurse, and the specialists who examine teeth, ears, throats, noses, etc., will serve to call to mind one of the most recent and beneficent of school activities. Finally, the most important result flowing from adequacy of pecuniary support is our ability to employ a staff of teachers which is large enough to ensure only classes of moderate size. Even more important than the number of teachers employed is their quality. The town which is under no necessity of employing the inexperienced, but which is able to call into its service only the best of

those who have already proven their quality in the school room enjoys a tremendous advantage. The considerations which alone should govern the selection of teachers, and which, with us, most happily do so, will be mentioned in another connection. Anything like a complete enumeration of the advantages flowing from abundant pecuniary resources would demand much more space than is here available. To the foregoing I may add a reference to the kindergartens which are the foundation of our system, and to the High School, which is its capstone. Our system is somewhat exceptional in that it comprises a sufficient number of kindergartens, adequately supported, to provide for all children of the town. It is not suggested that ours is the only system so doing, but the number of municipalities of which the statement can be made is so small that each may claim to possess in its kindergartens a special and distinguishing characteristic. High Schools are far more common, but differ greatly in the facilities which they afford. Whether such facilities be abundant or meager depends primarily on the amount of money available for the support of the school in question. Our system is again exceptional in that it provides in the field of secondary instruction an array of opportunities and a completeness of equipment which would both be out of the question in a place of small financial resources. The policy pursued with reference to the kindergartens and with reference to the High School is doubtless to the credit of the community, but we should do well to remember the extraordinary and unusual combination of huge valuation and moderate population which make such policy easily possible.

The Single Daily Session.

A second peculiarity which distinguishes the elementary schools of Brookline from nearly all other elementary schools of the country is to be found in our practice of holding but one daily session. This practice seems to have obtained for nearly or quite fifty years, but I am not informed as to the reasons which led originally to its adoption. While a multitude of people know Brookline only as

a place of great wealth, a very large number also know it as a place in which the children are required to attend school but once daily. This second peculiarity of the system cannot be positively classed with that already mentioned as being a point of unquestionable superiority. It would seem, however, that considerable merit must be allowed to a measure which has maintained itself during so long a time. The school reports which have appeared during the years of its continuance contain but few references to it and I have not found in them any claim for it of decided superiority. A few years since, a special committee of the Board made a rather extended and careful investigation of the relative merits of the single and the double daily sessions. In the course of this investigation the opinions of a considerable number of educationists and of a similar number of medical men were obtained. Among both classes there was a well marked preponderance of opinion in favor of the double session. If I remark that locally both plans have many and positive adherents, and that the School Board is of opinion that the difference of merit between the two is not sufficient to justify them in precipitating a discussion which would, for a time at least, disrupt the community, I hope that I state accurately the existing situation. In a catalogue, however brief, of local educational characteristics, this matter of the single daily session can scarcely be omitted. Moreover, there come to us frequent inquiries as to its working and this brief statement will be useful as a convenient means of partial reply to such questions.

The Selection of Teachers.

As already remarked, the Brookline school system is a small one. While it is impossible in the nature of things that all school systems shall be small, those which are, enjoy certain unquestionable advantages. I do not just now enter on an enumeration of such advantages, nor do I overlook the fact that the small system is often administered on very narrow and illiberal lines. It must also be sorrowfully admitted that, be the system large or small, in this matter of the selection of teachers, on which the wel-

fare of children most vitally depends, it too often happens that various pernicious influences are allowed a dangerous and often a fatal prominence. This may and does take place in a multitude of school systems regardless of their size. I do not now speak of graft or downright corruption, but of evils, seemingly less flagrant, in the form of varying insidious influences which are scarcely less mischievous. In its essence, the matter under discussion would seem to be very simple. A school is without a teacher. For securing a teacher a certain sum of money is available. There would seem one question only to be answered. Who is the available man or woman best qualified to teach this school? The only claim worthy of a moment's consideration is the claim of the children of the school—silent and unconscious though it be—that they be given the very best teacher which the resources of the appointing officials can secure. But instead, what often happens is matter of common knowledge. The one vital question is obscured and lost sight of amid questions of personal need, length of residence, social or religious connection, influential friends, political obligations, considerations of expediency, or a blighting belief that the schools are designed primarily to provide for home talent. From all such influences our school system is so notably free as to justify the inclusion of this characteristic in the list of those features which distinguish it. In general Brookline officials, charged with the duty of appointing teachers, have conformed to the dictum of Napoleon: *"Find me the man who suits the place, not the man whom the place would suit."* The number of new teachers needed annually is so small that we escape the necessity of holding formal examinations which suffice mainly to determine purely scholastic qualifications. We can rely upon the more searching and satisfactory test which is afforded by observation of the actual work with pupils being carried on by the person under consideration. It is never difficult to find an abundant number of individuals possessed of sufficient knowledge, but it is a very different matter to find those whose qualities of head and heart measure up fairly well to our ideals. In the quest for such it is a great advantage which

we possess in our ability to pay a little more than what may be spoken of in the rough phraseology of commercial life as the "going rate" for teachers. And this suggests an inquiry not strictly relevant to the topic now under discussion, but of sufficient interest and importance to justify consideration. The inquiry is this: Has Brookline, which is now paying in most grades of service, nearly or quite the highest rates of compensation to be found in New England for example, done all that a truly enlightened and liberal policy dictates? To this inquiry the average man of affairs who prides himself on his practicality, hard headedness, and all round common sense returns an unhesitating affirmative, in the evident belief that the question admits of no other answer, that any one who suggests it as a fair subject for discussion thereby discredits his intelligence and soundness of judgment. And yet there are people, and I venture to include myself in the number, who would return to the inquiry an equally unhesitating negative. To those unacquainted with school affairs, it must seem both surprising and discouraging that I should thus single out our well defined policy in the selection of teachers as being sufficiently unique as to deserve mention as a distinguishing characteristic. Of course, Brookline does not stand alone in this respect, but circumstances compel one to admit that she is one of a pitiful minority. The evil is a deep-seated one in all departments of American public service. As a people we look on public positions everywhere as rewards, or prizes, to be secured by the fortunate individuals who can establish their claims. The position may be that of charwoman, clerk, fireman, alderman, mayor, consul, or ambassador, the same vicious and essentially undemocratic assumption underlies them all. Such being the case, any community which in any department of its public affairs has emancipated itself will do well to realize what it has accomplished and be resolved to exercise that eternal vigilance on the exercise of which all such righteous achievements depend for their permanency.

Freedom and Protection for Teachers.

It may be set down as a well nigh self-evident truth that

the present and prospective well being and efficiency of any system of schools is chiefly dependent on the enjoyment by the teaching staff of a very large measure of freedom. If this be so, it seems surprising that a school system which confers such freedom should be spoken of as distinguished by such policy. And yet, such is the case. Aside from the petty activities of principals and supervisors of a certain type, the freedom which teachers should legitimately enjoy, is chiefly hampered or destroyed by such very necessary things as rules and regulations and courses of study. Now rules and regulations and courses of study differ very widely, being formulated by persons having varying notions of what their scope and function should be.

The former should be as brief, clear and simple as possible, containing the smallest possible number of "thou shalts" and "thou shalt nots." Without question, a certain number of commands and prohibitions must be laid upon teachers, but the number should be cut down to the irreducible minimum. However long and detailed and embracing the code, there may arise in the first hour of the teacher's practice something for which it does not provide. After all is done and said, reliance must be had on the teacher's vigilance, intelligence, firmness, insight, and good sense. For lack in any of these qualities the most elaborate code is a sorry substitute. The responsibilities attaching to the teacher's position are generally recognized, but it is far less generally understood that authority and responsibility should be commensurate. We ought also to realize how the constant exercise of such qualities as I have just named causes teachers to add cubits to their stature, while constant subservience to the minutiae of an elaborate code can have only a dwarfing and benumbing effect.

In this connection it may not be amiss to call attention to the fact that the teacher possesses a status which is exclusively his own. The same thing is true of members of School Boards and of the officials whom they appoint, but the fact is more generally understood in their cases than in that of the teacher. As I understand the matter, the teacher, duly appointed to a position, has conferred upon

him certain rights and responsibilities which are peculiarly his own. For their exercise he alone is responsible. The power which appoints may lay upon him certain commands and prohibitions, but there is a limit beyond which even the appointing power cannot go. It may, of course, revoke the appointment, but so long as it remains in force there is a field, restricted though it be, in which the teacher is supreme. That such is the case we may well rejoice. Quite as necessary as rules and regulations is a course of study. This, if wisely conceived and executed, will be suggestive in much larger degree than it is prescriptive. It will aim most largely at unity of purpose, paying only the necessary amount of attention to uniformity of procedure. It will be designed to secure such measure of similarity between the schools of the system that pupils may move from one to another without much loss or difficulty, and to ensure their meeting as nearly as possible on common ground when they reach the secondary school. Such measure of uniformity is indispensable, beyond it danger lies. Behind both rules and courses of study, however, are the officials whose duty it is to see to their execution. In the old couplet of Pope:—

"For forms of government let fools contest;
Whiche'er is best administered is best,"

is a liberal sprinkling of truth. In education as elsewhere the bureaucratic or red tape tendency is tremendously strong. Multitudes of teachers are prevented from approaching the full measure of their possible usefulness by the demands, clerical and other, which consume their time, sap their energies and divert their attention from the one and only great issue. Reduced to its lowest terms, a school comprises but two essential elements. There must be learners to be taught, guided, controlled and awakened; there must be a man or woman capable of rendering this great service. There are plenty of matters of second or third or tenth rate importance to which he may be compelled to give his attention, instead of devoting himself to his boys and girls. From such misfortunte the children and teachers of Brookline are free and it is not easy to say which class profits to the greater extent. Incidentally it

is worthy of notice that teachers of the highest excellence are glad to become connected with a school system where such freedom prevails and that no ordinary inducements lead them to withdraw from it. In the truly representative school of the present day, a very small place is occupied by pains and penalties. In no other respect does it present a stronger contrast to the school of an earlier time and yet, strange as it may seem, it is a far better ordered school. In spite of the great improvement which has come about, and so long as human nature remains unchanged, now and then, if a teacher does his duty, an offense must be followed by something unpleasant for the offender. A favorite distinction of mine is one between punishment which is deserved and punishment which is needed. Some risk attaches to escape from the former, but immunity from the latter clearly involves a wrong to the offended. Here again it is perfectly clear that a teacher is entitled to hearty and thoroughgoing support in the judicious exercise of his authority. It seems passing strange that a system of schools in which such support may be counted upon by teachers should attain some measure of distinction, and yet such is the case. If a guardian is aggrieved or honestly thinks himself so by the act of a teacher, he possesses the most unquestionable right of appeal and his appeal must be patiently and dispassionately heard. If today the public schools of the town may be described as well ordered schools, such happy condition is to be attributed in no small degree to the general belief, shared by pupils, teachers and the community, that responsible school officials both understand their duty and have courage to perform it.

When Shall Schooling Begin?

In the State of Massachusetts compulsory school attendance begins at the age of seven years. In the early days of colony and state we hear of children whose schooling began at four or even in some cases at three years of age. During the last fifty years or more, however, the common practice has been to admit children to the lowest grade of the primary school at the age of five. Quite recently in a number of places the age of admission has been raised

to six. In some instances this change seems to have been made for the purpose of diminishing the annual school expenditure. This economic aspect of the matter does not at present claim our attention. On educational grounds I think the measure cannot be justified. If a decided majority of little children could spend their time in a somewhat ideal environment, it might be wise to postpone by a year the time at which their formal schooling should begin. If we call to mind the actual conditions amid which most of them will spend their time, conditions which do not easily admit any marked improvement, I cannot escape the conclusion that it is better for them to be in school. If the schools of today were no better suited to the needs of little children than were those of an earlier time, the case might be doubtful. In place of irksome restraint, idleness during a large part of the session, toegther with the absence of nearly everything which could interest and stimulate little children, we now have abundant freedom, frequent exercise, and a succession of varied activities chosen with special reference to their interests and capabilities. In Brookline the decided majority of pupils entering the lowest primary grade are at least six years of age, but most of them have previously spent one or two years in a kindergarten. We need not go back very far in order to reach a time when primary teachers, and very good ones at that, were in grave doubt as to the advantage conferred by a kindergarten training as a preparation for the work of the grades. Meanwhile, kindergartens have greatly improved and, as already indicated, the changes in the first year primary are even more marked. As a result, primary teachers quite generally recognize the great good accomplished by the true kindergarten and would be glad if all children could enjoy the training offered therein before beginning upon such technicalities as reading, writing, spelling, and the study of numbers. I suggest, then, that, when kindergartens are not maintained, it is a mistake to postpone from five to six the time at which schooling shall begin. The adequate maintenance of kindergartens involves heavy expenditures. There must be abundance of room, a small number of pupils per teacher, and liberal equipment. That

the town is pecuniarily able to provide such conditions, and sufficiently enlightened to do so, is likely to save us from the mistake which, as I think, is being made in certain other places and may be cited as a distinguishing feature of the school system.

Length of Elementary School Course.

A given system of schools may sometimes be distinguished from other systems by its refusal to conform to a prevailing tendency. It is a matter of common knowledge that in a large number of American communities, very likely in a decided majority, the work of the elementary schools is divided into eight years or grades. It is also observable that a considerable number of places, hitherto maintaining a nine-year course, have adopted the eight-year plan. Doubtless one would require an intimate knowledge of local conditions if he wished to understand completely the reasons for the change in any given case. I dismiss from present consideration all economic aspects of the question and remark that, as an educational measure, it has not found favor in Brookline. While one need not subscribe to the cynical remark that "majorities are always wrong," he is equally justified in believing that they are not always right. Very likely there are communities, possibly there are many such, where the eight-year course is preferable. As to that, the local school authorities must in each instance be the judge. My contention is that the interests of Brookline children are best served by adherence to the nine-year course. Very briefly stated, the pertinent considerations are as follows: Massachusetts requires all children to attend school up to the age of fourteen and it is clear that nearly all of them will profit greatly by attendance during one or two additional years. Evidence is not lacking that, in many of the industries, those under employment should be at least sixteen years of age. In our very imperfect social order it is doubtless true that many children must become wage earners at an earlier time, but of this a person of humane instincts can only say, "True, 'tis pity; pity 'tis, 'tis true." Nine years are none too many for securing such an education as the largest

possible number should possess. Is it not wise to offer the opportunity to all, even though some, unfortunately, either cannot or will not take advantage of it? Then, too, it may well be remembered that the age at which an adequate elementary course is completed depends quite as much on the flexibility with which it is administered and on the attention given the needs, peculiarities and capabilities of the individual pupil, as it does upon the number of years into which it is divided. Furthermore, if the content and variety of our present course of study be carefully considered, and if, in these particulars, it be compared with the less extended and simpler course of an earlier day, it will, I think, become increasingly evident that we cannot wisely shorten the time devoted to it. I am aware that present day courses of study in such schools as our own often come in for savage criticism because of their extent and their variety. As far as I have engaged in personal discussions with such critics, I do not succeed in having pointed out portions of the course of study which even the critics themselves would agree upon excluding. Another argument often heard from those who favor short elementary courses is worthy of some attention. They point out, and rightly do so, that the secondary school differs in important particulars from the elementary school; that in methods of instruction, matters of discipline, and in a large number of details, to which, perhaps, the word "atmosphere" may be applied, it offers opportunities peculiar to itself. They urge that even though completion of the High School course be impossible, attendance on the school for a shorter time—for two years or even for one year—carries with it elements of distinct value which should be open to the largest possible number of pupils. To all of which I subscribe with the proviso that it is vitally important to send pupils to the secondary school so prepared that they will not only survive the change, but will be reasonably certain to profit by the new opportunities afforded them. In order that they may do so a certain maturity in years, in thought, and in general development is clearly necessary. Suppose we contrast for a moment the conditions which obtain in the ninth grade of one of our grammar schools with the

conditions which will surround the pupil during his first year in the High School. In the first instance he is one of a class of very moderate size, not only taught by an able man and a strong woman, but guided, guarded, and influenced by them in a thousand ways. While he is not cosseted, his teachers remember that he is a child, with a child's limitations, and deal with him accordingly. They understand that one of their tasks is to fit him for school conditions of quite a different sort and all their efforts are intended to develop in him the power and self-reliance which he will need later. It is a delicate and difficult undertaking. He goes to the High School and there, one of a large class, he seems to be nobody's boy. To one person he recites his algebra, to another his history, to a third his Latin. Perchance one or more of these teachers seem more interested in their subjects than in their pupils. Now the real worth of his grammar school training is put to a severe test. Can he stand alone not merely, but can he walk? Having already admitted the value of even a short connection with a secondary school, I must again emphasize the importance of an adequate preliminary training and express once more my conviction that, unless and until there take place in Brookline very great changes in conditions, we shall do well to retain as one of the distinguishing features of our school system, an elementary course of nine grades.

Class Promotions—Annual or Semi-Annual.

A thoughtful regard for the interests of the individual pupil is nothing new. For many years in school systems having any just claim to being considered enlightened such regard has been in varying degrees constant and vigilant. In varied ways attempts have been made to reach the same end, i. e., to ensure the certainty that the demands made both in volume and in degree of difficulty shall be fairly commensurate with a pupil's ability. It was seen long ago that the power to acquire rather than the amount of acquisition should be the chief factor in determining promotion. Quite apart, however, from individual and exceptional promotions, it has long been the custom of the American public

school to leave the majority of pupils in the care of the same teacher for the period of a school year, advancement for such majority taking place at the beginning of the next school year. In recent years, however, a considerable number of school systems have adopted the scheme of semi-annual promotions. In most instances the measure has been limited to the elementary schools, but in some cases two classes per year have been admitted to the High School. I suppose there must be some valid arguments which justify, or are supposed to justify the innovation, or it would not have been made. I mention the matter at this time because, through its adherence to the older plan, our own school system, at least when compared with those where more frequent class promotions are the rule, may claim another distinguishing characteristic. But just as those who depart from long-settled practice ought to be able to adduce sufficient reasons to justify such departure, it is in some lesser degree incumbent upon those who adhere to the old practice to show good reason for such adherence. Stating my own objection to class promotions at short and frequent intervals, I should urge that it sacrifices something of tremendous and paramount importance and that no adequate justification of such sacrifice can be adduced. If we ask ourselves what is the highest good attainable by a pupil from his attendance on any school, the reply must be this: the change in himself which results from sustaining during a sufficient length of time the relation of pupil to teacher; the relation of learner to master. But what is a sufficient length of time? The year I should regard as quite too short, but in most instances it is the longest time which can be secured. It will doubtless be urged that, like the rest of humankind, most teachers are very ordinary individuals and quite unable, whatever the length of time, to exert any lasting influence upon the children in their charge. But whatever the quality of the teacher, partly on his own account, but far more for the sake of the children, he ought to be given a fair chance. Let us look closely into the matter. On the second Monday of September a teacher meets for the first time forty boys and girls. They are absolute strangers to him, as are their fathers and mothers.

No two are alike and he knows nothing of the ability, the disposition, the inherited tendencies, the weaknesses, the habits of any one of them. For the moment I disregard all matters which are merely scholastic. During five days of the week, for five short hours, these boys and girls will be his care. Is it not evident that before he can minister to the needs of each, before he can serve him with any assured hope of success, he must first know him? The remainder of September slips away in a flash, as it were, and with startling rapidity vanish the four succeeding months. At the end of January the boys and girls—*his* boys and girls as he is learning to think of them—will have been in his care fewer than a hundred of these short school days and now (say some) they are to be whisked away and between the beginning of February and the close of June the process is to be repeated. If there be those who claim that this is the way to *educate* children, it must needs be that his conceptions of education differ widely from mine. Were it not for the blighting effects upon the workers, I suppose no objections can be urged to passing a shoe or a watch through the hands of fifty or a hundred different individuals. The finished shoe or the assembled watch will be a marvel of excellence. The making of shoes and watches is one thing, the making of men and women quite another. The school may, perchance, learn some useful lessons from the factory, but they will be lessons of avoidance quite as often as of imitation.

A Possible Extension of Facilities.

At the Board meeting of February 13, 1911, at the suggestion of the Superintendent, the Committee on Text-Books and Courses of Study was directed to consider the expediency of making further provision for the needs of certain pupils who, at the end of the grammar school course, are unable or indisposed to enter the High School.

At the meeting held on April 17th, this committee submitted a preliminary report and was directed to continue its investigations. At the Board meeting of June 12, the committee submitted a final report embodying a recommendation that in September, 1911, there be established in

the Manual Training building a class designed to meet the needs of the pupils referred to by the Superintendent at the February meeting. After an extended discussion of the report of the Committee on Text Books and Courses of Study, it was voted by the Board that upon the definite recommendation of the Superintendent of Schools together with the approval of the Committee on Finance, such class might be established. In the subsequent consideration of the matter certain practical difficulties presented themselves. In making the estimates for the fiscal year 1911 no provision had been made for such an undertaking, an attempt to execute the project seemed likely to involve the displacement of the High School Kindergarten and justifiable differences of opinion developed as to whether the measure should be launched upon a small scale with the idea that it should be left to develop as its intrinsic merit and future circumstances might determine, or whether at the outset something more complete and consequently more expressive should be attempted. It may be remarked that before presenting the matter to the Board in February the superintendent had sought the advice of the principals of the six grammar schools as being, on the whole, the persons most competent to speak as to the need of such an extension of school facilities as is now under discussion. These principals were asked to call to mind the classes graduating from their several schools during the past half dozen years and to indicate the number of pupils whose future needs seemed not to be met by any existing provisions and who would be likely to avail themselves of, and profit by, instruction of a different character. The testimony of the principals indicated that, while the number of such pupils is small, there are a few to whom opportunity of the sort contemplated would be of distinct advantage. In preparing the present report I have scanned the records of the board meetings held during the year and from among the various subjects which have been up for discussion I have selected this as being, on the whole, sufficiently novel and important to deserve mention. In my own opinion, it is not yet clear what course of action is both feasible and advisable. For the immediate future I

see no better course than thus to bring the matter to the attention of the community and for a time to await developments. Meanwhile I may call attention to the fact that the city of Boston has already established several industrial or vocational schools attendance upon which is possible for young persons not residents of Boston. Payment for the instruction of such persons is made originally by the town or city in which they live, one-half of the amounts so paid being subsequently refunded by the Commonwealth. It may possibly be found that the varying needs of the small number of residents of Brookline to whom this form of instruction especially appeals can be met most effectively and most economically through the schools which the larger municipality has established.

High School.

The building which stands on Gorham Avenue was erected in 1896. A fair equipment of general apparatus for the work in science was installed at that time and a small sum of money for running expenses and up-keep has been available annually ever since. The field of elementary science, however, in the department of applied electricity particularly, has enlarged so greatly and the method of presentation has changed so much that the expenditure of a considerable sum of money has become imperative if a high standard of instruction is to be maintained. In 1907 the Central Heating and Lighting Plant was established on Tappan Street. This plant was designed to provide heat, light and power for the group of town buildings near by and also to provide such electrical current as might be required for purposes of instruction at the High School building. Although four years have elapsed since the establishment of this central plant, the design which apparently justified its erection has been only partially carried out. As yet no connection has been established between the power plant and the High School building by which electricity is available. After a prolonged and careful consideration of all attending circumstances, I am confident that the establishment of such connection should not be longer delayed. If such connection is to be made, it

seems the part of wisdom to provide not only for all instruction in the High School building, which calls for an electric current, but also for lighting the building as well. I find that the yearly expenditure for lighting by existing arrangements is in excess of $180 and am assured by competent authorities that a very considerable saving can be effected by taking electric light from our own plant.

I am informed by the head master that a committee upon vocational guidance has been appointed from the teaching staff with instructions to report before the end of the school year upon the following problem: "To what extent is our school at present meeting the needs of the community in directing our pupils to the vocation for which they seem best adapted and getting them into contact with employers, and in what respects can we be of still greater services?" A series of charts is being prepared showing the relative numbers, (1) electing the several courses of study; (2) failing in the various subjects attempted; (3) dropping out during the year without completing courses undertaken. The work done in similar institutions elsewhere is being carefully studied. A course in vocational guidance for counsellors, given at the school committee rooms in Boston is being followed by several members of the committee. A canvass of the entire school, with a view to determining preferences for life work, has been begun and has already yielded some interesting results. A plan to classify the Alumni list by occupation is also under way. Hints and suggestions will, I am sure, be heartily welcomed by the committee referred to above.

To the foregoing, I append the usual statistics.

Whole number belonging, December 22, 1911	546
Whole number enrolled for school year, June, 1911	599
Whole number enrolled for school year, December 22, 1911	579
Average attendance for year ending June, 1910	485
Average attendance for year ending June, 1911	511
Number boys belonging to school, January 1, 1911	278
Number girls belonging to school January 1, 1911	283-561
Number boys belonging to school December 22, 1911	267
Number girls belonging to school December 22, 1911	279-546
Number in each class: I, 95; II, 113; III, 141; IV, 194.	
Number special students	0

Number post-graduates 3
Number pupils enrolled in classical course..... 10
Number pupils enrolled in sub-classical course.....180
Number pupils enrolled in technical course.....139
Number pupils enrolled in general course..... 93
Number pupils enrolled in commercial course.....130

The graduating exercises were held on the evening of June 23, 1911. The graduating class numbered 73, of which 34 were boys and 39 girls. The address was given by the Right Reverend William Lawrence, Bishop of Massachusetts. Of the graduates 31 entered higher institutions, distributed as follows: Harvard, 14; Yale, 2; Cornell, 2; Massachusetts Institute of Technology, 5; Radcliffe, 2; Wellesley, 1; Smith, 2; Boston University, 1; Simmons, 1; Dusseldorf, 1.

The Michael Driscoll School.

Rather more than fifteen years have elapsed since, in the early days of 1897, pupils were installed in the first of the John D. Runkle buildings. During those years the town has erected the Devotion Grammar building (1899), the Pierce Grammar building (1900), the Manual Training building (1902), the Heath building (1904), and has enlarged the Pierce Primary building (1905). From these several building operations the Driscoll is to be distinguished inasmuch as its erection involves the establishment of a new school centre. Although work upon the building was not wholly completed at that date, school was opened on Monday, September 11, 1911, pupils of the kindergarten (transferred from the Runkle) and of grades one to four inclusive being in attendance. At date the membership of the school is as follows: Kindergarten, 29; grade one, 33; grade two, 14; grade three, 27; grade four, 17; a total of one hundred and twenty. For furnishing the building and otherwise equipping it for use, the town appropriated the sum of $6250. This sum does not provide for the purchase of pictures, casts, statuary and other things of beauty which, fortunately, we have come to regard as highly essential. The walls of the Driscoll building are bare and an opportunity is open to any public-spirited

citizen who is disposed to do for it what was done for the William H. Lincoln building by the gentleman whose name it bears and what was done for the Pierce Grammar building by the late Caleb Chase.

Report of Chief Medical Inspector.

I have the honor to submit the following report as Chief Medical Inspector of Schools.

The physicians who served the past year as Medical Inspectors were Doctors B. S. Blanchard, G. H. Francis, H. M. Cutts, C. S. Francis, T. J. Shanahan, J. Kittredge, R. W. Hastings, L. W. Gilbert, A. G. Williams, A. A. Cushing and J. G. Saunders; the substitutes were Doctors C. Floyd, B. E. Sibley and C. J. Kickham; the last two were appointed late in the year. Doctors W. H. Potter and J. B. Brainerd continued in immediate charge of the dental inspection and throat, nose and ear inspection respectively. The dental inspectors were Doctors D. F. Spinney, F. B. Hicks, E. N. Kent and J. J. Riley, and the inspectors in the other department were Doctors J. B. Brainerd, C. R. C. Borden and H. V. McLaughlin. Miss I. M. Lewis efficiently performed the duties of School Nurse.

The objects and nature of the medical inspection of school pupils, established here in 1894, have already been pretty thoroughly described in previous reports. Suffice it to say in regard to the inspections the past year by our general practitioners and specialists that their work has been done with interest and faithfulness. At two meetings of our Medical Inspectors, Hygiene Committee, School Superintendent and School Nurse, held soon after the beginning of the fall term to consider various phases of medical inspection and school hygiene, nearly every one was on hand and took part. A booklet of regulations for the guidance of our medical inspectors has recently been prepared and may be obtained at the office of the School Superintendent. The past year more attention than ever before has been given to providing all school rooms with purer and moister air in cool weather and much has been actually accomplished in this reform. In September a fresh-air room was established in the Parsons School to

which room all the children of its second grade were assigned. In this room the temperature is allowed to fall to 55 degrees and the children are protected against the cold by suitable khaki sleeping bags and are also given a glass of rich milk at one recess. In a neighboring school, the Winthrop, the children of the same grade (the second) have the ordinary room temperature of about 65 degrees and average good ventilation and no extra lunch. We are making records each month to compare as to weight, regularity in attendance and freedom from colds and other ailments. It is too early to report on the comparative results, but it can be said that owing to the intelligent oversight of the teacher no discomfort on the part of the fresh-air room children has been experienced and that the average attendance and gain in weight of the two sets of children is thus far about the same.

The important subject of annual physical examination of all school pupils as required by the State law has received attention the past year and a brief, simple form for recording the results has been prepared. After a physical examination by our medical inspectors it should be our aim to give all puny, anaemic, poorly nourished children an opportunity to do their school work under more nearly open-air conditions, such as in other places, both in Europe and in this country, have abundantly demonstrated their feasibility and usefulness.

During the year the dental inspectors have examined the children of the Devotion School and with about the same results as in previous years. No dental inspections were made in other schools because of the lack of facilities for getting the children's teeth put in repair after examination. Dr. Potter and the writer are convinced from the experience we have now had that it is absolutely necessary, on account of the great importance of saving the four molar teeth that appear about the sixth year and also the four molars that appear at or about the twelfth year, to secure dental repair work for a very large number of needy children whose ages run from five to thirteen years. For these poor children a good dental clinic, either conveniently located just over the line in Boston or, better still, in one of

our own school buildings, as Dr. Potter strongly recommends, should be provided where careful examinations and sufficiently frequent repairs of the children's teeth may be made. Unfortunately, the Forsyth Dental Infirmary, soon to be built in Boston, is exclusively for poor residents of that city. Children should be followed up with semi-annual dental examinations and treatments until thirteen years of age. On this point all dentists seem to agree. In this way only will an efficient and healthy set of teeth be assured, while at the same time one of the chief causes of diseased tonsils and overgrown adenoids will be removed. Effort thus expended will amount to vastly more than when spent on the teeth of older children whose sixth and twelfth year molars are already seriously damaged by decay. Dr. Potter recommends that children too old to be treated under this plan should have such an annual dental examination as the medical inspector or school nurse can make and then be referred to the School Dental Clinic for repairs, if unable to go to a private dentist.

Our experience has shown us that no really satisfactory dental work on so large a scale is likely to continue very long unless the dentists employed receive moderate compensation for their painstaking, time-consuming, professional work just as school medical and dental inspectors and school teachers do for their valuable services. The friends of the Hospital Relief Fund, acted upon in the town meeting of December 29, 1911, to which Article 17 in the warrant related, hope and expect to have the fund provide either in Boston or Brookline for dental treatment as well as for other forms of medical and surgical relief of needy residents of the town found suitable patients for receiving such relief.

The examinations of throats, noses and ears the past year under the immediate direction of Dr. Brainerd, were as follows: All the pupils and many of the teachers in the following schools: The Pierce, Heath, Winthrop, Sewall, Parsons and Devotion. This was the second examination of pupils in these schools. The teachers showed a commendable interest in the work, for it becomes more and more evident to them that the disabilities of the backward child are often due to the absence of good nasal breathing

or of good hearing. Statistics of one school show that of 24 backward children in it there are 22 afflicted with some disease of the throat, nose or ear, the most common of which are enlarged adenoids and diseased tonsils.

No epidemic of dangerous infectious disease visited the town the past year with the exception in the spring of the milk-borne epidemic of septic sore-throat, but a threatened outbreak of scarlet fever in the Cabot School and of diphtheria in the Heath and Parochial Schools, both late in the year, deserve mention. In each instance the watchful care and prompt action of the medical inspectors of the schools cut short what in the old days would probably have developed into an extensive and costly epidemic.

But though scarlet fever and diphtheria are both serious diseases and constantly to be guarded against, we should always remember that the seeds of consumption are very often sown in childhood and also that in childhood proper conditions develop such rugged health that the tissues are enabled to successfully resist the menace of this insidious and still too common disease, the victims of which each year outnumber the sum total of those from all the other preventable diseases. Habits of healthy living must be formed in childhood and these will go far toward protecting one in later life.

Education of the child in the principles of personal hygiene, in other words health instruction, is one of the subjects we could well give more attention to. Education as we now understand it must be founded on the harmonious exercise of body, emotions and will, as well as of the intellect; the whole environment is the agent of education. That is why we are extending the meaning of the word indefinitely. Fresh air, temperance, cleanliness, quiet sleep, good food, some useful daily work in doors and out, manual training, the cultivation of the art instincts, abundance of active games and play, singing, folk dancing, swimming and other forms of exercise, plenty of real recreation, wholesome home relationship—these are a few of the things which we now recognize as essential parts of the rational education of every boy and girl and which we are seeking to obtain for all.

H. Lincoln Chase, M.D.,
Chief Medical Inspector.

EDWARD MORAN.

On January 16, 1904 occurred the death of Lawrence Moran, who had served faithfully as janitor of the Heath School for nearly thirty-two years. It is something of a coincidence that the man next to be called from our staff of janitors by a like event should bear the same family name. Edward Moran was employed at the Pierce School during twenty years. His death occurred on October 30, 1911. His worth as a man and his faithfulness as a public servant were recognized by the Board of School Committee in the adoption of the following minute:—

The School Committee of Brookline desire to place on record an expression of the sincere regret with which they learn of the death of Edward Moran, for more than twenty years janitor of the Pierce Grammar School. Not only did Mr. Moran perform every duty with absolute fidelity, but he won the confidence and good will of all with whom he was associated. The pupils and teachers of the Pierce Grammar School will not soon forget the kindly man to whose faithfulness they were all indebted, nor will the school authorities fail to remember an employee of such exemplary fidelity.

The School Committee tender to the family of Mr. Moran their sympathy and direct that this minute be entered on the records of the Board.

These men occupied humble positions, but they were fine types of a class of the world's workers whose merit is too little appreciated. The traveler of today, having occasion to take a night's journey, enters a luxuriously appointed car and while he speeds across the country during the hours of darkness, practically as comfortable as in his home, gives little thought to those on whose intelligence, never ceasing vigilance and absolute faithfulness to duty his life depends. In the cab of the mighty engine, in the signal towers, at many a lonely crossing, at dangerous points on the line, while the traveler lies snugly ensconsed in his berth, a company of trusty men, grimy of hand and perhaps uncouth in speech, hold his life in the hollow of their hands. Very slowly has the world crawled toward some slight appreciation of the service rendered by its obscure workers. With increased enlightenment, however, comes a truer sense of real values and tardy appreciation of the fact that the flannel shirt and corduroy breeches are quite as likely to encase a man as are broadcloth and fine linen.

1907-08	4,274
1908-09	4,268
1909-10	4,191
1910-11	4,298

Membership.

[In the public schools of Massachusetts, membership is terminated by death, removal to another place, withdrawal with no intention of returning, or by ten consecutive days of absence.]

School year 1906-07	3,755	School year 1909-10	3,690
School year 1907-08	3,749	School year 1910-11	3,744
School year 1908-09	3,770		

Analysis of Membership for 1910-11.

Kindergartens	324	an increase of 2
Primary grades (I-III)	1,045	an increase of 25
Grammar grades (IV-IX)	1,833	a decrease of 1
High School	542	an increase of 28
	3,744	Net increase 54

Average Daily Attendance.

School year 1906-07	3,464	School year 1909-10	3,408
School year 1907-08	3,459	School year 1910-11	3,471
School year 1908-09	3,494		

Analysis of Daily Average Attendance for 1910-11.

Kindergartens	263	a decrease of 1
Primary grades	957	an increase of 31
Grammar grades	1,740	an increase of 10
High School	511	an increase of 23
	3,471	Net increase 63

Distribution of Pupils, School Year 1910-11.

Kindergartens	449	
Primary grades	1,219	an increase of 37
Grammar grades	2,031	an increase of 26
High School	599	an increase of 44
	4,298	Net increase 107

The figures just cited show the whole number of pupils registered during the school year 1910 and 1911 and are in excess of the number actually in attendance at any one time. Following the practice in recent years, I append a statement of enrolment at end of the second month for each of five years past.

For month ending Oct. 25, 1907.....3,937
For month ending Oct. 30, 1908.....3,978
For month ending Oct. 29, 1909.....3,911
For month ending Oct. 28, 1910.....4,007
For month ending Oct. 27, 1911.....3,928

The month last named comes within the current school year, and in order that the present report may be nearly as possible up-to-date in information which it affords, I print next tables showing the distribution of these 3928 pupils, first among schools and then among grades.

SCHOOL YEAR 1911-12.—SECOND MONTH ENDING OCT. 27, 1911.

Enrollment by Schools.

	Boys.	Girls.	Total.
High	276	297	573
Cabot	58	59	117
Devotion	223	208	431
Driscoll	53	55	108

Sewall	35	82		
Winthrop	26	78		
Total, 3,928	335	1,086	1,934	573

Enrolment by Grades for Month Ending October 28, 1910.

GRADE.	CABOT.	DEVOTION.	HEATH.	LAWRENCE.	LINCOLN.	LONGWOOD.	NEWTON ST.	PARSONS.	PIERCE.	RUNKLE.	SEWALL.	WINTHROP.
I.	29	53	42		38	29	12	39	40 41	45	30	31
II.	33	36	37		27	29		28	42 39	47	31	23
III.	31	30	33		26	23			32 35	51	29	46
IV.		31	41	34	29 28 32				36 33	51		
V.		41 34	37	43	39 38				40 47	52		
VI.		41	41	38	45 43				43 40	44		
VII.		42	33	50	37 34				46 46	44		
VIII.		40	29	30	44 45				44 46	28		
IX.		30	29	29	32 33				32 33	40		

A table similar to the above appeared in preceding reports. Its purpose is to give prominence to an advantage enjoyed by the local public, because of the small number of pupils assigned to each teacher. We have here figures relating to eighty-three primary and grammar rooms and showing the enrolment in each at the end of the second month of the school year, when attendance is at or very near the maximum. In eleven instances the enrolment exceeds forty-five. The classes thus exceeding the number prescribed by the Board were distributed as follows: Devotion, grade I; Lawrence, grade VII; Pierce, grade V, grade VII, grade VIII; Runkle, grades II, III, IV, V; Winthrop, grade III.

Congestion at the Runkle was relieved by the opening of the Driscoll School in September, 1911. At the Devotion and the Pierce an additional class was organized at the beginning of the current school year and I am glad to say that at the present time (January, 1912) conditions are distinctly better than in October, 1910.

Evening Schools.

For the winter of 1910-1911, the term of evening instruction extended from Monday, October 17, 1910, to Friday, March 31st, 1911. Two of the classes met on 66 nights, and two on 42 nights.

LINCOLN BUILDING. CLASSES FOR BOYS AND MEN.

1910-11.

English branches .....66 nights, average attendance 17
Carpentry .....43 nights, average attendance 10

PIERCE BUILDING. CLASSES FOR GIRLS AND WOMEN.

English branches .....66 nights, average attendance 49
Stenography and typewriting*....66 nights, average attendance 14

For the present season, between Monday, October 16, 1911, and Friday, December 22, 1911, twenty-nine evenings were available, and the following statement shows how they were utilized:

1911.

LINCOLN BUILDING. CLASSES FOR BOYS AND MEN.

English branches .....29 nights, average attendance 16
Carpentry .....29 nights, average attendance 14

PIERCE BUILDING. CLASSES FOR GIRLS AND WOMEN.

English branches .....29 nights, average attendance 72
Stenography and typewriting*....29 nights, average attendance 25

Age Conditions in Grade IX.

The aggregate membership of the several ninth grades is at present 263. As in preceding years, a study has been made of the ages of these pupils at the time of the conclusion of their grammar school course, in this instance the close of June, 1912. Ten such tables have already appeared and the table now submitted may be compared readily with those which have preceded it.

	Whole number belonging to Grade IX.	Between 11 and 12.	Between 12 and 13.	Between 13 and 14	Between 14 and 15.	Between 15 and 16.	Between 16 and 17.	Between 17 and 18.	Between 18 and 19.
School A	34	0	0	3	12	14	3	1	1
B	23	0	0	1	10	9	3	0	0
C	24	0	0	1	10	7	5	1	0

E	74	0	1	24	32	9	7	1	0
F	36	1	1	3	16	7	6	2	0
	263	1 or ½%	2 or 1%	50 or 19%	107 or 40%	66 or 25%	31 or 12%	5 or 2%	1 or ½%

Vacation Schools and School Gardens.

During the summer of 1911, vacation schools were maintained during the six weeks extending from Wednesday, July 5, to Tuesday, August 15. The older children attended the Lincoln Building while the younger were accommodated at the Sewall and Winthrop. The numbers in attendance are shown by the following table:

VACATION SCHOOL ATTENDANCE, 1911.
Lincoln Building.

Week	Monday	Tuesday	Wednesday	Thursday	Friday
1st			109	140	147
2d	165	130	137	119	143

Between April 24 and September 29, Miss Isabelle S. Cragin served as School Garden Director, having charge of the Lincoln, Sewall and Winthrop gardens. As in previous years, the gardens connected with the Heath, Lawrence, Pierce and Runkle were conducted by the regular teaching staff.

Stability of Personnel of Teaching Staff.

In several recent reports I have constituted a comparison between the names appearing on the last payroll of the school year and the names appearing on the first payroll of the year. Doing this once more, I find on the payroll for September, 1910, one hundred fifty-eight names, while upon the roll for June, 1911, one hundred fifty-six of the same names appear. A similar comparison made one year

ago showed the disappearance of five names, while for the second preceding year the names disappearing numbered four. It occurs to me, however, that while such facts indicate a high degree of stability during any one school year, they do not disclose the whole truth. A greater number of withdrawals is likely to occur at the expiration of a school year or during the summer vacation than at any other time. However numerous such withdrawals chanced to be, they would not be shown in the comparisons just referred to. At the end of the school year 1910-1911 seven persons retired from the service of the Board. One of the number was Miss Irene Weir, Director of Drawing, whose connection with the schools dates from September, 1893. During the eighteen years which elapsed between that date and the time of her resignation, Miss Weir rendered service of very notable character. The high standards of excellence which have been reached and maintained, in both the elementary schools and the High School, are to be credited chiefly to her exceptional skill, ability and enthusiasm. As yet, circumstances have not proven favorable to the appointment of a worthy successor to Miss Weir, but arrangements of a temporary nature have been made which bid fair to prove satisfactory for the current year.

By Way of Conclusion.

In a volume of interesting reminiscences recently written by President Angell of Michigan University, I find the following paragraphs which embody a useful lesson for us:

"In considering the relation of the University to the State, I have always had two great ends in view.

"First—I have endeavored to induce every citizen to regard himself as a stockholder in the Institution, who had a real interest in helping make it of the greatest service to his children and those of his neighbors.

"Secondly—I have sought to make all the schools and teachers in the State understand that they and the University are parts of one united system and that therefore the young pupil in the most secluded school house in the State should be encouraged to see that the path was open from his home up and through the University."

Taking a suggestion from Dr. Angell's first paragraph,

it is desirable that every citizen of the town regard himself as a stockholder in our system of schools and as having a real interest in helping to make it of the greatest service to his children and those of his neighbor. Dr. Angell does not say, however, that he has tried to give to every citizen of Michigan a part in the actual management of the University. No more is it desirable that every citizen have a direct part in the management of a local school system. At the beginning of the present report I alluded to possible elements of weakness in a small school system like our own. The stockholder is, of course, vitally interested in the success of the enterprise in which he owns stock, but he realizes that he must, in general, leave the management of the enterprise to the board of directors. Likewise, the citizen is vitally interested in the success of the schools of his community, but if he is a wise man, he knows that in general he must rely on the responsible officials who roughly correspond to the stockholders' board of directors. While such manifestations are not limited to lesser communities, the agitations occurring therein over school issues are likely to appear of greater dimensions than they really possess and may be correspondingly more harmful. A community of thirty thousand, for example, may work itself into a state of high fever over a matter which would be lost sight of in a place of thirty hundred thousand. While it is to be hoped that we are all good Democrats, in the broad acceptation of the word, we need to remember constantly that one of the weaknesses incident to democracy is clearly to be seen in the difficulty of securing the efficient performance of executive functions under a democratic system of government. The efficiency of executives is often hampered by a clamor which, superficially absurd, would seem to represent the entire community. There may be a time when a whole community is stirred and for adequate reason, but more often the sort of agitation now under discussion—the sort of which is characterized by much heat and little light, reminds one of that passage so well known to lovers of English letters:—

"Because half a dozen grasshoppers under a fern make the field ring with their importunate chink, whilst thou-

sands of great cattle, repose beneath the shadow of the British oak, crew the cud and are silent, pray do not imagine that those who make the noise are the only inhabitants of the field—that of course, they are many in number—or that, after all, they are other than the little, shrivelled, meagre, hopping, though loud and troublesome insects of the hour."

Dr. Angell's second paragraph may serve to remind us that, with kindergartens as foundation, and high school as capstone, we have a system which in its entirety should appeal to every child in the town. The cases will be few in number where, with the right spirit on part of both the child and parent, young persons are cut off from full participation in its benefits.

In preceding reports I have emphasized the fact that such small measure of real worth as our system of schools possesses is to be very largely accounted for by the wisdom shown by the community in the selection of its school committee and by the generous measure of confidence and support which it has constantly extended to such committee. Bearing in mind the fact that members of Massachusetts school boards are primarily State officials whose duties and responsibilities are determined by statutes enacted by the Legislature, it is also true that they are called upon to act in the capacity of representatives of the electorate which has chosen them for office. Just now we live in a time when the whole principle of representative government is under fire. Just now, as perhaps never before in our history, a true understanding of the relations between the represented and the representative is imperatively called for. Believing, as I do, that Burke has said the last word in regard to this matter, and believing that the continued well being of the schools depends on the community's adherence to his views, I can scarcely do better than close this report by the following extract from his address to the electors of Bristol at the close of the poll:—

"To deliver an opinion is the right of all men; that of constituents is a weighty and respectable opinion, which a representative ought always to rejoice to hear; and which

he ought always most seriously to consider. But *authoritative* instructions; *mandates* issued, which the member is bound blindly and implicitly to obey, to vote, and to argue for, though contrary to the clearest conviction of his judgment and conscience—these are things utterly unknown to the laws of this land, and which arise from a fundamental mistake of the whole order and tenor of our constitution.

Parliament is not a congress of ambassadors from different and hostile interests, which interests each must maintain, as an agent and advocate, against other agents and advocates; but Parliament is a *deliberative* assembly of *one* nation, with *one* interest, that of the whole; where, not local purposes, not local prejudices, ought to guide, but the general good, resulting from the general reason of the whole. You choose a member indeed; but when you have chosen him, he is not a member of Bristol, but he is a member of *Parliament*. If the local constituent should have an interest, or should form a hasty opinion, evidently opposite to the real good of the rest of the community, the member from that place ought to be as far as any other from any endeavor to give it effect. I beg pardon for saying so much on this subject. I have been unwillingly drawn into it; but I shall ever use a respectful frankness of communication with you. Your faithful friend, your devoted servant, I shall be to the end of my life; a flatterer you do not wish for.

Certainly, gentlemen, it ought to be the happiness and glory of a representative to live in the strictest union, the closest correspondence, and the most unreserved communication with his constituents. Their wishes ought to have great weight with him; their opinion, high respect; their business, unremitted attention. It is his duty to sacrifice his repose, his pleasures, his satisfactions, to theirs; and above all, ever and in all cases, to prefer their interest to his own. But his unbiassed opinion, his mature judgment, his enlightened conscience, he ought not to sacrifice to you, to any man, or to any set of men living. These he does not derive from your pleasure; no, nor from the law and the constitution. They are a trust from Providence,

for the abuse of which he is deeply answerable. Your representative owes you, not his industry only, but his judgment; and he betrays instead of serving you, if he sacrifices it to your opinion.

My worthy colleague says his will ought to be subservient to yours. If that be all, the thing is innocent. If government were a matter of will upon any side, yours, without question, ought to be superior. But government and legislation are matters of reason and judgment, and not of inclination; and what sort of reason is that in which the determination precedes the discussion; in which one set of men deliberate, and another decide; and where those who form the conclusion are perhaps three hundred miles distant from those who hear the arguments?

GEORGE I. ALDRICH,

Superintendent of Schools.

BROOKLINE, MASS, JANUARY 8, 1912.

REPORT OF TRUANT OFFICER.

January 8, 1912.

Mr. George I. Aldrich, Superintendent of Schools:—

Dear Sir:—I herewith submit my annual report for the year ending December 31st, 1911, as follows:

Number of cases of absence investigated	950
Number of transfer cards investigated	97
Number found to be truants	37
Number of cases of truancy	94
Number sent to Training School	1
Number placed on probation	2
Number released from Training School	2
Number now at Training School	4
Cost of support of truants	$311 47
Number of certificates of literacy issued	110
Number of employment certificates issued	48

The workshops and mercantile establishments have been visited and I found several violations of the employment laws, and the same have been corrected.

In addition to my duties as Truant Officer I have investigated cases of contagious disease as follows:—

Chicken pox	10
Diphtheria	33
Measles	224
Scarlet fever	35
Typhoid fever	11
Tuberculosis	23
Whooping cough	44

Respectfully submitted,

JAMES G. THOMPSON,

Truant Officer.

$575,000 00

Total Cost, $7,252.99.

For the Purchase of Land on Westbourne Terrace and Bartlett Crescent for School Purposes..... $20,000 00

At the adjourned meeting March 16, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow twenty thousand dollars ($20,000.00) appropriated at this town meeting, to purchase land on Westbourne terrace and Bartlett Crescent for school purposes. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in twenty years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

February 28, 1911, $19,000.00 was borrowed of the Provident Institution for Savings, Boston, on nineteen (19) Bonds of the denomination of $1,000.00 each, numbered W T 11 to W T 29 inclusive, payable one each, January 1, 1912, to January 1, 1930, and bearing 3 60/100% per annum interest, payable semi-annually.

For Paving of Beacon and Harvard Streets at Coolidge Corner $30,000 00

At the adjourned meeting March 16, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow thirty thousand dollars ($30,000.00) appropriated at this town meeting, for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated Janaury 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

Nothing has been borrowed under this vote.

The entire appropriation has been expended.

For a Primary School Building on Westbourne Terrace $75,000 00

At the special town meeting June 1, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow seventy-five thousand dollars ($75,000.00) appropriated at this town meeting for the erection of an eight-room primary schoo1

building on land owned by the town on Westbourne terrace. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually, at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in fifteen years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

June 16, 1911, $55,000.00 was borrowed of the Provident Institution for Savings, Boston, on eleven (11) Bonds of the denomination of $5,000.00 each, numbered S W T 13 to S W T 23 inclusive, payable one each, January 1, 1913, to January 1, 1923, and bearing 3½% per annum, interest payable semi-annually.

For Purchasing Land for School Purposes on Westbourne Terrace $18,000 00

At the special town meeting, June 1, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow eighteen thousand dollars ($18,000.00) appropriated at this town meeting to purchase a lot of land for school purposes, between Westbourne terrace, a private way, and land now owned by the town. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually, at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in nine years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

February 28, 1911, $16,000.00 was borrowed of the Provident Institution for Savings, Boston, on eight (8) Bonds of the denomination of $2,000.00 each, numbered W T 2 to W T 9 inclusive, payable one each, January 1, 1912, to January 1, 1919, and bearing 3 60/100% per annum interest, payable semi-annually.

For the Cost of Construction of Highways and for Land Damages in Connection Therewith $55,000 00

At the special town meeting June 1, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow fifty-five thousand dollars ($55,000.00) appropriated at this town meeting to pay for the cost of construction of the highways laid out, altered or widened by the Selectmen and accepted by the town at this town meeting and for land damages in connection therewith. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

October 10, 1911, $33,000.00 was borrowed of the Provident Institution for Savings, Boston, on six (6) Bonds of the denomination of $5,500.00 each, numbered C H 3—C H 8 inclusive, payable one each, January 1, 1913, to January 1, 1918, and bearing 3½% per annum interest, payable semi-annually.

December 1, 1911, $11,000.00 was borrowed of the Provident Institution for Savings, Boston, on two (2) Bonds of the denomination of $5,500.00 each, numbered C H 9 and C H 10, payable one each, January 1, 1919, and January 1, 1920, and bearing 3½% per annum interest, payable semi-annually.

For the Extension of the Filtering Galleries and Driven-Well System of the Water Works..... $15,000 00

At the adjourned town meeting, March 15, 1911, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow fifteen thousand dollars ($15,000.00) appropriated at this town meeting, for the extension of the filtering galleries and driven-well system of the water works. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1911, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

Nothing has been borrowed under this vote.

There has been expended of the appropriation $13,831.95.

For Purchasing Land in the rear of the Town Hall, abutting on Pierce, Prospect and Harvard streets $40,000 00

At the special town meeting, December 29, 1911, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow forty thousand dollars ($40,000.00), appropriated at this meeting for the purchase of the lot of land with the buildings thereon situated in the rear of the Town Hall, bounded by Pierce street, Prospect street, Harvard street, and land now or formerly of Wason, containing approximately 34,968 square feet. Bonds or notes shall be issued therefor, to be signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1912, and shall be made payable in such annual proportionate payments as shall extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank, to be designated by the Selectmen.

Nothing has been borrowed and nothing expended.

(E. & O. E.)
BROOKLINE, January 16, 1912.

GEORGE H. WORTHLEY,
Treasurer and Collector.

REPORT OF THE AUDITORS.

For the financial year ending December 31, 1911, the undersigned have examined the accounts of George H. Worthley, Treasurer of the Town of Brookline, of the Warren Tree Fund, of the Brookline Cemetery, of the Walnut Hills Cemetery, and of the William H. Lincoln School Fund, and report that they have been found correct with proper vouchers and warrants, together with the investment securities.

They have also examined his accounts as Collector and find them as reported to the Town.

PAUL M. HUBBARD,
FRANK W. MULDOWNEY,
CHARLES F. READ,

Auditors.

January 16, 1912.

REPORT OF THE TOWN ACCOUNTANT

January 16, 1912.

To the Honorable Board of Selectmen:—

Gentlemen,—In compliance with Article X, Section 6, of the Town By-Laws, I herewith submit the fourteenth annual report of the Accounting Department.

During the town's financial year ending December 31, 1911, I have examined the accounts of George H. Worthley, the Treasurer, at the close of each month's business, and have found them to be correct, with the balances, casn on hand and in bank, as entered in his books. I have examined and checked all the notes and bonds paid during the year and found them properly cancelled.

I have also verified his accounts as Collector,—the taxes collected and uncollected, and in connection with the latter, those abated by the Asssors. The Receipts from Water Rates I have compared with the books of the Water Department and find everything as recorded on the Collector's books. I have compared the Sewer Assessments reported collected with the original entries made by the Town Engineer, and find the amounts to be correct.

His accounts as Treasurer of the Trustees of the Walnut Hills and Brookline Cemeteries, of the Wm. H. Lincoln School Fund, and of the Warren Tree Fund have been examined, and all are found to be as reported by him.

The accounts of Henry W. Lamb, Treasurer of the Trustees of the Public Library, were examined at the close of the year and found to be correct, with all the securities registered in the name of the Trustees of the Public Library.

I have examined the accounts of the Librarian of the Public Library and of the Superintendent of the Gymnasium and Baths and find them to agree with the books of the Treasurer.

A detailed statement of the receipts and their sources and expenditures and the purposes therefor follows. There is also included a statement of the complete cost of the Public Library and the Michael Driscoll School Building, both of which were completed during the year. The condition of the various trust funds with sources of income and purposes for which expenditures have been made is also set forth. A statement covering the estimated value of town property, and a classified statement of the maturing funded debt and interest thereon, is also appended.

It has been the policy of this department to conform as closely as possible to existing methods of accounting and the existing classifications in order that the data furnished from year to year shall supply information which shall have value in compiling comparative statements. Furthermore, I have wished to gain a fair knowledge of the accounts themselves before recommending or inaugurating any changes. I believe that modifications

of existing methods can be safely undertaken which will work for simplification and increased accuracy in accounting in a few instances, and shall hope to put such changes into effect as soon as the departments concerned reach a satisfactory agreement with me regarding the changes suggested.

Respectfully submitted,

ALBERT P. BRIGGS,
Town Accountant.

TREASURY RECEIPTS.

Total receipts as shown by the Treasurer's books for the fiscal year ending December 31, 1911		$2,510,176 10
1. Temporary Loans.		
Amounts borrowed in anticipation of taxes and repaid during the year. (No account of the payment of this amount will be made in the expenditures.)		$575,000 00
2. Reimbursements.

TOWN OF BROOKLINE ASSESSORS' DEPARTMENT

ANNUAL REPORT

OF THE

BOARD OF ASSESSORS

OF

BROOKLINE

MASSACHUSETTS

FOR THE YEAR 1911

BOSTON
E. L. GRIMES COMPANY, PRINTERS, 122 PEARL STREET
1912

REPORT OF THE ASSESSORS.

The Assessors of the Town of Brookline hereby submit their report for the year 1911.

The members of the Board were the same as in 1910, viz.: Charles H. Stearns, Charles A. Bowditch and Daniel J. Daley.

The board organized with the choice of Charles H. Stearns as chairman and David W. Creelman was appointed chief clerk.

The same division of districts was made as in the preceding year.

The Assessors are glad to report a slight decrease in the tax rate, from $12.50 to $12.20, on the thousand; this was made possible by the fact that the amount to be raised for town purposes was less by $19,198.33 than that of last year; the County tax was $6,214.91 less, and the Metropolitan Park tax was $8,149.54 less, though two new items of State tax are made this year, viz.: the Charles River basin tax $28,327.37 and the Smoke Nuisance tax $322.57.

There was also a gain in real estate valuations of about $2,000,000, due almost entirely to new buildings; there was a loss in personal valuations of $256,100. There has been a gain of 171 polls.

An appropriation of $10,400 is recommended for the expenses of this office for the next fiscal year.

Respectfully,

CHARLES H. STEARNS,
CHARLES A. BOWDITCH,
DANIEL J. DALEY.

CONDENSED STATEMENT OF THE TAXATION OF BROOKLINE FOR THE YEAR 1911.
